

The City of Newport Bicycle and Pedestrian Advisory Committee will hold a meeting on Tuesday, October 13, 2015, at 5:30 P.M., in Conference Room B, in the Newport City Hall, 169 SW Coast Highway, Newport, Oregon 97365. A copy of the meeting agenda follows.

The meeting location is accessible to persons with disabilities. A request for an interpreter for the hearing impaired, or for other accommodations for persons with disabilities, should be made at least 48 hours in advance of the meeting to Peggy Hawker, City Recorder 541.574.0613.

The Bicycle and Pedestrian Advisory Committee reserves the right to add or delete items as needed, change the order of the agenda, and discuss any other business deemed necessary at the time of the meeting.

CITY OF NEWPORT
BICYCLE AND PEDESTRIAN ADVISORY COMMITTEE MEETING
AGENDA

Tuesday, October 13, 2015
5:30 P.M. - Conference Room B - City Hall

- I. Call to Order
- II. Roll Call/Introductions
- III. Additions to Agenda (if any)
- IV. Public Comment
- V. Approval of Minutes - August 11, 2015
- VI. Continued Review Table 3-3 of the Pedestrian and Bicycle Plan to Identify Completed Projects - Begin with Page 3-32 (15 Minutes)
- VII. Update on Priority Projects 2014/2015 Fiscal Year

- A. Fund the Following Three Priority Projects
 - 1. Trail - NW Nye Street to Oceanview Drive
 - 2. Trail Connecting Agate Beach Wayside Trail to Sidewalk on Highway 101 West Side
 - 3. Sidewalks from the Bayfront to the Hospital
 - B. Continue to Fund the Annual Installation of Sharrows
- VIII. Update on Priority Projects 2015/2016 Fiscal Year
- A. Update the Pedestrian and Bicycle Plan to Support the Long-Term Transportation Master Plan with the Goal of Making Newport a Bike/Pedestrian-Friendly City of Newport
 - B. Work with the City's Grant Consultant to Obtain Grants through Oregon Connect, Oregon Bicycle/Pedestrian Advisory Committee, and Other Sources
 - C. Procedural Review to Allow the City's Bicycle/Pedestrian Advisory Committee to Participate in 30% Review of Projects
 - D. Continue to Fund the Annual Installation of Sharrows
- IX. Review Current Staff Reports from the Community Development and Public Works Departments - Updates on Previous Resolutions and Recent Public Open Houses for South Beach Sidewalk Projects
- X. Scenic Bike Routes - Discussion Regarding the Project Relative to Newport
- XI. Discuss an October 2015 Date for a Joint Meeting with the Wayfinding Committee by Identifying Topics of Mutual Interest
- XII. Report on Bicycle and/or Pedestrian Accidents during September
- XIII. Committee Comments
- XIV. Develop Next Agenda
- XV. Confirm Next Meeting Date - November 10, 2015
- XVI. Adjournment

Bike/Ped minutes, Aug 11:

Present: Maria, Susan, Geri, Maryann, Amanda, Mark S

Agenda item added: Mark suggested a discussion of the new crosswalks – added as item VII

Minutes: Approved as written

Table from Bike/Ped Plan was reviewed – Susan Hogg has notes

A motion was proposed by Amanda, seconded by Susan, approved – to remind the City that the Bike/Ped plan should be consulted and followed on new projects, and advocated for with ODOT, as in the South Beach Highway 101 project, as the Plan calls for bike lanes from the bridge to the South Beach Park entrance.

Review priority projects:

Mark updated the committee. An action item is to develop the sharrows plan, outlining all the sharrows that have been and still need to be installed, and estimating a schedule for replacing at the current rate of annual funding.

Mark will check on the status of committee's request to work with the City's grant consultant.

Mark suggested we wait for the City Manager's comprehensive review of committees re: the 30% review of projects.

Scenic Bike Routes: Would like to get information in advance to review at a future committee meeting.

Joint meeting with wayfinding- aim for October for a Thursday daytime meeting with them

Next meeting, Sept 8

Oregon Scenic Bikeway Committee Accepting Applications for New Routes

The Oregon Parks and Recreation Department's Scenic Bikeway Program will accept applications in the spring of 2015 for new bikeway designations.

Designated Scenic Bikeways are selected from locally proposed routes and represent the "best of the best" road bicycle riding in Oregon. Currently, there are 12 designated bikeways totaling nearly 800 miles. Oregon is the only state with an official Scenic Bikeway program.

Completed applications consist of a proposed scenic route, a local proponent group, and letters of support from all governing bodies of road jurisdictions. The applications must be submitted from March 17-31, 2015 to the Oregon Parks and Recreation Department.

Bikeway proponent groups consist of local volunteers, cyclists and tourism professionals. If the proposed route submitted via that application is officially recommended for designation by the Oregon Bikeway Committee, the proponent group must then complete a comprehensive Bikeway Plan including a series of goals, sign locations, promotions and future engagement.

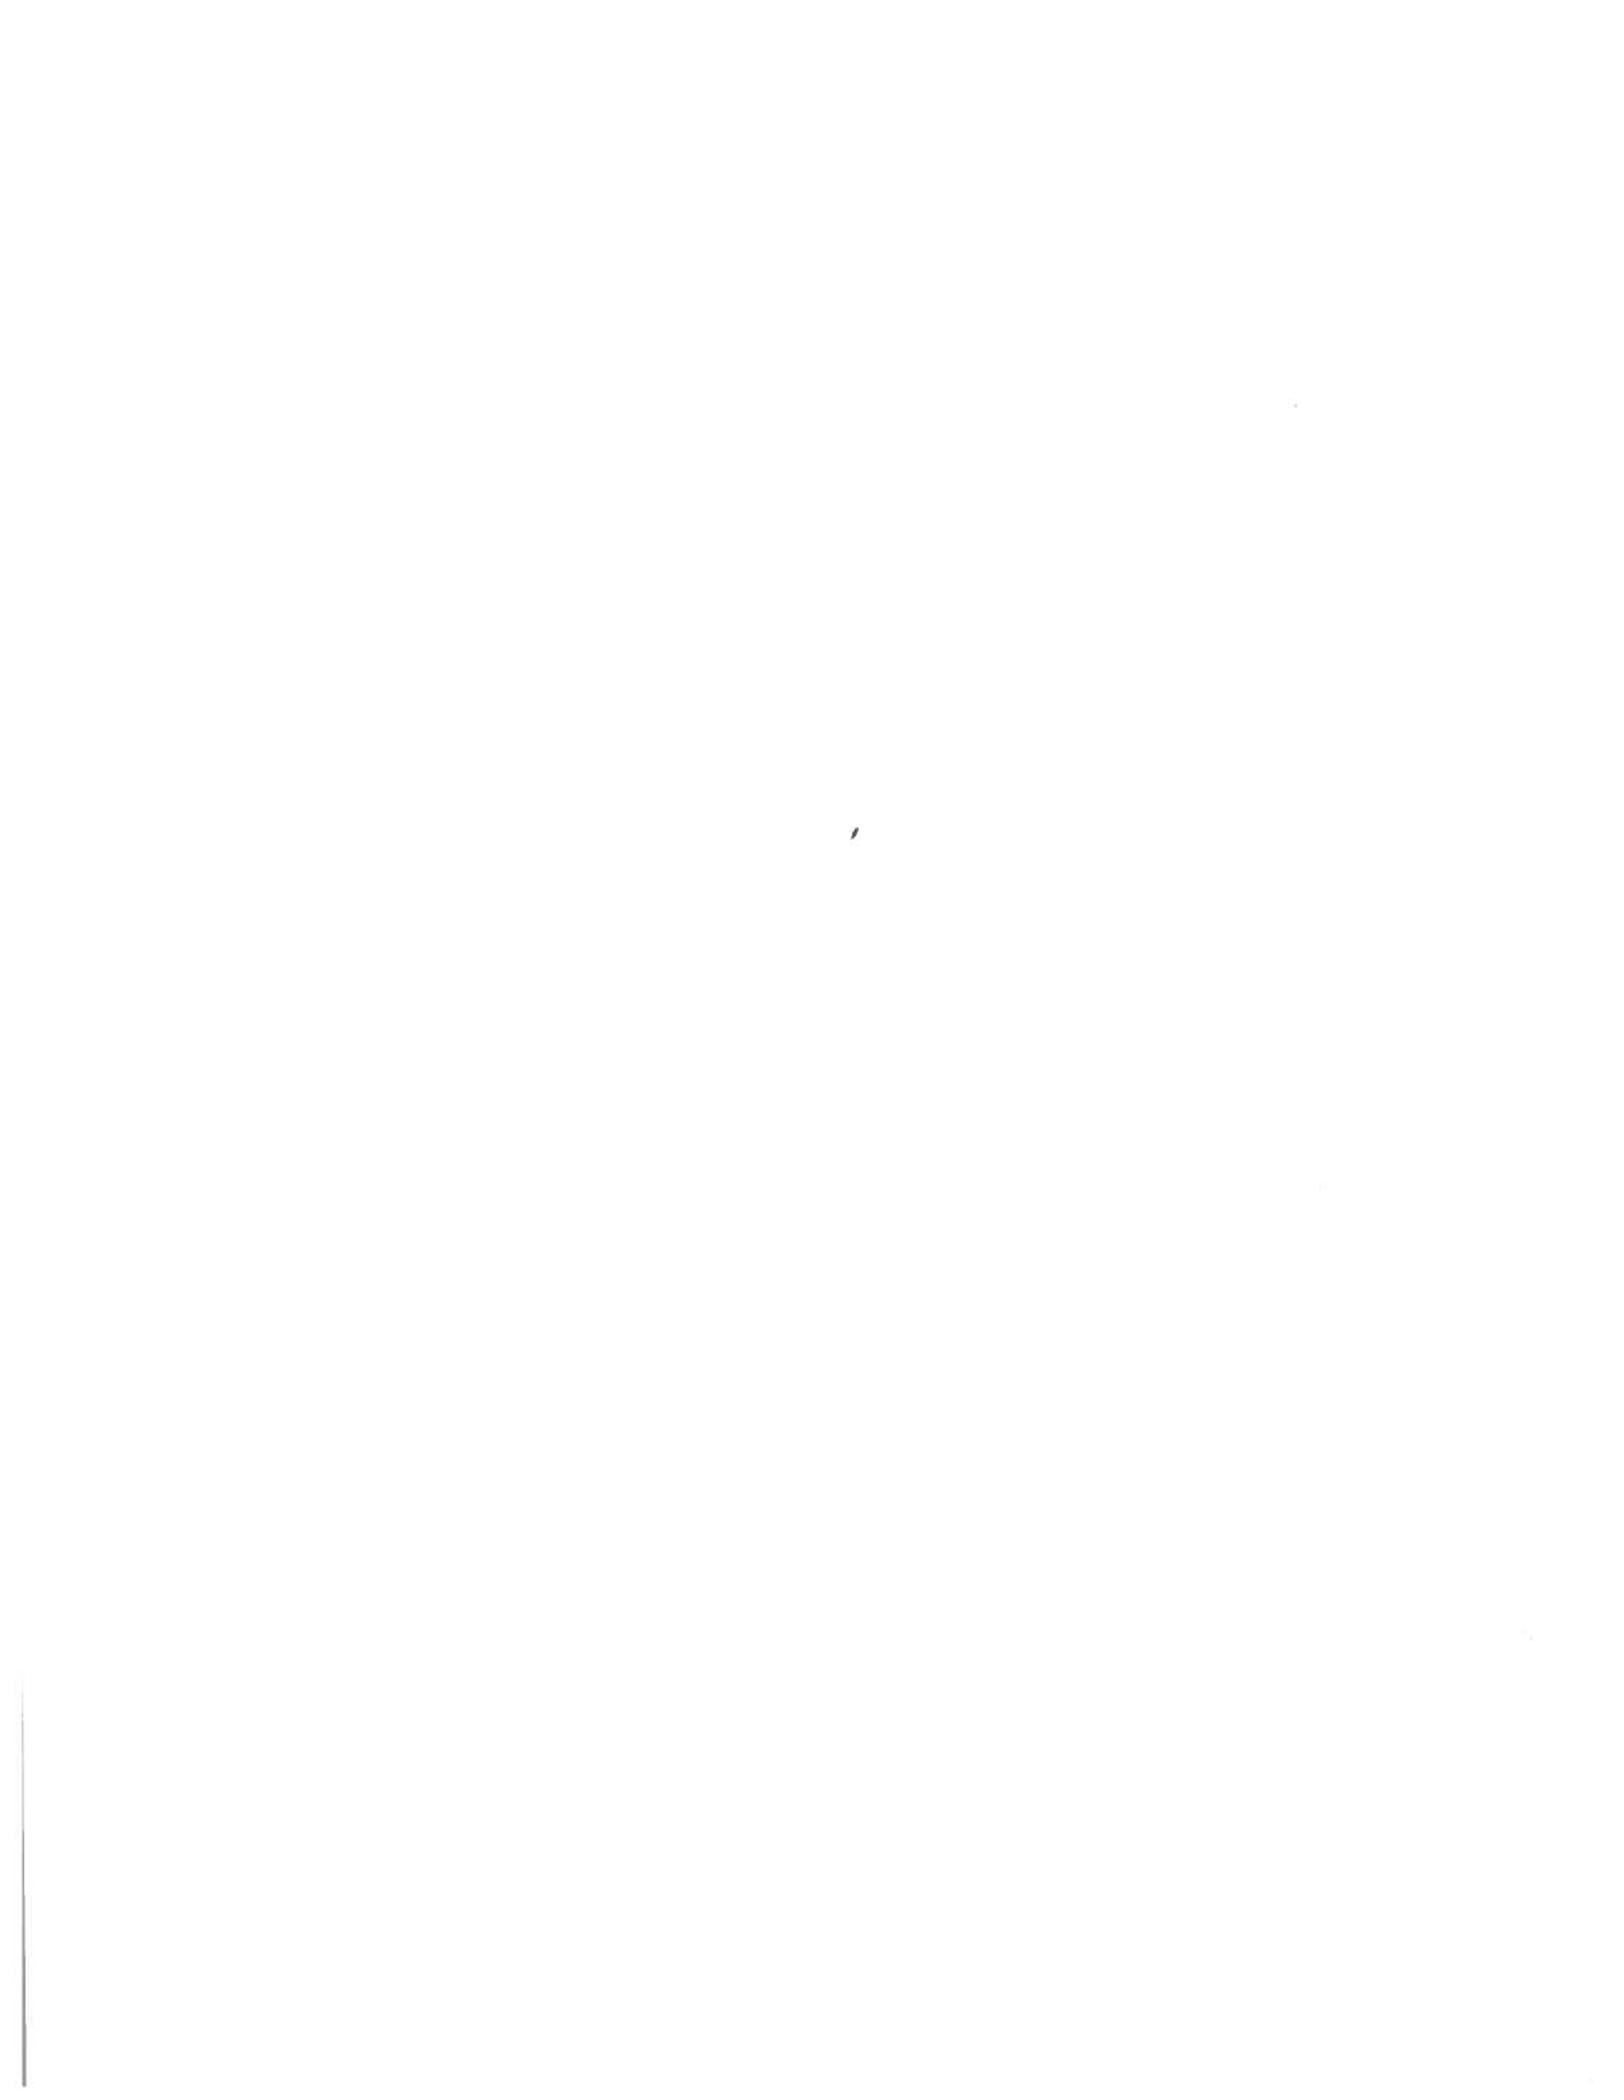

The Oregon Scenic Bikeway Committee evaluates proposed routes using criteria which examine human made, natural scenic and sensory values and road conditions on the route.

In the past, only half of the applications scored high enough on the criteria to be recommended for designation.

Applications, a list of important features for a bikeway and the criteria are available at <http://www.oregon.gov/oprd/BIKE/Pages/info.aspx>

For more information on the application process or the Bikeway Program contact Alex Phillips at 503-986-0631 or alex.phillips@oregon.gov.

###

Scenic Bikeway Designation Process

Application Phase

Proponent submits application including:
Proposed route
Letters of support from governing bodies of road management agencies and adjacent public landowners

OPRD reviews the application for completeness. The Coordinator sends completed applications to the State Bikeway Committee, or sends written feedback to Proponent explaining why it was not advanced.

State Bikeway Committee reviews completed application, rides the route to rate it using the Bikeway criteria

Route does not score well. Route can be rejected outright or with suggestions to resubmit after issues area addressed.

If route scores well The Bikeway Committee recommends the route to the OPRD Director for approval
The Proponent is asked to start **developing a Scenic Bikeway Plan.**

Proponents and OPRD holds public meetings
Proponent submits draft of Bikeway Plan for feedback from the Coordinator

State Bikeway Committee reviews and possibly sends back suggestions for improvement
State Bikeway Committee approves final draft Scenic Bikeway Plan

State Bikeway Committee consults with Oregon Recreation Trails Advisory Committee

State Parks Director's recommendations and summary of public comment forwarded to the State Parks Commission votes on Designation

Implementation and Review

Proponent starts to implement Bikeway Plan
Proponents complete annual reviews
Bikeway committee holds five-year review

Writing Bikeway Plan Phase

Implementation

A. The Oregon Scenic Bikeways Program

Introduction

The Oregon Scenic Bikeways Program is designed to provide a high quality system of cycling routes that inspires people to experience Oregon's natural beauty and cultural heritage by bicycle and offers economic and social benefits to the state's communities, residents, and visitors.

We invite you to join in transforming that vision into a reality.

What is an Oregon Scenic Bikeway?

An Oregon Scenic Bikeway is a signed bike route on existing roads and paths that provide access to national, state, or regional resources of superlative quality and scenic splendor. The route is on public lands, rights-of-way, or on existing easements on private property. The route is open to the public.

Benefits of Scenic Bikeway Designation

The designated routes:

- Provide a cycling experience that creates lasting memories by offering a rich taste of Oregon's grandeur.
- Be identified as the best bike rides in Oregon;
- Attract domestic and international tourism dollars;
- Provide additional recreational and promotional value to the communities they pass through.

Program Goals

- Showcase the state's outstanding natural and built environments;
- Feature a variety of pleasant sensory experiences;
- Present varying recreational challenges for cyclists;
- Promote cycling as healthy outdoor recreation;
- Follow routes that combine low traffic, slower vehicular speeds, and good cycling facilities (lanes, shoulders, signage, etc);
- Foster strong grassroots support for Scenic Bikeways through active local Proponent groups that develop, sustain, and actively promote them;
- Meet or exceed Scenic Bikeway travelers' expectations by providing and maintaining consistent, high-quality cycling-specific information;
- Offer a broad range of benefits to the regions and communities through which the bikeways pass; and

- Complement and coordinate with other cycling programs and initiatives developed under private, local, state, regional and federal auspices.

Program Background

The State Parks and Recreation Department's Scenic Bikeways Program is a result of a partnership between Oregon Parks and Recreation Department (OPRD), Travel Oregon, Oregon Department of Transportation (ODOT) and Cycle Oregon. This partnership piloted the process in developing the first Scenic Bikeway, the Willamette Valley Scenic Bikeway, in 2005. To establish other Scenic Bikeways proposed by local groups, OPRD revised the recreation trails administrative rule to include Scenic Bikeways

The administrative rules, OAR 736-009-0015 through 736-009-0030, lay out procedures and criteria for the designation of Scenic Bikeways, set basic goals and objectives, and establish the Scenic Bikeways Advisory Committee to evaluate potential routes and make recommendations to the OPRD Director and the Oregon Recreational Trails Advisory Council. The Scenic Bikeways Advisory Committee developed this handbook to help Proponents reach the goal of designating the outstanding cycling routes in their communities.

The Committee has 11 appointed volunteer members as per Administrative Rule:

- Citizen at large
- Cycling advocacy organization
- Oregon Tourism Commission (known as Travel Oregon)
- Oregon Department of Transportation (ODOT)
- Federal land manager
- Oregon Association of Convention and Visitors Bureaus
- Association of Oregon Counties
- League of Oregon Cities
- Oregon Bicycle and Pedestrian Advisory Committee (OBPAC)
- Oregon Parks and Recreation Department (OPRD)
- Oregon Recreation Trails Advisory Council (ORTAC)

Roles in the Designation Process

There are four main parties in the process of proposing and designating a scenic bikeway:

Proponent: The Proponent is the lead local promoter of the bikeway and is responsible for developing and implementing much of the Bikeway Plan. The Proponent prepares and submits the initial application, and consults with other parties through the evaluation process. When a proposal is advanced, the Proponent then has the responsibility for preparing and submitting a Scenic Bikeway Plan and signing contracts with OPRD and road jurisdictions. While the initial idea for a Scenic Bikeway may start with an individual, that individual will need to expand the group to include the destination marketing organization, county and city

liaisons, cyclists or bicycle club with one of the organizations holding non-profit status.

Oregon Parks and Recreation Department (OPRD): Within the agency, the Bicycle Recreation Coordinator (Coordinator) oversees day-to-day management of the program, serves as the liaison among all the other parties, and staffs the Scenic Bikeways Advisory Committee. The OPRD Director, acting as the overall program administrator, brings designation requests before the Oregon Parks and Recreation Commission for consideration.

Scenic Bikeways Advisory Committee (Committee): Appointed by the OPRD Director, this 11 member group evaluates and recommends routes for designation, and advises the agency on the development and implementation of the Scenic Bikeways Program.

Oregon Recreation Trails Advisory Council (ORTAC): The Council, appointed by the Oregon Parks and Recreation Commission advises OPRD on matters related to all non-motorized trails, including Oregon Scenic Bikeways. Its role in the designation process is to accept public comment on proposed routes, and make formal recommendations to OPRD.

Existing Bikeways and Coast Route

All designated bikeways are listed at www.oregonscenicbikeways.org

The Willamette Valley Scenic Bikeway is the only existing bicycle route to be immediately incorporated into the Scenic Bikeways System.

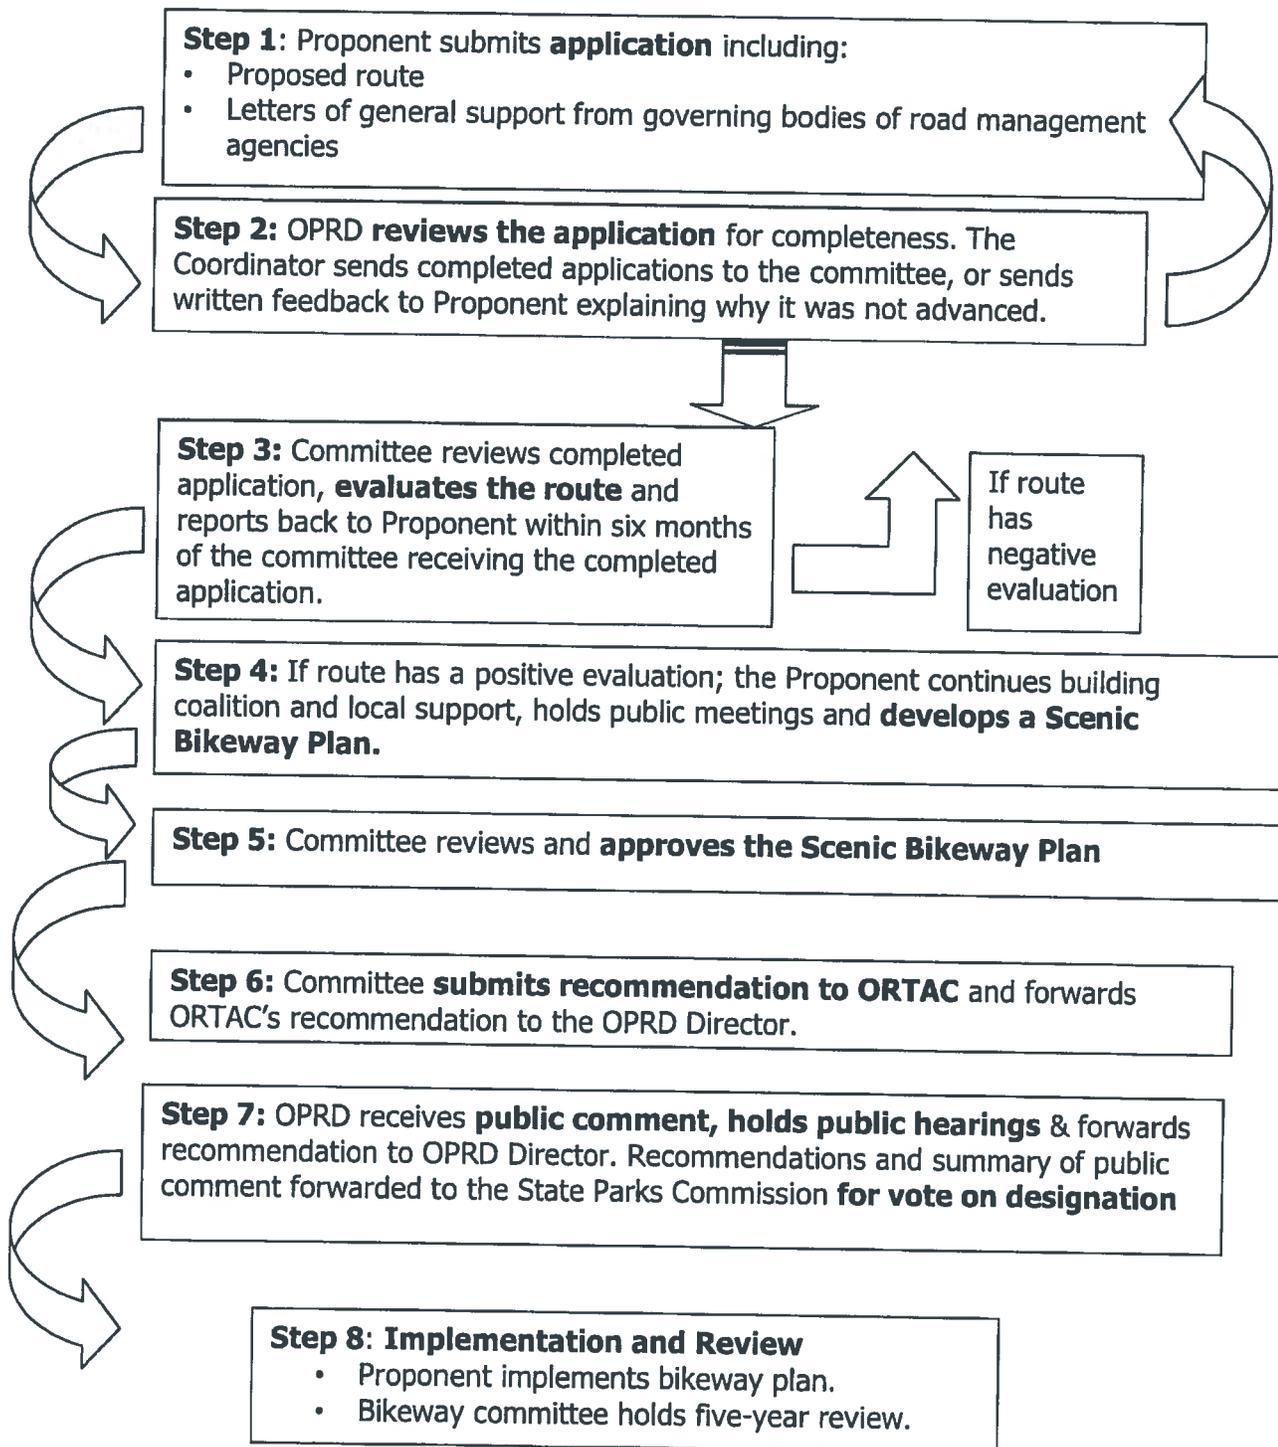

The Oregon Coast Bike Route is managed by ODOT and the full route is anticipated to be designated a US bicycle route. The full route will not be considered as a bikeway.

Changing conditions on designated Scenic Bikeways may require either a revision of the bikeway's management plan and/or a rerouting of the bikeway. Rerouting requests of a significant nature must be granted by the advisory committee. The committee may decide the change is significant enough to warrant bringing it to the Parks Commission for a vote.

B. The Designation Process

Scenic Bikeway Designation Process Flow Chart

Step 1: Application

The Proponent submits a completed application form (see Appendix A) to the Coordinator. Proposals are accepted approximately every two years. Submittal times are announced by media releases. The Committee prioritizes the applications and reserves the ability to defer any routes.

Note: Even at this early stage, the Proponent should bear in mind that a route cannot be designated as an Oregon Scenic Bikeway without the consent of all parties having legal jurisdiction over the roads and trails comprising the route. It is recommended that Proponents consult with these jurisdictions early and often.

Step 2: Review/Consultation

The Coordinator reviews the proposal for completeness and consults with the Proponent to address any deficiencies. Based on this review, the Coordinator may either move an application forward to the Committee, or determine that it is not ready to advance. In the latter instance the Coordinator provides the Proponent with a written summary of the deficiencies that need to be addressed prior to re-submittal.

Step 3: Route Evaluation

After the OPRD Coordinator advances a proposal to the Committee, a subcommittee will evaluate the route by riding it on bicycles, using a prescribed methodology (see Section C - Route Evaluation) and presents its findings to the full Committee at the next opportunity. The evaluation methodology assesses the scenic, human-made, and sensory qualities as well as the physical and traffic characteristics of the proposed route. *Note: While the evaluation process uses a numerical system, its purpose is to inform Committee discussion, not to provide a "score".*

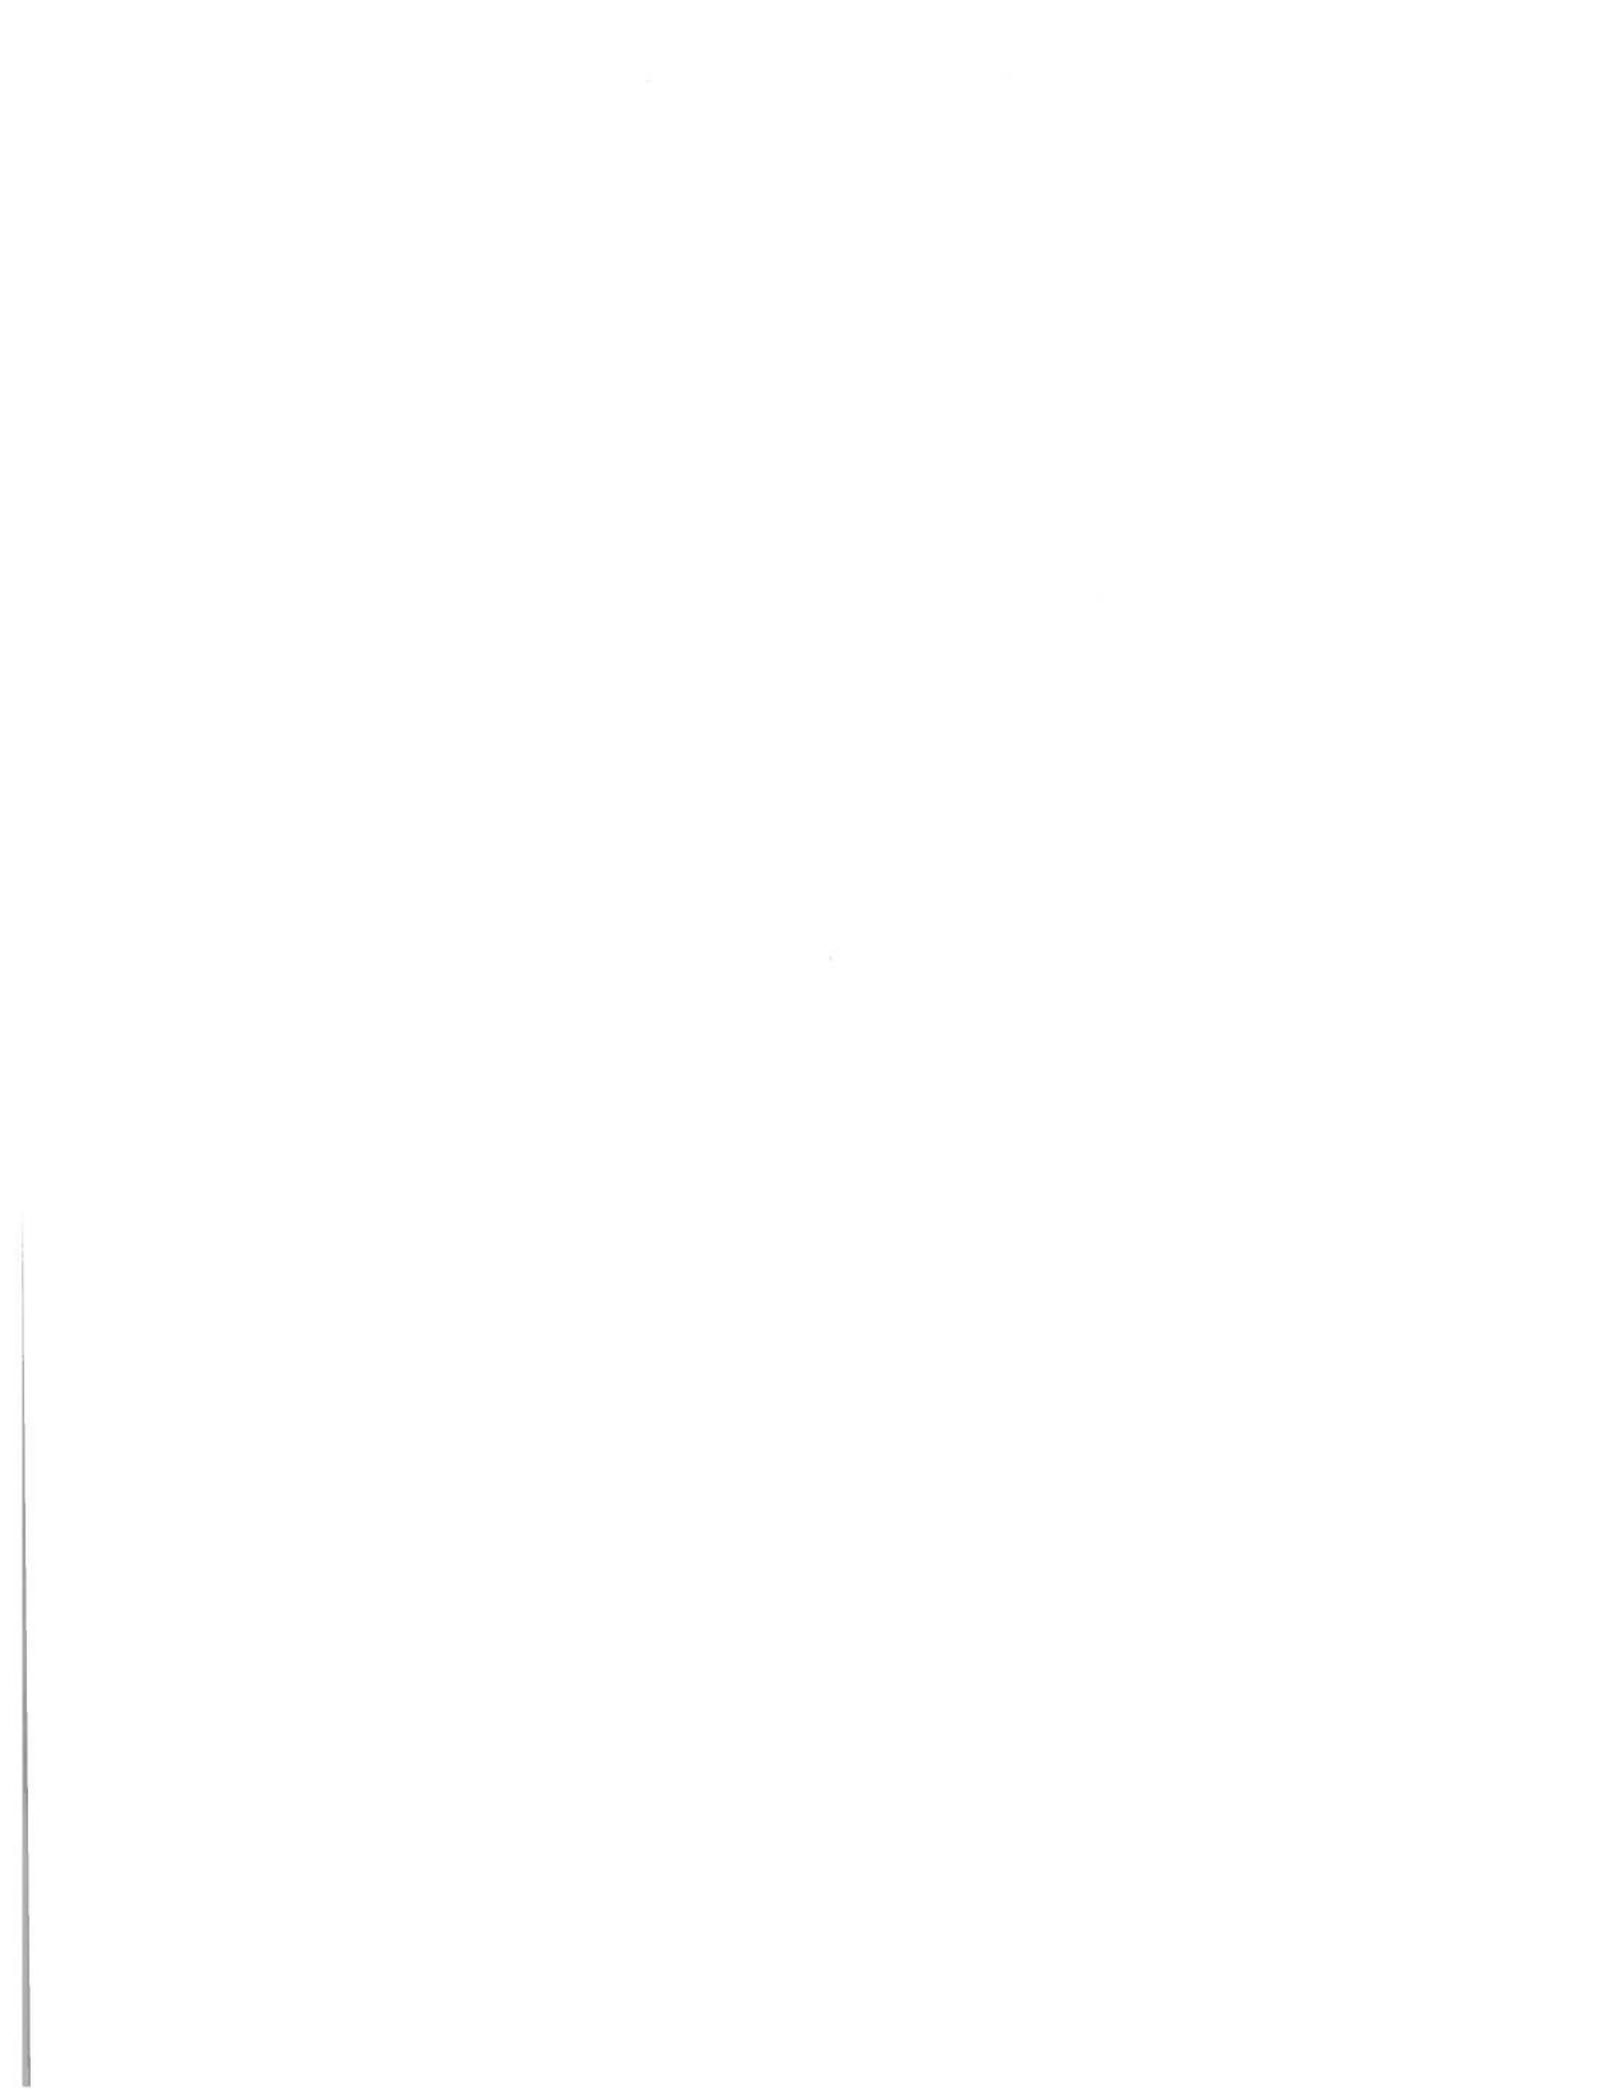

One of the less obvious factors in the evaluation of scenic bikeway applications is the length of the proposed route. No strict minimums or maximums are prescribed because other route characteristics can interact so dramatically with the length of a ride in creating an overall experience. Proposals will not be brought forward when the coordinator deems that the length is problematic as weighed against other factors.

Based on the application document and the route evaluation, the full Committee decides whether or not to advance a proposed bikeway to the next step. Should the Committee determine the proposed route does not yet meet the requirements for designation, a written summary, explaining the decision, is provided to the Proponent. The Proponent is able to resubmit an application after addressing the Committee's concerns.

Step 4: Scenic Bikeway Plan Preparation

After the Committee has rated the route and determined that the proposal should advance, the Proponent prepares and submits a draft Scenic Bikeway Plan and hold public planning meetings. Public meetings are an opportunity to inform the community, garner new ideas,

address challenges and bring together stakeholders.

The Committee may withdraw an application from active consideration if the Proponent fails to make timely progress toward completion of its plan, in which case the Proponent will be informed in writing.

Step 5: Scenic Bikeway Plan Review

When the Proponent submits a Scenic Bikeway Plan and the Coordinator determines that all required elements are addressed, the Coordinator forwards the plan to the Committee for review. Within 6 months of receiving the plan the Committee will accept it as submitted or recommend changes. When the Committee approves a plan, the bikeway proposal is advanced to the next step. If the plan is not approved, the Committee provides the Proponent with specific written feedback for improvement. A revised plan may be resubmitted to the Committee for review.

Step 6: Public Comment and ORTAC Recommendation

Upon advancement by the Committee, the Coordinator submits the proposed Scenic Bikeway Plan to the Director and ORTAC. OPRD will hold a public meeting and comment period on the recommendation to designate. ORTAC will forward its recommendation to the OPRD Director. As with previous steps, written feedback is provided in the event an application is not recommended for advancement. The Proponent will have an opportunity to resubmit the proposal after deficiencies are addressed.

Step 7: Designation

After positive recommendations from ORTAC and the Director, the Director carries the recommendation to the Oregon Parks and Recreation Commission for final consideration. However, the Director, ORTAC or the Commission may request that issues raised at the public hearing be addressed or clarified by the Proponent. The final step is The Oregon Parks and Recreation Commission vote on designation.

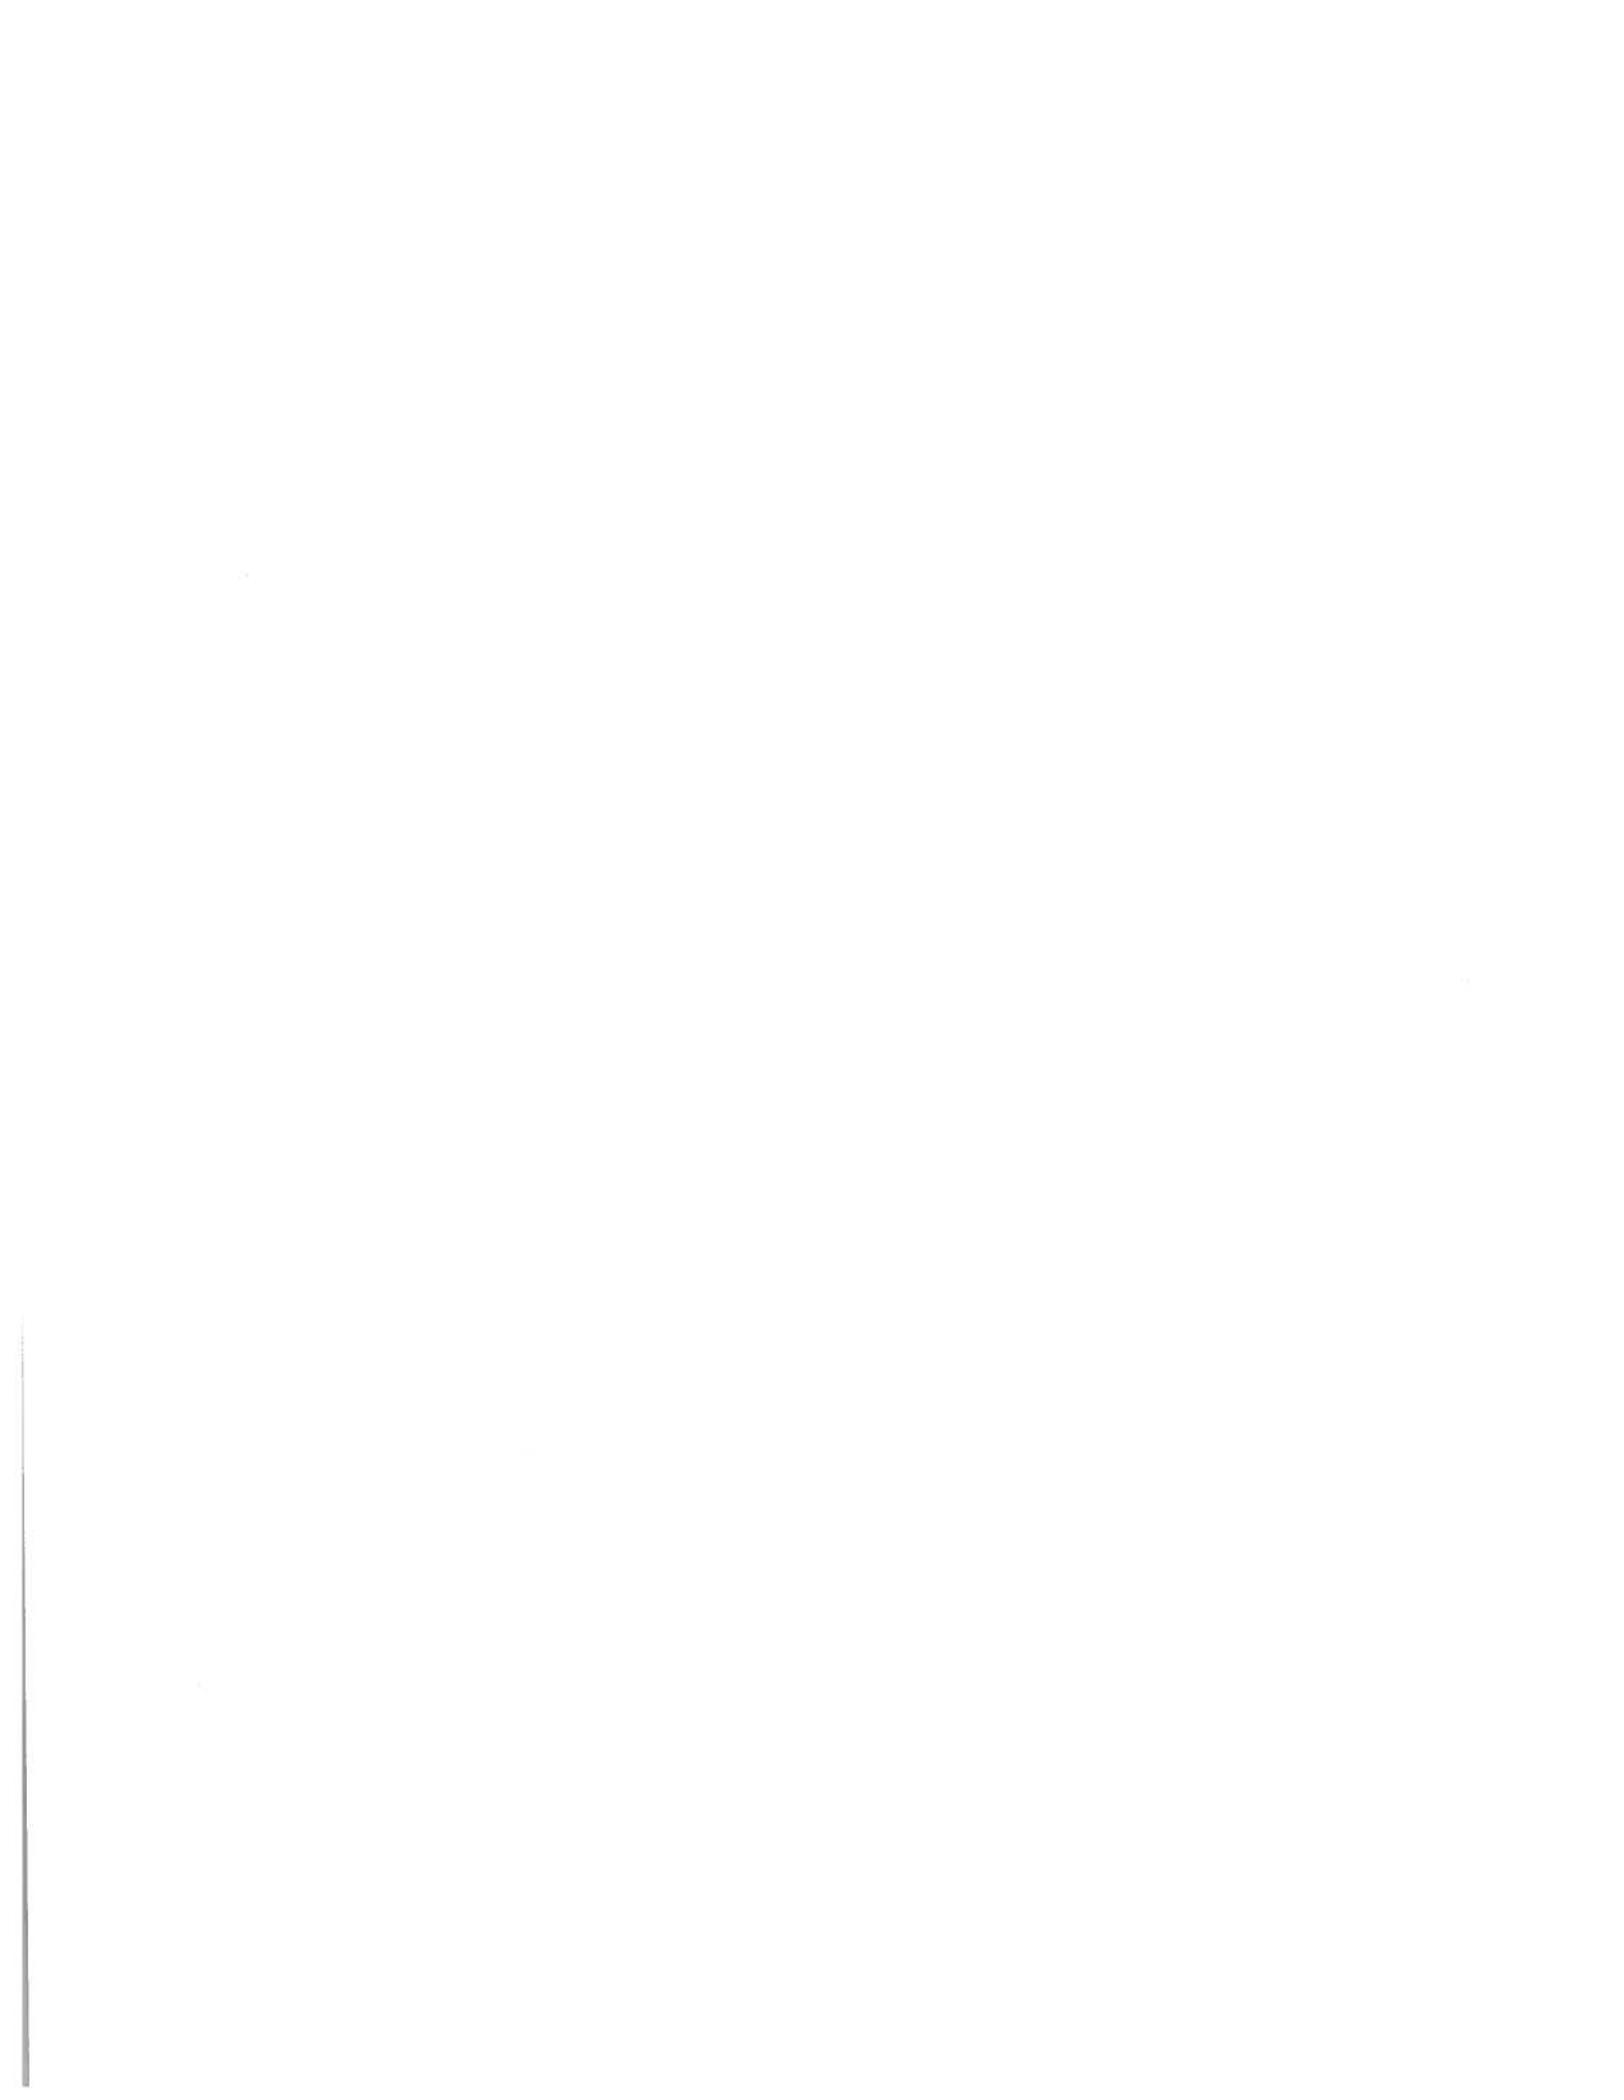

Step 8: Implementation and Review

Once a Scenic Bikeway is designated, the Proponent's focus shifts to implementing the Bikeway Plan. This includes steps such as implementing goals, initiating marketing efforts, and pursuing efforts to enhance cyclists' experience when using the Scenic Bikeway. The Coordinator is an ongoing resource during the implementation phase.

While the approved Bikeway Plan guides the implementation of the route, changing conditions may require either a revision of the plan and/or a rerouting of the bikeway. The Committee addresses substantial rerouting proposals using the evaluation methodology described below.

The administrative rule establishing the Scenic Bikeways Program calls for a five-year review of each designated route. The Coordinator initiates this review process with each Proponent as required.

In addition to the Bikeway committee's five year review, there is also an annual review that requires the proponent to complete a questionnaire supplied by the Bicycle Coordinator.

C. Route Evaluation

The Committee evaluates a proposed route by riding it on bicycles to assess scenic qualities and road conditions. The Committee developed a five point rating methodology (5 = best). The numerical rating of a proposed route is for purposes of Committee discussion, and should not be construed as a score.

Route Qualities

Three categories of route quality are considered in the evaluation:

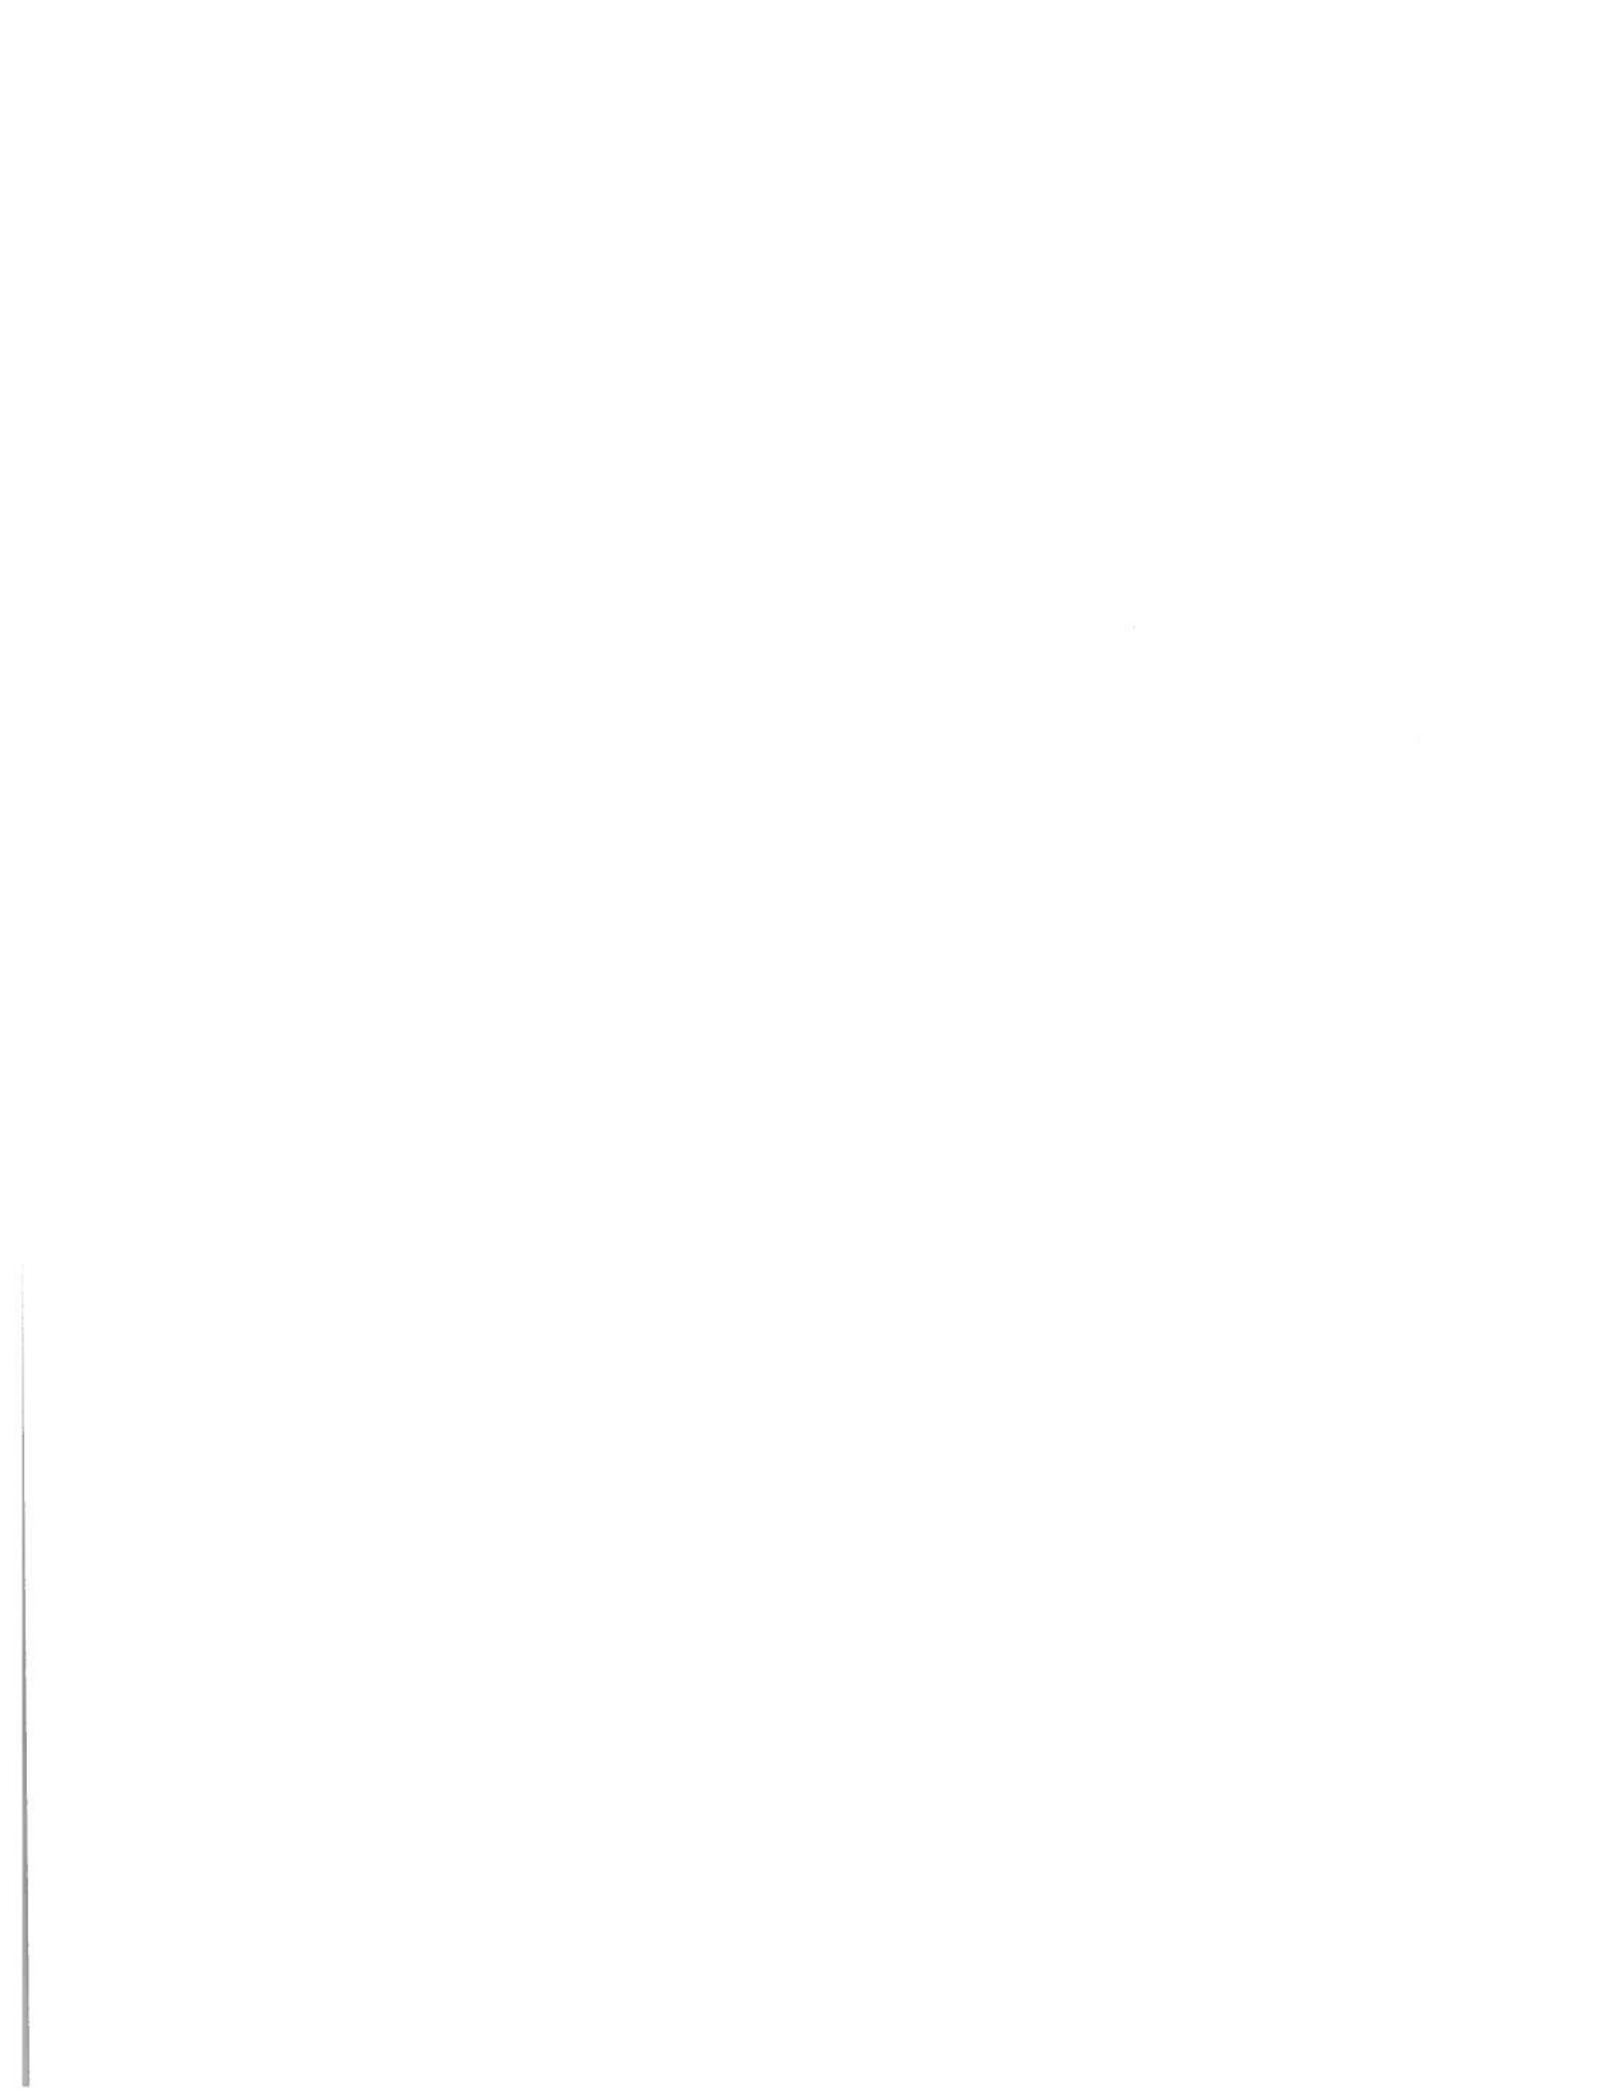

- **Natural:** These qualities are normally identified as scenery, and they include landforms, vegetation, wildlife, water bodies, etc. Natural qualities are often intensified by color, variation, strong contrast, unique shape, dramatic settings, unusual combinations, and domination of the landscape.
- **Human-made:** These qualities are associated with places made by people and are traditionally described as points of interest. They can be buildings, structures, objects, sites, heritage sites, whole districts or expansive agricultural landscapes and they are sometimes interpreted with signs, brochures, or markers. Human-made places can create interest due to their history, events that occur there, or simply through their appearance.
- **Sensory:** These qualities include the smells, sounds, and tactile experiences a rider encounters along the route. Positive examples might include the scent of conifers on a warm day, the sound of bird song or the feel of cool air at the crossing of a mountain stream.

Route Conditions

Route Conditions are divided into four sections, they interact in creating the rider's perception of the route: for example when high traffic speed is mitigated by a wide shoulder with smooth, clean pavement. They are:

- **Surface:** These conditions include the type and finish of pavement, the level of maintenance, the design of curbs, gratings, cattle guards, etc., and the amount of debris typically encountered.
- **Traffic Volume:** This condition is measured by a standardized volume count available from ODOT and the county. The volume of trucks versus passenger vehicles is assessed as well.
- **Traffic Speed:** This condition is assessed by a combination of the posted speed limit and the actual speed of traffic.
- **Separation:** A bike lane, wide shoulder or off road path.

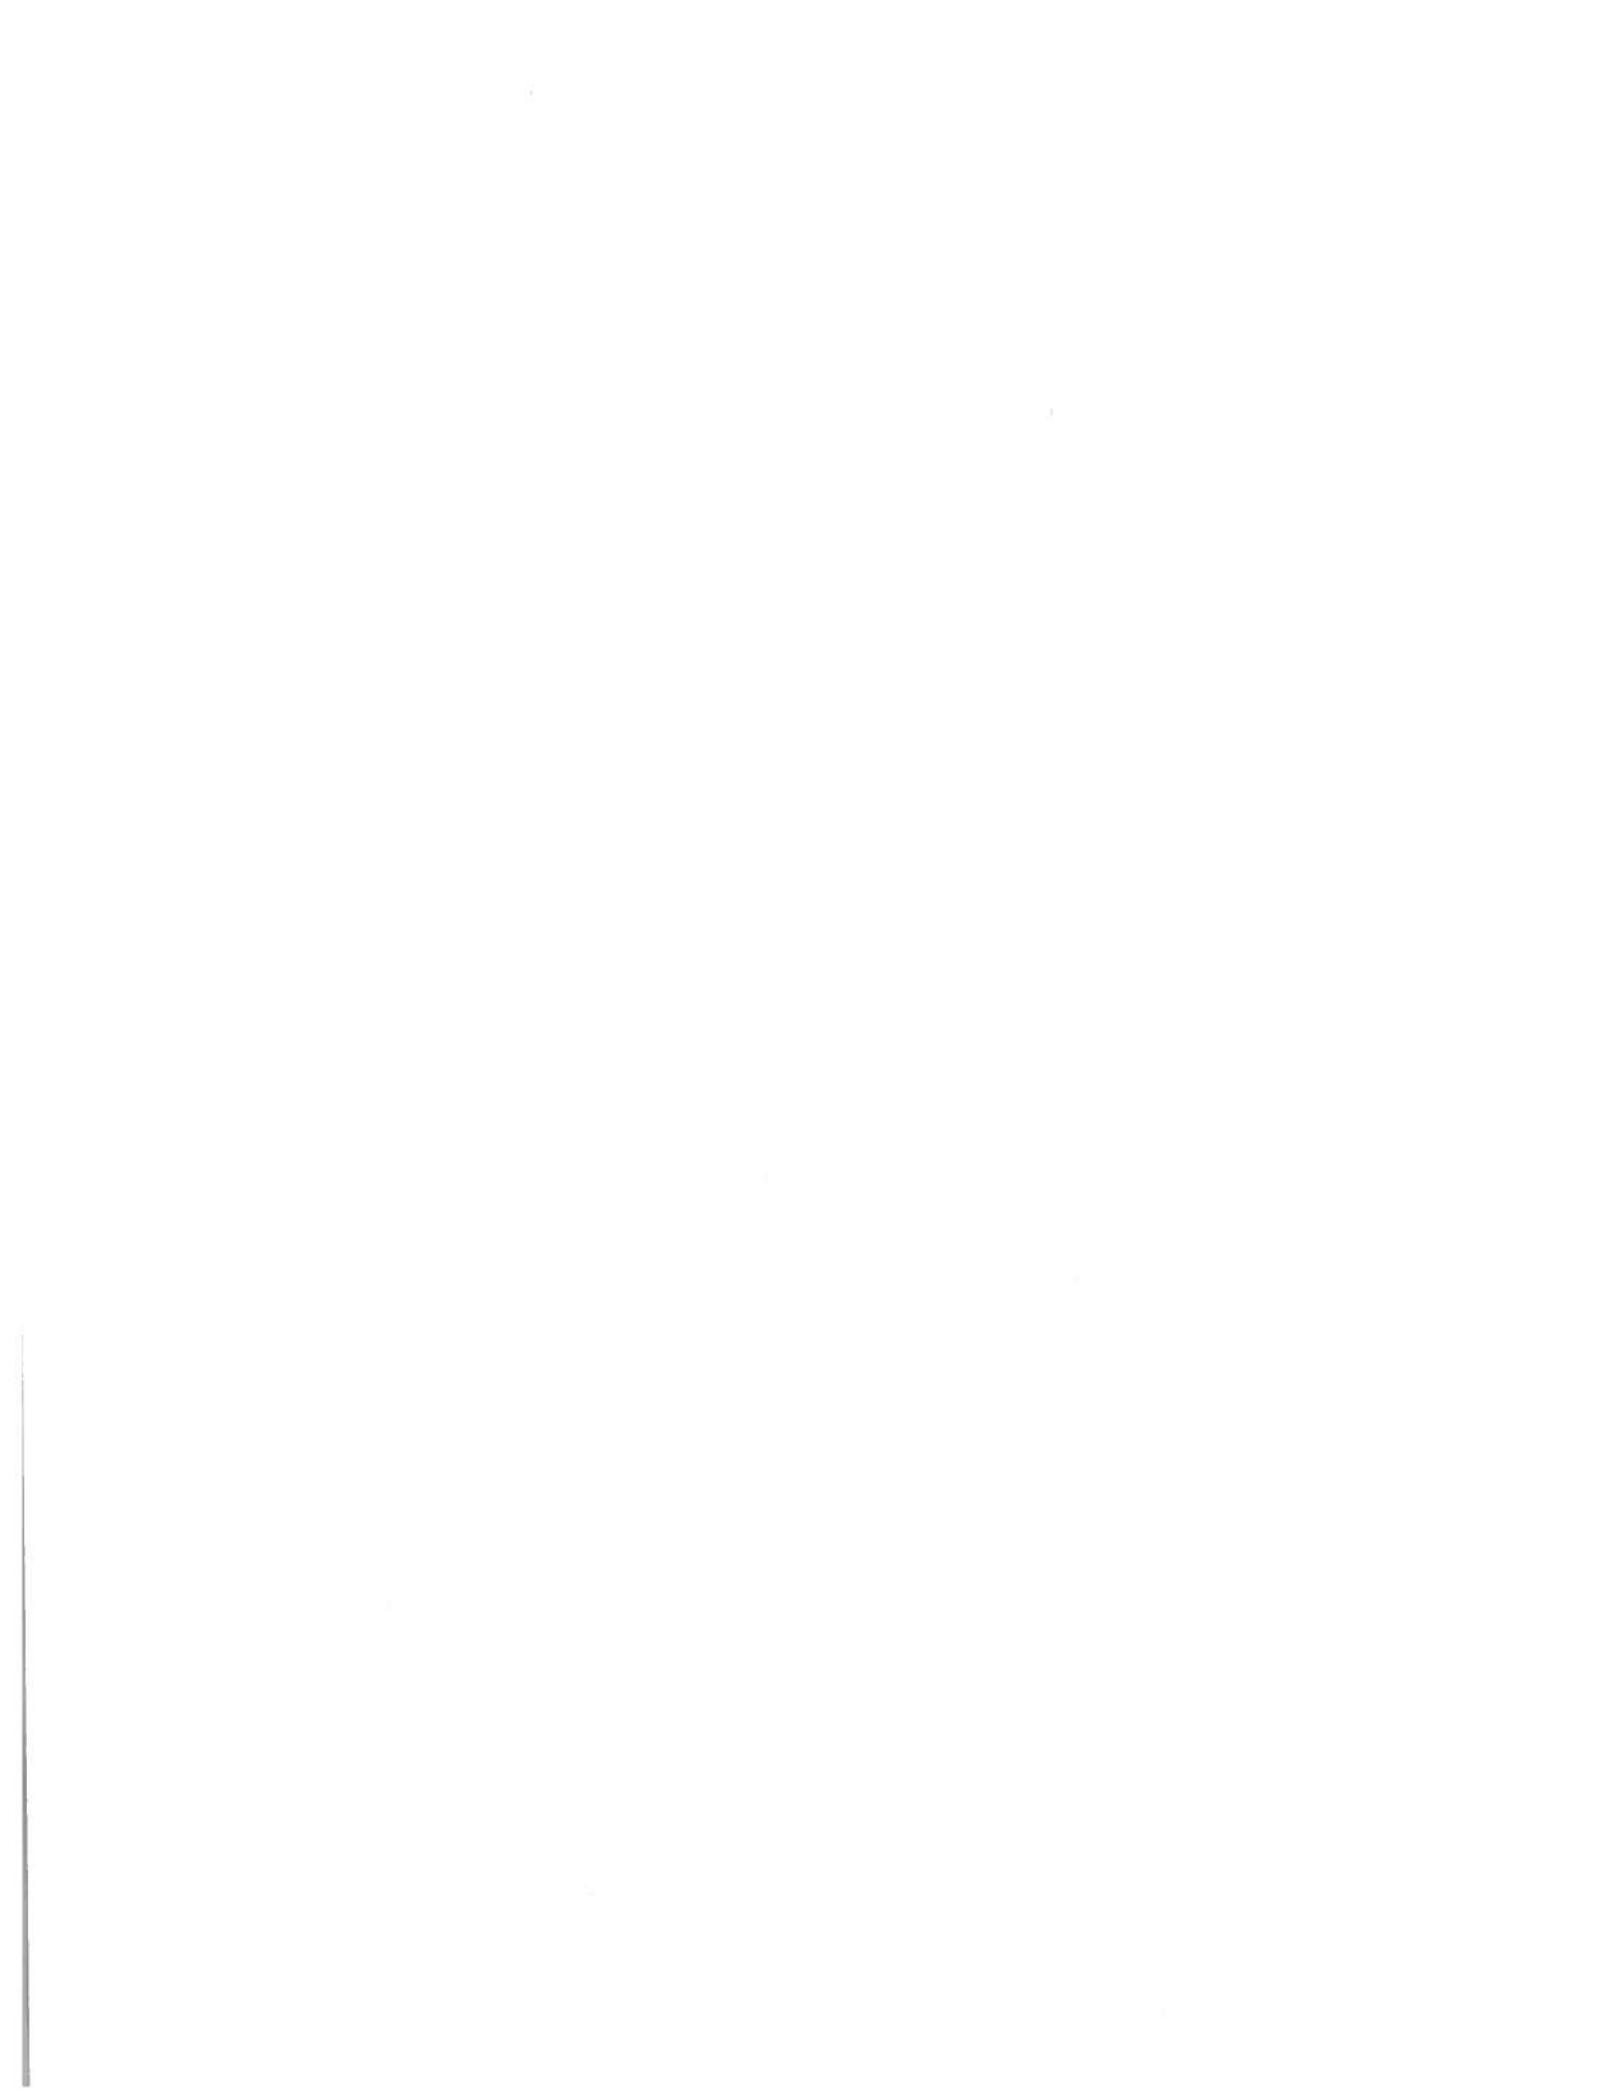

Route Evaluation Form

Route Characteristics				
Best: 5 Points	4 points	Moderate: 3 Points	2 Points	Minimal: 1 Point
Natural Qualities				
The route offers multiple opportunities for viewing natural qualities with a high degree of variation, strong contrast, unique shapes, dramatic settings and unusual combinations of interesting landforms, color, vegetation, wildlife, bodies of water, etc.		The route offers moderate opportunities for viewing natural qualities with some degree of variation, strong contrast, unique shapes, dramatic settings and unusual combinations of interesting landforms, color, vegetation, wildlife, bodies of water, etc.		The route offers minimal opportunities for viewing natural qualities with little degree of variation, strong contrast, unique shapes, dramatic settings and unusual combinations of interesting landforms, color, vegetation, wildlife, bodies of water, etc.
Human-made Qualities				
The route offers multiple opportunities to view, visit and/or experience a variety of points of interest such as buildings, structures, objects, sites, heritage sites, whole districts or expansive agricultural landscapes.		The route offers moderate opportunities to view, visit and/or experience human-made qualities of interest. The route may intersect subdivisions or other forms of block and strip development for distances of less than 2 miles.		The route offers minimal opportunities to view, visit and/or experience human-made qualities of interest. The route travels through subdivisions or other forms of block and strip development for distances of 2 miles or greater.
Sensory Qualities				
Most of the route offers an engaging variety of sensory experiences including a mix of pleasant sounds, odors and tactile opportunities.		Some of the route offers a moderate variety of sensory experiences. Some portions of the route may travel through areas that are drab, noisy and smelly.		Large portions of the route travel through areas that are drab, noisy and smelly.
Route Conditions				
Best: 5 Points	4 points	Moderate: 3 Points	2 Points	Minimal: 1 Point
Route Surface				
Smooth surface. Surface regularly maintained clear of debris.		Smooth surface, with some cracking. Surface generally clear of debris.		Rough surface or surface in need of serious repair. Debris frequently encountered.
Traffic Volume				
(Include subjective rating and actual traffic counts where available.) Motor vehicle traffic volume is low with few or no large trucks.		Motor vehicle traffic volume is moderate with some large trucks.		Motor vehicle traffic volume is high consisting of large trucks and cars.
Traffic Speeds (posted & actual)				
The posted and actual speed limit are low; less than 30 mph.		The posted and actual speed limit are moderate; 40- 45 mph		The posted and actual speed limit are above 55- 65 mph.
Route Separation				
Bicycle traffic is separated from vehicle traffic by a separate path, bike lane, or wide shoulder.		Bicycle traffic is separated from vehicle traffic by a moderate shoulder.		There is little separation between bicycle and vehicle traffic.

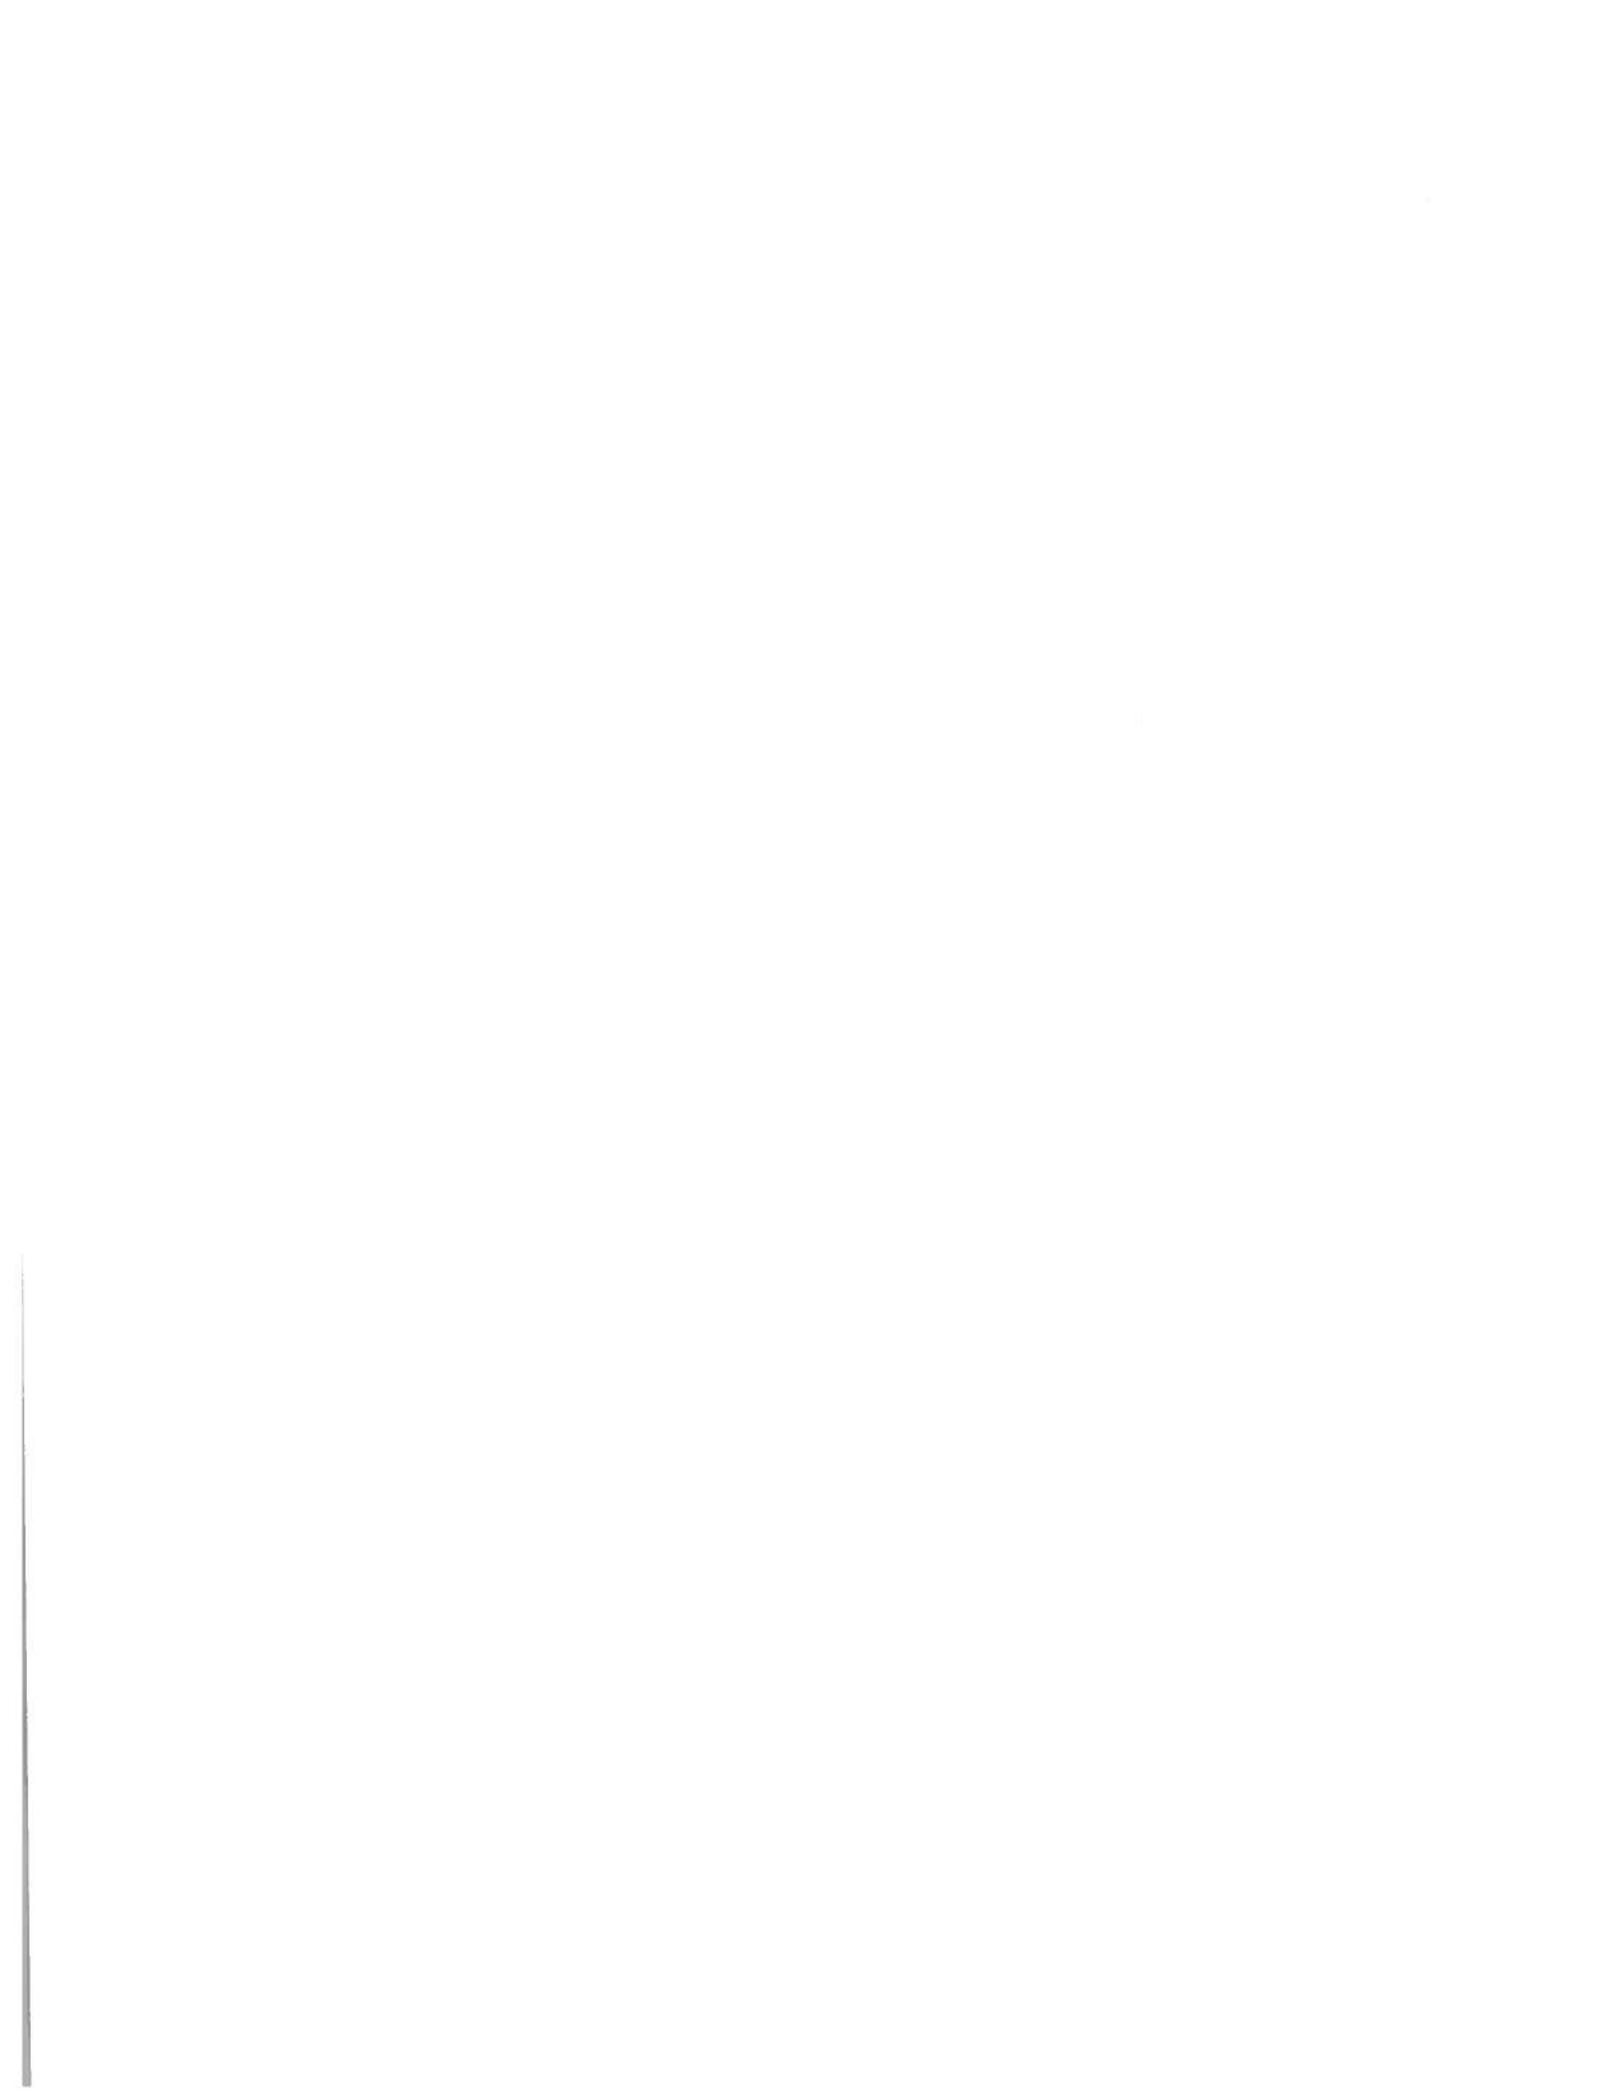

D. Oregon Scenic Bikeway Application Form

Application form can be found at

or by contacting Alex Phillips at (503)986-0631 alex.phillips@oregon.gov

E. Scenic Bikeway Program Partnership

The Scenic Bikeway Program is supported by a partnership of Oregon Parks and Recreation Department, Travel Oregon, Cycle Oregon and ODOT.

Oregon Parks and Recreation Department Role

The Oregon Parks and Recreation Department is the lead agency for the Scenic Bikeways Program. OPRD staff work directly with the Proponent group and designate the routes. In order to assist the Proponent with the development of each Scenic Bikeway Plan, OPRD will:

- Work directly with the Proponent throughout the process, starting with the development of the application and bikeway plan and continuing with support for implementation of the Bikeway Plan.
- Develop, with input from the Proponent group, a detailed map of the designated Scenic Bikeway. The maps will be posted on the OPRD website, www.oregonscenicbikeways.org.
- OPRD will share map information with Travel Oregon to post on Oregon's cycling tourism website, Ride Oregon, at www.Rideoregonride.com.
- Post turn-by-turn cue sheets on OPRD's website.
- Use print and online media to attract attention for each Bikeway.
- Communicate with travel writers to pitch stories on Bikeways.
- Work with Proponent and road jurisdictions on sign installation.

Travel Oregon Role

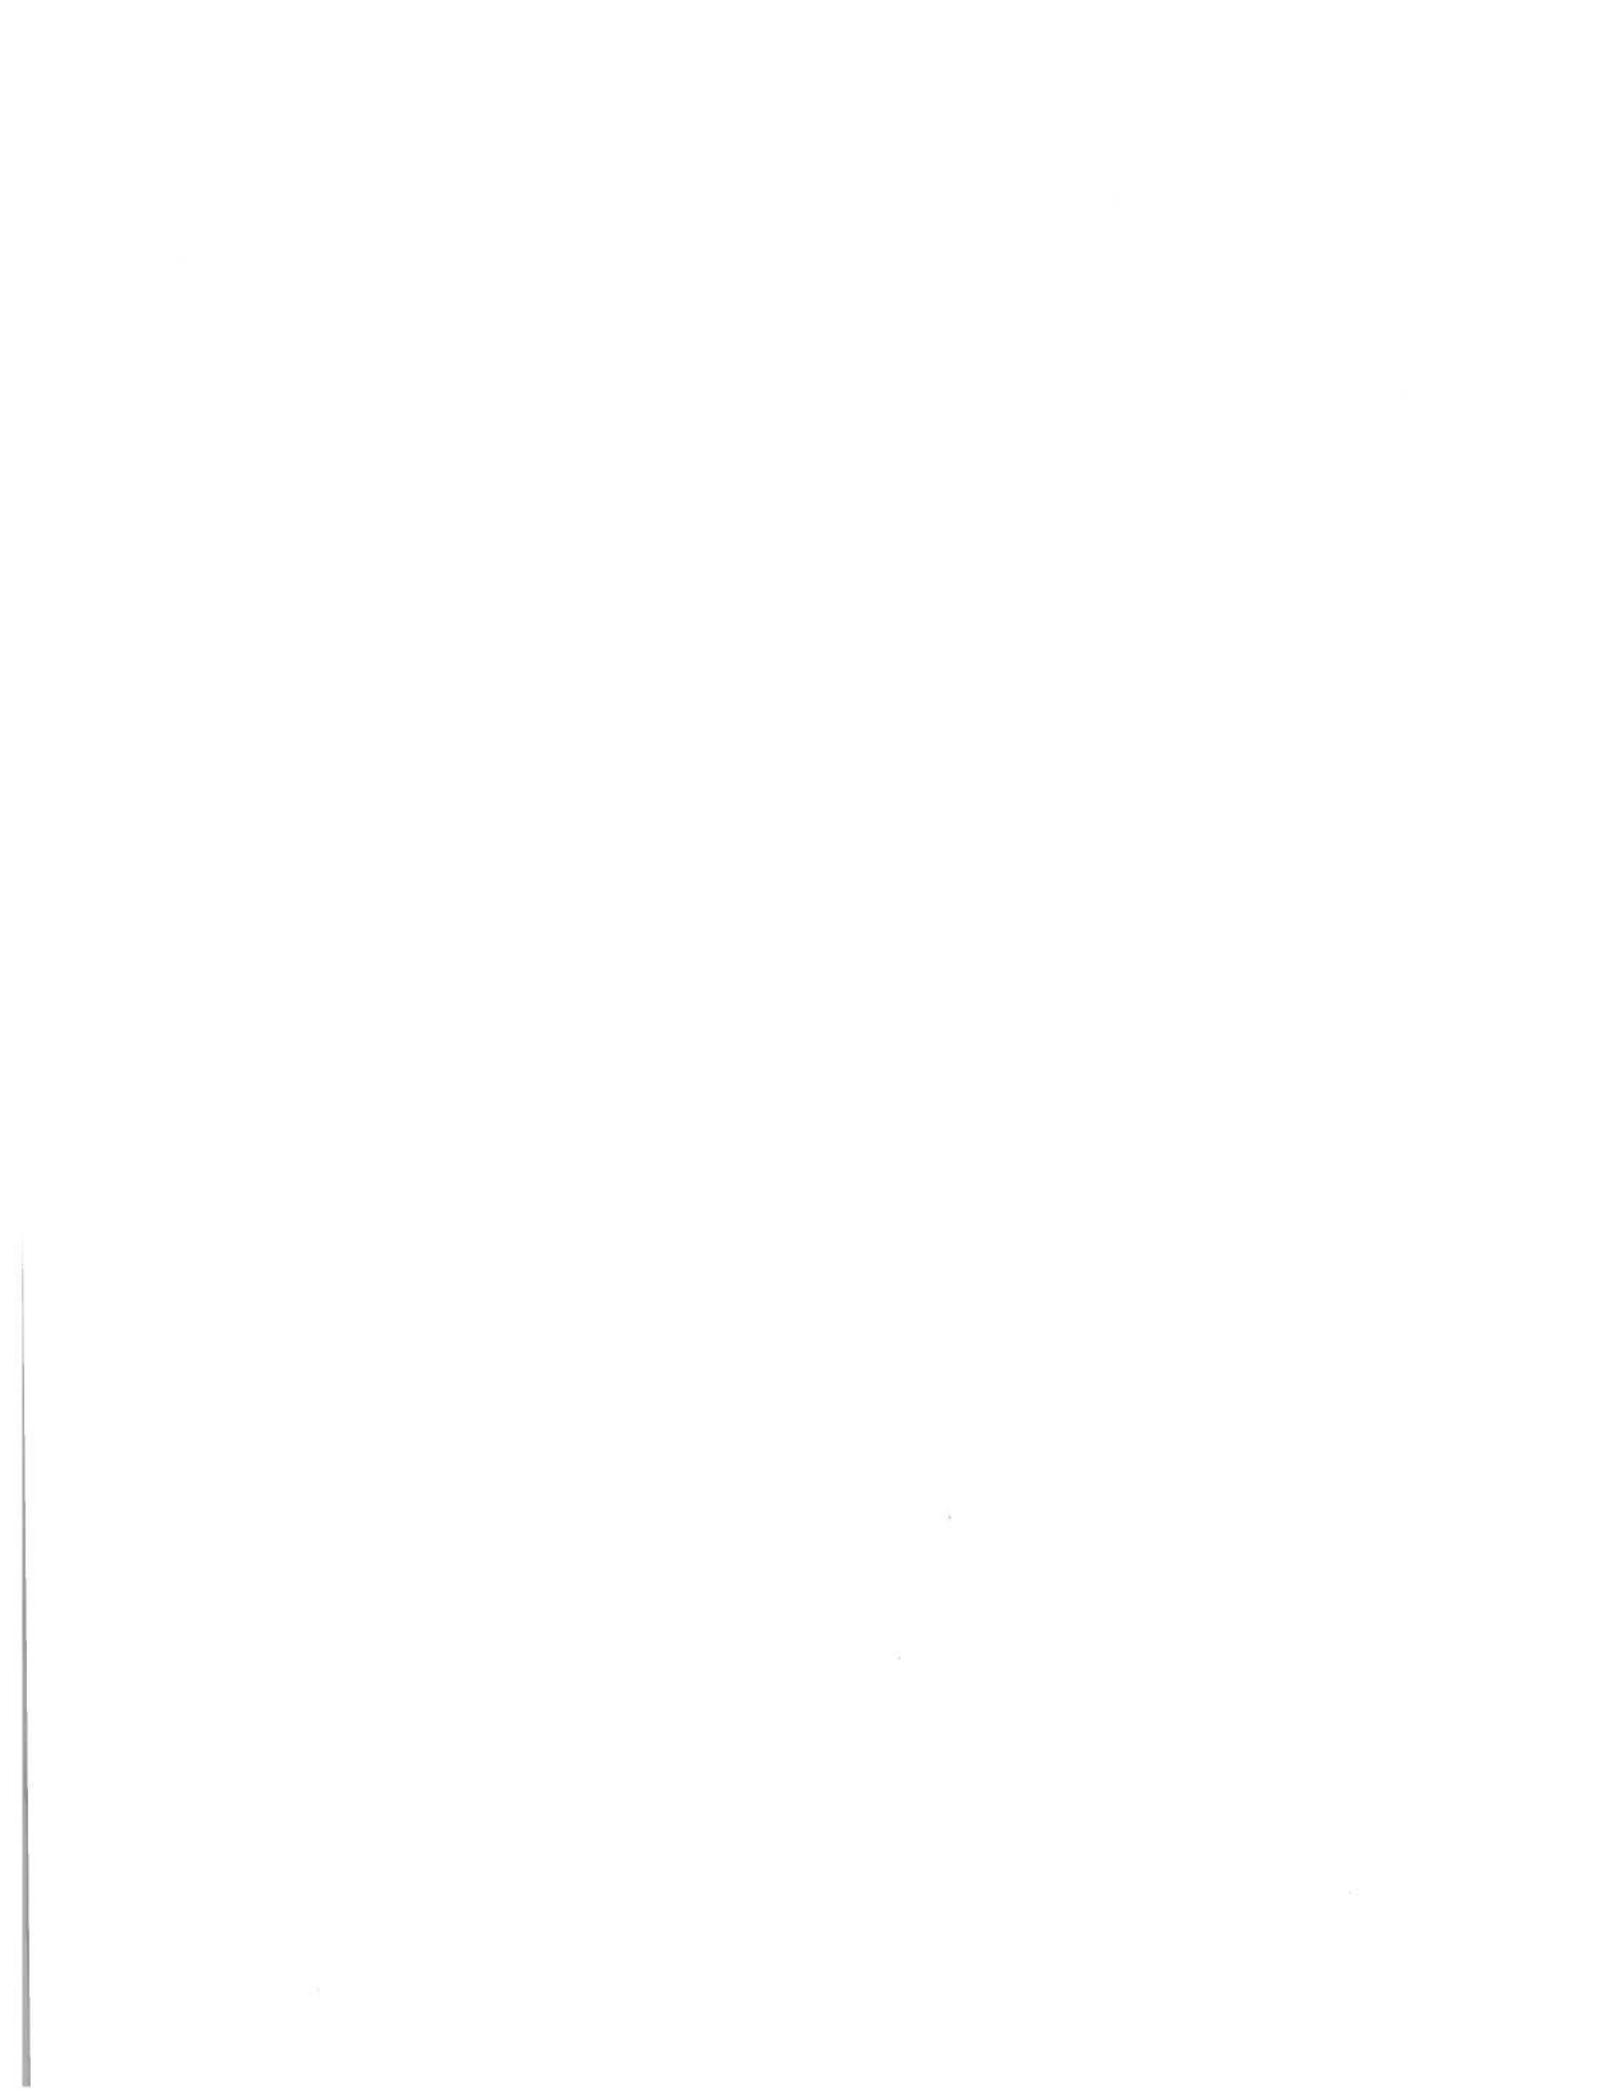

As one of the Oregon Scenic Bikeway Program partners, Travel Oregon is committed to assisting the Scenic Bikeway proponents with:

- Marketing the Scenic Bikeway as part of overall efforts to market Oregon as North America's premier cycling destination.
- Providing a community-based planning workshop to help focus the community's energy on the development of complementary cycling infrastructure, business services and marketing activities.

Oregon Department of Transportation Role

- Provide information, support and facilitate agreement between ODOT and OPRD to sign all bikeways on ODOT roads.
- Support the Pedestrian and Bicycle Program Manager's membership on the OPRD Scenic Bikeway Committee.

- Support the Scenic Byway Program Manager's membership on the OPRD Scenic Bikeway Committee.
- Act as liaison with ODOT field managers for the bikeway program.

F. Scenic Bikeway Plan

As part of the designation process, the local Proponent group is responsible for writing a Scenic Bikeway Plan once the Committee has recommended the Scenic Bikeway for designation. The plan must contain each section detailed below. The Proponent has up to one year to submit a Scenic Bikeway Plan.

The Scenic Bikeway Plan is not about roadway management, it is about how the Proponent will manage the Scenic Bikeway concept.

Submit the Bikeway Plan saved as Word document(s). Do not send as PDF since changes cannot be made to PDFs. Photos can be sent separately in jpg or other photo format. Letters of support can be in PDF format, a jpg or hard copy.

Proponent contact information: Include the roles and responsibilities each of the named Proponents will have in plan implementation. The ideal proponent group is made up of: interested volunteers, a cyclist, a destination marketing organization contact person and governmental representatives.

Sign location table: This table (or map) shows the location of each directional sign, the appropriate arrow, the jurisdiction the sign is located in, and phone contact information for each associated road jurisdiction, usually a staff member within the public works department.

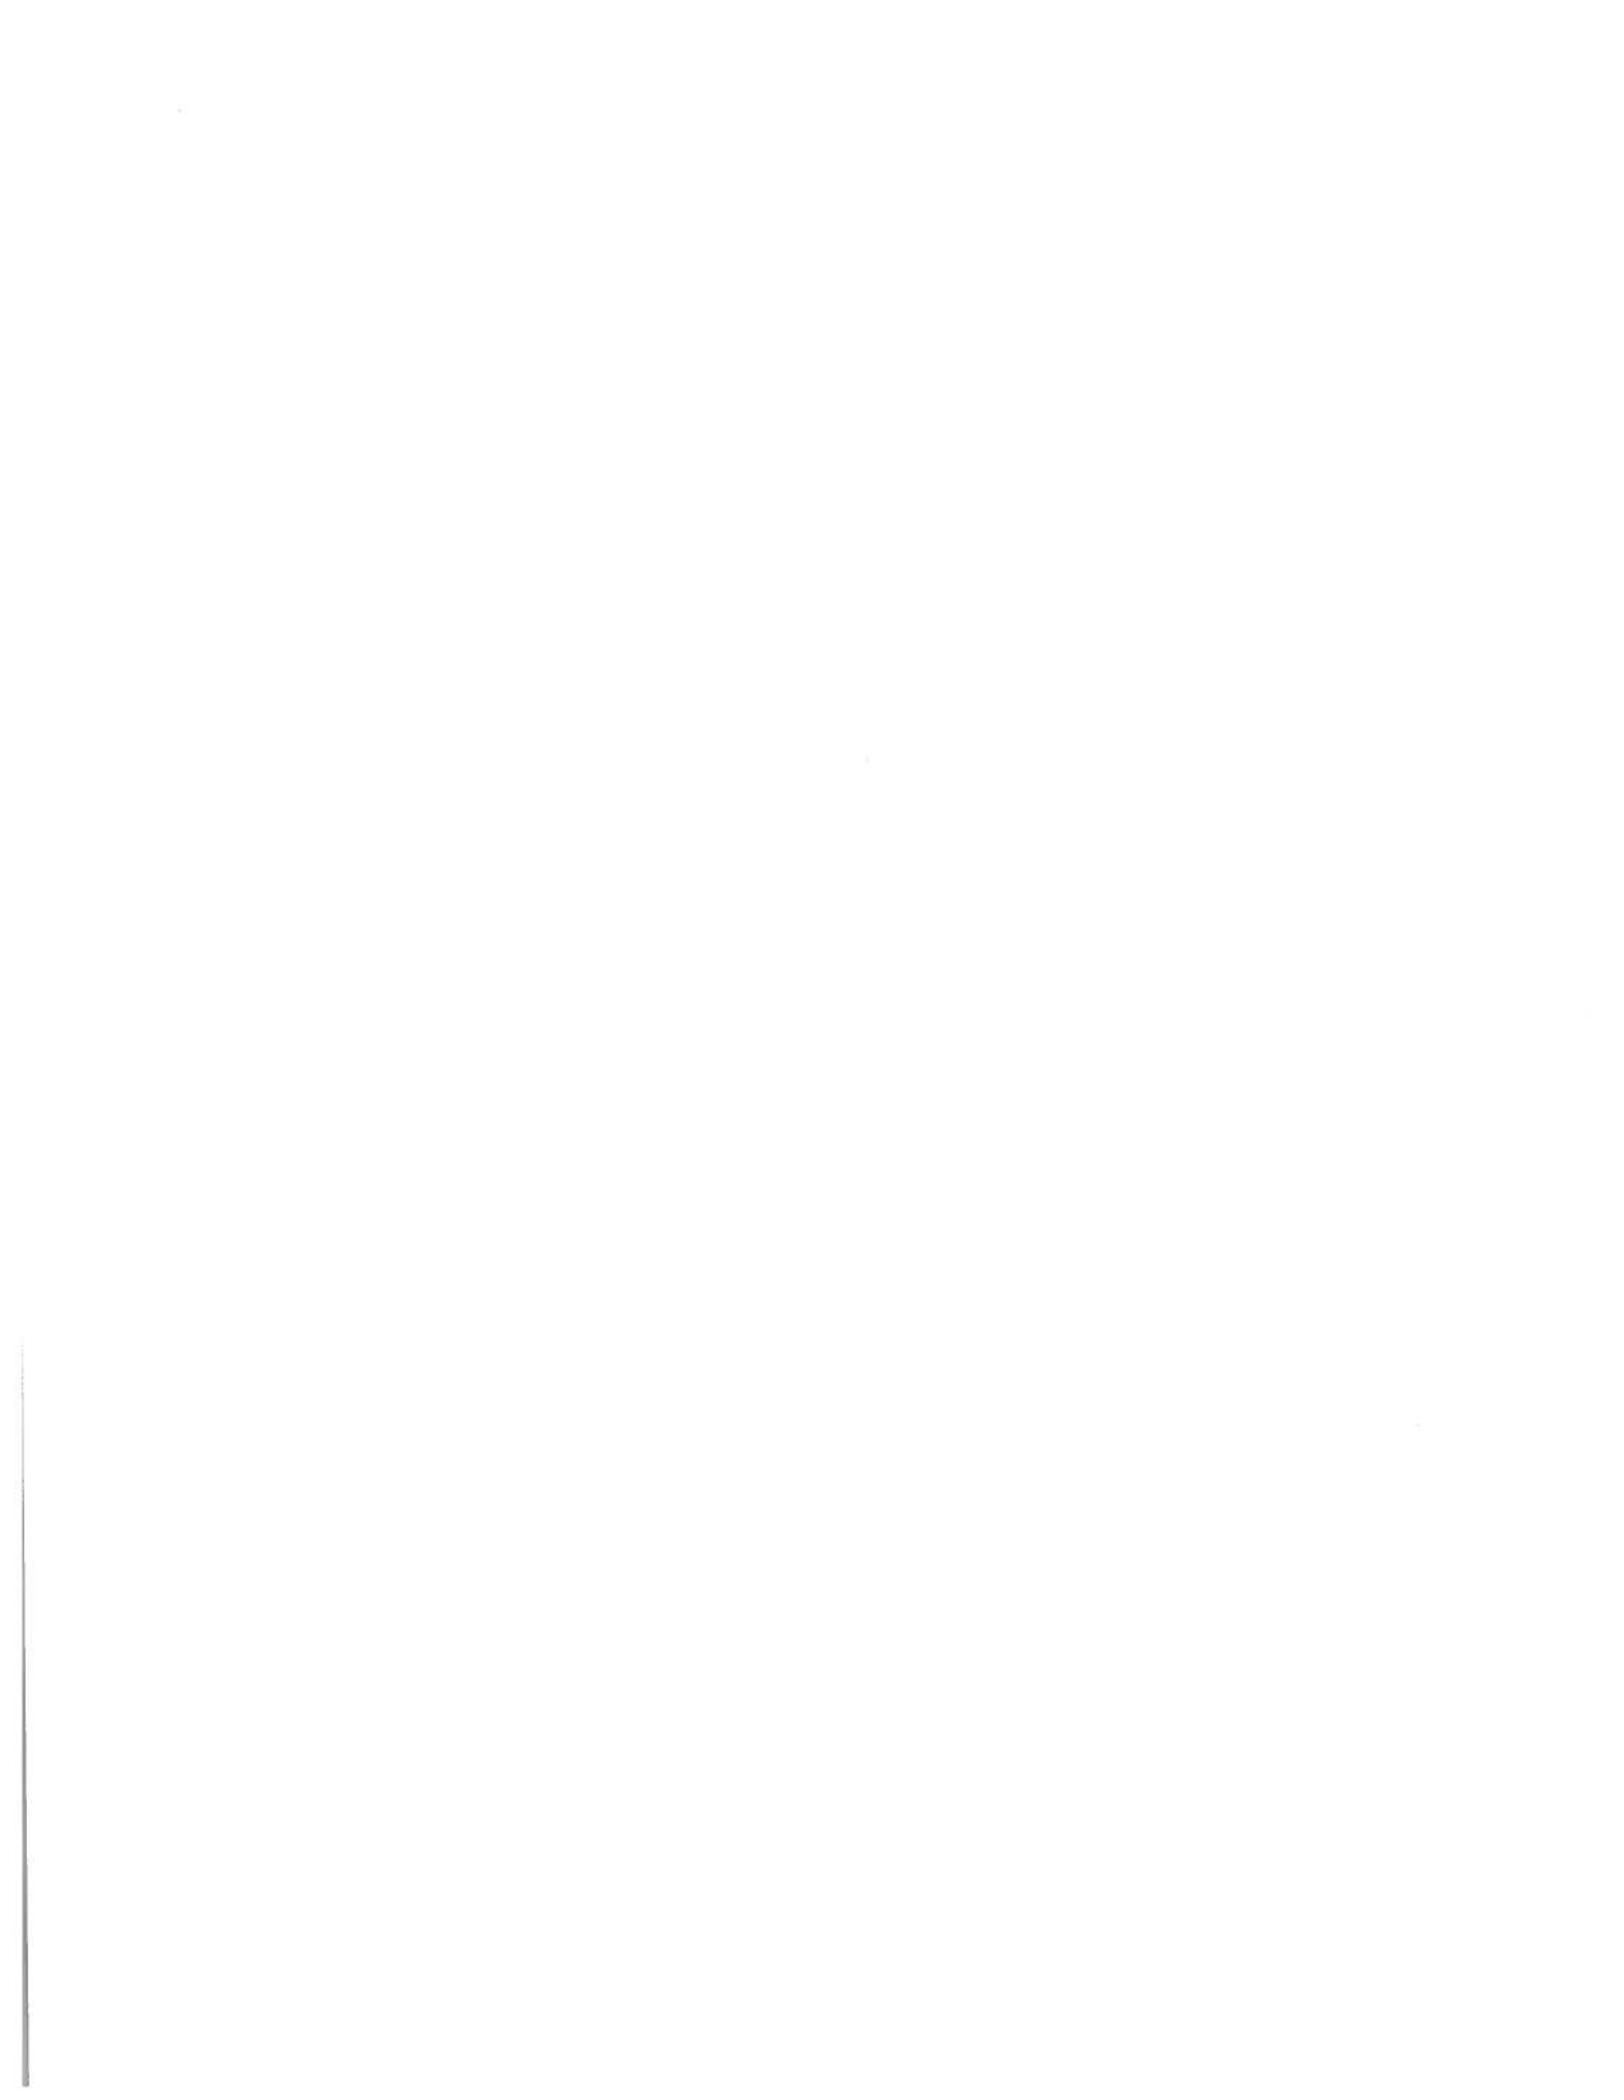

For routes marked in both directions it is often easier to create two tables. Use a label such as: clockwise and counterclockwise or north and southbound. If there are suggestions for the exact location, such as 30 feet previous to the turn, please include the suggestion in the table. Before the final sign location table is finalized the proponent will show it to each road jurisdiction contact person listed to verify jurisdiction.

Signs are installed by the road jurisdictions, with costs paid by OPRD and other funding sources. Road jurisdictions incur no costs. The proponent will be the contact for any placement questions the road jurisdiction may have.

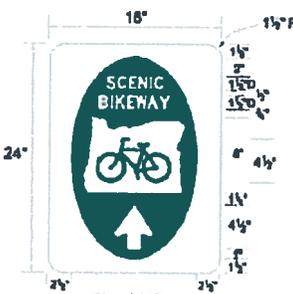

The Proponent will perform a yearly inventory of missing or damaged signs of any signs that need to be replaced.

The bikeway signs are included in the Oregon Supplement of the Manual of Uniform Traffic Code Devices. There are two sizes. The 18" by 24" sign is for towns and off road paths. The 24" by 36" sign is for county and state roads.

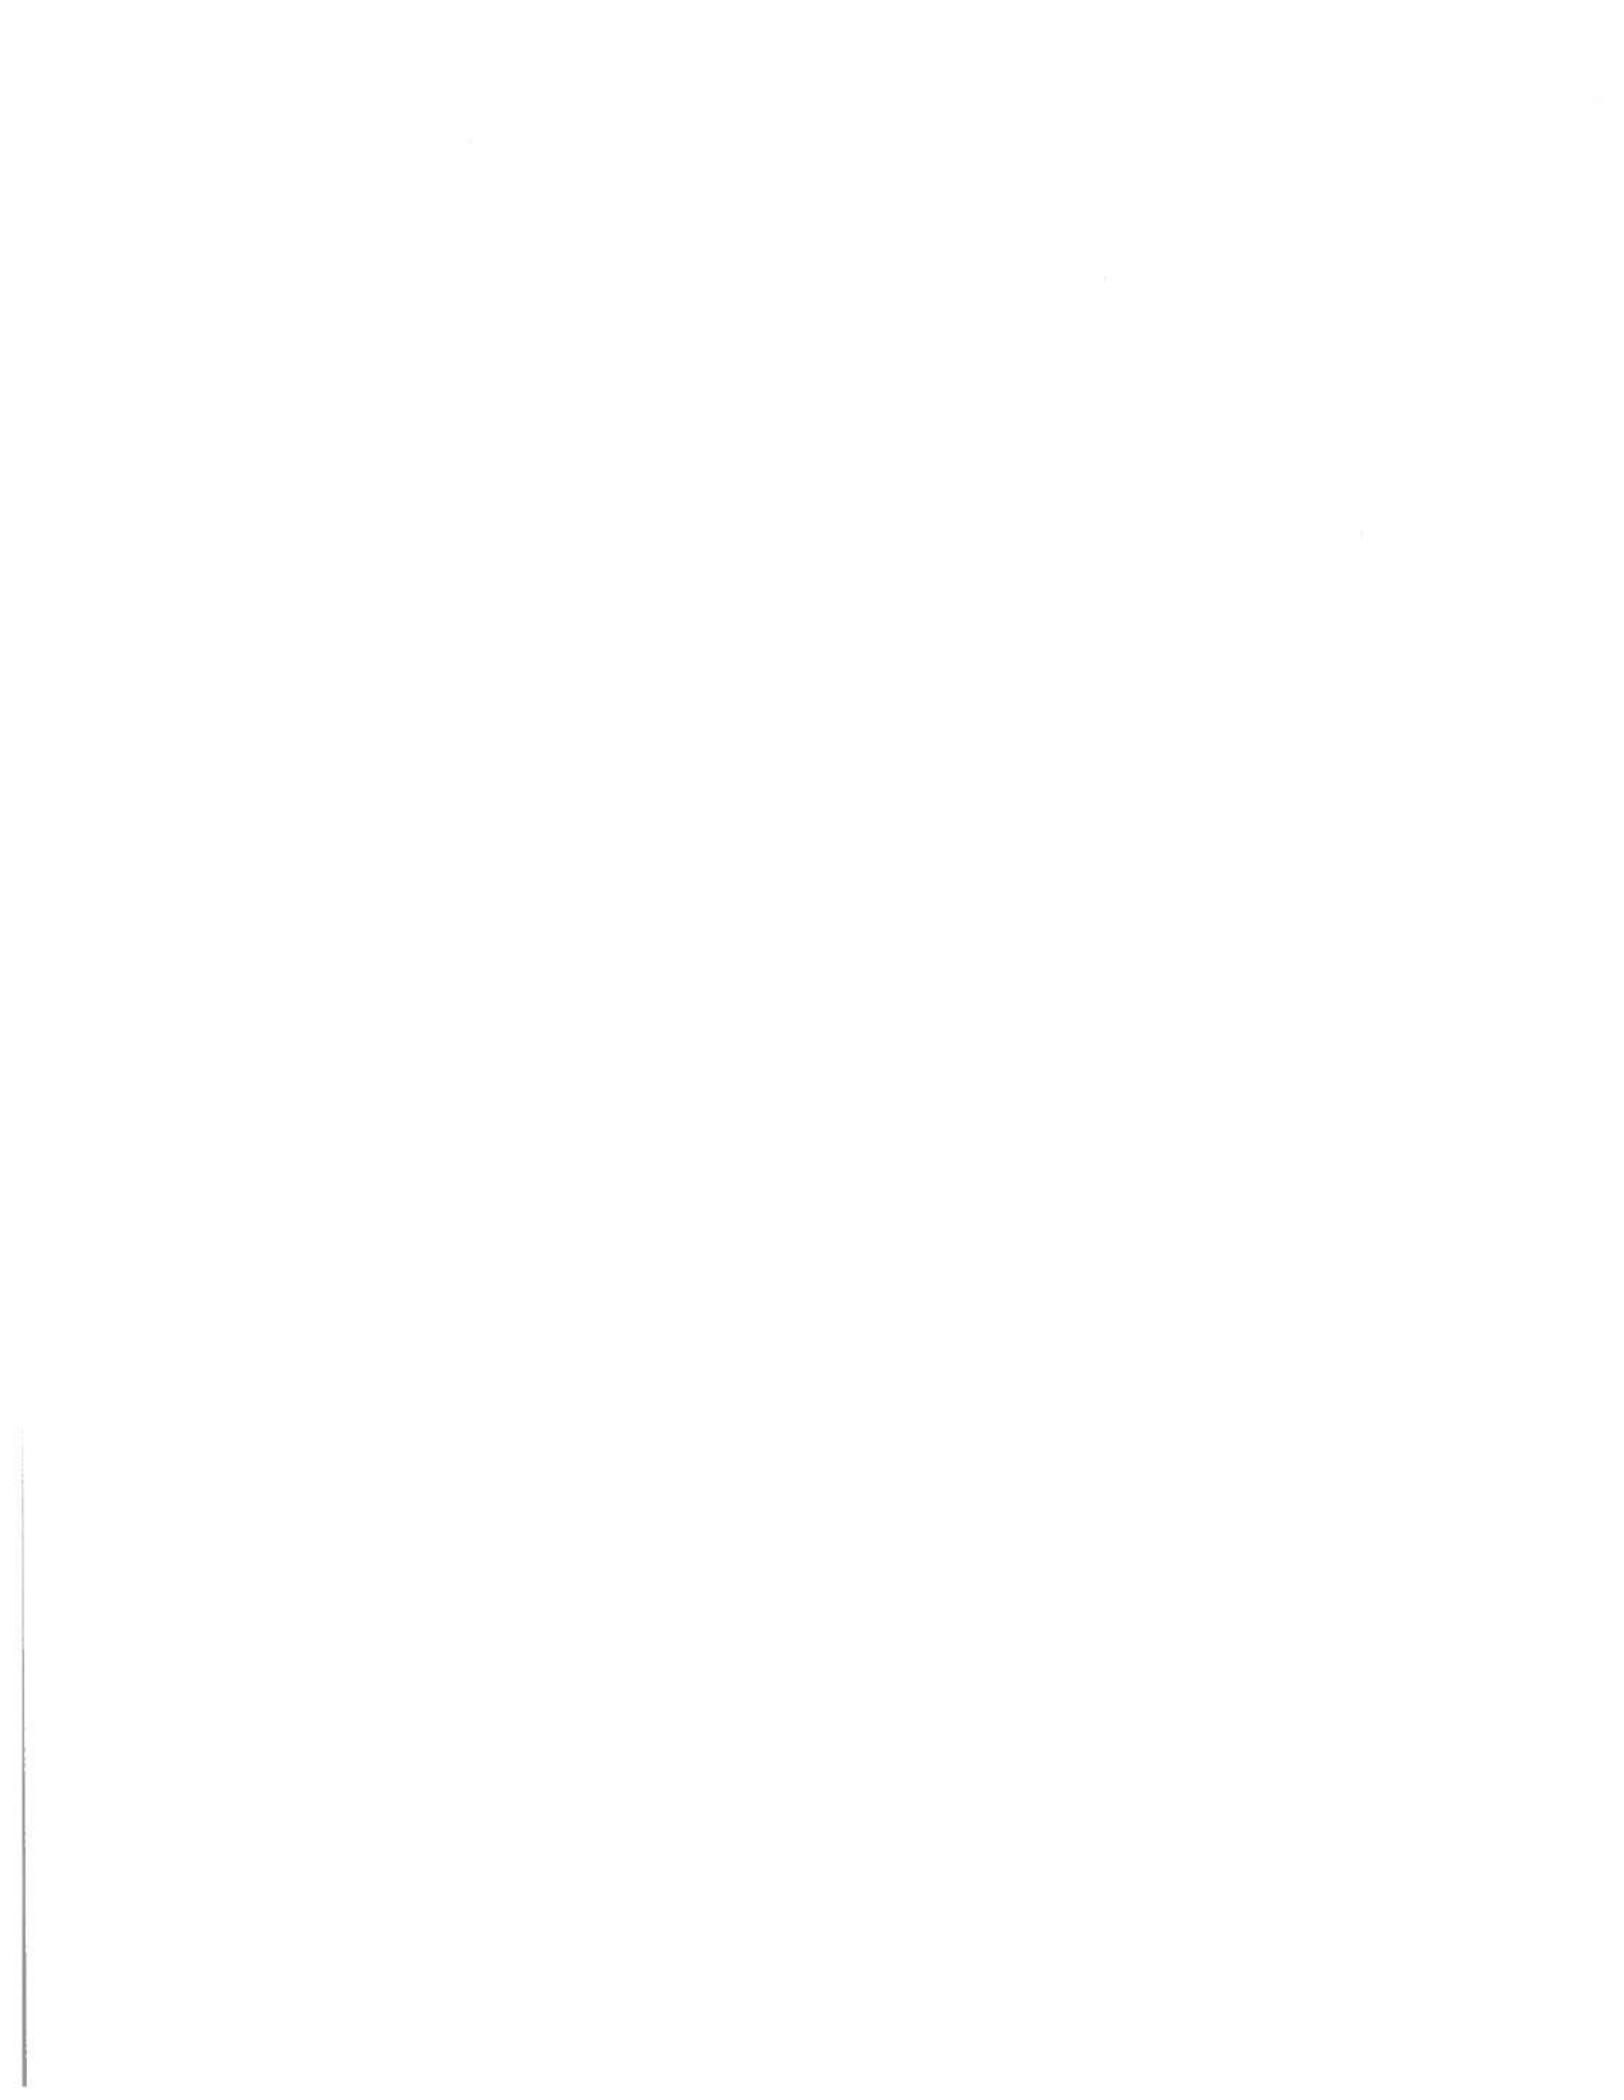

Bikeway Sign Specifications

<p>Sign No. OBM1-8</p>  <p>24"</p> <p>36"</p> <p>1 1/2" R</p> <p>2"</p> <p>3 1/2"</p> <p>2 1/2" D</p> <p>1"</p> <p>2 1/2" D</p> <p>1"</p> <p>12"</p> <p>1 1/2"</p> <p>6"</p> <p>2"</p> <p>2"</p> <p>12" x 7" bike</p> <p>5" x 6" arrow</p> <p>(5" x 7 1/2" for left, right or angled arrows; 3" x 8" for horizontal two-headed arrow)</p>	<p>Sign No. OBM1-8a</p>  <p>18"</p> <p>24"</p> <p>1 1/2" R</p> <p>1 1/2"</p> <p>2"</p> <p>1 1/2" D</p> <p>1 1/2" D</p> <p>1 1/2"</p> <p>8"</p> <p>4 1/2"</p> <p>1 1/2"</p> <p>4 1/2"</p> <p>1 1/2"</p> <p>2 1/2"</p> <p>2 1/2"</p> <p>8" x 4 1/2" bike</p> <p>4" x 4 1/2" arrow</p> <p>(4" x 6" for left, right or angled arrows; 3" x 6" for horizontal two-headed arrow)</p> <p>Note: Bike symbol should face to the right when arrow orientation is to the right.</p>

8-82

Map and Cue sheet review: The Bicycle Coordinator will send draft cue sheets and maps out for review to the proponents. The final map and cue sheets will be posted to the web.

Records of Meetings: The Proponent group must hold at least one publically announced meeting with additional public meetings strongly encouraged. The announcement can be in the calendar of events section of the local paper.

Public meetings held by the Proponent can be a regular meeting of the Proponent group that is announced and open to the public for the purposes of informing the community of the proposed Scenic Bikeway. These announced meetings are also opportunities to recruit volunteers and build community awareness. OPRD will hold a public meeting on each Bikeway after the Bikeway Plan has been accepted.

Include all records of building community awareness, including addressing city and county commissioners or submitting letters to the editor.

Preservation and enhancement goals: List potential projects the Proponent encourages and supports that will help maintain and improve the experience of riding the Scenic Bikeway. Include some items that are easily achievable or in progress, plus some longer-term goals. Completion of the goals may not be in the Proponent's control, but proponent support for the proposed project takes it one step closer to reality. Goals might fall into several sections, such as:

- Infrastructure (expanded bike lanes, bike racks)
- Interpretive Information (interpretive panels, online or hardcopy brochures)
- Business Services (developing a shuttle service, working with businesses on becoming more cycle tourist friendly)

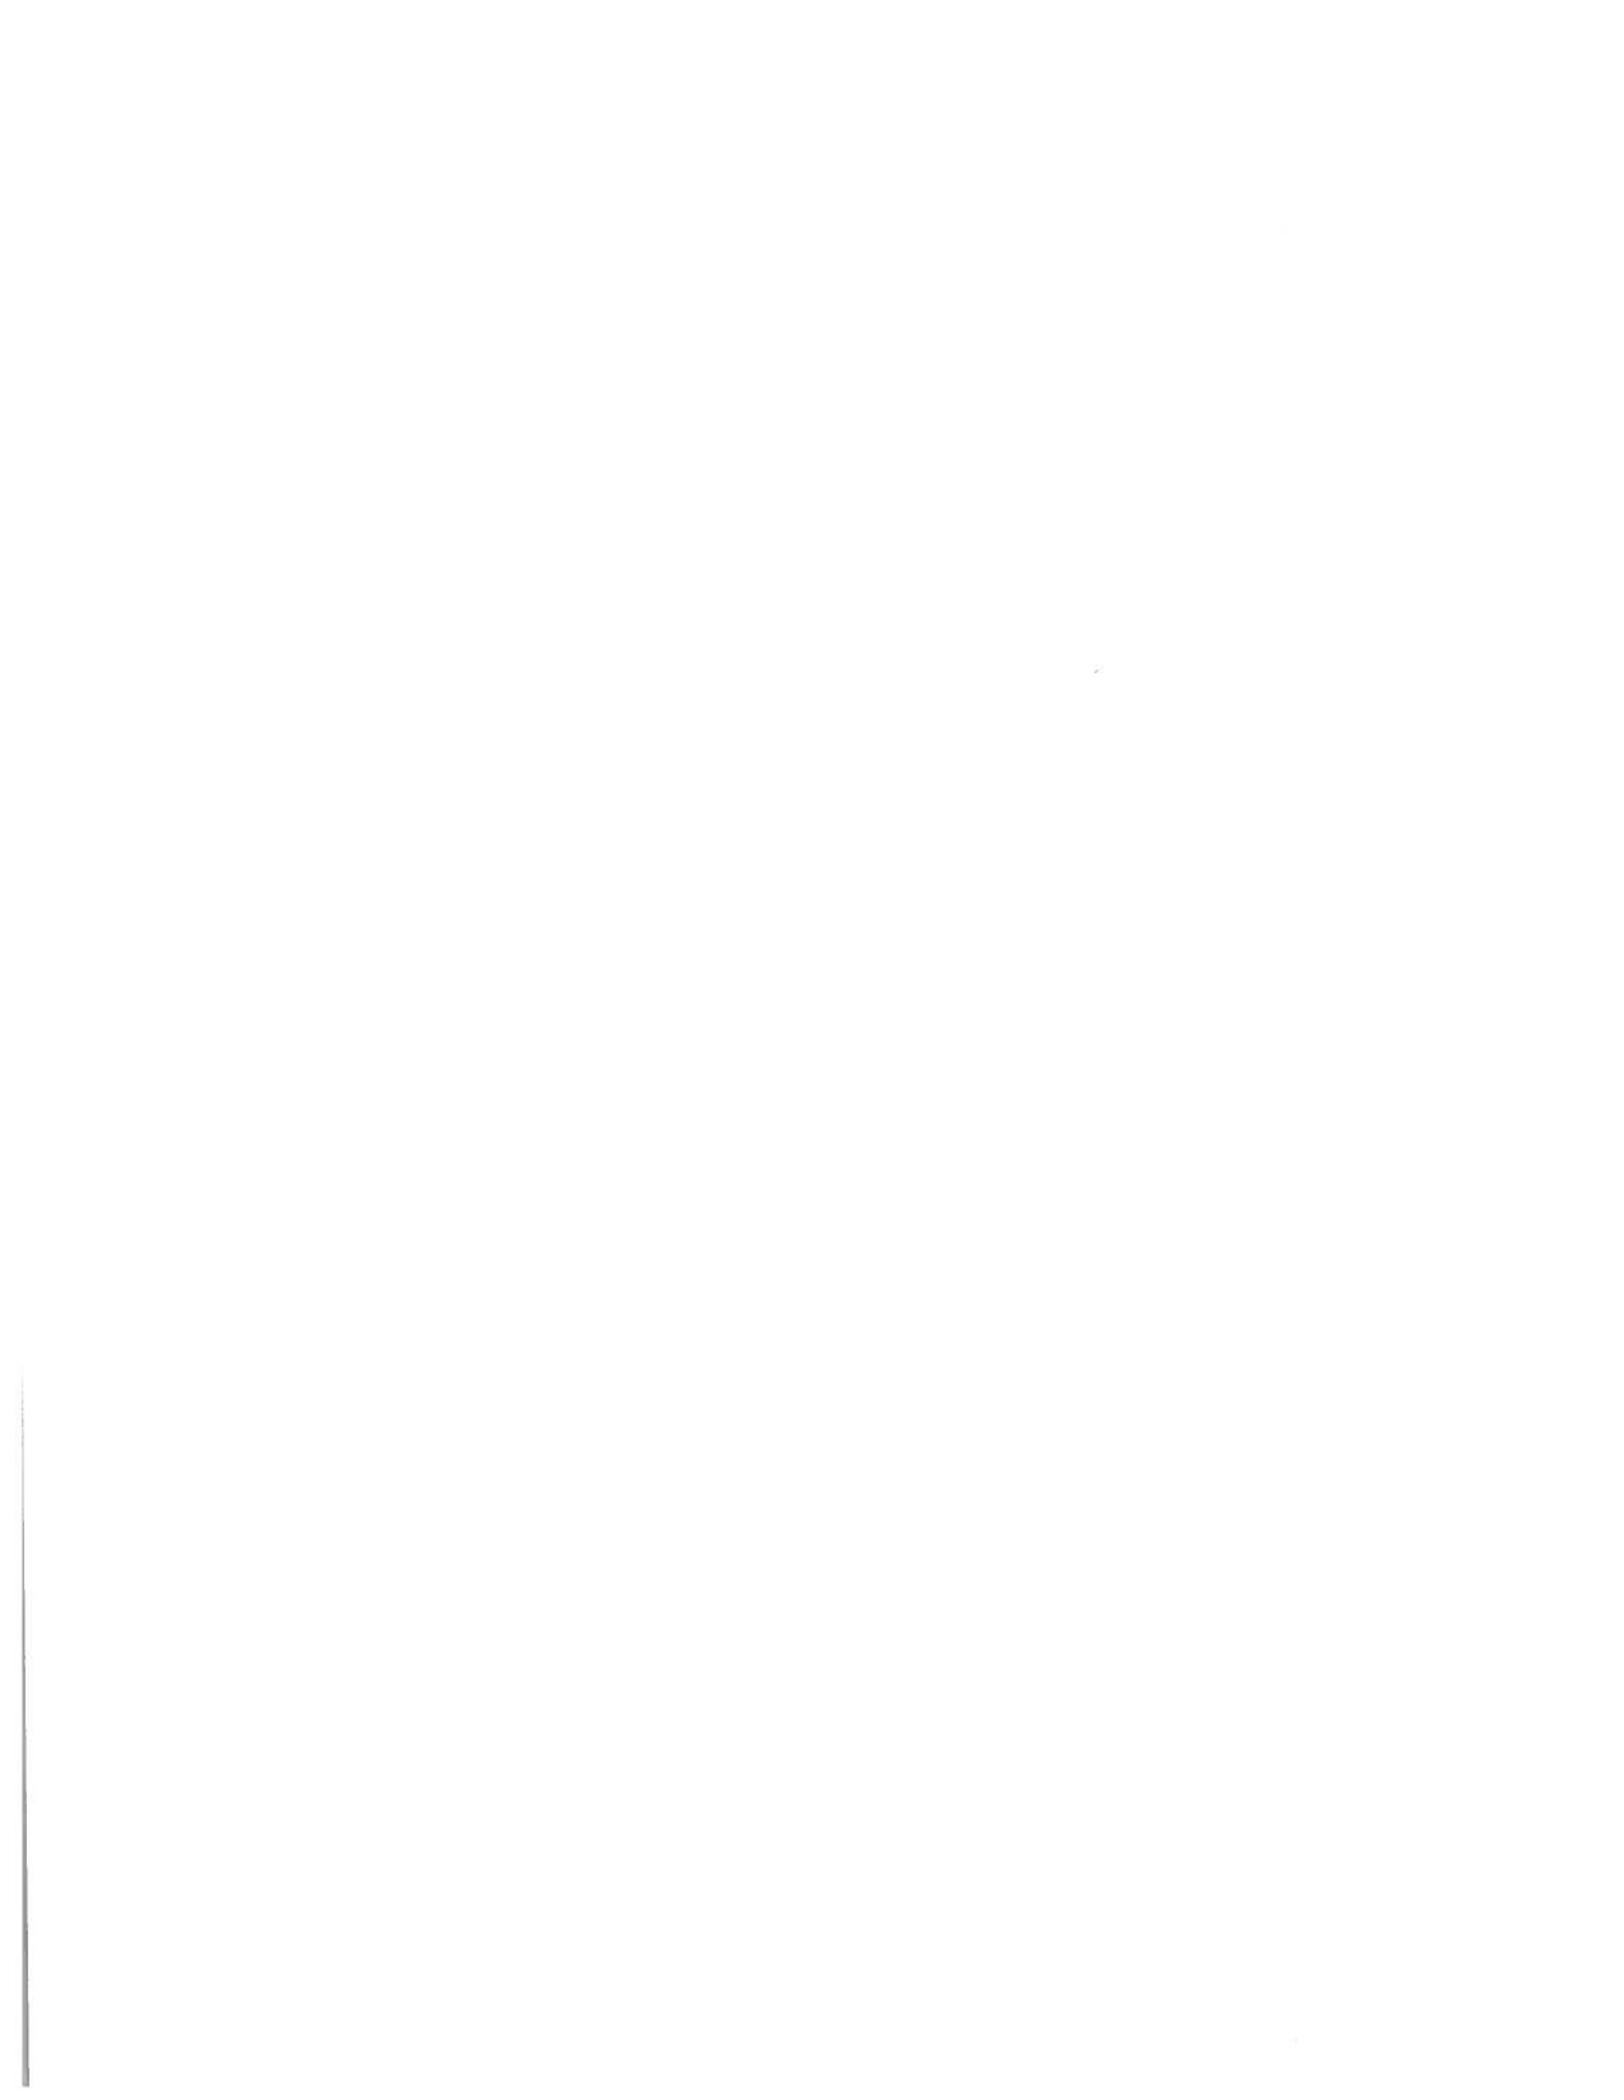

Outreach/Education to Local Businesses: Develop a list of businesses most likely to have cyclists as a part of their customer base, and start talking with them. This is an ongoing process. In the first year, Proponents may want to have several meetings and one-on-one visits with business owners, managers and staff as to identify the most interested businesses.

The Proponent meets with businesses on the list, explains the economic benefits of the bikeway and how the business owner can take better advantage of the bikeway by including the bikeway in their promotions, becoming more cyclist friendly and serve as information sources as they interact with visitors looking for things to do.

In following years, identify new businesses and refresh the business community's memory about the Scenic Bikeway through emails, calls or face-to-face meetings.

Communicating to businesses through a "Main Street" program is a great way to speak with many businesses at once. Not all communities have this program in place.

Marketing the Route

Web Action Items: Rideoregonride.com is the interactive cycling website hosted by Travel Oregon. Designated Scenic Bikeways are posted in a special section of the site. Proponents are to assign at least one person to post timely comments to the rideoreognride.com site.

Post comments that potential visitors can use to help plan their trip on the rideoregonride.com, such as "Snow has been cleared on McKenzie Pass and is now open for bicycles all the way Windy Point" or "Store at Austin Junction now open for season".

Post comments on road closure or conditions that making cycling difficult. Inform OPRD of these for posting on the state website. Send corrections and additions to content editor at: info@rideoregonride.com

Oregonscenicbikeways.org is the direct address for the State Parks and Recreation Department's Scenic Bikeway web page. Ride descriptions, maps and cue sheets are posted on this site. For updates and/or corrections to this site, contact Alex Phillips at alex.phillips@state.or.us or call 503-986-0631.

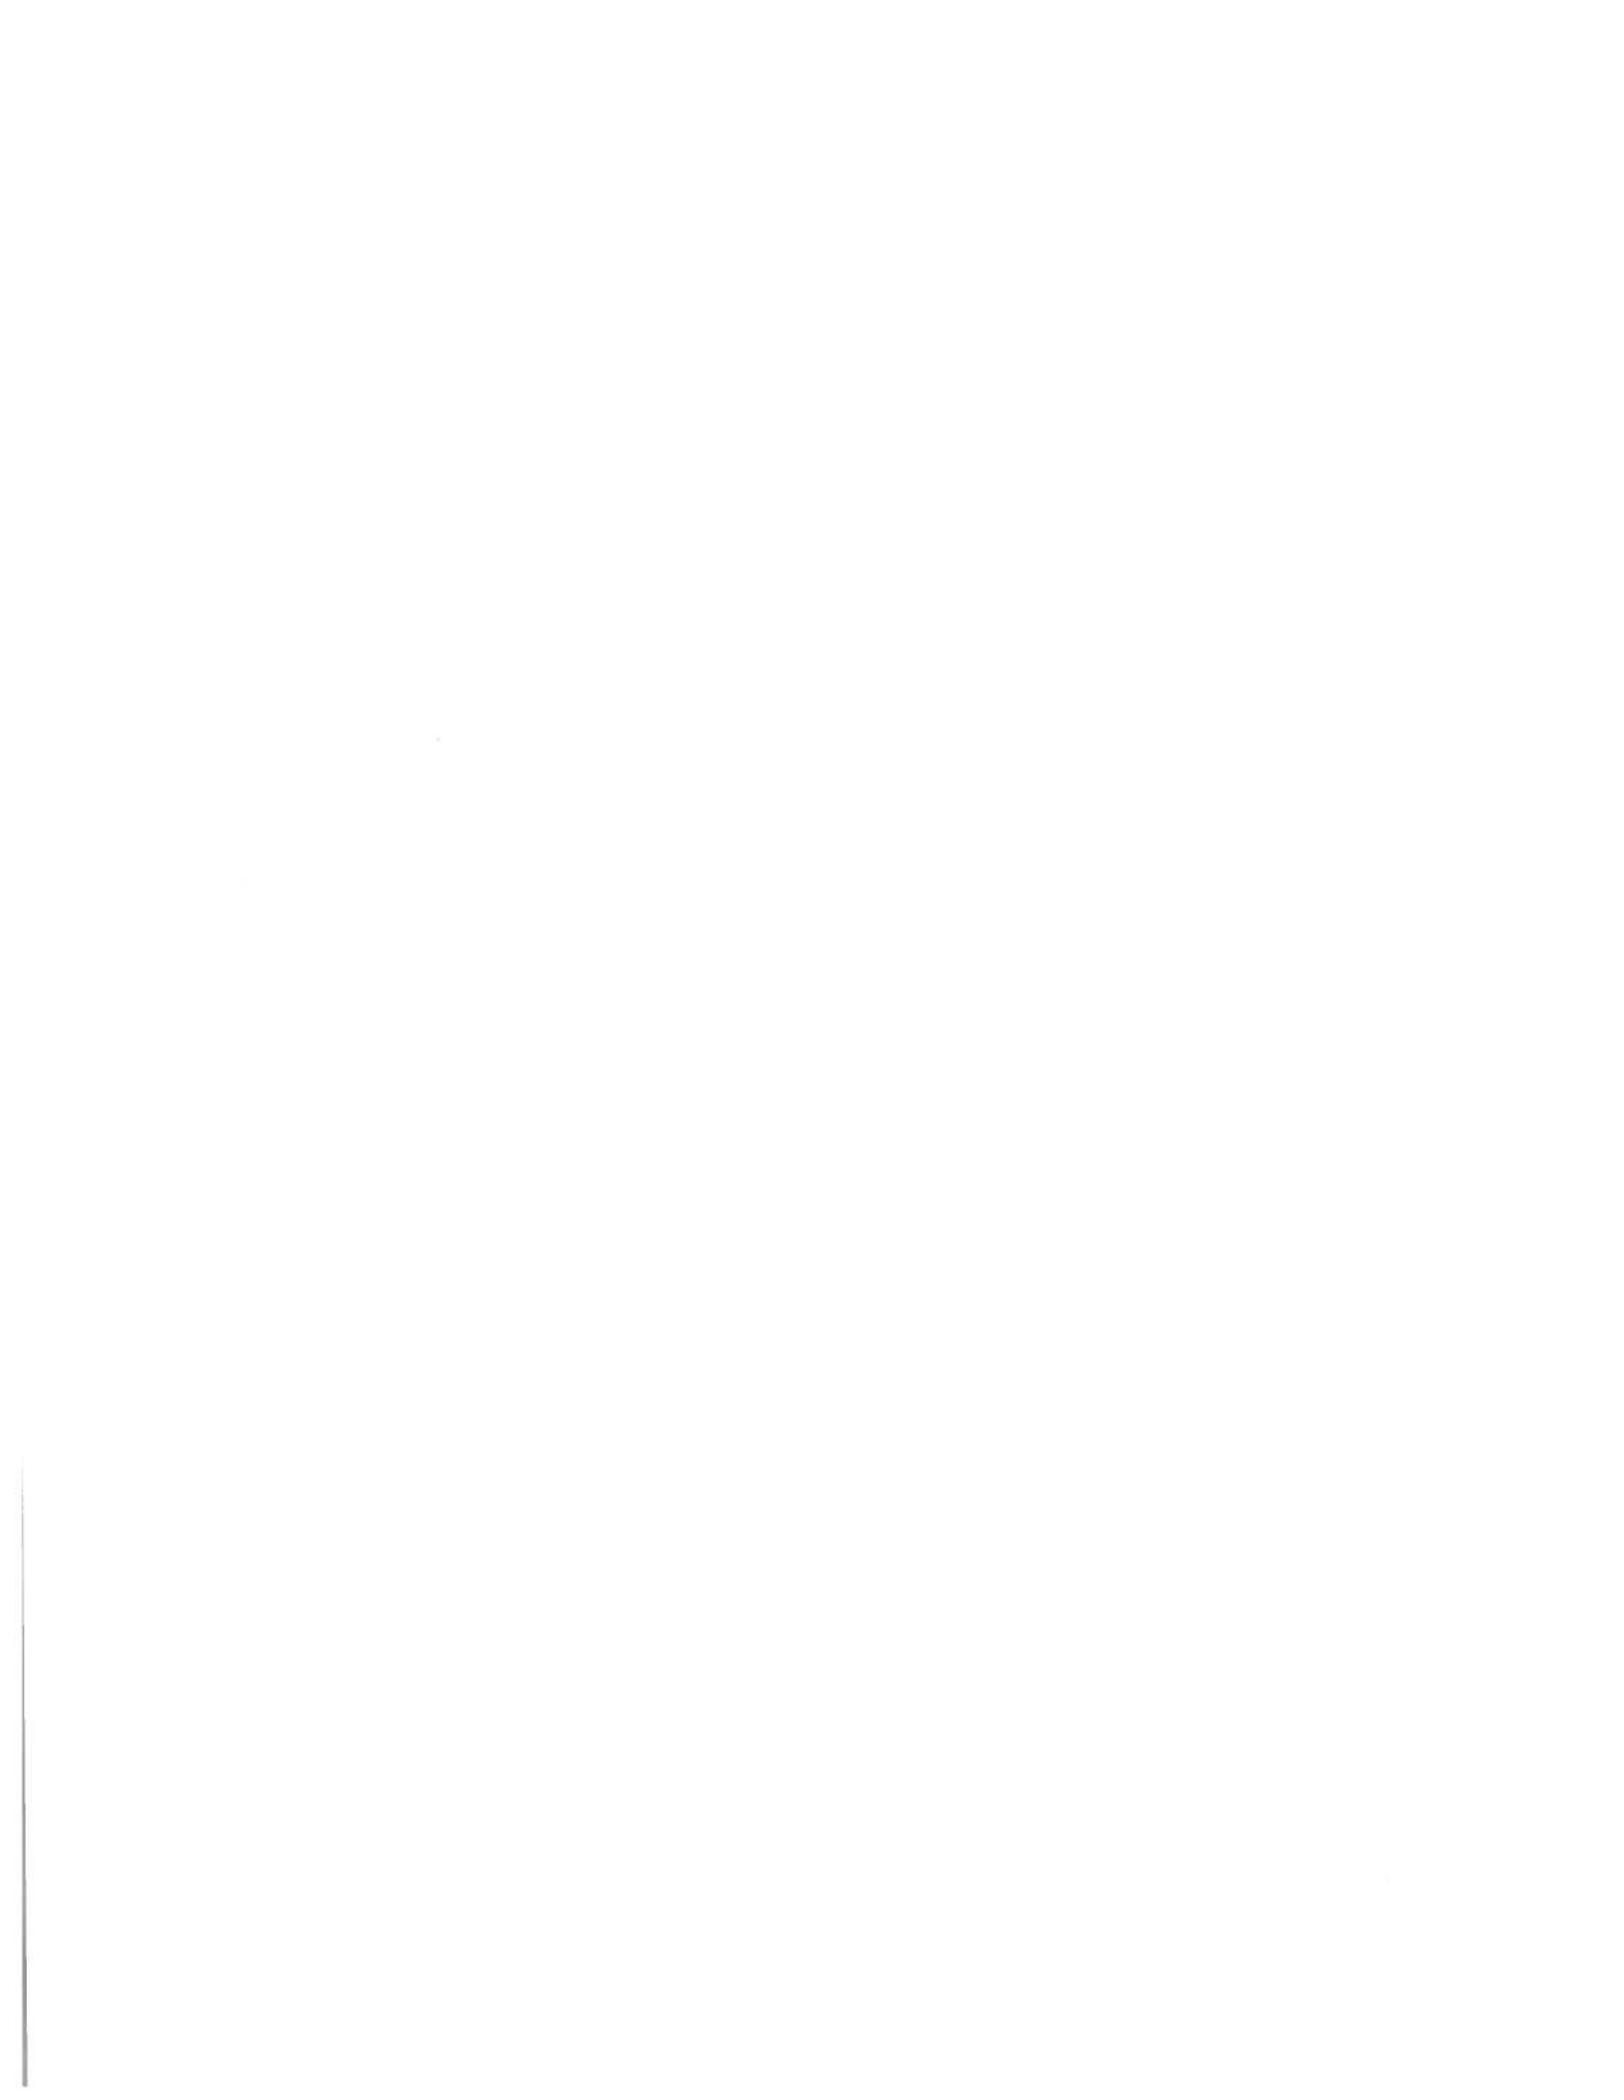

Working with Local Tourism Organizations: Travel Oregon and OPRD are working to promote the bikeways nationally and internationally. The proponent's role is to work with the local Destination Marketing Organization and work with them to supply the information needed. To find the destination marketing organization for your area: <http://industry.traveloregon.com>.

Proponents will need to work closely with their local and regional Destination Marketing Organizations (DMOs and RDMOs) as they develop and implement marketing activities. For a complete list of Destination Marketing Organizations in Oregon, visit the resource library on Travel Oregon's industry website at <http://industry.traveloregon.com>.

Ride description: Create a ride description of 300 words or less to inspire potential visitors by describing what a cyclist will experience on the ride. Is the ride challenging and remote, or are there lots of services along a family-friendly route? Are there historical sites on the route? The goal of the description is to inspire riders to visit your Bikeway, not give all the details. Once they've decided to visit, they can get more specific information.

The ride description will be used on Rideoregonride.com, oregonscenicbikeways.org and in media releases.

Measuring Bikeway Effects: A major goal of marketing efforts is to increase ridership of the Scenic Bikeway and tourism revenue to the community. Ideally, these increases will be measured to determine which efforts give the best results and demonstrate the benefits of bicycle tourism to the community.

Proponents can consider organizing a bicycle count before designation and after designation to measure the effect.

A great way to tell the story of a successful bikeway is via quotes from business owners and residents. While visiting businesses, ask if there is an increase in business because of the bikeway and/or an increase in cyclists using their business. Collecting these quotes can be invaluable when gaining additional or stronger support for a bikeway.

Cyclist category(ies): Identify the types of cyclists who will ride the Scenic Bikeway. Local businesses, OPRD and Travel Oregon will use this information in their marketing plans.

A few cyclist categories to consider are:

- **Touring Cyclists:** Individuals and small groups interested in multi-day trips. They carry gear on their bikes, camp or stay in hotels and occasionally use support vehicles.
- **Adventure Cyclists:** Individuals and small groups interested in challenging rides longer than 50 miles per day, maybe using a base or touring.
- **Family Travelers:** Adults traveling with kids wanting a "family-friendly" cycling experience with off road paths or roads with very little traffic, wider shoulders and more frequent services.

The above categories can be further defined by the types of destinations and experiences a Scenic Bikeway offers. For example, wineries can attract cyclists interested in local wines and produce. Historical sites can attract cyclists interested in history and preservation.

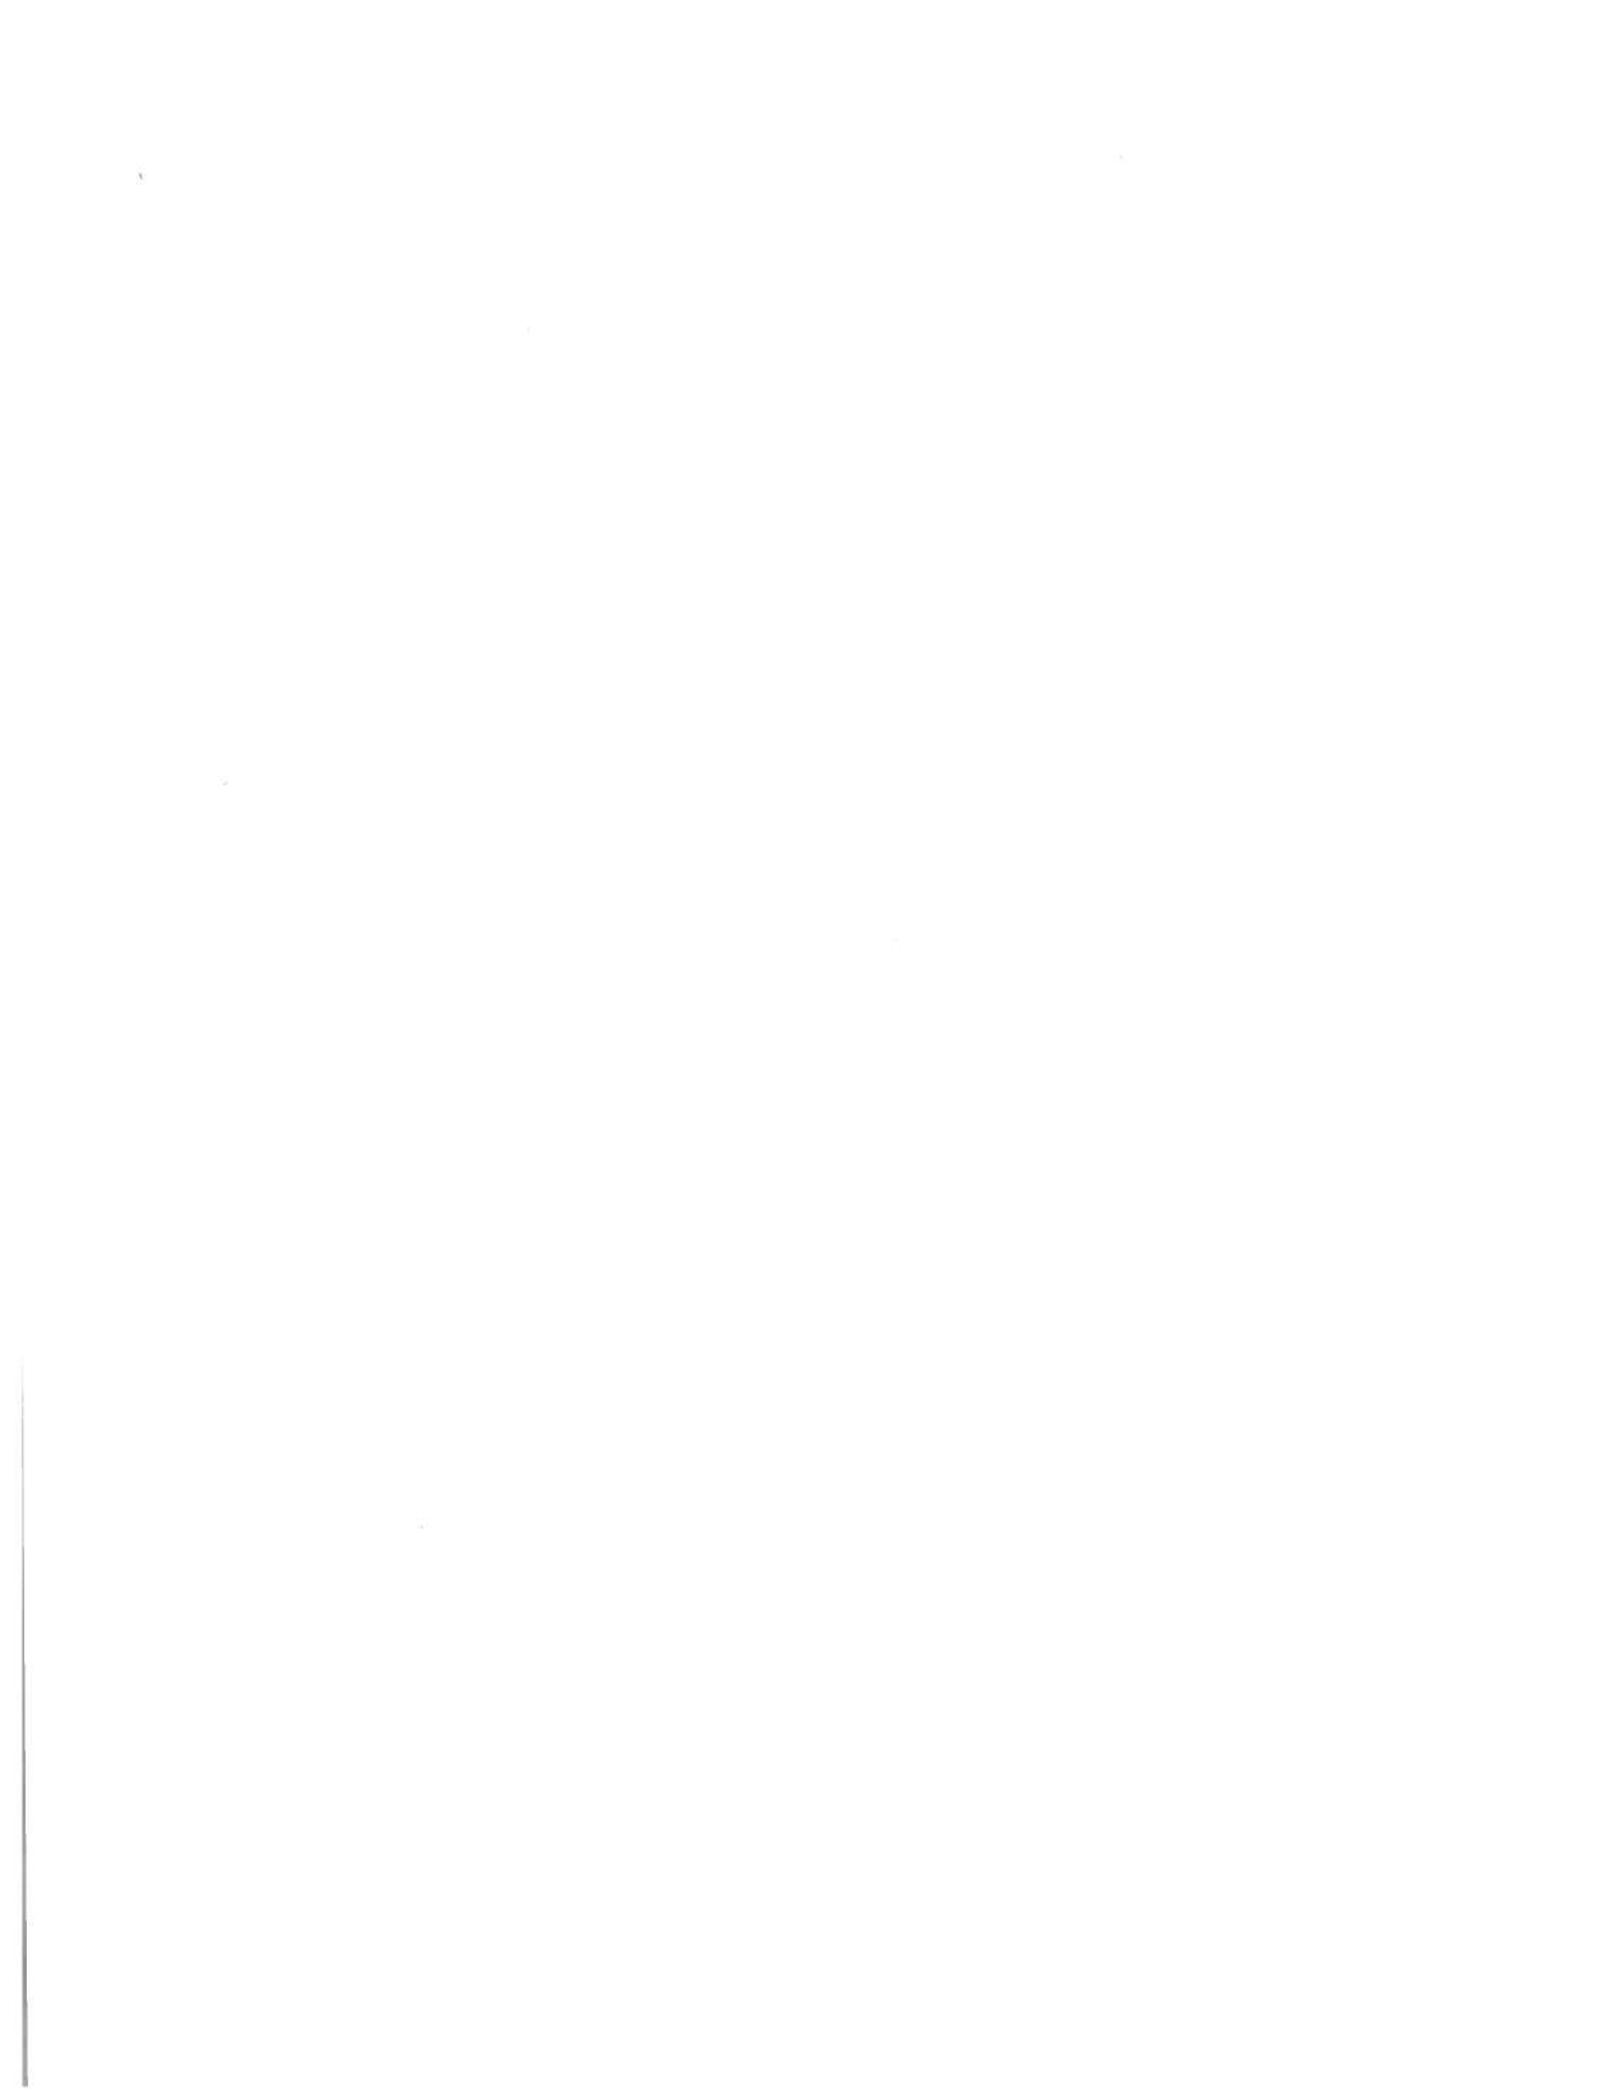

Electronic photos: Provide three to four high quality photos in jpg or other photo format sent via email or CD, meant to inspire potential visitors to ride the route. The photos will be used on the two websites. It is recommended that photos show cyclists following the rules of the road and wearing helmets.

Final letters of support from all road jurisdictions: These final letters are in addition to the initial letters of support in the application. Letters of support are needed from all road jurisdictions as well as each county and city the Bikeway passes through, even if the jurisdictions are not responsible for any of the roads. Letters from Forest Service and BLM are needed if the Bikeway parallels or enters into lands managed by those agencies.

Preservation and enhancement

- Work with the Historical Society to seek funding for the installation of an interpretive kiosk at Lena, and install access to potable water.
- Advocate and support inclusion of the Bikeway roadways on the priority list for paving, improving the surface from chip-seal.
- Expand the core group of Proponents working on the Bikeway by recruiting one person from the county planning office to act as liaison with the county. Recruit other organizations, such as historical societies and pedestrian and neighborhood groups that may share in some of the goals.
- Formally request that the county install bike lanes or larger shoulder on a section of the Bikeway.
- Work with the land manager to install potable water in a remote area on the Bikeway.
- Work with the county to ensure that the bikeway is included in the Transportation System Plan.

Outreach to Businesses

Businesses to be contacted the first year

Business	Who will contact
The Mountain Works bike shop	Anita Metlen
Independence Bed and Breakfast	Roger Yeates
The Grand Hotel	Anita Metlen
Mount Vernon Hostel	Mike Cosgrove

Anita and John will visit with the owner/manager of each business listed, with the purpose of informing the business of the Bikeway’s tourism draw, and will supply the description and talking points to the business and encourage it to use the bikeway to attract people to the business.

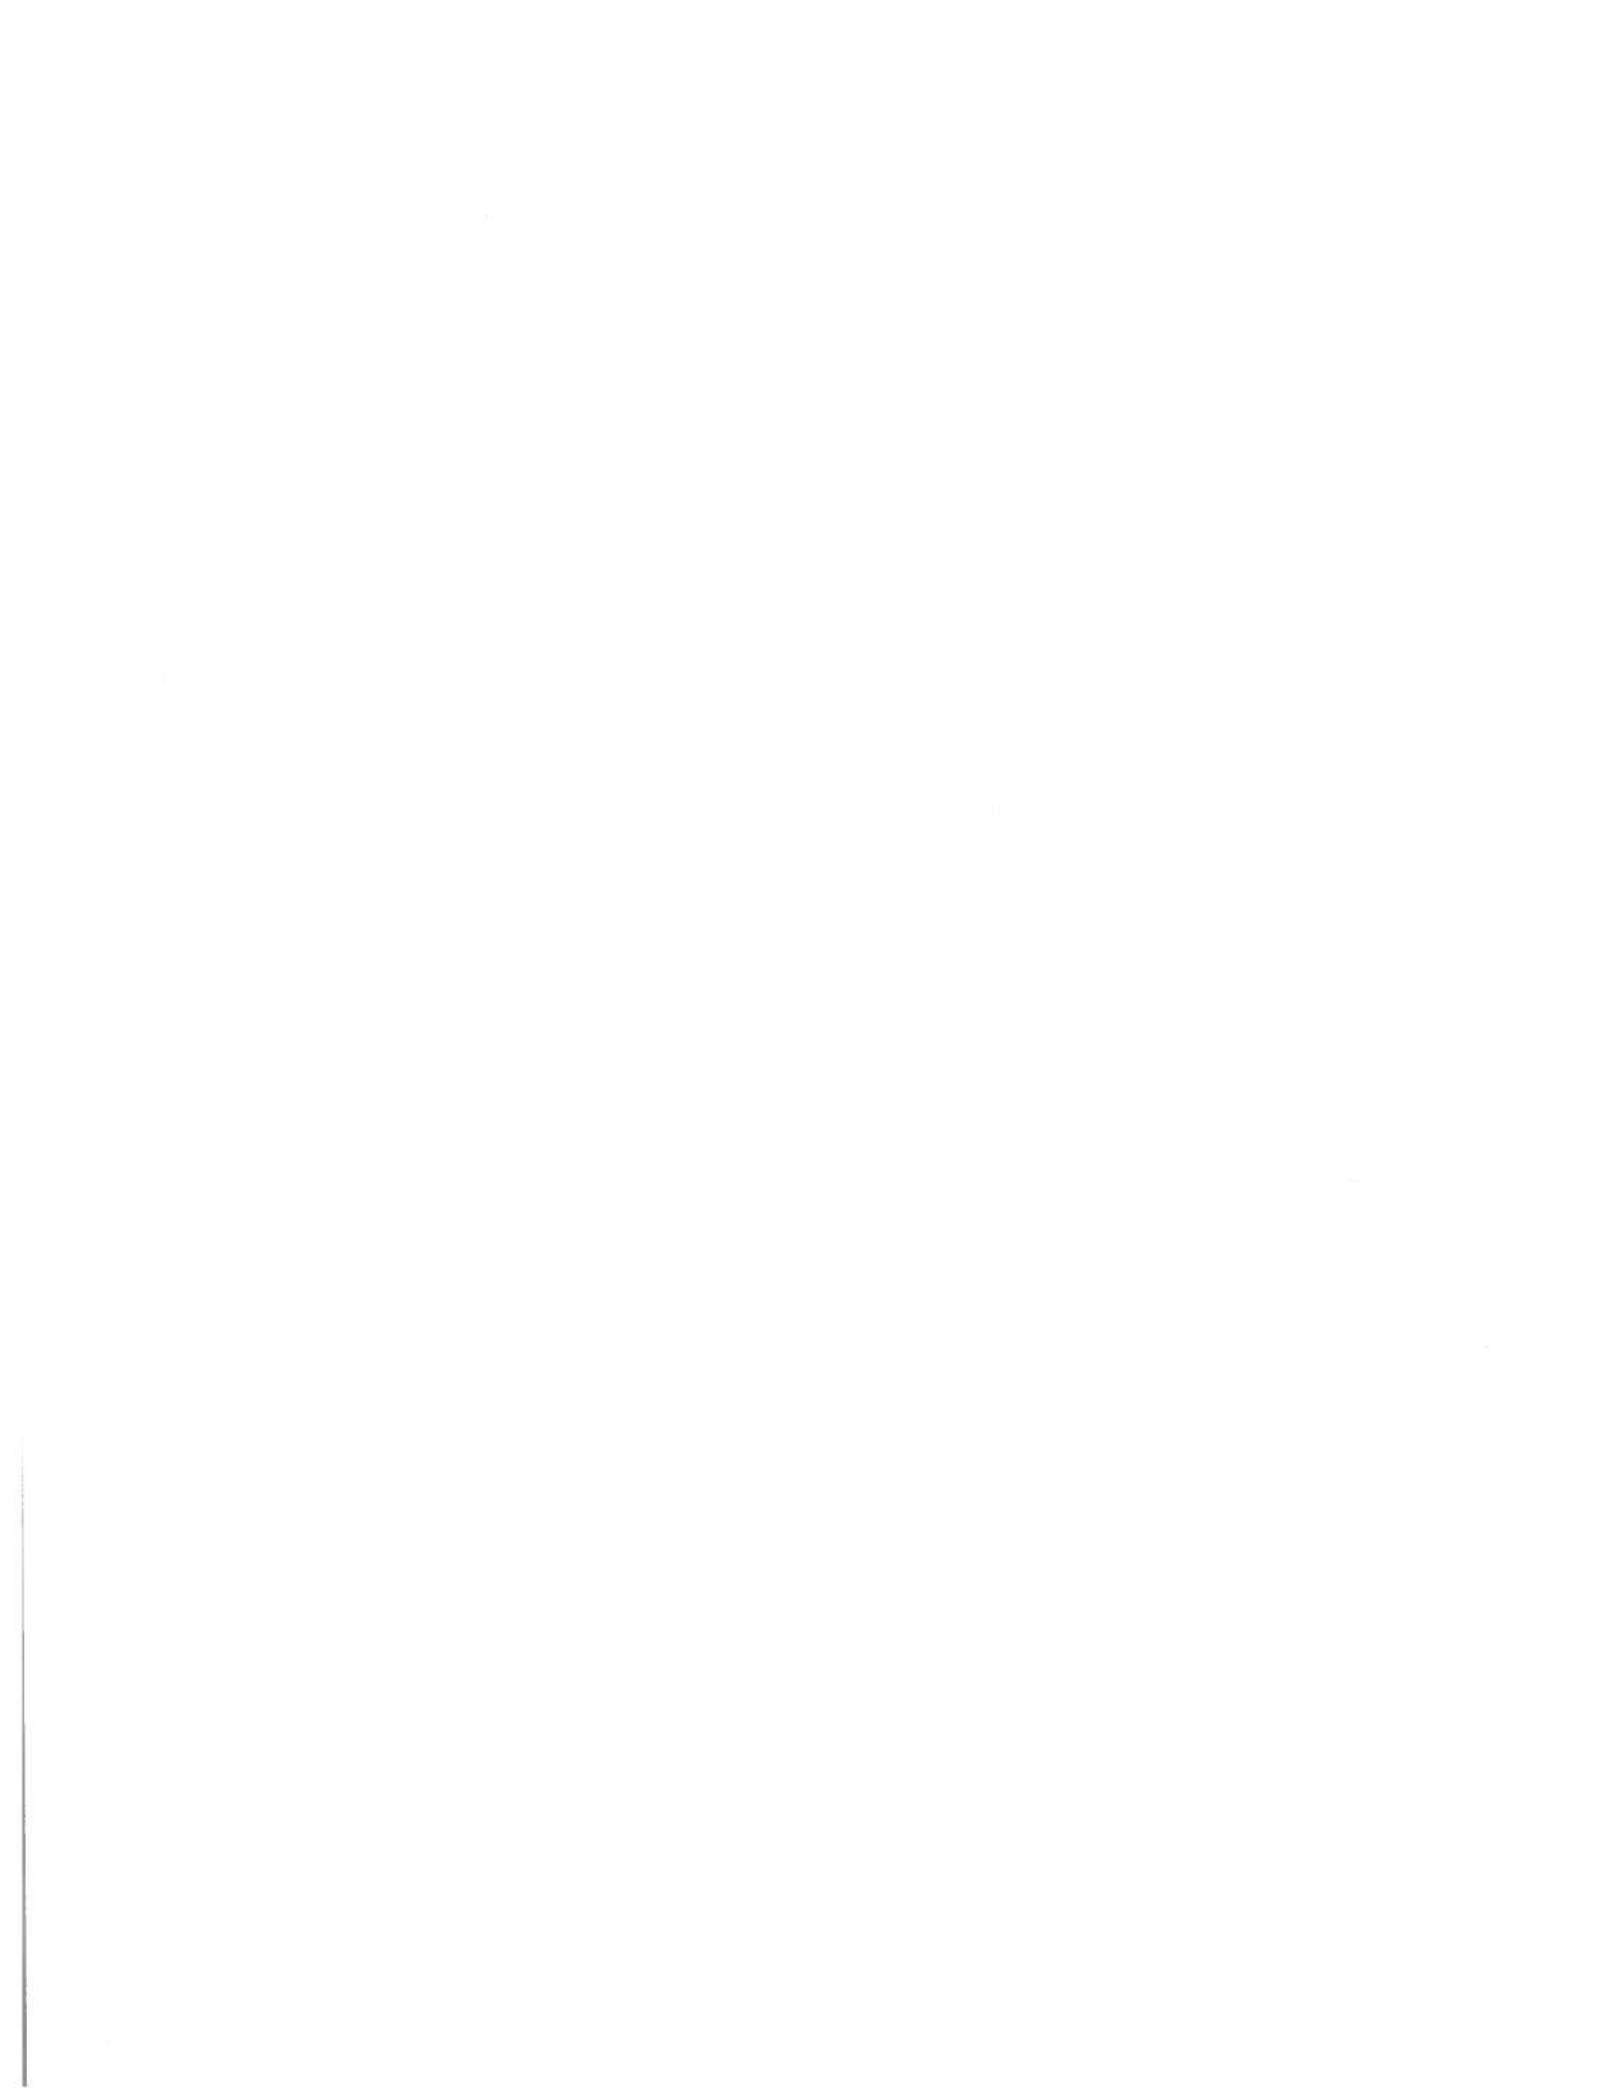

Each year before the cycling season, Anita and Joe will revisit each of the businesses to refresh their memory of the Bikeway. Revisits to those most interested or most actively marketing the Bikeway will be done in person. Other revisits will be done by phone or email.

Web action items

Proponent group member, Joe Webman, working with other volunteers, will:

- Post comments to Rideoregonride.com several times through the winter and every other week during the riding season.

- Inform Bicycle Coordinator of information for posting on www.oregonscenicbikeways.org

Marketing action items

- Supply DMOs, RMOs and the Bicycle Coordinator with high quality photos for use in promotional material.
- Plan a kickoff event the first year of the Bikeway or at the beginning of the riding season.
- Provide DMOs ideas for seasonal and timely stories of interest to cyclists.
- Have regular meetings/calls with DMO to find out what they need to promote the bikeway.

Ride description

The Grande Tour Scenic Bikeway in northeastern Oregon offers cycling opportunities for every rider. If you are an adventure cyclist seeking a challenging destination ride, try the entire 136-mile "figure-8" route, where you'll find plenty of rolling, winding country roads with low traffic volume. Other cyclists wanting a more leisurely trip can ride segments of the route near quaint village communities with the amenities you will need to make your ride fun, comfortable and memorable.

All riders will thrill to Oregon's Outback: stunning mountain vistas, clear streams and serene farmlands. The route will take you under the scented canopy of Ponderosa pine forests, beneath towering windmills and across sweeping sagebrush rangelands. The Bikeway covers some of the same route traveled by pioneers on the Oregon Trail. Be a pioneer yourself as you discover beautiful Eastern Oregon. Watch for elk, bald eagles and pronghorn antelope. Enjoy pastoral views of cows and horses grazing. Explore a pioneer cemetery. Visit a world-famous bronze foundry. Reconnect with your soul.

Your ride begins at Riverside Park in La Grande, a community of 13,000 with convenient access to restaurants, motels, grocery stores and unique shops. The halfway point is historic Baker City, where you can refresh and spend a relaxing night enjoying excellent dining and accommodations, and treat yourself to an award-winning microbrew.

A different route brings you back to La Grande. Your wheels will sing under the big sky as miles of remote open road beckon and your cares melt away. Relax, inhale the fragrant sage and crank on! Bring water, though! It's a long way between towns out here.

Go home energized, renewed and ready to face your "other" life until your next cycling adventure!

Measuring bikeway effects

During visits to businesses we will ask if the business has seen an increase in bicyclists as customers. Any anecdotal stories will be recorded and forwarded to OPRD.

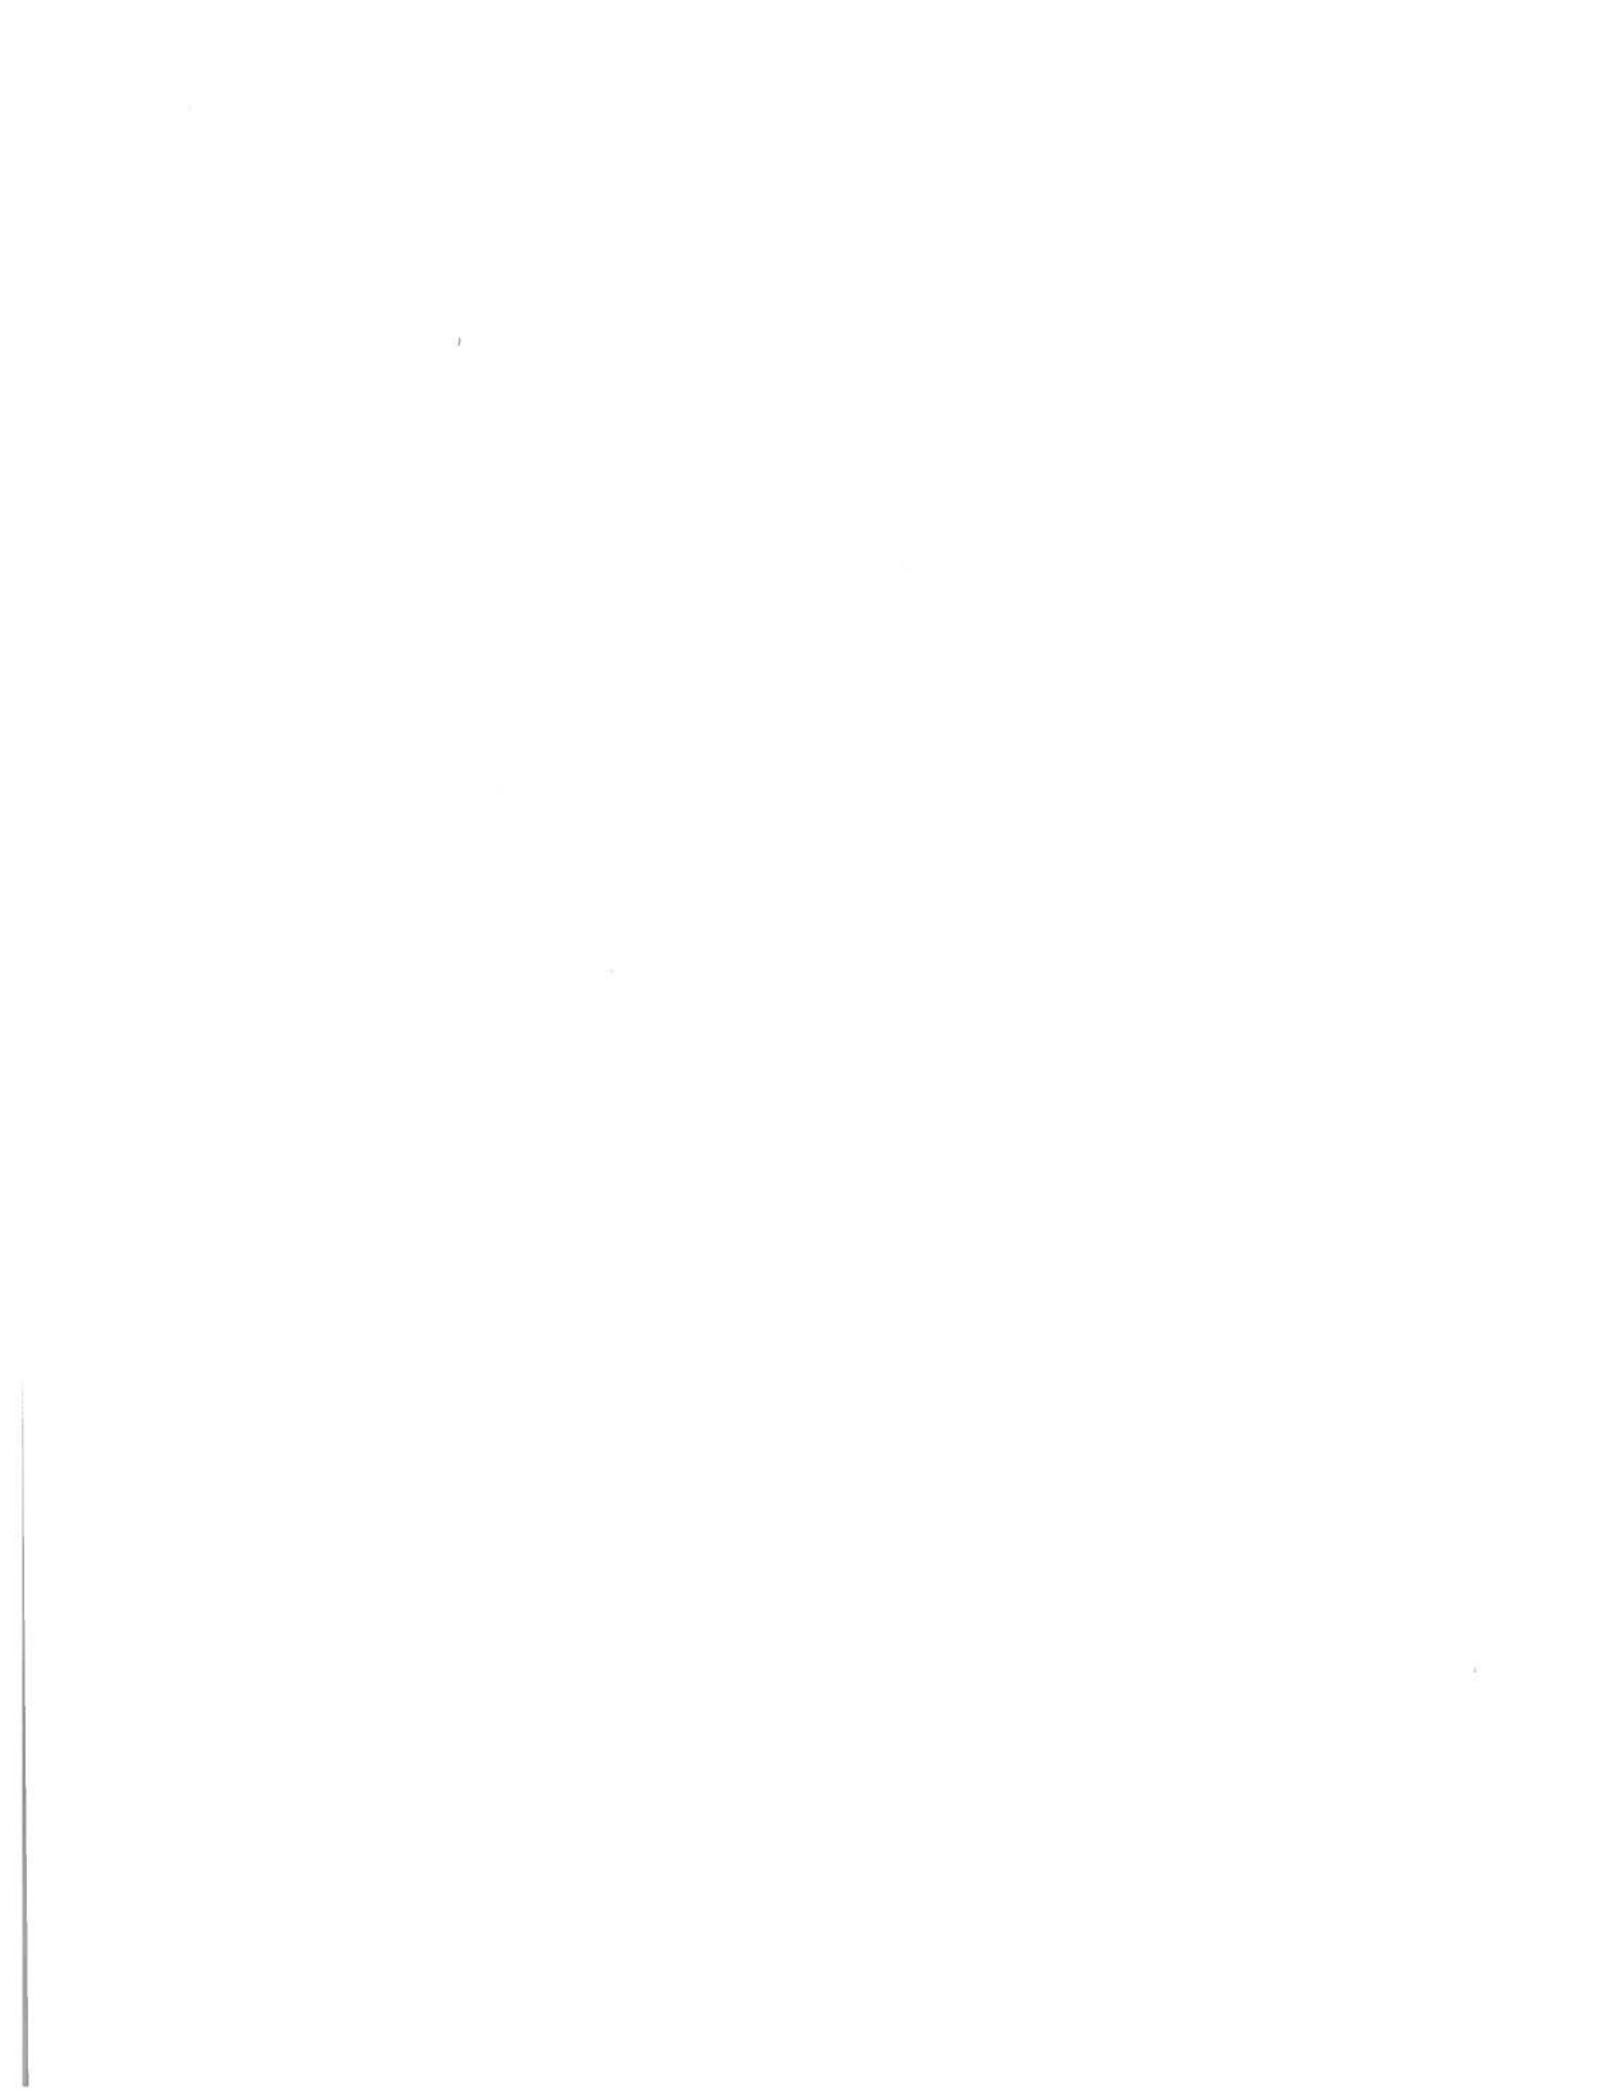

Cyclist categories

- Heritage traveler; those interested in covered bridges, historic buildings, pioneer history.
- Soft Adventurer, such as RV market, car campers, families, people who like riding bicycles.
- Adventure Cyclist, individuals and small groups that want the remote experience and physical challenges.

Electronic photos

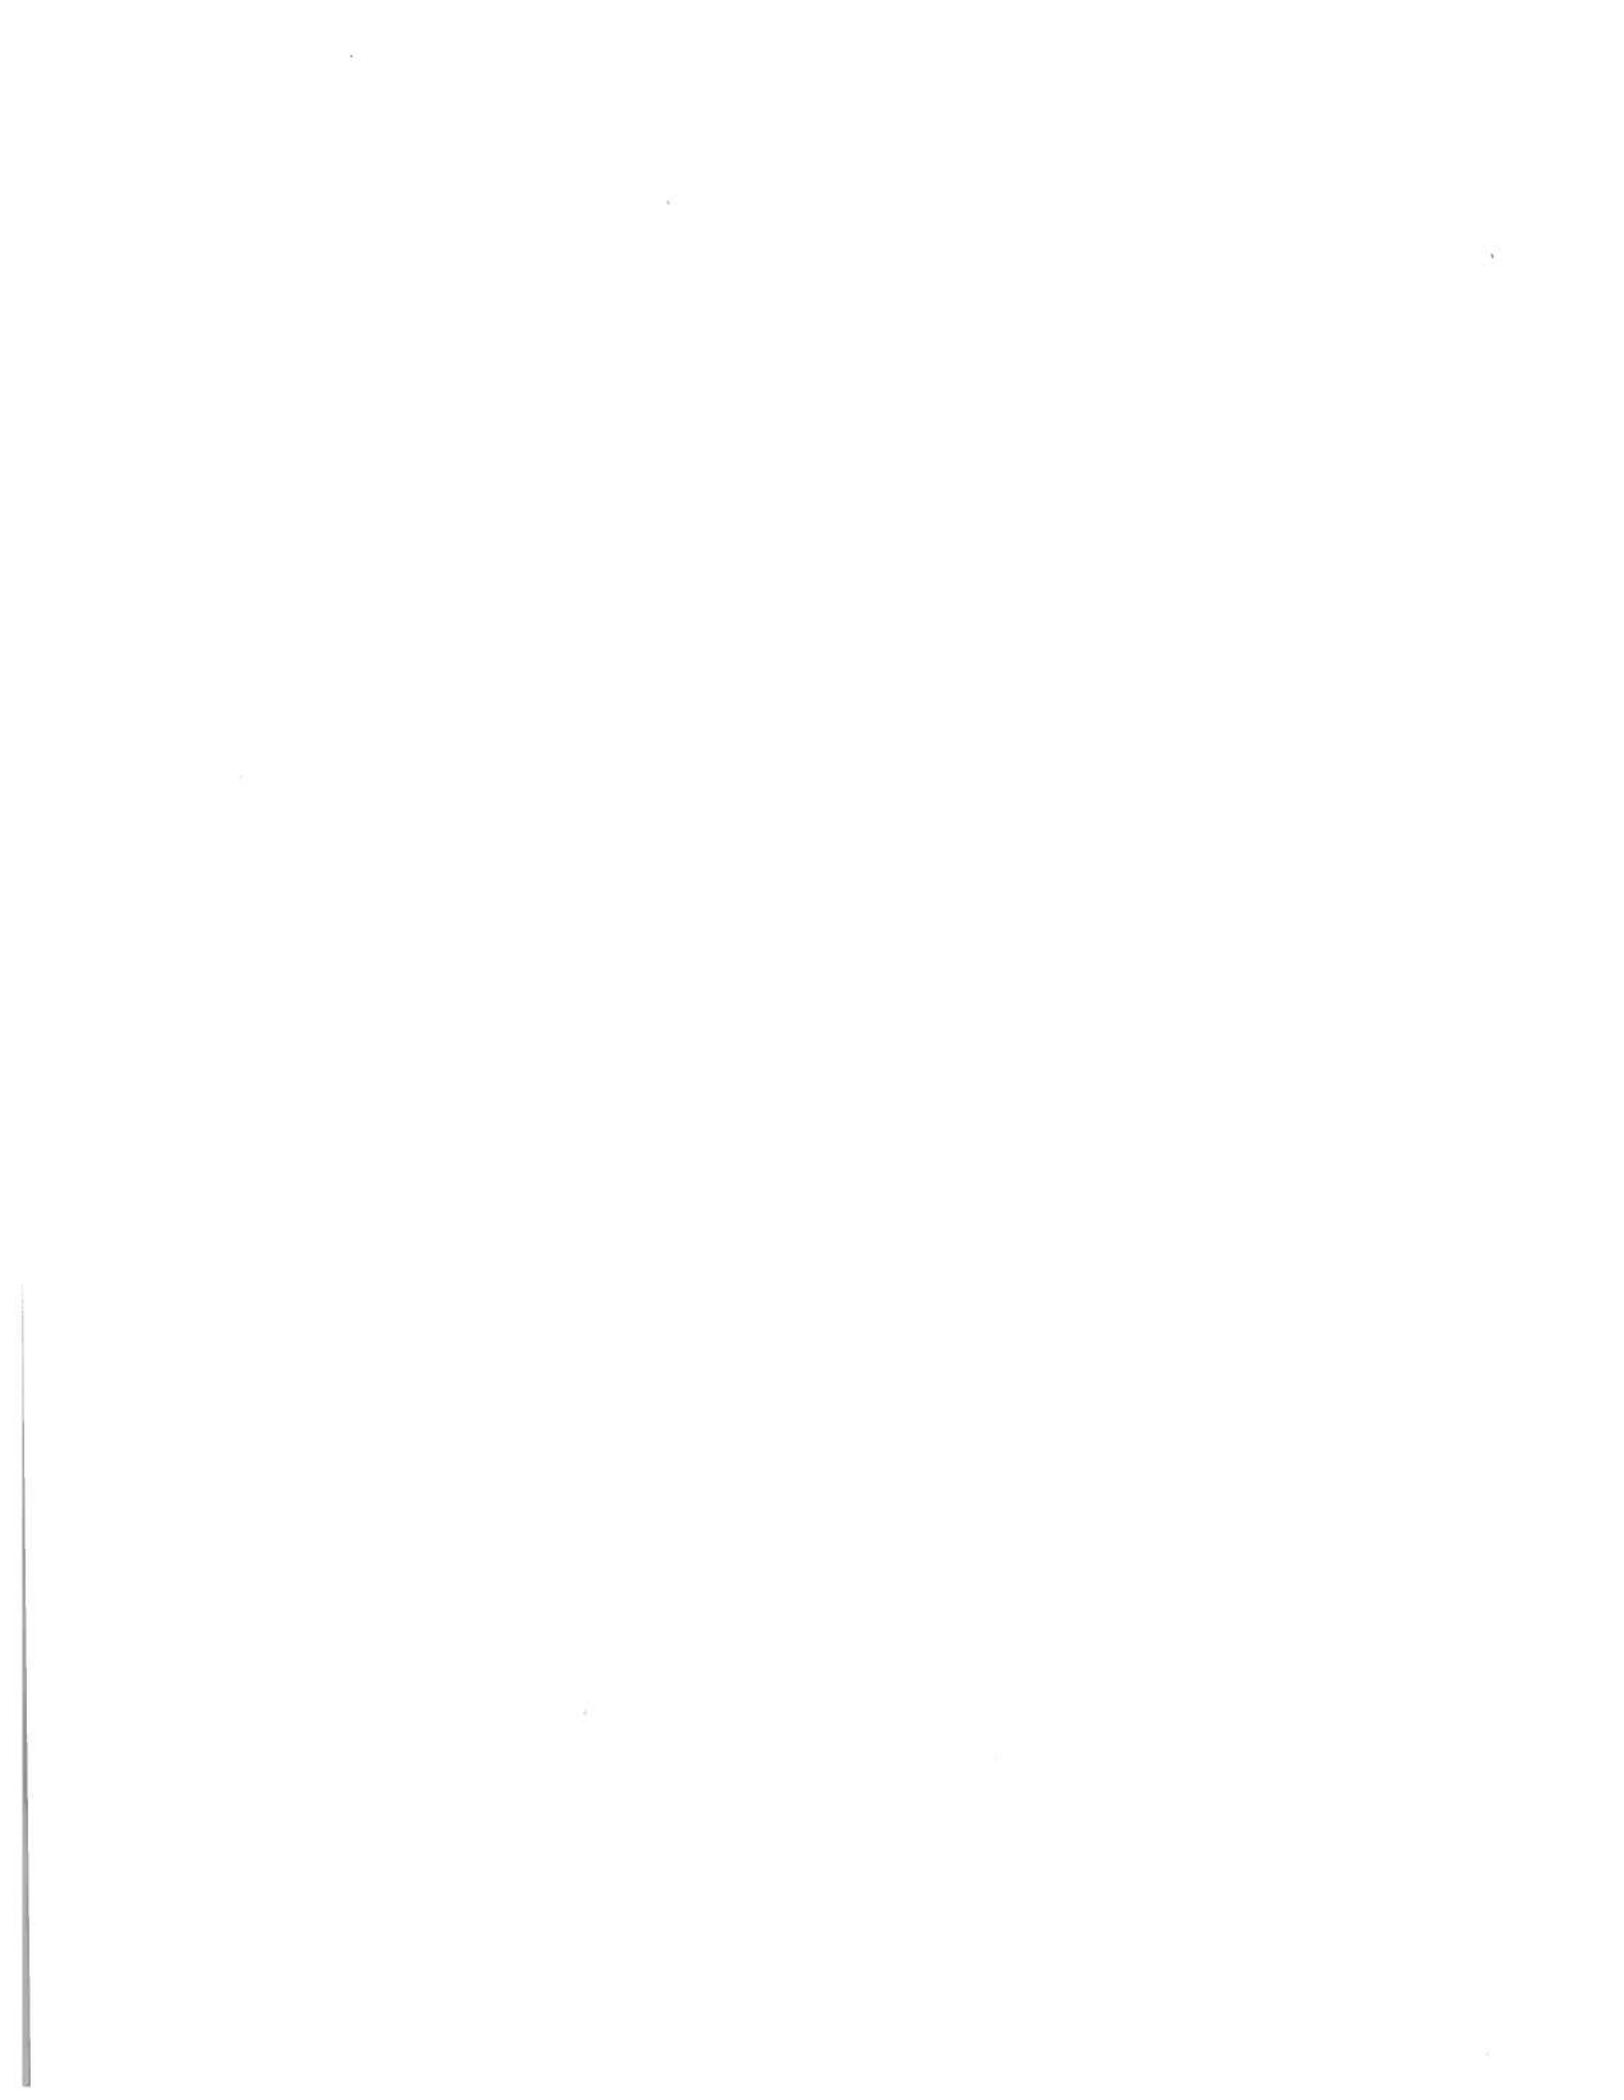

Photos in jpg format will be sent to the Bicycle Coordinator

Re: Three Sisters Scenic Bikeway Application – ODOT Letter of Support

Dear Ms. Phillips,

The Oregon Department of Transportation (ODOT) Region 2 is pleased to provide our support for the Three Sisters Scenic Bikeway Application and designation. In addition to the economic benefits of bicycle tourism, ODOT believes that promoting bicycling has positive health and transportation benefits as well. Tourism in Central Oregon encourages healthy lifestyles, and encouraging bicycling has the potential to reduce vehicular trips on the highway system.

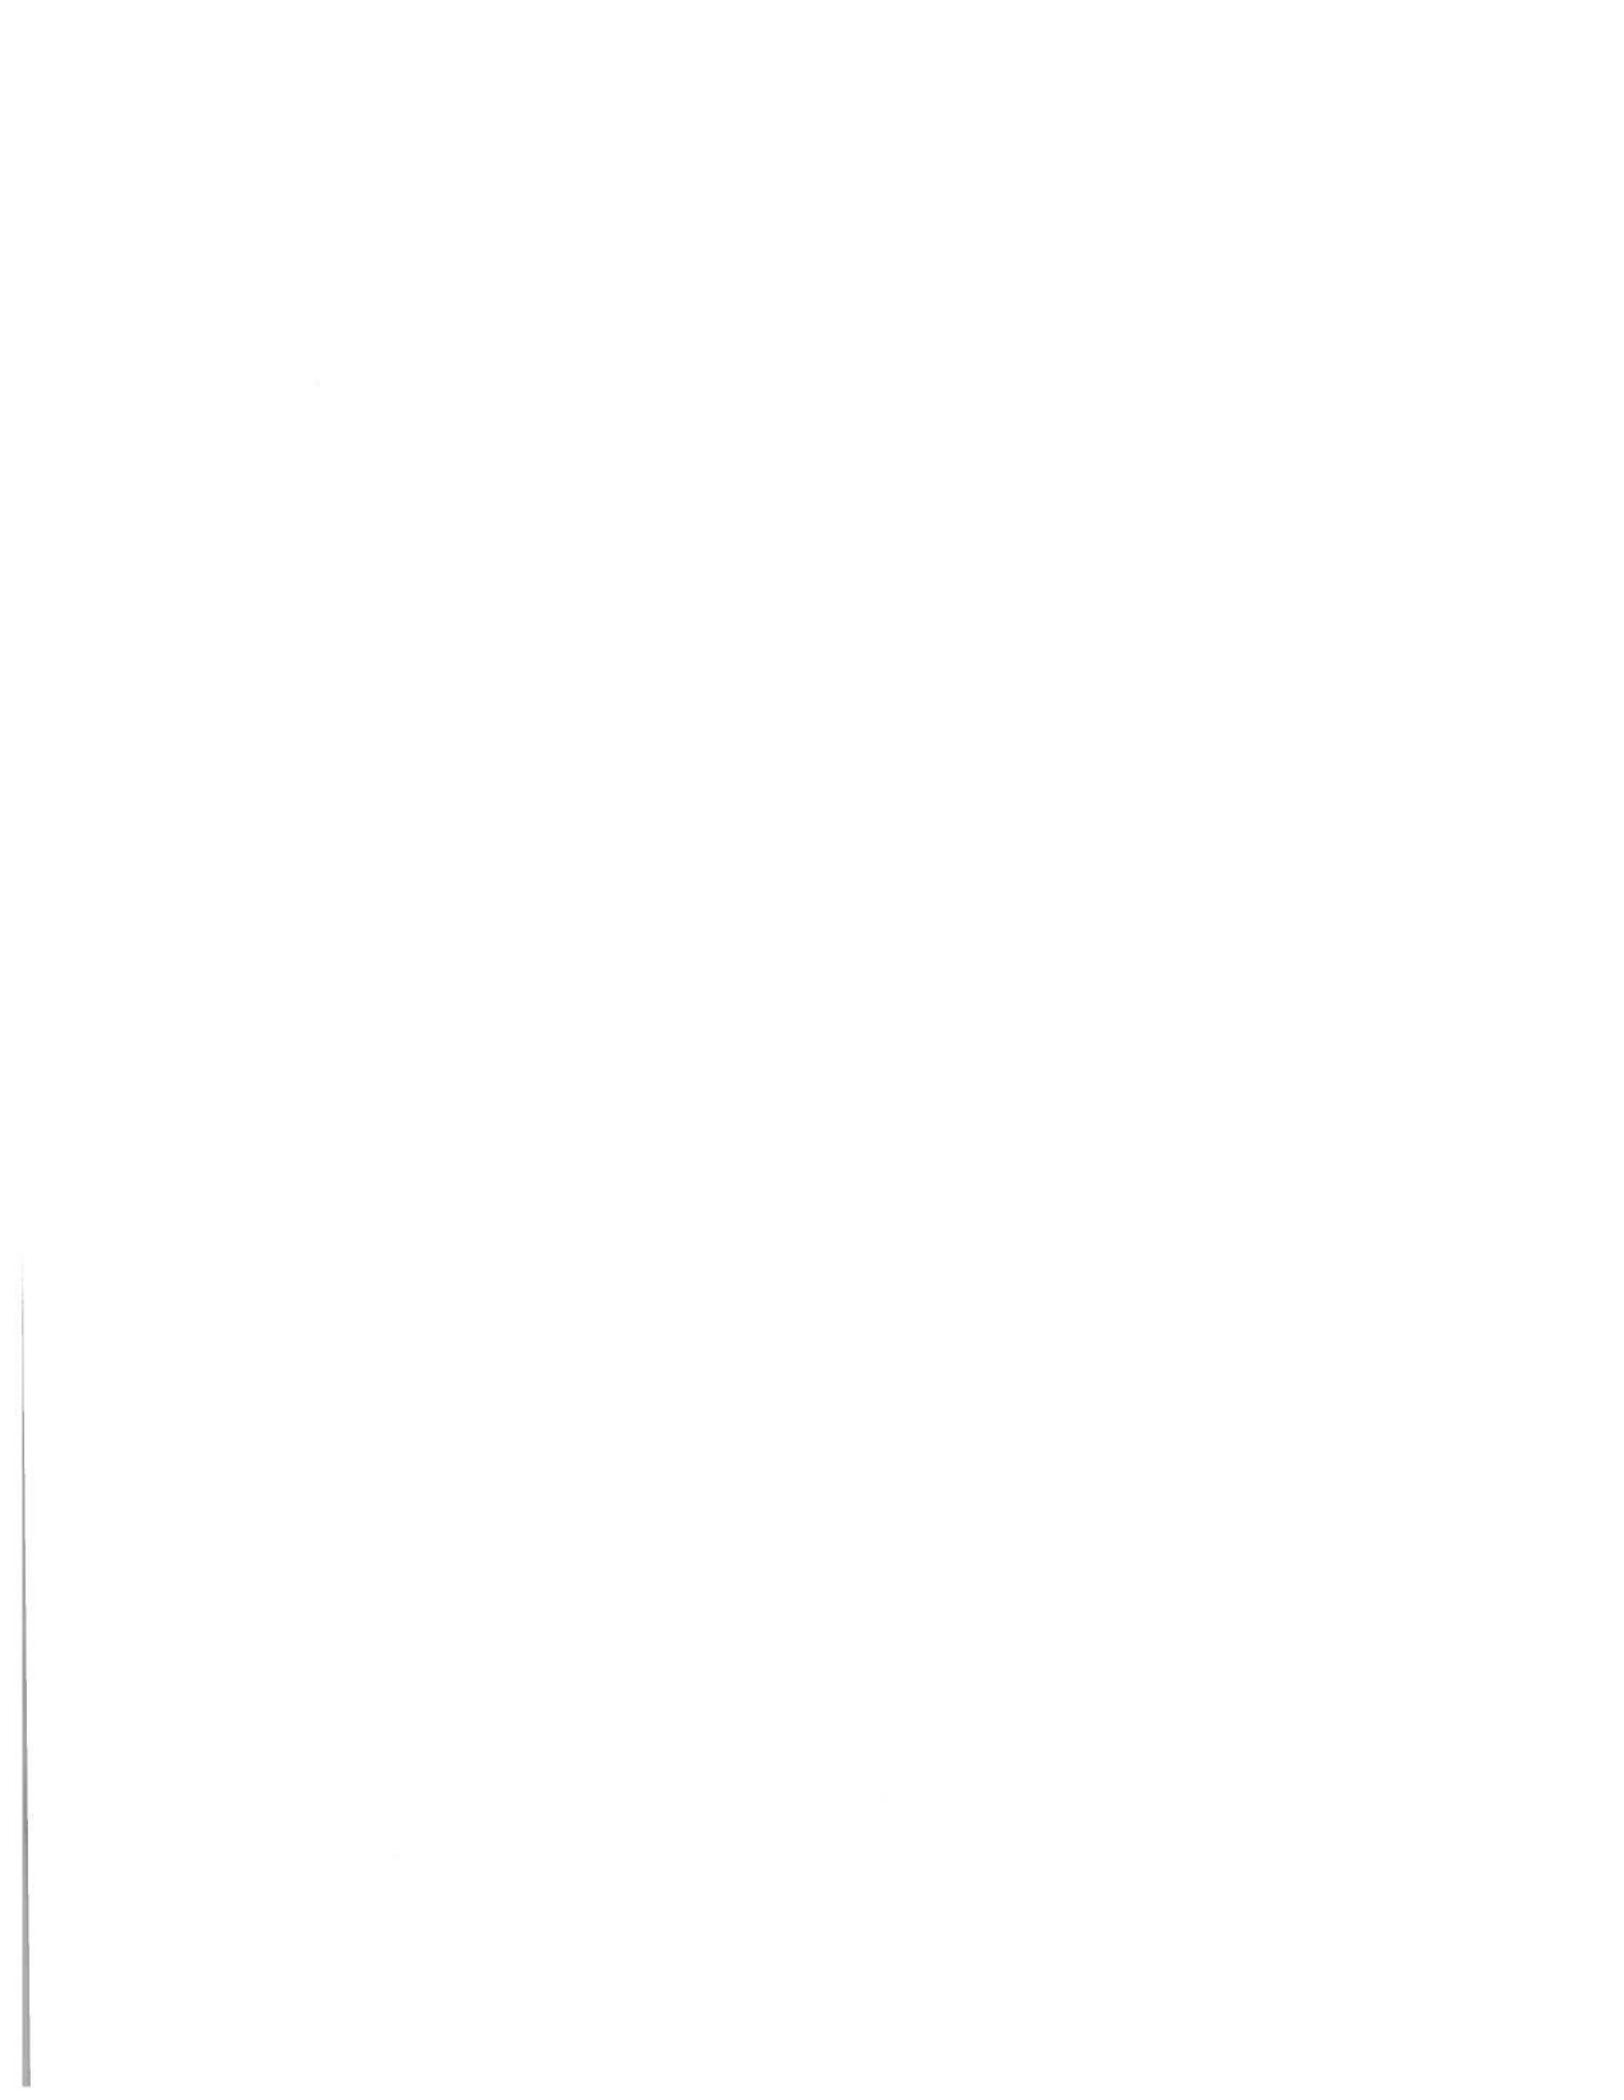

We look forward to this action improving the regional, multi-modal connectivity between the Willamette Valley and Central Oregon. Please let us know if there is any way we can be of further assistance.

Sincerely,

Eryca McCartin
Region 2 Manager

RE: Wild West Scenic Bikeway

Dear Oregon State Scenic Bikeway Committee,

The Grant County Court continues to support The Wild West Scenic Bikeway that loops in and about Grant County. It will pass Prairie City, Austin Junction, Galena, Long Creek, Monument, Kimberly, Dayville, Mount Vernon and John Day. It will include Grant County Road 20 that runs along the Middle Fork of the John Day River, from the new Bates State Park to State Highway 395.

The Scenic Bikeway will help increase tourism and recreation in the area and have a positive economic impact on area businesses. It will also expose people from outside the county to other new and exciting recreational opportunities as well as provide bikers with some of the best scenery and biking experiences to be found anywhere.

Sincerely,

Mark R. Webb
Grant County Judge

Records of Meetings

Saturday, July 9, 2011

REGION

East Oregonian Page 3A

Heppner hosts scenic bikeway meeting

HEPPNER — An upcoming public meeting will focus on designating a Blue Mountain Century Scenic Bikeway. The meeting is Monday from 5:30 to 8:30 p.m. at Heppner City Hall, 111 N. Main St.

The recommended bikeway consists of a 100-mile loop connecting Heppner,

Ukiah and Vinson, and is one of nine routes that has been recommended for designation as the Oregon State Designated Scenic Bikeway. The bikeway program is a partnership between Cycle Oregon, Travel Oregon, the Oregon Department of Transportation and Oregon Parks and Recreation Department.

People are encouraged to attend the meeting to make comments and ask questions.

—Tammy Malgesini

H. After Designation

Once the bikeway is officially designated by the State Parks Commission the proponent group will begin to implement the goals in the bikeway plan. The proponent and OPRD will work with road jurisdictions to have signs installed and OPRD will post maps and other information to oregnoscenicbikweys.org in conjunction with postings on rideoregonride.com.

Annual review: Each fall the proponent group will complete an annual review using a form supplied by OPRD. The review is the opportunity to adjust goals and renew contact with governing bodies of the road jurisdictions.

I. Oregon Revised Statutes

RECREATION TRAILS

390.950 Short title. ORS 390.950 to 390.989 and 390.995 (2) may be cited as the Oregon Recreation Trails System Act. [1971 c.614 §1]

390.953 [1971 c.614 §2; 1989 c.904 §27; repealed by 2001 c.104 §134]

390.956 Policy. (1) In order to provide for the ever-increasing outdoor recreation needs of an expanding resident and tourist population and in order to promote public access to, travel within and enjoyment and appreciation of, the open-air, outdoor areas of Oregon, trails should be established both near the urban areas of this state and within, adjacent to or connecting highly scenic areas more remotely located.

(2) The purpose of ORS 390.950 to 390.989 and 390.995 (2) is to provide the means for attaining these objectives by instituting a system of recreation trails in this state, by designating certain trails as the initial components of that system, and by prescribing the methods of which, and standards according to which, additional components may be added to the system. [1971 c.614 §3]

390.959 Composition of trails system; establishment of markers. The system of Oregon recreation trails shall be composed of trails established as provided in ORS 390.962 and 390.965. The State Parks and Recreation Department, in consultation with appropriate federal, state and local governmental agencies and public and private organizations, shall establish a uniform marker for the system of Oregon recreation trails. [1971 c.614 §4]

390.962 Criteria for establishing trails; location; statutes authorizing trails for motorized vehicles unaffected. (1) Upon finding that such trails will meet the criteria established in ORS 390.950 to 390.989 and 390.995 (2) and such supplementary criteria as the State Parks and Recreation Department may prescribe, the department is encouraged and empowered to establish and designate Oregon recreation trails:

(a) Over lands owned by the State of Oregon, by the federal government or by any county, municipality or other local governmental body, with the consent of the state agency, federal agency, county, municipality or other local governmental body having jurisdiction over the lands involved; or

(b) Over lands owned by private persons, in the manner and subject to the limitations provided in ORS 390.950 to 390.989 and 390.995 (2).

(2) In establishing such trails, the department shall give special recognition to the need for the establishment of recreation trails in or near, or reasonably accessible to, urban areas. Upon the establishment of any such trail, the department shall designate the primary kind of trail it is to be, based upon the mode or modes of travel to be permitted on such trail, including one or more of the following:

(a) Footpath.

(b) Horseback riding trail.

(c) Bicycle path.

(3) Nothing in ORS 390.950 to 390.989 and 390.995 (2) affects any other statute authorizing trails for motorized vehicles which is not inconsistent with ORS 390.950 to 390.989 and 390.995 (2). [1971 c.614 §5]

390.965 Hearing required; information to be considered. (1) The State Parks and Recreation Department may establish trails after public meetings in the areas of the state where trails are planned and only in accordance with the following criteria:

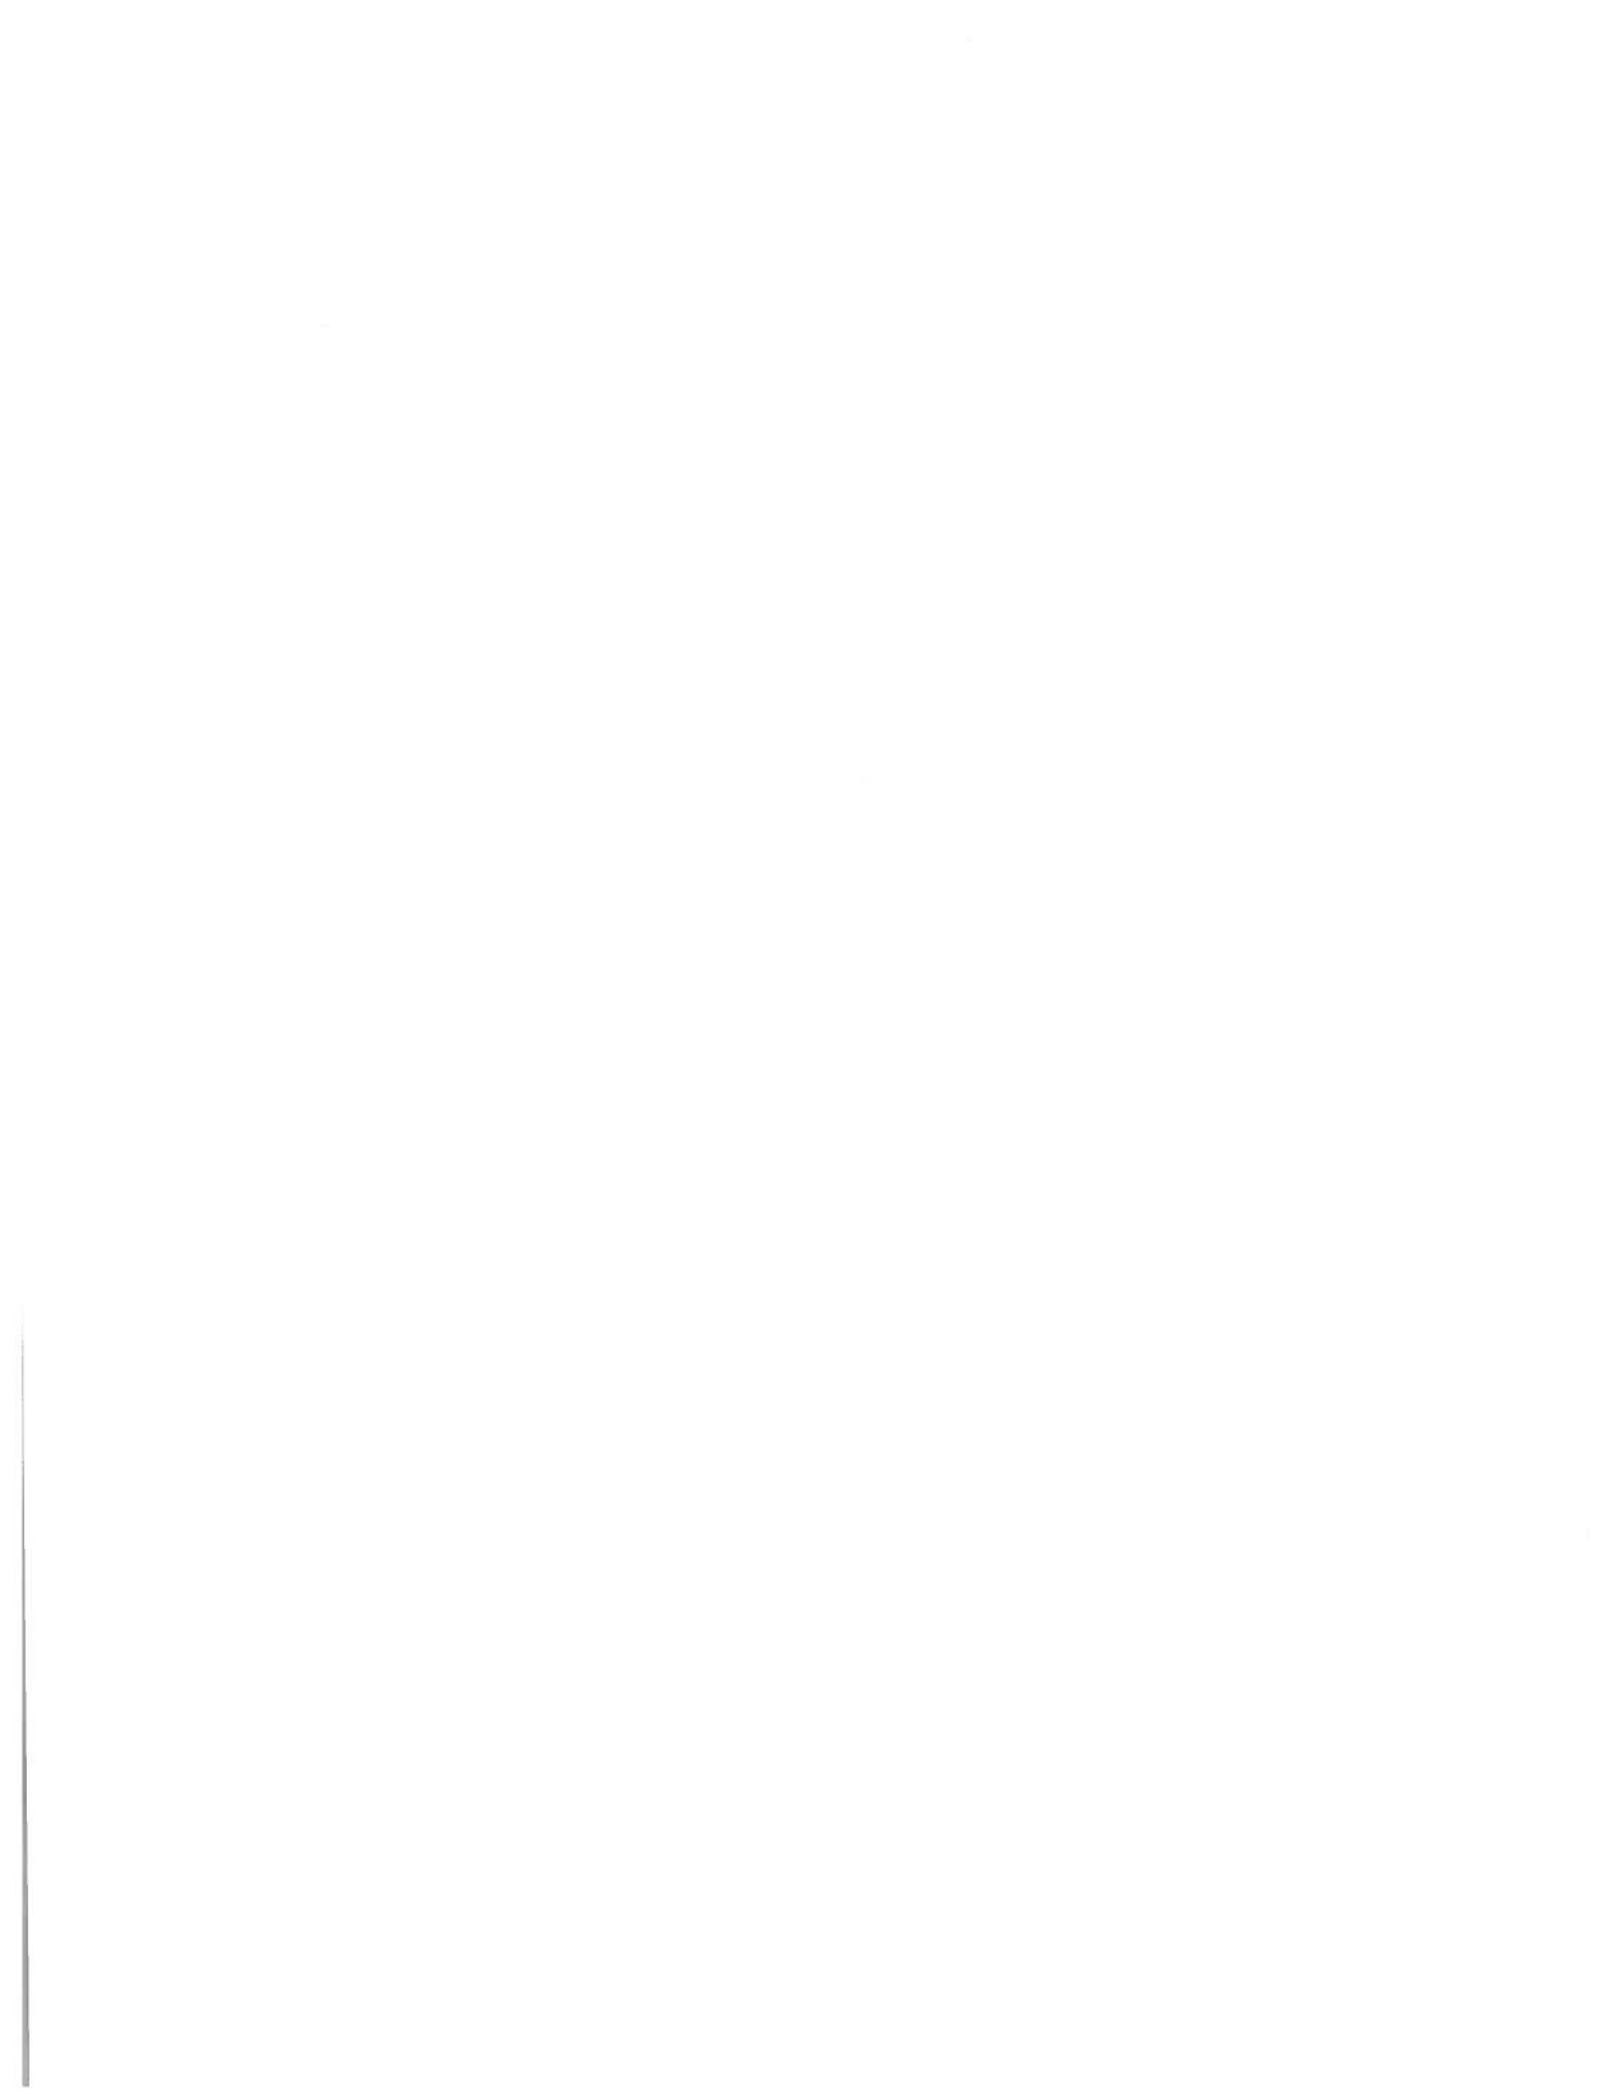

- (a) Emphasis shall be given to the development of trails across public lands.
 - (b) No trails shall cross private land occupied by a residential dwelling, or upon which a residential dwelling is under construction, within 300 feet of such residential dwelling, without the consent of the owner.
 - (c) Trails shall be selected to minimize the adverse effects on adjacent landowners or users and their operations.
 - (d) Development and management of trails shall be designed to harmonize with and complement any established forest, agricultural, or other use plan that is compatible with the purposes of ORS 390.950 to 390.989 and 390.995 (2).
- (2) Before establishing a trail the department shall consider at a public meeting the following information:
- (a) The proposed route of such trail (including maps and illustrations) and the recommended mode or modes of travel to be permitted thereon;
 - (b) The areas adjacent to such trails, to be utilized for scenic, historic, natural, cultural or developmental purposes;
 - (c) The characteristics that, in the judgment of the department, make the proposed trail suitable as an Oregon recreation trail;
 - (d) The current status of land ownership and current and potential use along the designated route;
 - (e) The estimated cost of acquisition of lands or interest in lands, if any;
 - (f) The plans for developing and maintaining the trail and the cost thereof;
 - (g) Any anticipated problems of policing the use of such trail and any anticipated hazards to the use of any privately owned lands adjacent to such trail; and
 - (h) The extent to which the state or its political subdivisions and public and private organizations might reasonably be expected to participate in acquiring the necessary lands and in the administration thereof. [1971 c.614 §6]

390.968 Selection of rights of way for trails. (1) The State Parks and Recreation Department shall select the rights of way for trails designated as Oregon Recreation Trails by ORS 390.962 (1)(a) and (b). Such rights of way shall be:

- (a) Of sufficient width and so located as to protect natural conditions, scenic and historic features, and any primitive character of the trail area; to provide campsites, shelters, and related public-use facilities along trails in more remote areas; and to provide reasonable public access.
- (b) Located to avoid, in so far as reasonably practicable, established highways, motor roads, mining areas, power transmission lines, existing commercial and industrial developments, range fences and improvements, private logging operations, and any other activities that would be incompatible with the protection of the trailside environment in its natural condition and the use of the trail for outdoor recreation.

(2) Notwithstanding subsection (1) of this section, it is recognized that in many instances (especially in urban areas and for some types of trails across or near private land) it may be advisable to locate segments of trails in or near existing rights of way for roads, highways, public utilities or telecommunications utilities, excluding power transmission lines; and it is recognized that trail rights of way on occasion may be located, or from time to time relocated, through, or adjacent to, lands used for private timber (including logging), agriculture, commercial or industrial operations and that such location or relocation of a trail right of way, of itself, shall not impose any limitation upon an otherwise lawful use of the adjacent private land except to the extent of the terms of any agreement with the private

landowner as provided in ORS 390.971 (1) and except as may be provided by any zoning ordinance, law or regulation.

(3) The location and width of an Oregon recreation trail right of way across federal lands under the jurisdiction of a federal agency shall be by agreement between that agency and the department.

(4) In selecting a right of way, the department shall endeavor to obtain the advice and assistance of the local governments, private organizations, landowners, the land users concerned, and the advisory council established under ORS 390.977.

(5) The department shall hold a public hearing in the area of the state where the selection of such right of way is to be made. Subject to ORS 390.971, after public hearing, the department may revise the location and width of a right of way from time to time as required by circumstances, with the consent of the head of any federal agency involved, and with such advice and assistance of the local governments, private organizations, landowners, land users, and the advisory council, as the department considers necessary or advisable. [1971 c.614 §7; 1987 c.447 §124]

390.971 Department duties and powers; rules. (1) Within the exterior boundaries of areas under its administration that are included in the right of way selected for an Oregon recreation trail as provided in ORS 390.950 to 390.989 and 390.995 (2), the State Parks and Recreation Department may do any of the following:

(a) Enter into written cooperative agreements with landowners, federal agencies, other state agencies, local governments, private organizations and individuals in order to provide for the development, operation, maintenance, location and relocation of the trail. Where the trail crosses commercial forestland, such agreement shall make reasonable provision for temporary relocation reasonably required for commercial forest management.

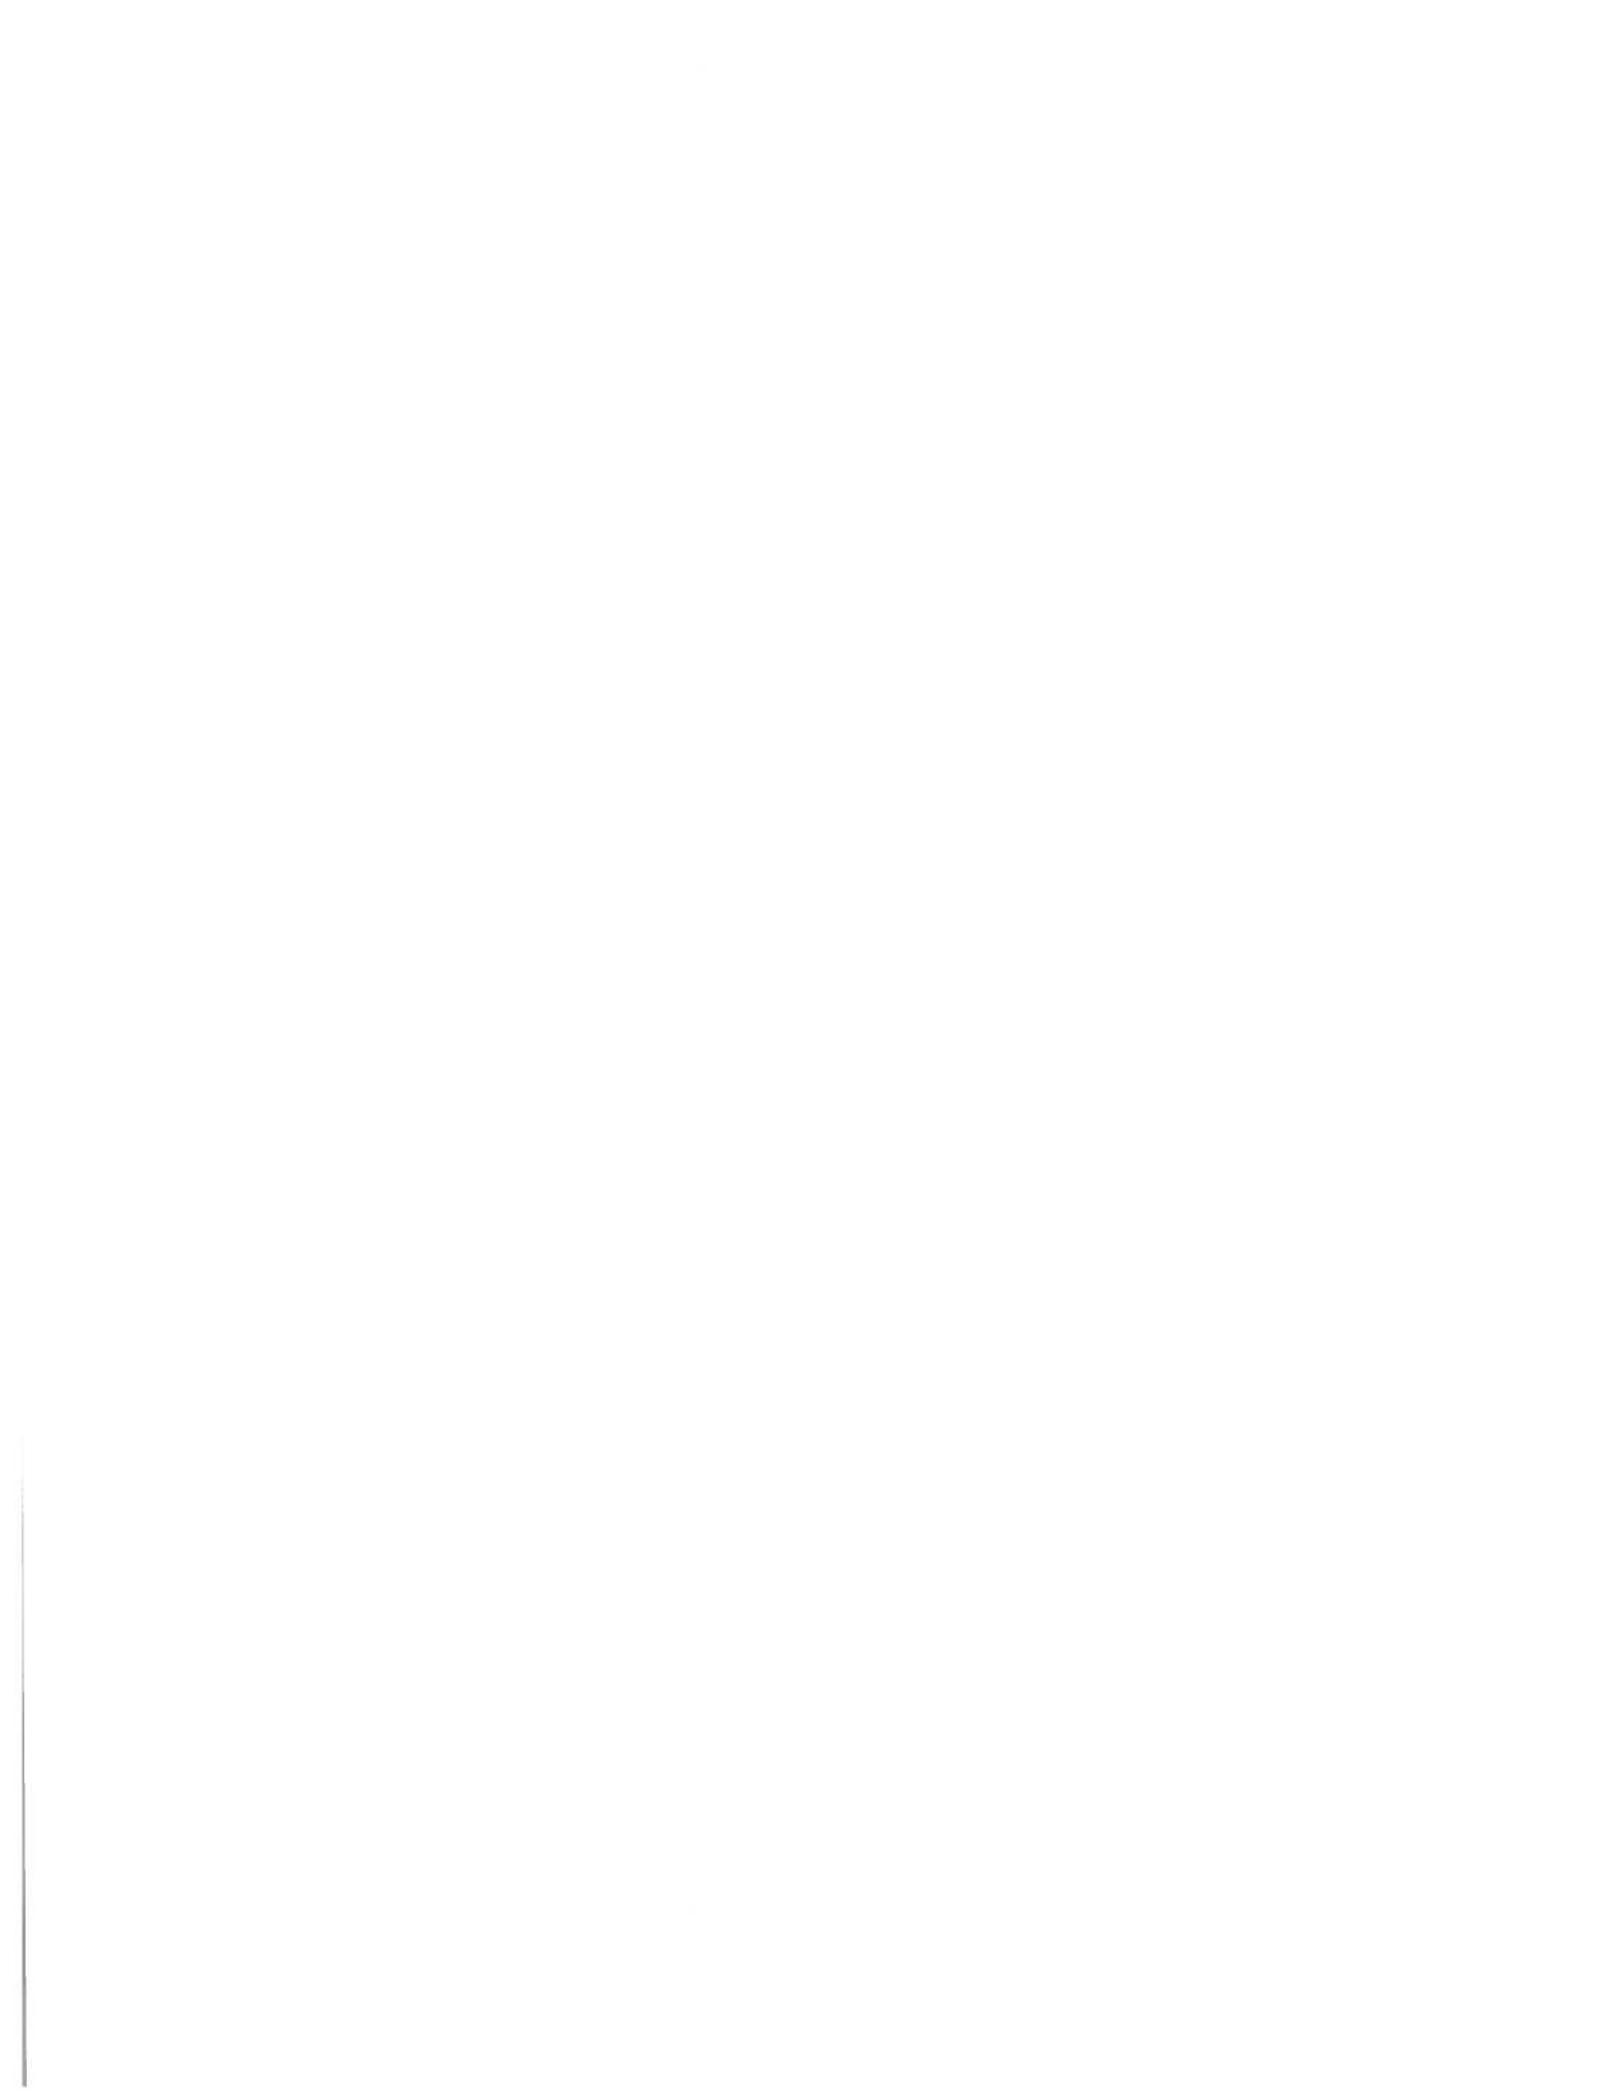

(b) Subject to limitations set forth in ORS 390.950 to 390.989 and 390.995 (2), acquire lands or interests in lands by donation, purchase with donated or appropriated funds or exchange, or with funds obtained under ORS 390.980.

(2) The department, in the exercise of its exchange authority, may accept title to any nonstate-owned property within a trail right of way, and, in exchange therefor, the department may convey to the grantor of such property any state-owned property under its jurisdiction or the jurisdiction of any state agency consenting to such exchange that the department or the applicable consenting state agency classifies as suitable for exchange or other disposal. The values of the properties so exchanged either shall be approximately equal or, if they are not approximately equal, the values shall be equalized by the payment of cash to the grantor or to the department or applicable consenting state agency as the circumstances require.

(3) If lands included in an Oregon recreation trail right of way are outside the exterior boundaries of state or federally administered areas, the department shall attempt, and any local governments involved shall be encouraged, to enter into written cooperative agreements with landowners, local government, private organizations and individuals in order to develop, administer and maintain the trails and to acquire, develop and administer such lands or interests therein. However, if the department or local governments fail or are unable to enter into such agreements or to acquire such lands or interests therein within one year after the selection of the right of way, the department may acquire private lands or interests therein by donation, exchange or purchase with donated or appropriated funds and may develop and administer such lands or interests therein. Exchanges shall be governed by the provisions of subsection (2) of this section.

(4) Oregon recreation trails shall be administered, protected, developed and maintained by the department, or as provided under subsection (1)(a) of this section, to retain their natural, scenic and historic features. Along trails in more remote areas, provision may be made for campsites, shelters and related public-use facilities. Other uses, including reasonable crossings for motor vehicles, public utilities and water pipes and ditches, that will not substantially interfere with the nature and purposes of the trails may be permitted or authorized, as appropriate. The use of motorized vehicles by the general public

along any such Oregon recreation trail is prohibited. However, the department shall authorize the use of motorized vehicles when, in its judgment, such vehicles are necessary to meet emergencies, trail construction and maintenance needs or to enable adjacent landowners or land users to have reasonable access to their lands or timber rights. The fact that private lands are included in an Oregon recreation trail by cooperative agreement of a landowner does not preclude the owner of such lands or agents of the owner from using motorized vehicles on or across such trails or adjacent lands from time to time in accordance with such agreement. Except to the extent otherwise provided by law, the state laws, rules and regulations applicable to lands or areas included in any Oregon recreation trail shall continue to apply. Nothing in ORS 390.950 to 390.989 and 390.995 (2) prohibits the use of roads existing on private lands on September 9, 1971, which may cross or traverse portions of the trail right of way, nor shall ORS 390.950 to 390.989 and 390.995 (2) prevent trails from crossing such roads.

(5) The department shall endeavor to induce agreements with appropriate state and federal agencies to provide for youth work projects to assist in the construction and maintenance of trails that are part of the Oregon recreation trails system.

(6) The department shall endeavor, when it considers such to be appropriate, to develop and enhance the educational values and opportunities of Oregon recreation trails. In this connection the department shall cooperate with schools, educators and other interested persons or groups in developing and utilizing techniques and materials to demonstrate to and inform the trail-using public of various scenic and natural features visible along or from such trails, including geological, botanical, historical, zoological and similar features.

(7) The department shall place and endeavor to maintain signs at such places as it considers appropriate along Oregon recreation trails advising users of the Oregon laws of criminal trespass and encouraging users to protect the trails and the rights and property of adjacent landowners.

(8) The department, with the concurrence of any federal agency administering lands through which an Oregon recreation trail passes, and after consultation with the local governments, private organizations and landowners that the department knows or believes to be concerned, and the advisory council established under ORS 390.977, may adopt rules that may be revised from time to time governing protection, management, use, development and administration of an Oregon recreation trail.

(9) The department, on lands not within a forest protection district, upon recommendation of the State Forester, shall have the authority to close trails during periods of high fire danger. The department shall also have the authority to close trails if it deems it necessary to protect the safety of the public.

(10) Notwithstanding the provisions of ORS chapter 477, forestland on which a fire exists that was caused by a person using, for recreational purposes, a trail established pursuant to ORS 390.950 to 390.989, shall not be considered an operation area as defined by ORS 477.001, if the fire did not start within an operation. [1971 c.614 §9; 1973 c.46 §7; 1983 c.740 §123; 1997 c.274 §37; 2003 c.14 §169]

390.974 Intergovernmental cooperation to obtain property for use in trail system. The State Parks and Recreation Department is authorized and encouraged to consult and to cooperate with any state, federal or local governmental agency or body and with any privately owned utility having jurisdiction or control over or information concerning the use, abandonment or disposition of roadways, utility rights of way or other properties suitable for the purpose of improving or expanding the Oregon recreation trails system in order to assure, to the extent practicable, that any such properties having value for Oregon recreation trail purposes may be made available for such use. [1971 c.614 §11]

390.977 Oregon Recreation Trails Advisory Council; members; appointment; terms; duties; expenses; officers; quorum; meetings. (1) There is established an Oregon Recreation Trails Advisory Council consisting of seven members, at least one from each congressional district in the state. However, not less than two of such members shall be from separate counties bordering upon the ocean shore. Members of the council shall be appointed by the State Parks and Recreation Commission and shall serve at the pleasure of the commission for terms of four years. Before the expiration of the term of a member, the commission shall appoint a successor. A member shall be eligible for reappointment. If

there is a vacancy for any cause, the commission shall make an appointment to become immediately effective for the unexpired term.

(2) The commission and the State Parks and Recreation Department shall consult with the council from time to time with respect to matters relating to Oregon recreation trails, including the designation and establishment of Oregon recreation trails, the selection of rights of way, the selection, erection and maintenance of markers along the trail routes and the administration of the trails.

(3) Members of the council shall serve without compensation, but the department may pay expenses as provided in ORS 292.495.

(4) The council shall select one of its members as chairperson.

(5) A majority of the members of the council constitutes a quorum for the transaction of business.

(6) The council shall meet at times and places specified by the call of the chairperson or a majority of the members of the council. [1971 c.614 §8; 1981 c.545 §7; 1991 c.257 §1]

390.980 Funds for purposes of ORS 390.950 to 390.989; acceptance and use of donated funds; indemnity to owners of land damaged by trail users. In addition to State of Oregon funds available for the purposes of ORS 390.950 to 390.989 and 390.995 (2), the State Parks and Recreation Department may use such portion of moneys made available to it by any federal agency which may be used for such purposes, including matching funds, as the department determines are necessary or desirable to carry out the purposes of ORS 390.950 to 390.989 and 390.995 (2). In addition to the foregoing, the department may receive and may encourage the receipt of donated funds or property from individuals, groups or organizations (including trail users) for specified or nonspecified uses in connection with the acquisition, development, maintenance and administration of Oregon recreation trails. The department if it considers it advisable, may provide under its rules and regulations, for the use of a portion of any such donated funds received for nonspecified purposes to grant to an owner of private land adjacent to an Oregon recreation trail, funds indemnifying such owner for damage clearly caused to the land of the owner, and property therein, by users of such trail and which such landowner has not been able to recover from the user causing such damage. [1971 c.614 §12]

390.983 Trail property tax assessment. For ad valorem tax purposes, real property that is subject to an easement, or a written cooperative agreement, for purposes of ORS 390.950 to 390.989 and 390.995 (2) shall be valued at its real market value, less any reduction in value caused by the easement or the written cooperative agreement, and assessed in accordance with ORS 308.232. The easement shall be exempt from assessment and taxation the same as any other property owned by the state. [1971 c.614 §13; 1981 c.804 §100; 1991 c.459 §395]

390.986 Injunctive relief for violation of ORS 390.950 to 390.989. The State Parks and Recreation Department has power to obtain injunctions against violations of any provisions of ORS 390.950 to 390.989 and any rules and regulations adopted under ORS 390.950 to 390.989 and agreements made under ORS 390.950 to 390.989. [1971 c.614 §14]

390.989 Eminent domain does not apply to department powers or duties under ORS 390.950 to 390.989. Any power of eminent domain otherwise vested in the State Parks and Recreation Department does not apply to any power or duty vested in the department by ORS 390.950 to 390.989. [1971 c.614 §16]

I. Administrative Rules

Division 9 Oregon Recreation Trails

736-009-0005 – Repeal

Stat. Auth.: ORS 390.971(8)

Stats. Implemented: ORS 390.950 - 390.962

Hist.: HC 1286, f. 12-19-72, ef. 1-1-73; 1 OTC 30, f. 7-5-74, ef. 7-25-74; PRD 7-2008, f. & cert. ef. 9-15-08

736-009-0006 – Oregon Recreation Trails

(1) The purpose of OAR 735-009-0005 to OAR 735-009-0030 is to establish the procedures and criteria that the Oregon Recreation Trails Advisory Council will use in recommending to the department the establishment and designation of Oregon Recreation Trails. Pursuant to the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995, the following categories are established:

(a) "Oregon Scenic Trails" may be comprised of routes that provide access to national, state, or regional resources of superlative quality and scenic splendor.

(b) "Oregon Regional Trails" may be comprised of routes that provide connections to communities, recreation sites or trail systems, and close-to-home recreational opportunities.

(c) "Oregon Scenic Bikeways" may be comprised of bicycle paths, designated transportation corridors, or a combination thereof. Oregon Scenic Bikeways may include route sections that are located in or near existing rights of way for roads or highways.

(2) The goals and objectives of the Oregon Recreation Trails Program are to:

(a) Provide recreation trails of superlative quality for the enjoyment and health of Oregonians and visitors;

(b) Showcase a standard for excellence in the routing, construction, maintenance, and marking consistent with each trail's character and purpose;

(c) Preserve and enhance Oregon Recreation Trails;

(d) Provide links to recreation sites and scenic, historic, natural, cultural resources along Oregon Recreation Trails; and

(e) Preserve and protect the natural landscape, scenic features, historic character, and recreation opportunities within the trail corridor.

(3) In furtherance of the goals and objectives established in section (2) of this rule, the department will:

(a) Follow the process and criteria established in this division for evaluating, designating, updating and maintaining Oregon Recreation Trails;

(b) Develop management strategies to preserve and enhance Oregon Recreation Trails;

(c) Create and provide public information resource materials on Oregon Recreation Trails, and

(d) Promote interest and support from local communities for creation, enhancement, and publicizing of local trails and recreation opportunities adjacent to or in close proximity to any Oregon Recreation Trails.

736-009-0020 – Definitions

For purposes of this division, unless the context requires otherwise:

- (1) "Agriculture/Forestry" means crops, wineries, vineyards, ranches, fisheries, orchards, nurseries, old-growth and reforested lands.
- (2) "Amenities" may include potable water, lodging, camping, restrooms, bike shops, equipment storage, restaurants and grocery stores.
- (3) "Commission" means the Oregon Parks and Recreation Commission.
- (4) "Committee" means the eleven-member Scenic Bikeway Committee appointed by the director to recommend the establishment and designation of Oregon Scenic Bikeways to the department.
- (5) "Council" means the Oregon Recreation Trails Advisory Council.
- (6) "Department" means the Oregon Parks and Recreation Department.
- (7) "Director" means the Oregon Parks and Recreation Director appointed under ORS 390.127.
- (8) "Landform" means topography that becomes more interesting as it gets steeper or more massive, or more severely sculptured. Outstanding landforms may be monumental or artistic and subtle.
- (9) "Landscape" means a combination of outdoor, manmade, natural, and agricultural features within a view shed.
- (10) "Linear Route" means a route that progresses from a starting to an ending point. The beginning and end of a linear route do not meet, but may connect to another route or a destination point.
- (11) "Loop Route" means a route that starts and ends at the same location or connects to another cycling route that returns to the starting point.
- (12) "Natural Features" means non-manmade attractions including geologic formations, wildlife sites, waterfalls, lake basins, old-growth stands, and mountain meadows.
- (13) "Oregon Recreation Trail" means any trail established and designated by the department pursuant to the Oregon Recreation Trails System Act.
- (14) "Oregon Regional Trail" means any trail that connects communities, recreation sites or other trail systems and provides close-to-home recreational opportunities.
- (15) "Oregon Scenic Bikeway" means a route designated for bicyclists under ORS 390.962.
- (16) "Oregon Scenic Trail" means trails that provide access to and enjoyment of significant scenic natural views and features.
- (17) "Bicycle Path" means a paved trail along a road or an independent right-of-way used by bicyclists, pedestrians, joggers, skaters, and other non-motorized travelers.
- (18) "Paved" means a hard surface such as concrete, asphalt cement concrete (A/C) or other stable bituminous surface.

(19) "Proponent" means a group, organization, or individual who proposes the designation of an Oregon Recreation Trail.

(20) "Public Land" means any lands owned or leased by the federal government, this state or any political subdivision thereof.

(21) "Route" means a combination of streets and paths used to travel to destinations or in corridors for transportation or recreation.

(22) "Scenic" means an abundance and variety of aesthetically-pleasing manmade or natural elements along the route.

(23) "Trail Corridor" means the land associated with the use agreement, easement or right-of-way upon which the trail lies.

(24) "Unique" means relatively rare or unusual as applied to a resource or combination of features within a geographic region.

(25) "Vegetation" means forest, prairies, orchards, active farm cropland and tree farms with a variety of patterns, form and textures created by plant life, and small scale vegetation features that add striking and intriguing detail elements to the landscape.

(26) "Water" means ocean, rivers, lakes, streams, waterfalls, rapids, marshes, estuaries, bays, canals and harbors that add movement or serenity to a scene, or the degree to which water dominates the scene.

736-009-0021 – Establishing Oregon Scenic Trails

Pursuant to ORS 390.962(1), the department prescribes the criteria for the designation of Oregon Scenic Trails in this rule in addition to those provided in the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995(2).

(1) Oregon Scenic Trails will be comprised of routes that provide access to national, state, or regional resources of superlative quality and scenic splendor.

(2) Oregon Scenic Trails may be linear, loop, or a combination of linear and loop routes and shall generally meet these criteria:

(a) Scenic Trails will connect to other trails to the extent possible.

(b) Scenic Trails should be a minimum of one (1) mile in length.

(3) Pursuant to ORS 390.962(1), an Oregon Scenic Trail may be located:

(a) Over public land with the consent of each governmental entity having jurisdiction over the lands designated; or

(b) Over privately-owned lands in the manner of and subject to the limitations provided in ORS 390.950 to 390.989 and 390.995(2).

(4) Evaluation of Applications

(a) To be considered as an Oregon Scenic Trail, a Proponent must submit to the department a complete Oregon Scenic Trail Application form in the format specified by the department, including a detailed Trail Management Plan.

(b) The department will review each Oregon Scenic Trail application for completeness and eligibility, including whether the application adequately addresses the considerations provided in ORS 390.965(2). The department will provide all complete, eligible applications to the council. Incomplete or ineligible applications will be returned to the Proponents with an explanation of the deficiencies.

(c) The council will consider trails for designation based on the criteria provided in sections (1) to (3) of this rule and the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995(2).

(d) The council or designee shall conduct a field review of the proposed trail.

(e) The council shall score the trail against criteria established in the Oregon Recreation Trails System Act, ORS 390.950 through 390.989 and 390.995, and in this rule, including but not limited to:

(A) Emphasis on use of public lands,

(B) Minimizing adverse effects on adjacent landowners,

(C) Harmony with and complement to established forest, agricultural, or other use plans, and

(D) Any natural features, agriculture, forest, unusual or unique landforms, vegetation, water components, scenic beauty and interest, as well as amenities available to the route.

(f) Based on the application, field review, and scoring, the council shall determine if the trail qualifies to be recommended for designation as an Oregon Scenic Trail.

(g) If the council does not recommend designating the route as an Oregon Scenic Trail, it shall provide comments and recommendations to the Proponent. The Proponent may reapply to the council only after fully addressing the recommendations of the council.

(5) Designation Process:

(a) The council shall provide each recommendation for designation as an Oregon Scenic Trail to the director.

(b) The department shall hold public meetings on the recommended designation as provided in ORS 390.965(1).

(c) After the public meetings required in subsection (b), the director shall either:

(A) Submit the council's recommendation to the commission for approval or denial of the proposed Oregon Scenic Trail; or

(B) Request that the council provide further consideration of issues presented in the public meeting.

(6) Trail Management:

(a) The department will enter into written cooperative agreements with landowners, federal agencies, other state agencies, local governments, private organizations and individuals as necessary to ensure that the development, signing, operation, maintenance, location or relocation of the trail meet the Oregon Scenic Trail standards.

(b) The department shall evaluate each Oregon Scenic Trail at least once every five years. The department will provide the council an evaluation and inventory of the trail features. Upon review, the council may recommend:

(A) The trail be improved to meet the standards of state designation; or

(B) Removal of Oregon Scenic Trails designation when or if the trail no longer meets the criteria.

(c) Signing and Publication of Oregon Scenic Trails.

(A) Consistent with the requirements of ORS 390.959, the department will establish sign standards and coordinate sign placement for each trail the commission designates as an Oregon Scenic Trail.

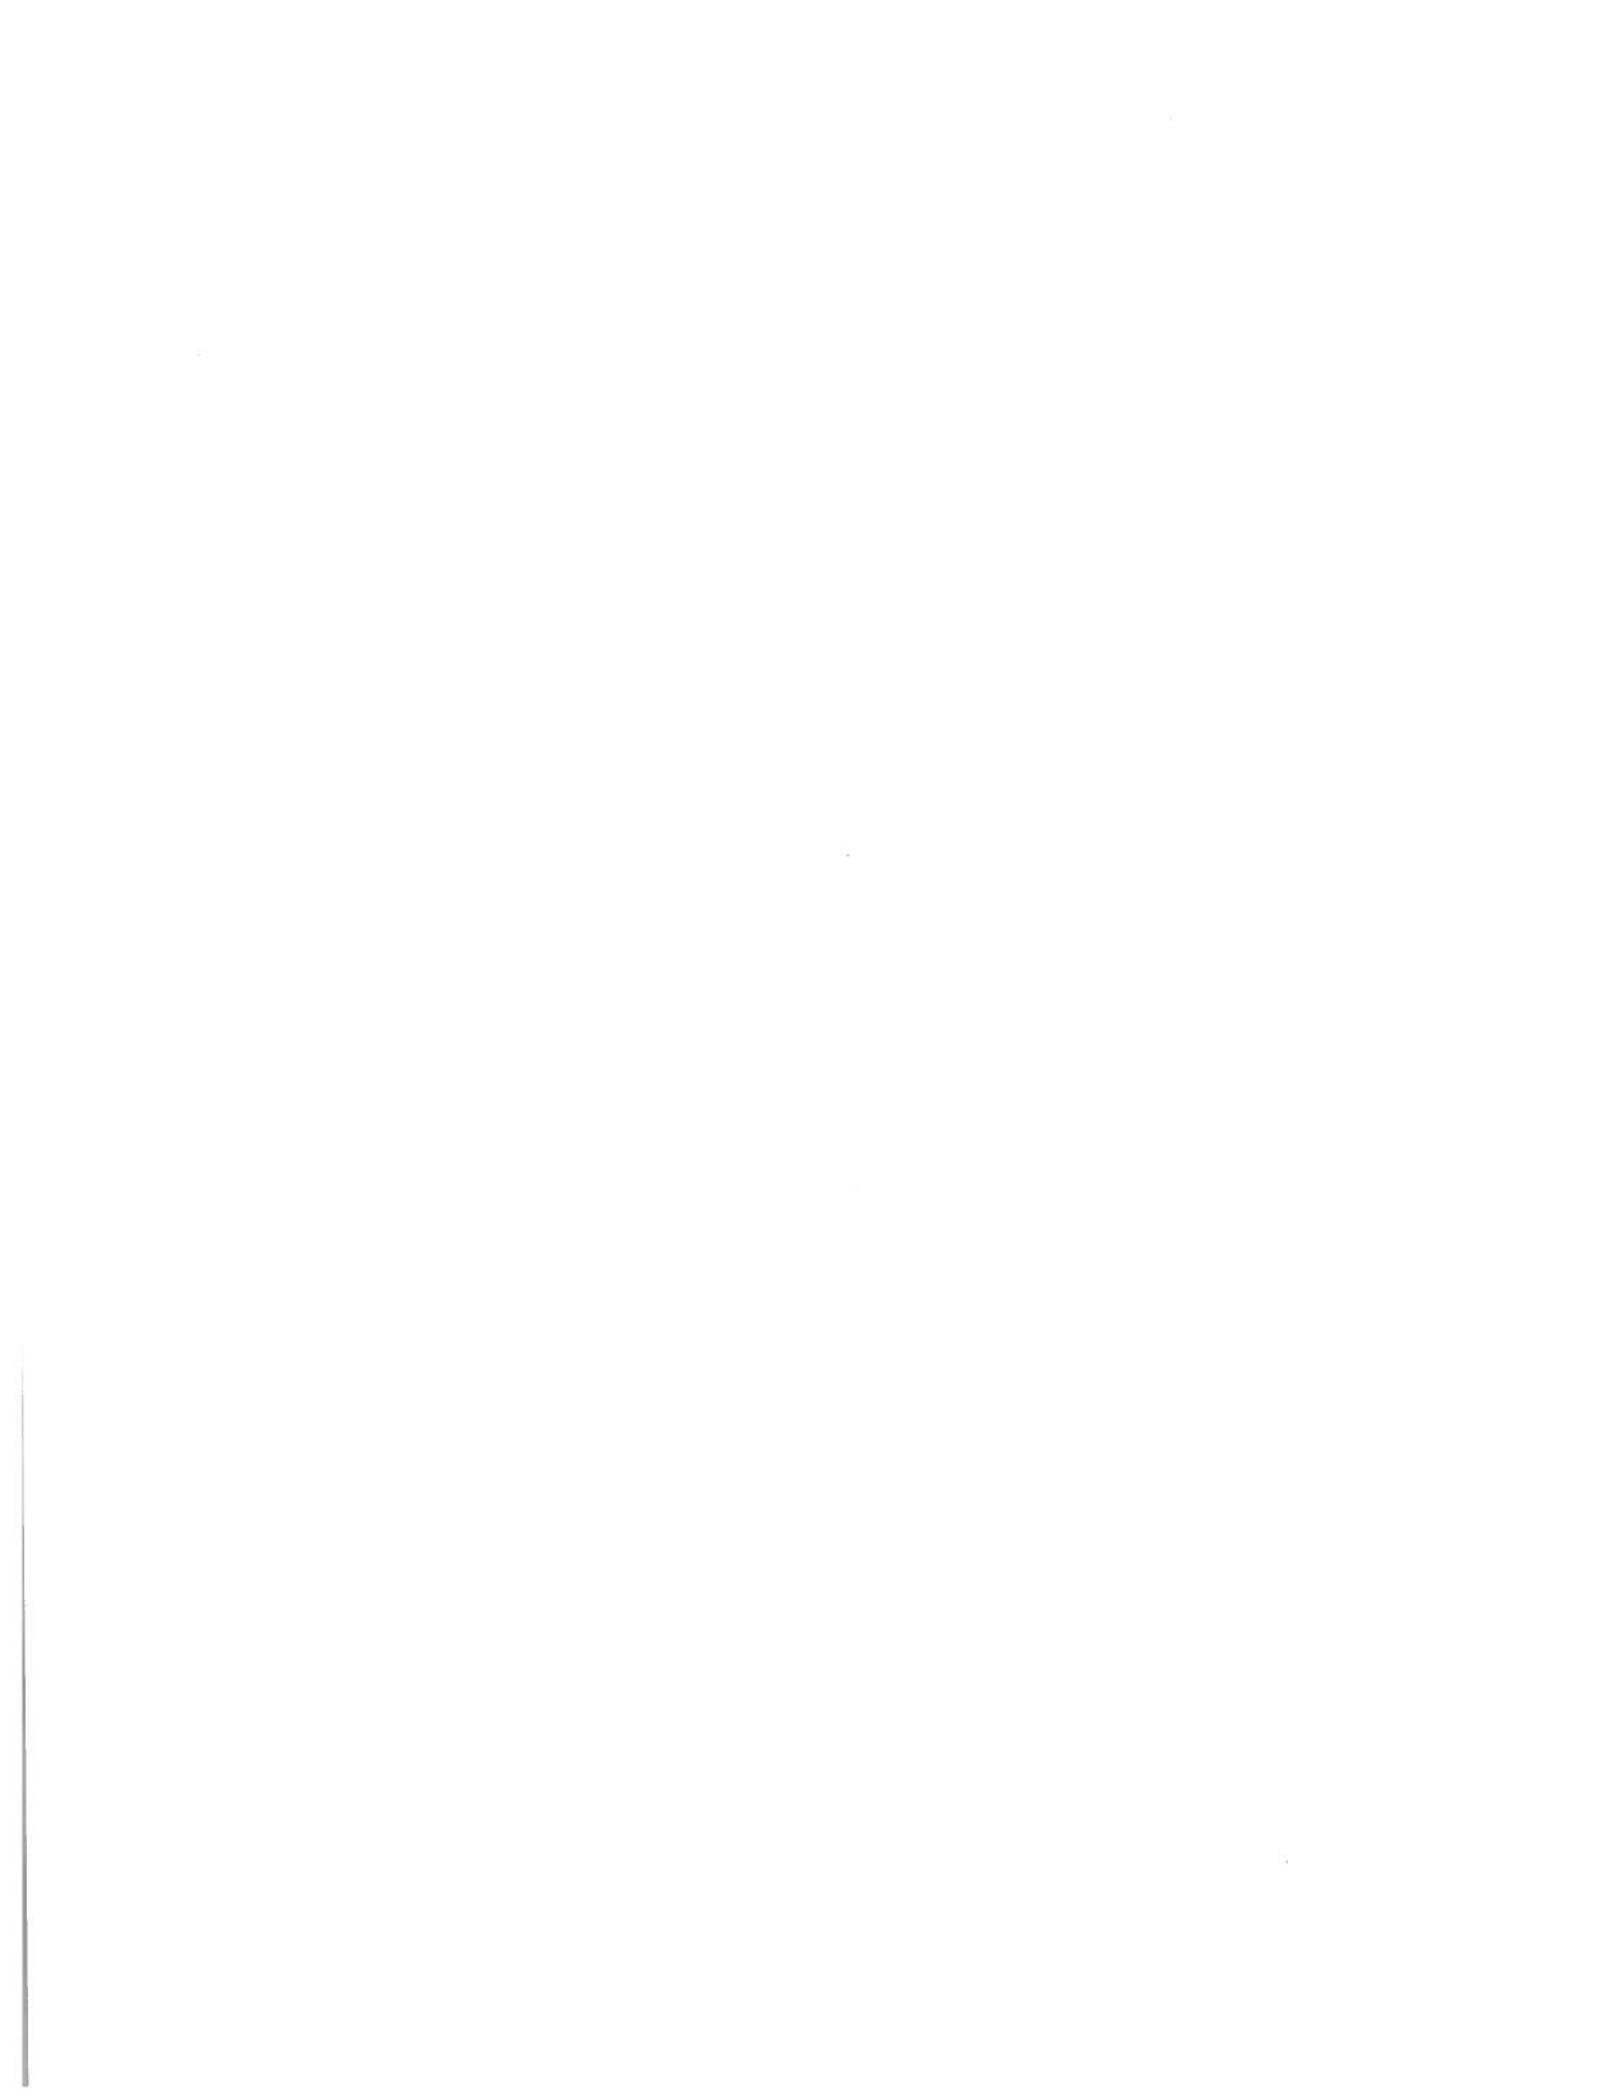

(B) The department will publish on its web page and make available standardized route maps for all Oregon Scenic Trails.

736-009-0022 – Establishing Oregon Regional Trails

Pursuant to ORS 390.962(1), the department prescribes the criteria in this rule in addition to those provided in the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995(2), for the designation of Oregon Regional Trails.

- (1) Oregon Regional Trails may be comprised of recreational trails that provide connections to communities, recreation sites or trail systems, and close-to-home recreational opportunities.
- (2) Oregon Regional Trails may be linear, loop, or a combination of linear and loop routes that connect communities or recreation sites and shall generally meet these criteria:
 - (a) Regional Trails connect communities or recreation resources to the extent possible.
 - (b) Regional Trails should be a minimum of five (5) miles in length.
- (3) Pursuant to ORS 390.962(1), an Oregon Regional Trail may be located:
 - (a) Over public land with the consent of each governmental entity having jurisdiction over the lands designated; or
 - (b) Over privately-owned lands in the manner of and subject to the limitations provided in ORS 390.950 to 390.989 and 390.995(2).
- (4) Evaluation of Applications
 - (a) To be considered as an Oregon Regional Trail, a Proponent must submit to the department a complete Oregon Regional Trail Application form in the format specified by the department, including a detailed Trail Management Plan.
 - (b) The department will review each Oregon Regional Trail proposal for completeness, including whether the application adequately addresses the considerations provided in ORS 390.965(2). The department will provide all complete, eligible applications to the council. Incomplete or ineligible applications will be returned to the Proponents with an explanation of the deficiencies.
 - (c) The council will consider trails for designation based on the criteria provided in sections (1) to (3) of this rule and the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995(2).
 - (d) The council or designee shall conduct a field review of the proposed route trail.
 - (e) The council shall score the trail against criteria established in the Oregon Recreation Trails System Act, ORS 390.950 through 390.989 and 390.995, and this rule, including but not limited to:
 - (A) Emphasis on use of public lands,
 - (B) Minimizing adverse effects on adjacent landowners,
 - (C) Harmony with and complement to established forest, agricultural, or other use plans, and
 - (D) Emphasis on connections to communities, recreation sites, or trail systems, and close-to-home recreational opportunities.
 - (f) Based on the application, field review, and scoring, the council shall determine if the trail qualifies to be recommended for designation as an Oregon Regional Trail.
- (5) Designation Process:
 - (a) The council shall provide each recommendation for designation as an Oregon Regional Trail to the director.
 - (b) The department shall hold public meetings on the recommended designation as provided in ORS 390.965(1).

(c) After the public meetings required in subsection (b), the director shall either submit the council's recommendation to the commission for approval or denial of the proposed Oregon Regional Trail or request that the council provide further consideration of issues presented in the public meeting.

(6) Trail Management:

(a) The department will enter into written cooperative agreements with landowners, federal agencies, other state agencies, local governments, private organizations and individuals as necessary to ensure that the development, signing, operation, maintenance, location or relocation of the trail meet the Oregon Regional Trail standards.

(b) The department shall evaluate each Oregon Regional Trail at least once every five years. The department will provide the council an evaluation and inventory of the trail features. Upon review, the council may recommend:

(A) The trail be improved to meet the standards of state designation; or

(B) Removal of Oregon Regional Trail designation when or if the trail no longer meets the criteria.

(c) Signing and Publication of Oregon Regional Trails.

(A) Consistent with the requirements of ORS 390.959, the department will establish sign standards and coordinate sign placement for each trail the commission designates as an Oregon Regional Trail.

(B) The department will publish on its web page and make available standardized route maps for all Oregon Regional Trails.

736-009-0025 – Oregon Scenic Bikeways Committee

(1) The director shall appoint a Scenic Bikeways Committee composed of 11 members. The committee shall include one representative each from:

(a) The department;

(b) Oregon Tourism Commission (dba Travel Oregon)

(c) Oregon Department of Transportation

(d) A Federal Lands Manager (U.S. Forest Service or Bureau of Land Management)

(e) Oregon Association of Convention and Visitors Bureaus;

(f) Oregon Recreation Trails Advisory Council established pursuant to ORS 390.977;

(g) Oregon Bicycle and Pedestrian Advisory Committee established pursuant to ORS 366.112;

(h) Association of Oregon Counties;

(i) League of Oregon Cities;

(j) Representative of bicycle advocacy organization; and

(k) Citizen Representative.

(2) Members may serve two consecutive four-year terms on the committee. However, the director shall appoint the first committee members following the effective date of this rule to serve a two, three, or four-year term.

(3) The director shall appoint the chair from the committee membership, considering the recommendations of the committee.

- (4) The committee shall meet at times and places specified by the call of the director.
- (5) A majority of the members of the committee constitutes a quorum for the transaction of business.
- (6) Function and Duties of Scenic Bikeways Committee:
 - (a) The committee shall evaluate proposed Oregon Scenic Bikeways against the criteria provided in OAR 736-009-0030 and the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995(2). The committee shall make a recommendation to the director on each application for a proposed Oregon Scenic Bikeway.
 - (b) The committee shall evaluate each Oregon Scenic Bikeway route at least once every five years. The department and Oregon Department of Transportation will provide the committee an inventory of the features of the route determined by riding a bike along the route. The committee may recommend that the department improve, remove, or reroute portions of a route no longer meeting the criteria for an Oregon Scenic Bikeway.

736-009-0030 – Establishing Oregon Scenic Bikeways

Pursuant to ORS 390.962(1), the department prescribes the criteria in this rule in addition to those provided in the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995(2), for the designation of Oregon Scenic Bikeways.

- (1) Oregon Scenic Bikeways may be comprised of bicycle paths, designated transportation corridors or a combination thereof. Oregon Scenic Bikeways may include route sections located in or near existing rights-of-way for roads or highways.
- (2) Oregon Scenic Bikeways may be linear, loop, or a combination of linear and loop routes that encompass national, state, or regional scenic resources and shall generally meet these criteria:
 - (a) Linear routes connect to each other and other designated routes to the extent possible.
 - (b) Linear routes should be a minimum of 40 miles in length.
 - (c) Loop routes encompass regional or local scenic, cultural or historic features.
 - (d) Scenic loop routes should be a minimum of five miles in length and should return the cyclist to the point of origin.
 - (e) Scenic loop routes may be established as connections to existing linear Oregon Scenic Bikeways or may be established as Oregon Scenic Bikeways in and of themselves.
- (3) Pursuant to ORS 390.962(1), an Oregon Scenic Bikeway may be located:
 - (a) Over public land with the consent of each governmental entity having jurisdiction over the lands designated; or
 - (b) Over privately-owned lands in the manner and subject to the limitations provided in ORS 390.950 to 390.989 and 390.995(2).
- (4) Evaluation of Applications
 - (a) To be considered as an Oregon Scenic Bikeway, a Proponent must submit to the department a completed Oregon Scenic Bikeway Application form in the format specified by the department, including a detailed Trail Management Plan.
 - (b) The department will review each Oregon Scenic Bikeway proposal for completeness, including whether the application adequately addresses the considerations provided in ORS 390.965(2). The

department will provide all complete, eligible applications to the committee. Incomplete or ineligible applications will be returned to the Proponents with an explanation of the deficiencies.

(c) The committee will consider routes for designation based on the criteria provided in sections (1) to (3) of this rule and the Oregon Recreation Trails System Act, ORS 390.950 to 390.989 and 390.995(2).

(d) The committee shall conduct a field review of the proposed route, to include a review conducted on bicycles by no less than three (3) members of the committee.

(e) The committee shall score the route against criteria established in the Oregon Recreation Trails System Act, ORS 390.950 through 390.989 and 390.995, and this rule, including but not limited to:

(A) Emphasis on use of public lands,

(B) Minimizing adverse effects on adjacent landowners,

(C) Harmony with and complement to established forest, agricultural, or other use plans, and

(D) Any natural features, agriculture, forest, unusual or unique landforms, vegetation, water components, scenic beauty and interest, as well as amenities available to the route.

(e) Based on the application, field review and scoring the committee shall determine if the route qualifies to be recommended for designation as an Oregon Scenic Bikeway.

(f) If the committee does not recommend designating the route as an Oregon Scenic Bikeway, it shall provide comments and recommendations to the Proponent. The Proponent may reapply to the committee only after fully addressing the recommendations of the committee.

(5) Designation Process:

(a) The committee shall provide each recommendation for designation as an Oregon Scenic Bikeway to the director.

(b) The department shall hold public meetings on the recommended designation as provided in ORS 390.965(1).

(c) The department will consult with the Oregon Recreational Trails Advisory Council as provided in ORS 390.977.

(d) After the public meetings required in subsection (b), and in consultation with the council, the director shall either:

(A) Submit the committee's recommendation to the commission for approval or denial of the proposed Oregon Scenic Bikeway; or

(B) Request that the committee provide further consideration of issues presented in the public meeting.

(6) Scenic Bikeway Management

(a) The department will enter into written cooperative agreements with landowners, federal agencies, other state agencies, local governments, private organizations and individuals as necessary to ensure that the development, signing, operation, maintenance, location or relocation of the trail meet the Oregon Scenic Bikeway Standards.

(b) The department shall evaluate each Oregon Scenic Bikeway at least once every five (5) years. The department will provide the committee an evaluation and inventory of the trail features. Upon review, the committee may recommend:

(A) The trail be improved to meet the standards of state designation; or

(B) Removal of Oregon Scenic Bikeway designation when or if the trail no longer meets the criteria.

(c) Signing and Publication of Oregon Scenic Bikeway.

(A) Consistent with the requirements of ORS 390.959, the department will establish sign standards and coordinate sign placement for all routes that the commission designates as an Oregon Scenic Bikeway.

(B) The department will publish on its web page and make available standardized route maps for all Oregon Scenic Bikeways.

Most Important Features for a State Designated Scenic Bikeway **Does your proposed route have ALL ten items?**

1. Natural scenery with dramatic and diverse views of mountains, forests or deserts, wildlife, lakes and rivers.
2. Human-made scenery with multiple opportunities to experience a variety of points of interest such as buildings, heritage sites, or expansive agricultural landscapes.
3. Pleasing sounds such as birds, the sound of quiet, moving water, or a vibrant downtown that adds to the experience of the ride.
4. Pleasing smells –such as fresh air, the scent of greenery or trees. Think of all the pleasing smells you notice on a bike but probably miss in a car.
5. Road conditions that are in good enough shape to qualify for one of the best rides in Oregon. (Gravel routes can be considered!)
6. Roads with light vehicle traffic and not many large trucks.
7. Riding space with a shoulder or bike lane, a paved path or traffic is so light that there is little need for separation.
8. Strong road jurisdiction support including support from City and County Commissions, ODOT, Forest Service, and BLM. The application must contain letters of support.
9. A dedicated local proponent group who is willing and available to put time and energy into designing the best route, which includes engaging local businesses, inventorying the signs, working with the tourism groups and sustaining the route over time.
10. A diverse proponent group, which ideally is made up of cyclists, tourism representatives, government representatives and business owners.

Oregon Scenic Bikeway Application Form

Submit proposal to:

Alex Phillips, Bicycle Recreation Specialist
Oregon Parks and Recreation Department
725 Summer St. NE Salem OR 97301
alex.phillips@oregon.gov
503-986-0631

Applications Accepted:

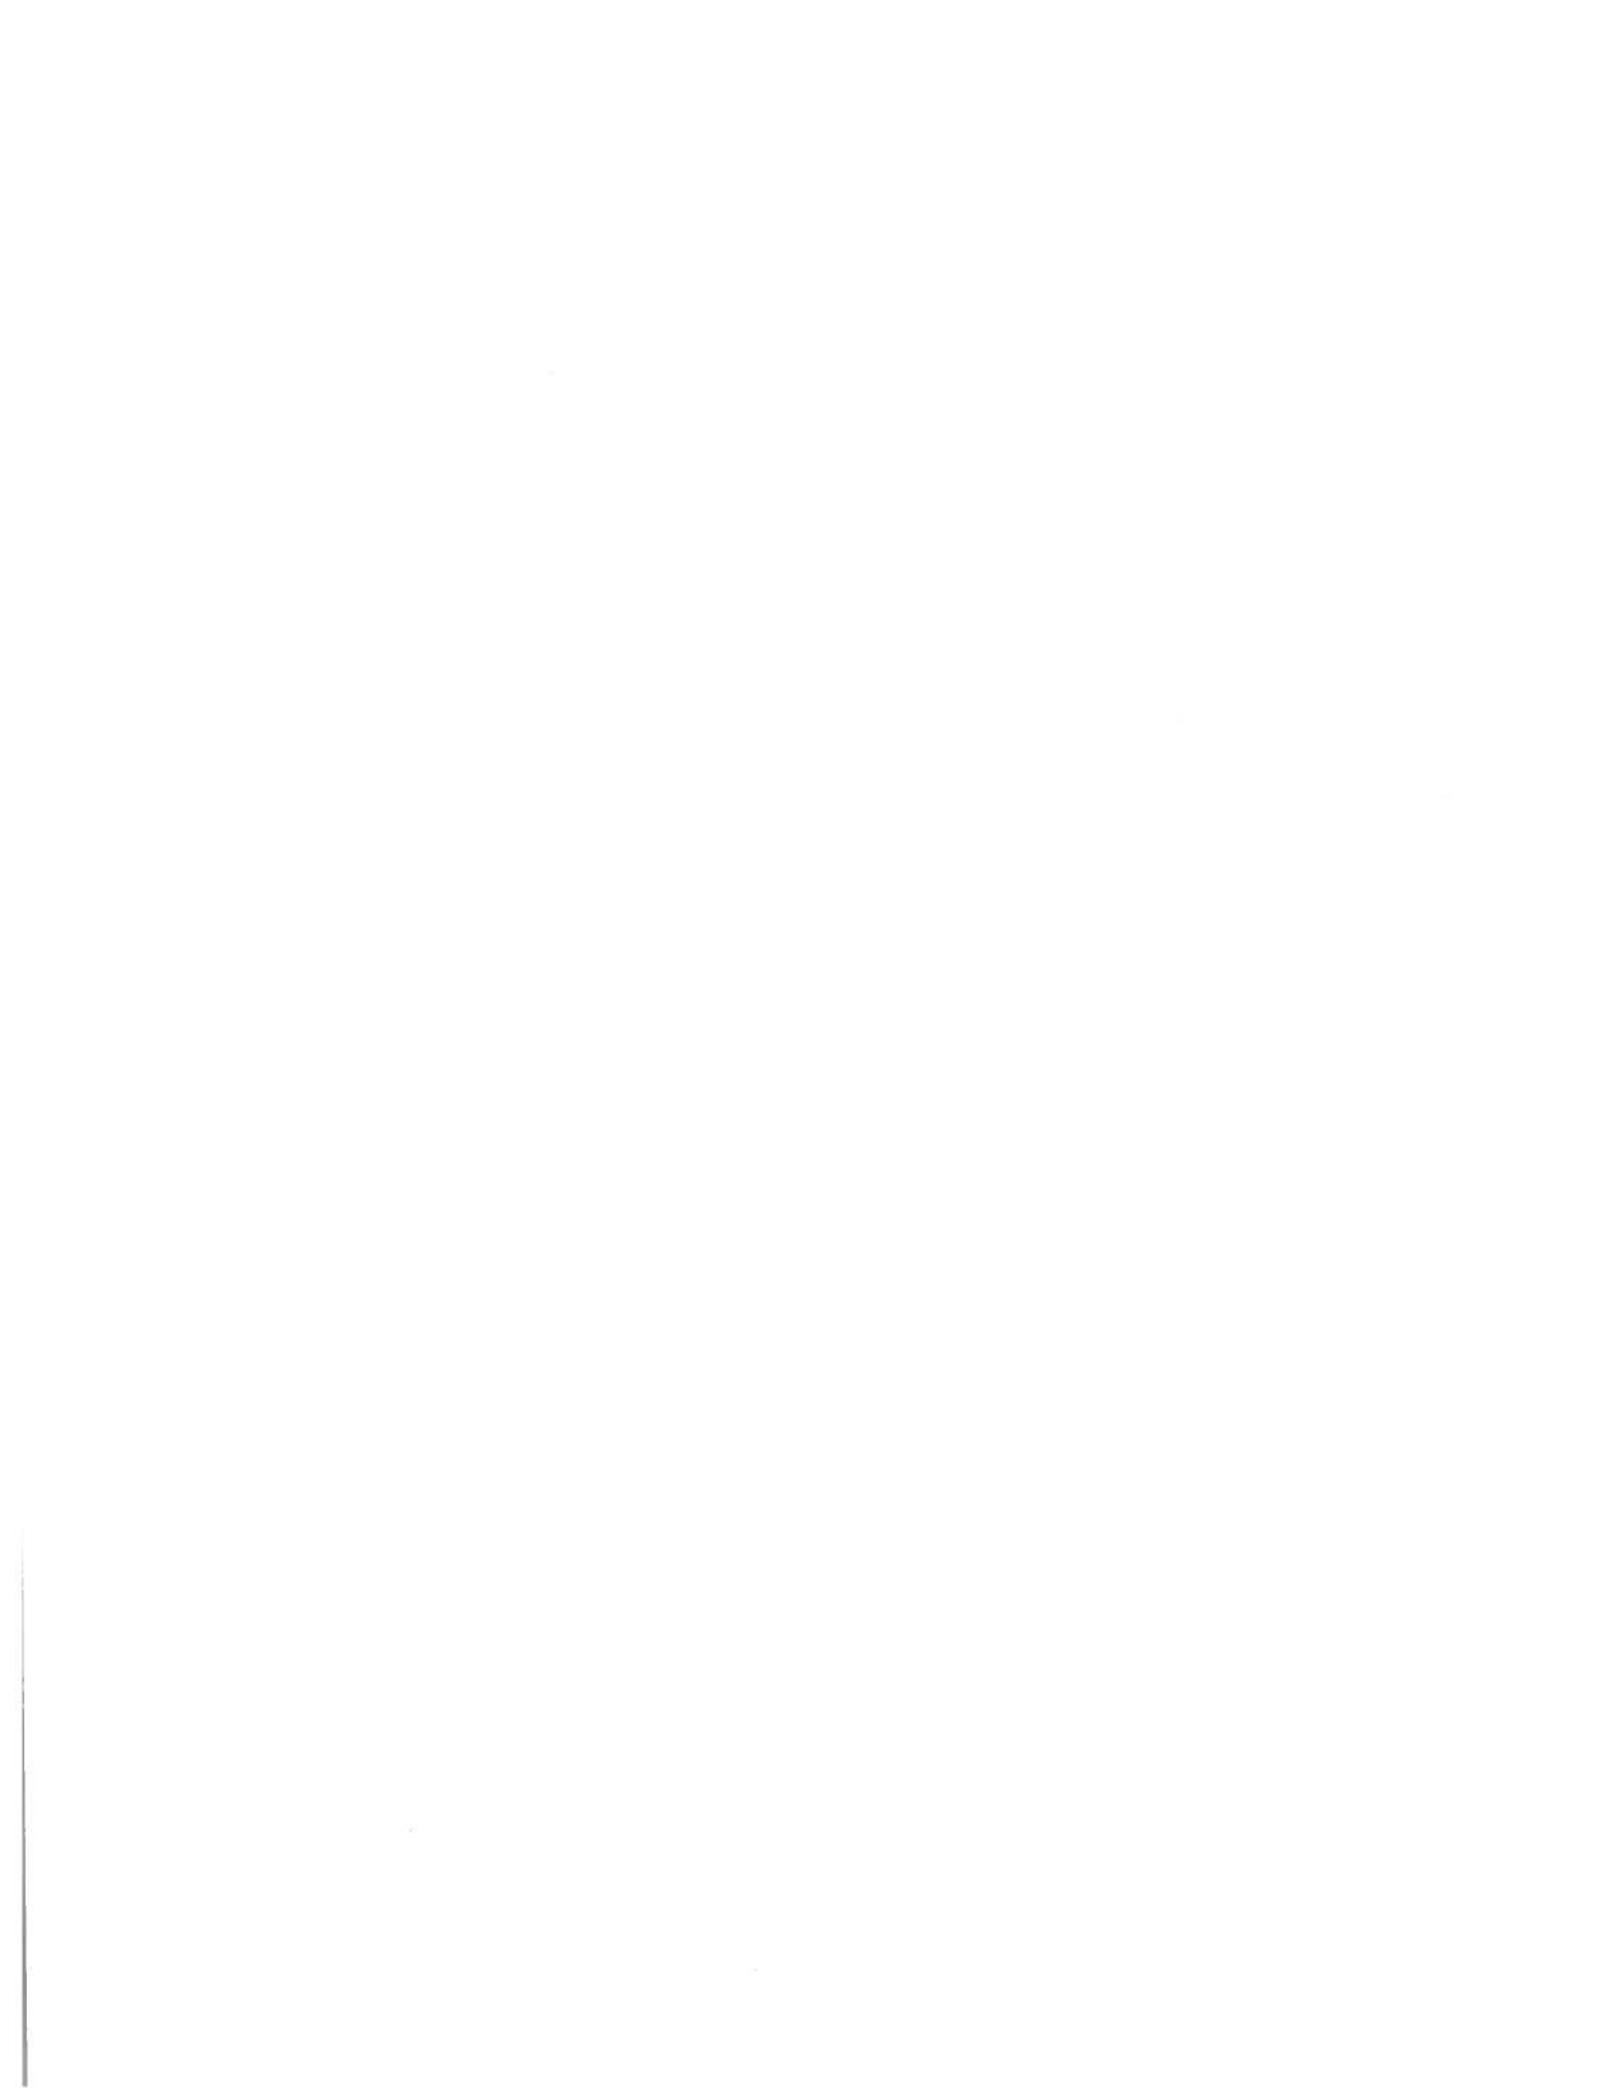

- **March 17- 31st 2015**
- **The application form must be filled out for each proposed route**

Instructions: Please complete this form in its entirety and submit it to the email address above. Contact Alex Phillips with any questions you have. **Application must be no more than 10 MB.** Letters of support and map can be attached by scanning the entire application OR letters and map can be sent in additional emails. **Each email must be no more than 10 MB.**

Bikeway Sample Plan	

A. Introduction

The Oregon Scenic Bikeways Program is designed to provide a high quality collection of cycling routes that inspires people to experience Oregon’s natural beauty and cultural heritage by bicycle and offers economic and social benefits to the state’s communities, residents, and visitors.

Once a proposed Oregon Scenic Bikeway has received the “Recommended” status from the State Parks and Recreation Department (OPRD), there is still work to be done to become an officially “Designated” Oregon Scenic Bikeway. A key step in the Designation process is developing the “Scenic Bikeway Plan.” This Plan is the fundamental backbone of the Bikeway and is imperative to the success and sustainability of the Bikeway over time. The Plan describes how the Proponent Group will manage the Bikeway, and is not about roadway management.

This document is intended to be a guide for the Bikeway Proponent Group to develop their Bikeway Plan. Please review this document, including the “Sample Bikeway Plan” in detail before completing the sections. Proponents may also wish to refer to the “Bikeway Application Guide” as a reminder of the Scenic Bikeway program design and objectives.

B. Steps

The Proponent Group lead will submit drafts of the Plan to OPRD’s Bicycle Recreation Specialist several times to receive guidance and feedback. The plan development and review process begins after the state Scenic Bikeway Committee recommends the route to the OPRD Director for approval. (See the Scenic Bikeway Designation Process Flow Chart on page 2.)

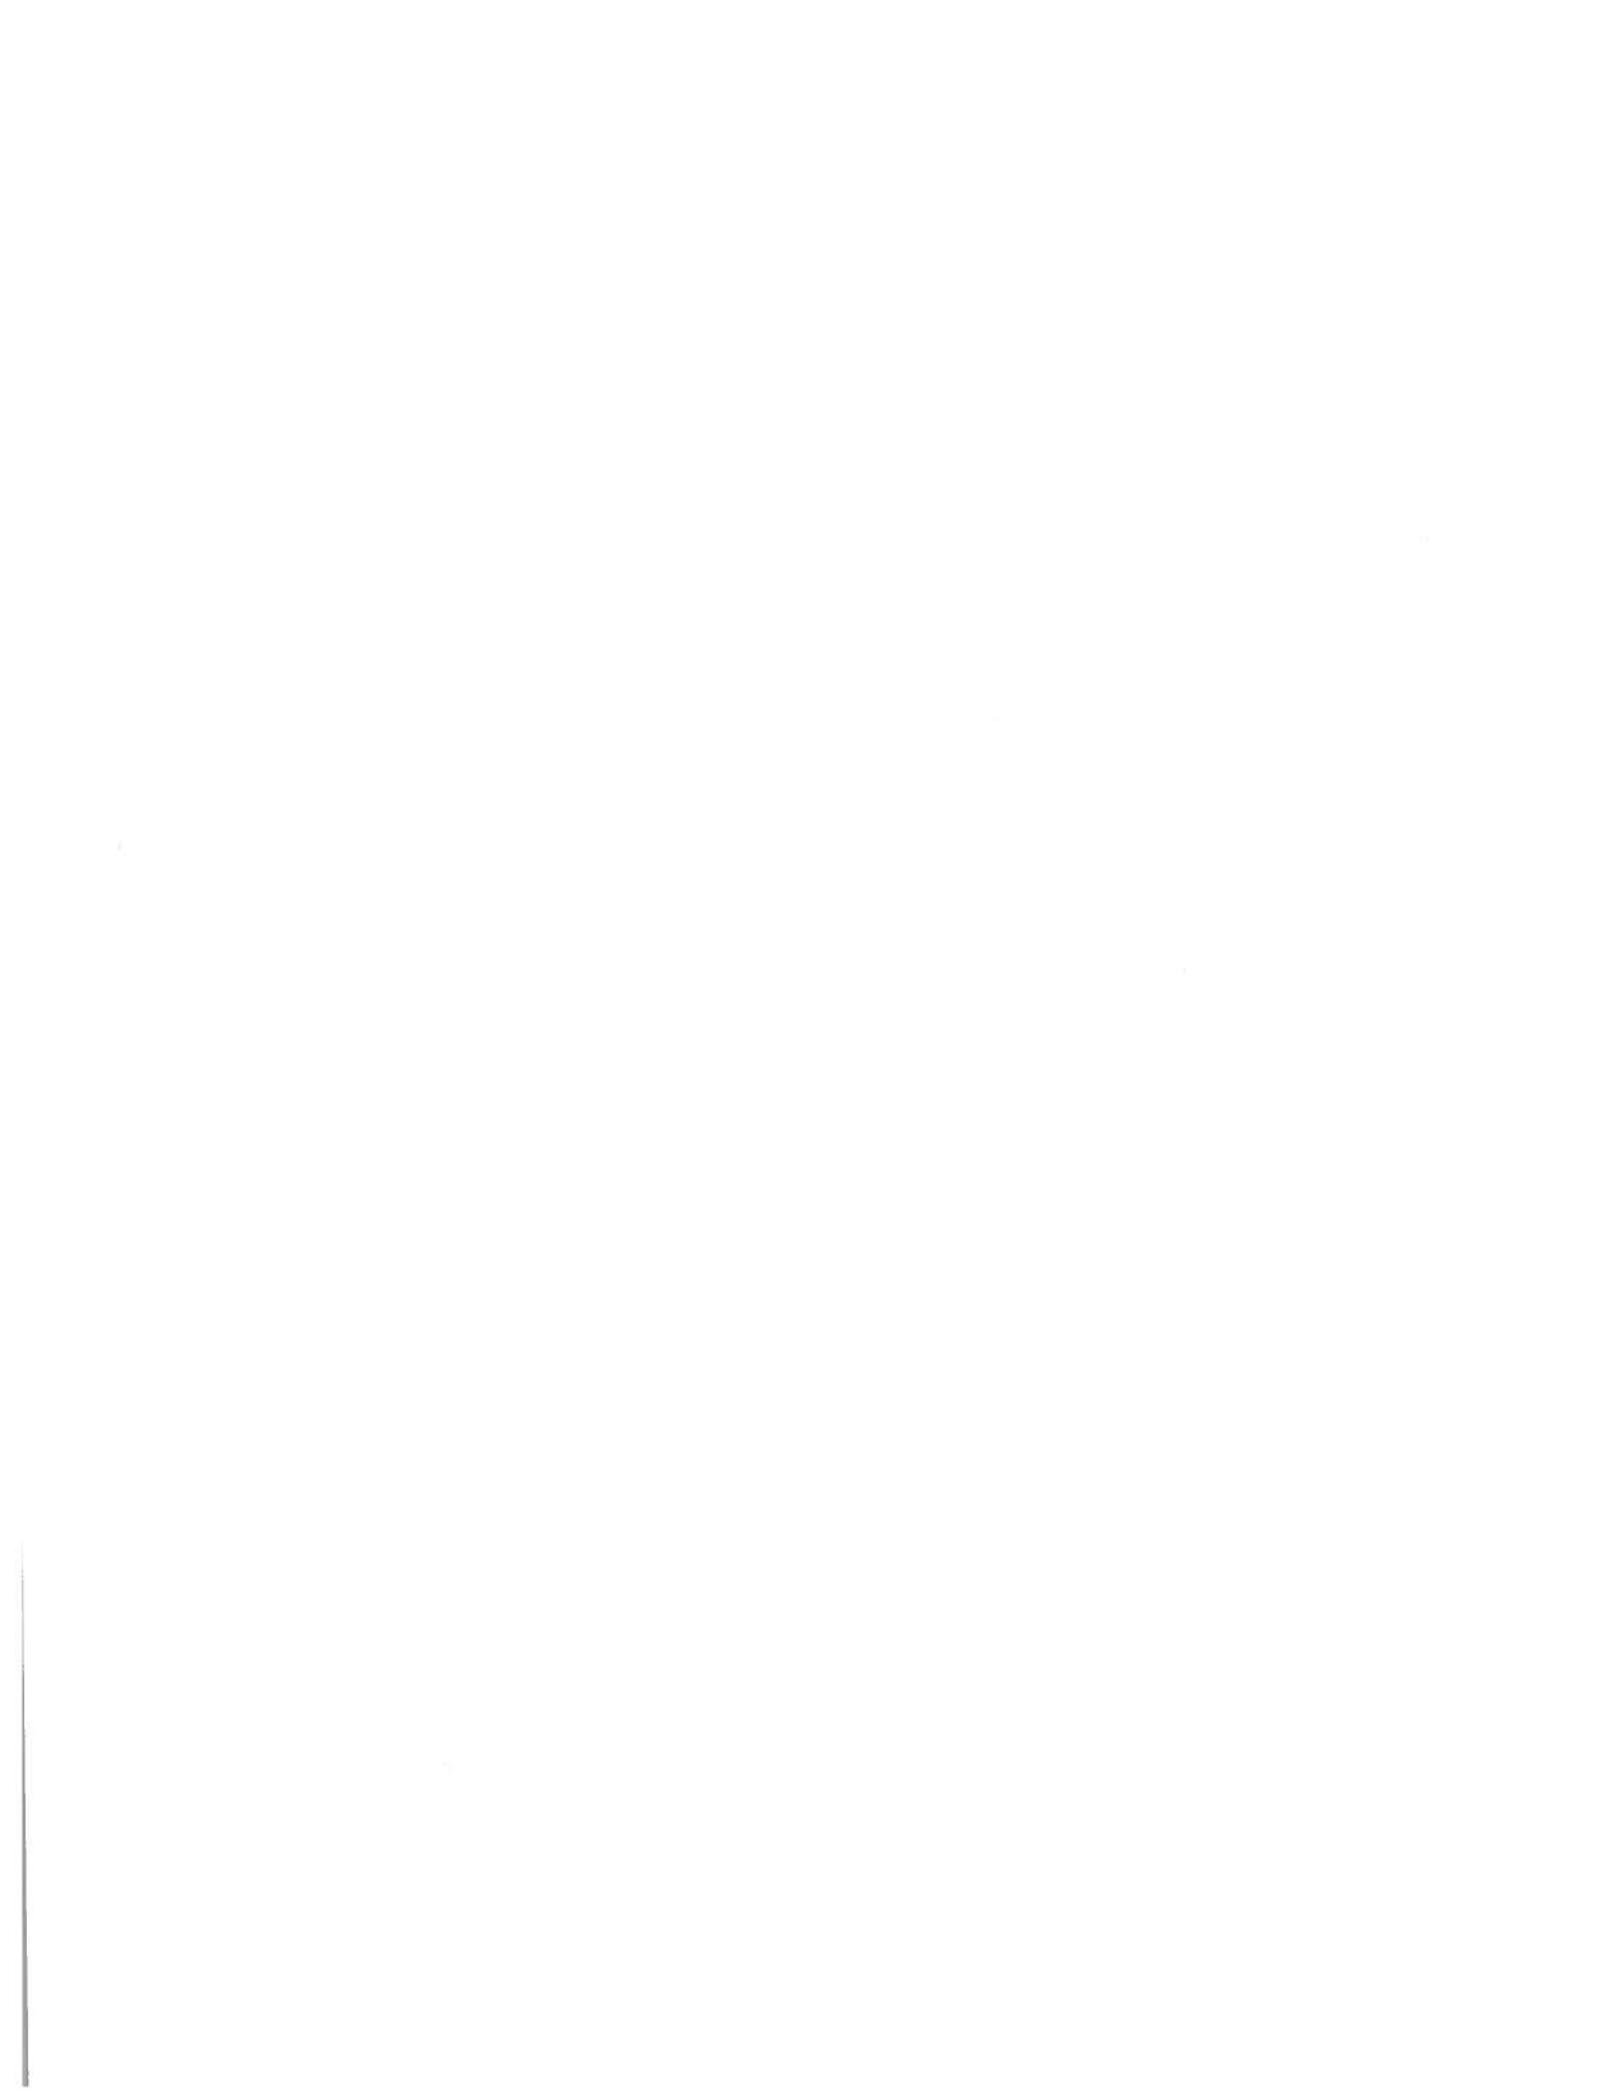

The Proponent Group must make reasonable progress toward completing their Bikeway Plan. If Proponents are not able to complete a Plan within one year after the Bikeway is recommended, the Scenic Bikeways Committee may withdraw the recommendation.

Travel Oregon’s Scenic Bikeway Tourism Workshop

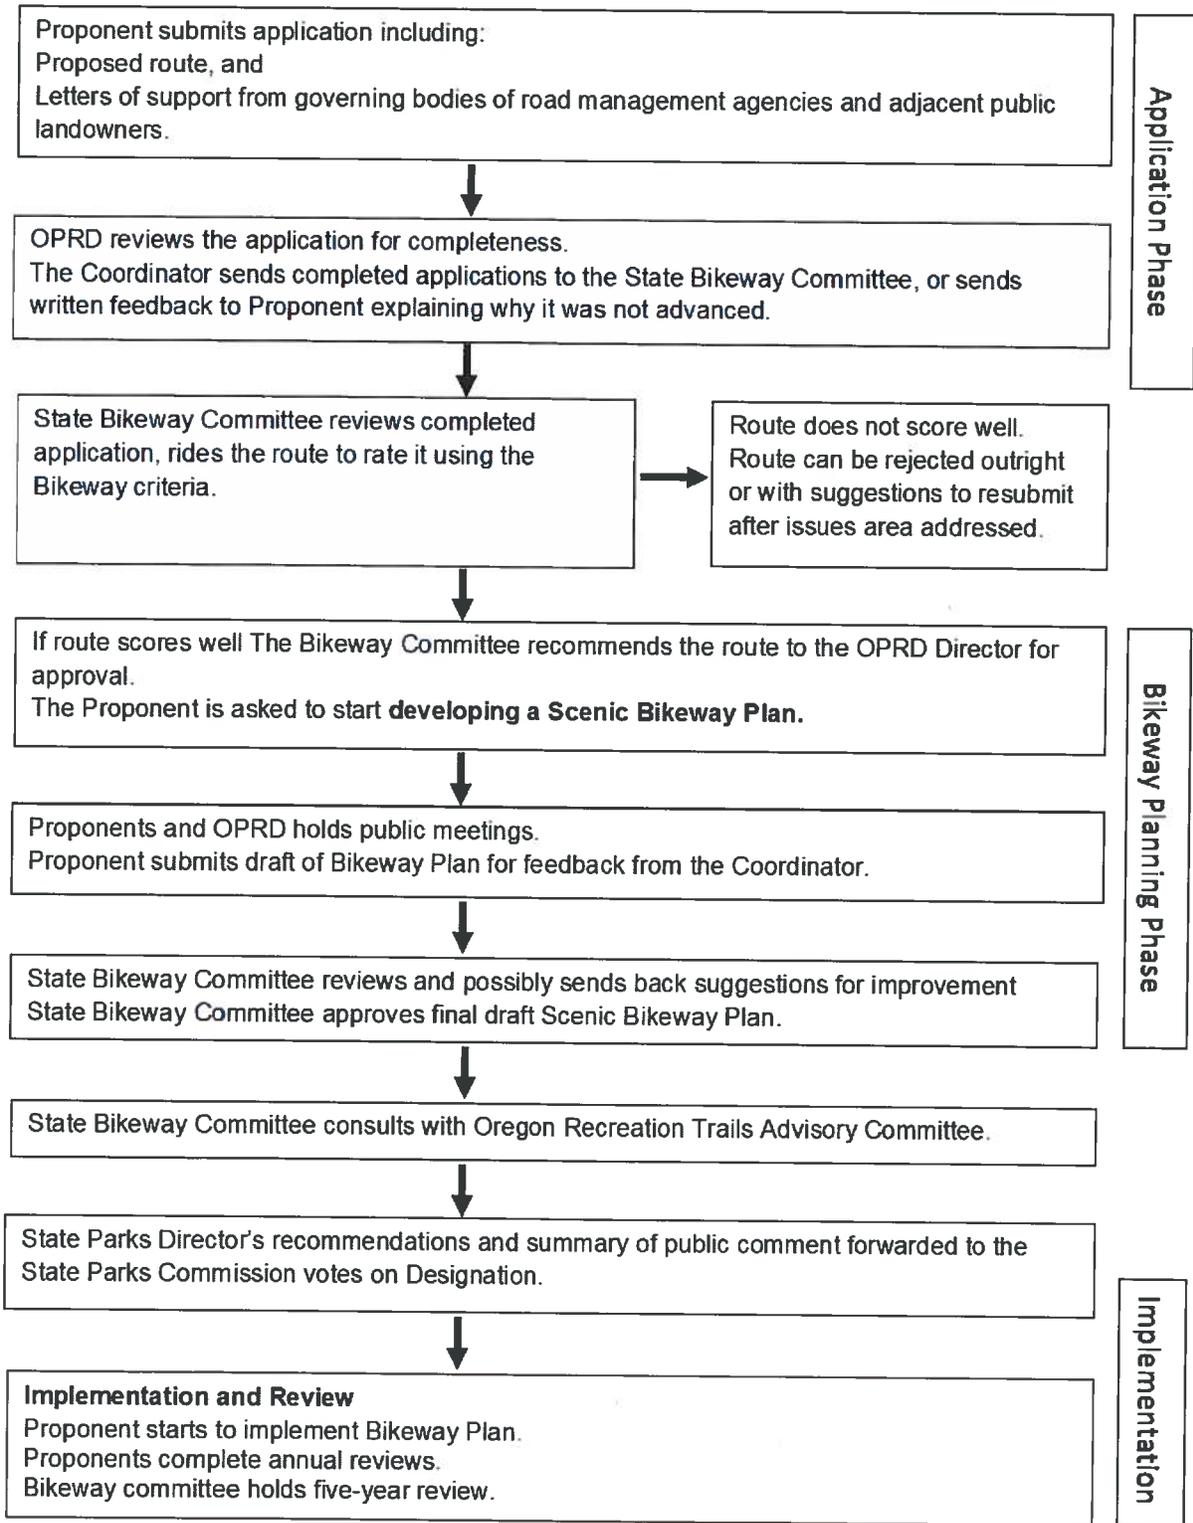

When beginning writing your Bikeway Plan, the OPRD Bicycle Recreation Specialist will connect the Proponent lead with Travel Oregon, the State’s Destination Marketing Organization, to host a Scenic Bikeway Tourism Studio workshop. The goals of the Tourism Workshop are to help your community:

- *Develop familiarity with bicycle tourism industry, other destination successes and marketing resources.*
- *Increase understanding of the region’s current bicycle destination assets.*
- *Develop Scenic Bikeway goals (required for your Bikeway Plan).*
- *Begin to build cross sector relationships and common purpose.*

Scenic Bikeway Designation Process

Plan Preparation and Submittal

The draft Bikeway Plan should be prepared and submitted as Word document(s) using the “Bikeway Plan Template.” Most of the plan information will be inserted into tables that are expandable as necessary to insert additional information.

When the Proponent submits a Scenic Bikeway Plan and the Bicycle Recreation Specialist determines that all required elements are addressed and forwards the plan to the Committee for review. When the Committee approves a plan, the bikeway proposal is advanced to the next step. If the plan is not approved, the Committee provides the Proponent with specific written feedback for improvement. A revised plan may be resubmitted to the Committee for review.

Once the Final Plan is received, the OPRD Bicycle Recreation Specialist will forward the Plan to the Oregon Bikeway Committee for review. After it is approved by the Committee it will be forwarded to the Oregon Trails Advisory Council and finally and State Parks and Recreation Commission for the designation vote. **Note that this process can take up to six months from the time the final Plan is submitted.**

Public Comment and ORTAC Recommendation

OPRD will hold a public meeting and comment period on the recommendation to designate. Oregon Recreation Trails Advisory Council will forward its recommendation to the OPRD Director.

After positive recommendations from Oregon Trails Advisory Council and the OPRD Director, the Director carries the recommendation to the Parks and Recreation Commission for final consideration. Prior to doing so, however, the Director, Oregon Trails Advisory Council or the Commission may request that issues raised at the public hearing be addressed or clarified by the Proponent. The final step in the designation process is for the Parks and Recreation Commission vote to approve the Scenic Bikeway.

Implementation, Cooperative Agreement and Review

Once a Scenic Bikeway is designated, the Proponent’s focus shifts to implementing the Bikeway Plan. The Bicycle Recreation Specialist is an ongoing resource during the implementation phase.

After designation, OPRD and the Proponents will enter into a Cooperative Agreement will include a written list of the tasks for the proponent group and for OPRD and will represent a commitment by each of the involved organizations to diligently perform the tasks outlined in the handbook and Bikeway Plan.

While the approved Bikeway Plan guides the implementation of the route, changing conditions may require either a revision of the plan or a rerouting of the bikeway. Any changes in the route must be approved by the OPRD Bicycle Recreation Specialist. Depending on the significance of the change, the Scenic Bikeways Committee may also be involved in reviewing the proposed change.

Annual and Five Year Review

The administrative rule establishing the Scenic Bikeways Program calls for a five-year review of each designated route. The Bicycle Recreation Specialist initiates this review process with each Proponent as required.

In addition to the Scenic Bikeway Committee’s five-year review, there is also an annual review that requires the proponent to complete a questionnaire supplied by the Bicycle Recreation Specialist.

C. Bikeway Plan Contents

Proponent Group Information

Provide the name and contact information of the lead proponent and other members of the group. The Proponent Group is made up of interested volunteers, at least one cyclist, a person who represents a local destination marketing organization such as a Chamber of Commerce, and local government representatives. There must be one Proponent lead that serves at the primary contact with OPRD.

Members of the proponent group should be designated as lead for the following key responsibilities: Convener, Signs Coordinator, Social Media Coordinator, Local Business Liaison, and Local Government Liaison. While distribution of these duties among the members of the Proponent Group is desirable, it is permissible for a single member of the group fill more than one of the “positions.”

Ride Description

In order to inspire cyclists from all over the world to come and ride the Bikeway, the Proponent group must write a description (300 words or less). This description will be used on the Bikeway’s public webpages (RideOregonRide.com and OregonScenicBikeways.org), on the State Scenic Bikeway Map Guide, in media releases and articles.

Describe why the Bikeway is one of Oregon’s “best of the best”—include geographical characteristics, points of interest, heritage sites, parks, etc. Also, describe if the ride is challenging or easy and if there are little services or many. Do not make the description overly detailed—keep it high-level and inspiring.

Photos

During the planning process, the Proponents should obtain three to four high quality photos in jpg format. These photos will be used on the State Parks, Travel Oregon, and other websites and used in published materials to inspire potential visitors to ride the route. The photos should show cyclists following the rules of the road and wearing helmets. The photos may be sent to OPRD’s Bicycle Recreation Specialist via email or CD and be accompanied by a Use Release form supplied by OPRD.

Map Information

Do **not** make a new map. The OPRD Bicycle Recreation Specialist will send a draft map and cue sheet for the proponents to review for accuracy.

Visiting bicyclists need to know where all the services are along the route—this information is critical to them, so they can be safe and prepared for their ride. A list of the available services along the Scenic Bikeway route should be prepared. These include campgrounds, parks, public restrooms, public water stops and other **publicly** available amenities. If the Proponent group is unsure of where these services are, they must contact others in the community to locate them. The list of services will be used by OPRD when preparing the Bikeway map.

Goals

The Proponent Group must identify goals and first steps or action items that will help maintain and improve the Bikeway over time resulting in positive cyclists' experiences, and in turn, more economic benefits to the community and local businesses.

Completion of many of these activities may not be in the Proponent Group's control. However, it is important that they be listed in the Bikeway Plan, and that there is a Proponent Group member who can act as the lead contact on advocating for each of the goals. The plan should include activities that are easily achievable in the short-term and those that could take years and require significant funding.

Goals must address each of the following topical areas: Infrastructure, Business Outreach and Services and Marketing/Communications

Infrastructure

- *Infrastructure projects that will help maintain and improve the experience of riding the Scenic Bikeway might address improvements such as:*
- *Improving and adding facilities (bike lanes, improved pavement conditions, bike racks, fix-it stations, restrooms, drinking water).*
- *Interpretive Information (interpretive panels, anchor point informational kiosks, online or hardcopy brochures).*

Business Outreach and Services

Business services activities may include contacting local businesses to inform them Scenic Bikeway, encouraging the business to participate in the Bike Friendly Business Program and to encourage the business to educate their front line staff so they can direct visitors to RideOregonRide.com and other local places for Bikeway information. To encourage businesses to sign up for the Bicycle Friendly Business Program and to improve their services for cyclists

- *Informing local businesses of the Bikeway*
- *Encouraging businesses to participate in Travel Oregon's Bike Friendly Business program.*

- *Work with businesses to improve their services for cyclists such as providing bicycle racks at restaurants and secure bicycle parking in hotels.*

Marketing and Communications

Proponent groups' activities augment the broad marketing and communications resources provided by Travel Oregon, OPRD, and the local Destination Marketing Organization. When identifying these activities, the proponents should consider the following resources and opportunities:

Rideoregonride.com is the interactive cycling website hosted by Travel Oregon. Designated Scenic Bikeways are posted in a special section of the site. At least one member of the Proponent Group should be assigned to ensure accuracy of the information and to post timely comments to the rideoreognride.com site.

Post comments that potential visitors can use to help plan their trip on the rideoregonride.com, such as "Snow has been cleared on McKenzie Pass and is now open for bicycles all the way Windy Point" or "Store at Austin Junction now open for season." Post comments on road closure or conditions that makes cycling difficult. Send corrections and additions to content editor at: info@rideoregonride.com Inform OPRD of these for posting on the state website.

Oregonscenicbikeways.org is the direct address for OPRD's Scenic Bikeway web page. Ride descriptions, maps and cue sheets are posted on this site. For updates and/or corrections to this site, contact the Bicycle Recreation Specialist, Alex Phillips at alex.phillips@oregon.gov or call 503-986-0631.

Working with Local Tourism Organizations: Travel Oregon and OPRD promote the bikeways nationally and internationally. The proponent's role is to work with the local Destination Marketing Organization to supply information needed for them to successfully promote the Scenic Bikeway. To find the destination marketing organization for your area, visit the Travel Oregon website at <http://industry.traveloregon.com>.

Record of Community Outreach & Public Meetings

Performing public outreach is a great opportunity to recruit additional Bikeway Proponent members and to build community awareness and support. The proponent must collect materials showing this outreach has been done and include it in the final Bikeway Plan.

Proponents are encouraged to hold more than one public meeting and to perform additional community outreach such as submitting Letters to the Editor in the local paper, addressing City and County Commissioners and sharing about the proposed Bikeway at other community and non-profit events.

Once the final draft of the Bikeway Plan has been submitted, OPRD will host an additional public meeting at which the Proponents should plan on participating.

Bikeway Sign Location Tables

The Bikeway Sign Location Tables (or maps) show the location of each directional sign, the appropriate arrow and size of sign, and the jurisdiction in which the sign is located. The Sign Table must be reviewed for accuracy each road jurisdiction before the plan is finalized and to confirm the jurisdictions' concurrence with the sign and location.

For routes marked in both directions it is often easier to create two tables. When using the Bikeway Plan Template, replace "Direction A" and "Direction B" with a meaningful label such as: clockwise and counterclockwise, or northbound and southbound. If there are suggestions for the exact location, such as 30 feet previous to the turn, please include the suggestion in the table.

Signs are installed by the road jurisdictions, with costs paid by OPRD and other funding sources. Road jurisdictions incur no costs. The proponent will be the contact for any placement questions the road jurisdiction may have.

The Proponent will perform a yearly inventory of missing or damaged signs of any signs that need to be replaced.

The bikeway signs are included in the Oregon Supplement of the Manual of Uniform Traffic Code Devices. There are two sizes. The 18" by 24" sign is for towns and off road paths. The 24" by 36" sign is for county and state roads. See the following illustration:

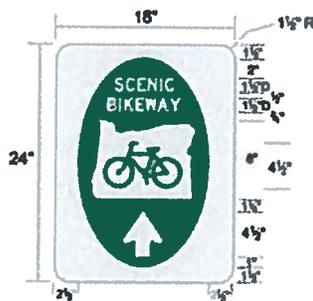

Sign No. OBM1-8

12" x 7" bike
5" x 6" arrow
(5" x 7 1/2" for left, right or angled arrows; 3" x 8" for horizontal two-headed arrow)

Sign No. OBM1-8a

8" x 4 1/2" bike
4" x 4 1/2" arrow
(4" x 6" for left, right or angled arrows; 3" x 8" for horizontal two-headed arrow)

Note: Bike symbol should face to the right when arrow orientation is to the right.

Sign Background: White, Reflective Background
Green, Reflective Oval

Sign Legend: White, Reflective Letters, Arrow and State
Green, Reflective Bike

SIGNSTD.PG.F15

The SCENIC BIKEWAY ROUTE sign (OBM 1-8 or OBM 1-8a) can be used in lieu of any other bike route sign when it is used on a state designated bike route.

The 24" x 36" version (OBM 1-8) is to be used where the bike route is physically adjacent to or part of the highway. The 18" x 24" version (OBM 1-8a) is to be used where the bike route is physically removed from the highway.

OREGON DEPARTMENT OF TRANSPORTATION

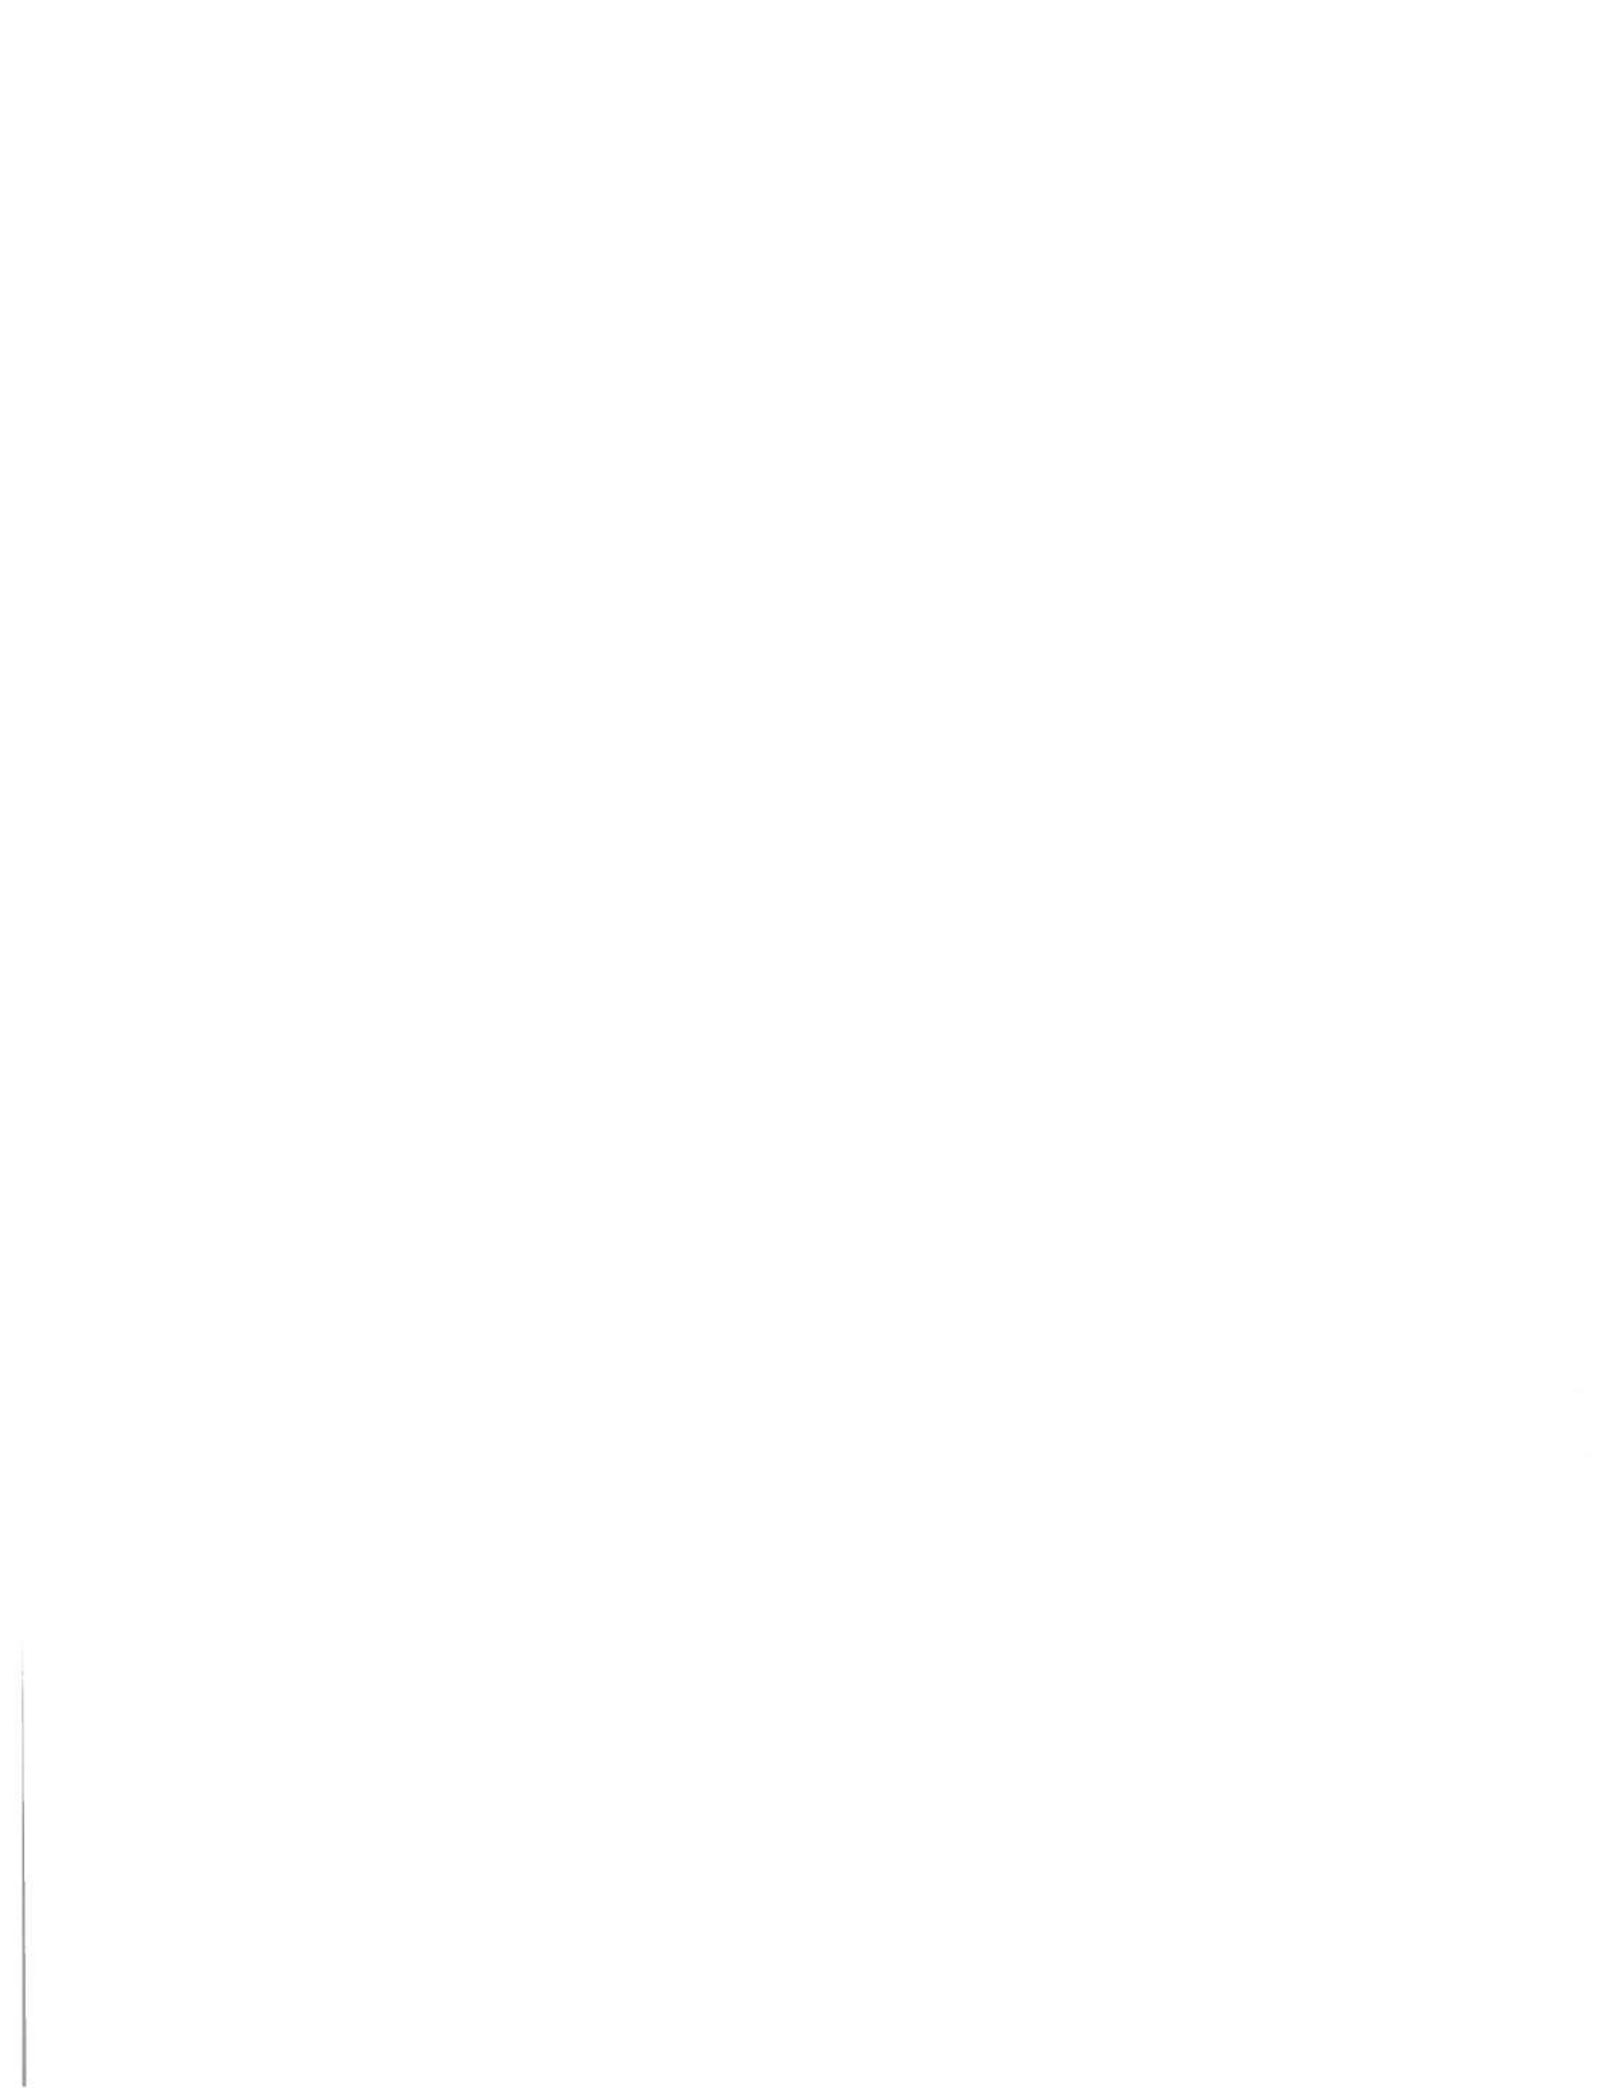

Approved By: S.T.E.

Date: 5/05

Publication Date: 8/11

8-82

Final Bikeway Letters of Support:

The Proponent Group must get final letters of the support from each of the governing bodies of all road jurisdictions (ODOT regions, county commission, city councils Forest Service District Rangers and Forest Supervisors for all lands, counties and cities that the proposed Bikeway passes through.) Even if the jurisdictions are not responsible for the roadway, letters are still required. Also note letters from USFS and BLM are required if the Bikeway parallels or enters into lands managed by those agencies.

Please note that these final letters of support are in addition to the initial letters received with the initial Bikeway Application. Letters must be valid and dated within six months of the date in which the final Bikeway Plan will be submitted to OPRD.

Organizational Affiliation: Waynesboro Chamber of Commerce	

Other Proponent Group Members

To create more boxes place cursor in last box and press the tab key

Name	Organizational Affiliation/ Title	Email/ Phone
Joe Cyclist	Waynesboro Bicycle Club President	joc@cycling.org 861-555-1212
Bob Jones	Waynesboro Chamber of Commerce Public Information Officer	mollyj@waynesborochamber.org 861-555-1234
Samantha "Sam" Wrench	Green Ridge Bike Shop Owner	bob@grbs.org 861-555-1455
Molly Hammer	Waynesboro Bicycle Club Member	thammer@yahoo.com 861-555-8888
Sally Souffle	La Coupole Bed and Breakfast Owner	sally@lacoup.com 861-555-9999

Key Proponent Responsibilities

Proponent Member Name*	Task/Responsibility
Melinda Smith	Convener. Periodically convene key volunteers and supporting organizations to coordinate promotion and improvement of the bikeway.
Joe Cyclist	Signs Coordinator. Monitor bikeway directional signs and report missing or down signs to the appropriate road jurisdiction. Work with the State Parks and Recreation Department Bicycle Coordinator as necessary to obtain replacement signs.

Molly Hammer	Social Media Coordinator. Post information and updates about the bikeway to the RideOregonRide website. Advise the State Parks and Recreation Department Bicycle Coordinator of route closures and other significant events affecting use of the bikeway.
Bob Jones	Bicycle Friendly Business Recruiter. Coordinate identification of members of the local business community who can provide services to bikeway users and assist them in improving and expanding their services.

** Contact information for proponent group members listed here is provided above.*

Bikeway Description

300 words or less

The Green Ridge Bikeway is a slow-paced and relaxing ride revealing stunning long-range vistas and close-up views of the rugged mountains and pastoral landscapes and a diversity of plants and animals, the Bikeway meanders for 85 miles, through stunning views and meanders through quaint towns providing opportunities for enjoying all that makes this region of the country so special.

Visitors to the route will see significant mountain landscapes stretching far beyond the shoulders of the bikeway itself and will have access to high mountain passes, panoramic views, and miles of countryside. The route provides a museum with roughhewn log cabins of the mountain pioneers, a summer home of a textile magnate, and traces of early industries such as logging, railways, and an old canal.

The road sits at the headwaters of many local and regional watersheds and crosses three major rivers that define the hydrological patterns of much of the state.

The route traverses a varied habitat, ranging from 649 feet at Rushing River to 6,047 feet at Vista Pass and offers protection to an enormous diversity of plants and animals. Cyclists on the route will be able to find many different plant species as any other place in the state and view a variety of wildlife species including 43 kinds of amphibians, 99 fish, 60 mammals, 225 birds, and 31 reptiles. Trees are everywhere, over 100 species! In spring, tulip trees and serviceberry produce showy blooms. In fall, leaves burst into color. Flowering shrubs such as rhododendron, flame azalea, and mountain laurel put on a springtime show that rivals the tree's fall display.

Photos

- Photos of the route, along with Release forms signed by the photographer, have been sent to OPRD's Bicycle Recreation Specialist directly via email, through Drop box, Flickr or an FTP site.*

Map Information

To be filled out **AFTER** receiving first draft of map from OPRD in order to use the mile markers on the map for location. The campgrounds, parks, public restrooms, public water stops and other publicly available amenities to be shown on the Scenic Bikeway map are listed below:

Amenity	Mile Marker from OPRD Map	Management Agency
Restrooms and potable water at Green Valley City Park	Mile 0 - Start/anchor point in Green Valley	City of Green Valley
Hyatt Lake Campground with potable water	Mile 28	BLM

Bikeway Goals

Infrastructure Improvement

The proponents intend to pursue the following activities to enhance the bikeway by improving riding conditions and providing amenities for bicyclists:

Infrastructure Improvement Goal: Create hiker/biker camping sites at the existing campground county managed campground		
Action Items/First Steps	Proponent Member Contact/Lead	Timeline
<ul style="list-style-type: none"> Send info on hiker/biker site management from OPRD, send to County Meet with County Parks and Rec Manager to gauge interest and discuss ways to help find funding 	Jane Cyclist	<ul style="list-style-type: none"> Compile info winter 2016 Meet with County Parks and Rec. Manager spring 2016

Infrastructure Improvement Goal: Design and install interpretive kiosk (Map, route and safety info) at Bikeway anchor point

Action Items/First Steps	Proponent Member Contact/Lead	Timeline
<ul style="list-style-type: none"> • Speak with other Bikeway proponents who have installed kiosks for design and funding ideas 	Alison	<ul style="list-style-type: none"> • Speak with other Bikeway proponents at annual Bikeway Conference fall 2017 • Work with city on permission and location of kiosk winter 2017 • Finalize design and secure funding winter 2017-2018

Business Outreach and Services

The proponents intend to pursue the following activities to expand and improve the business services available for visiting bicyclists and to attract new visitors:

Business Outreach and Services Goal: Have five local businesses join Bicycle Friendly Business Program

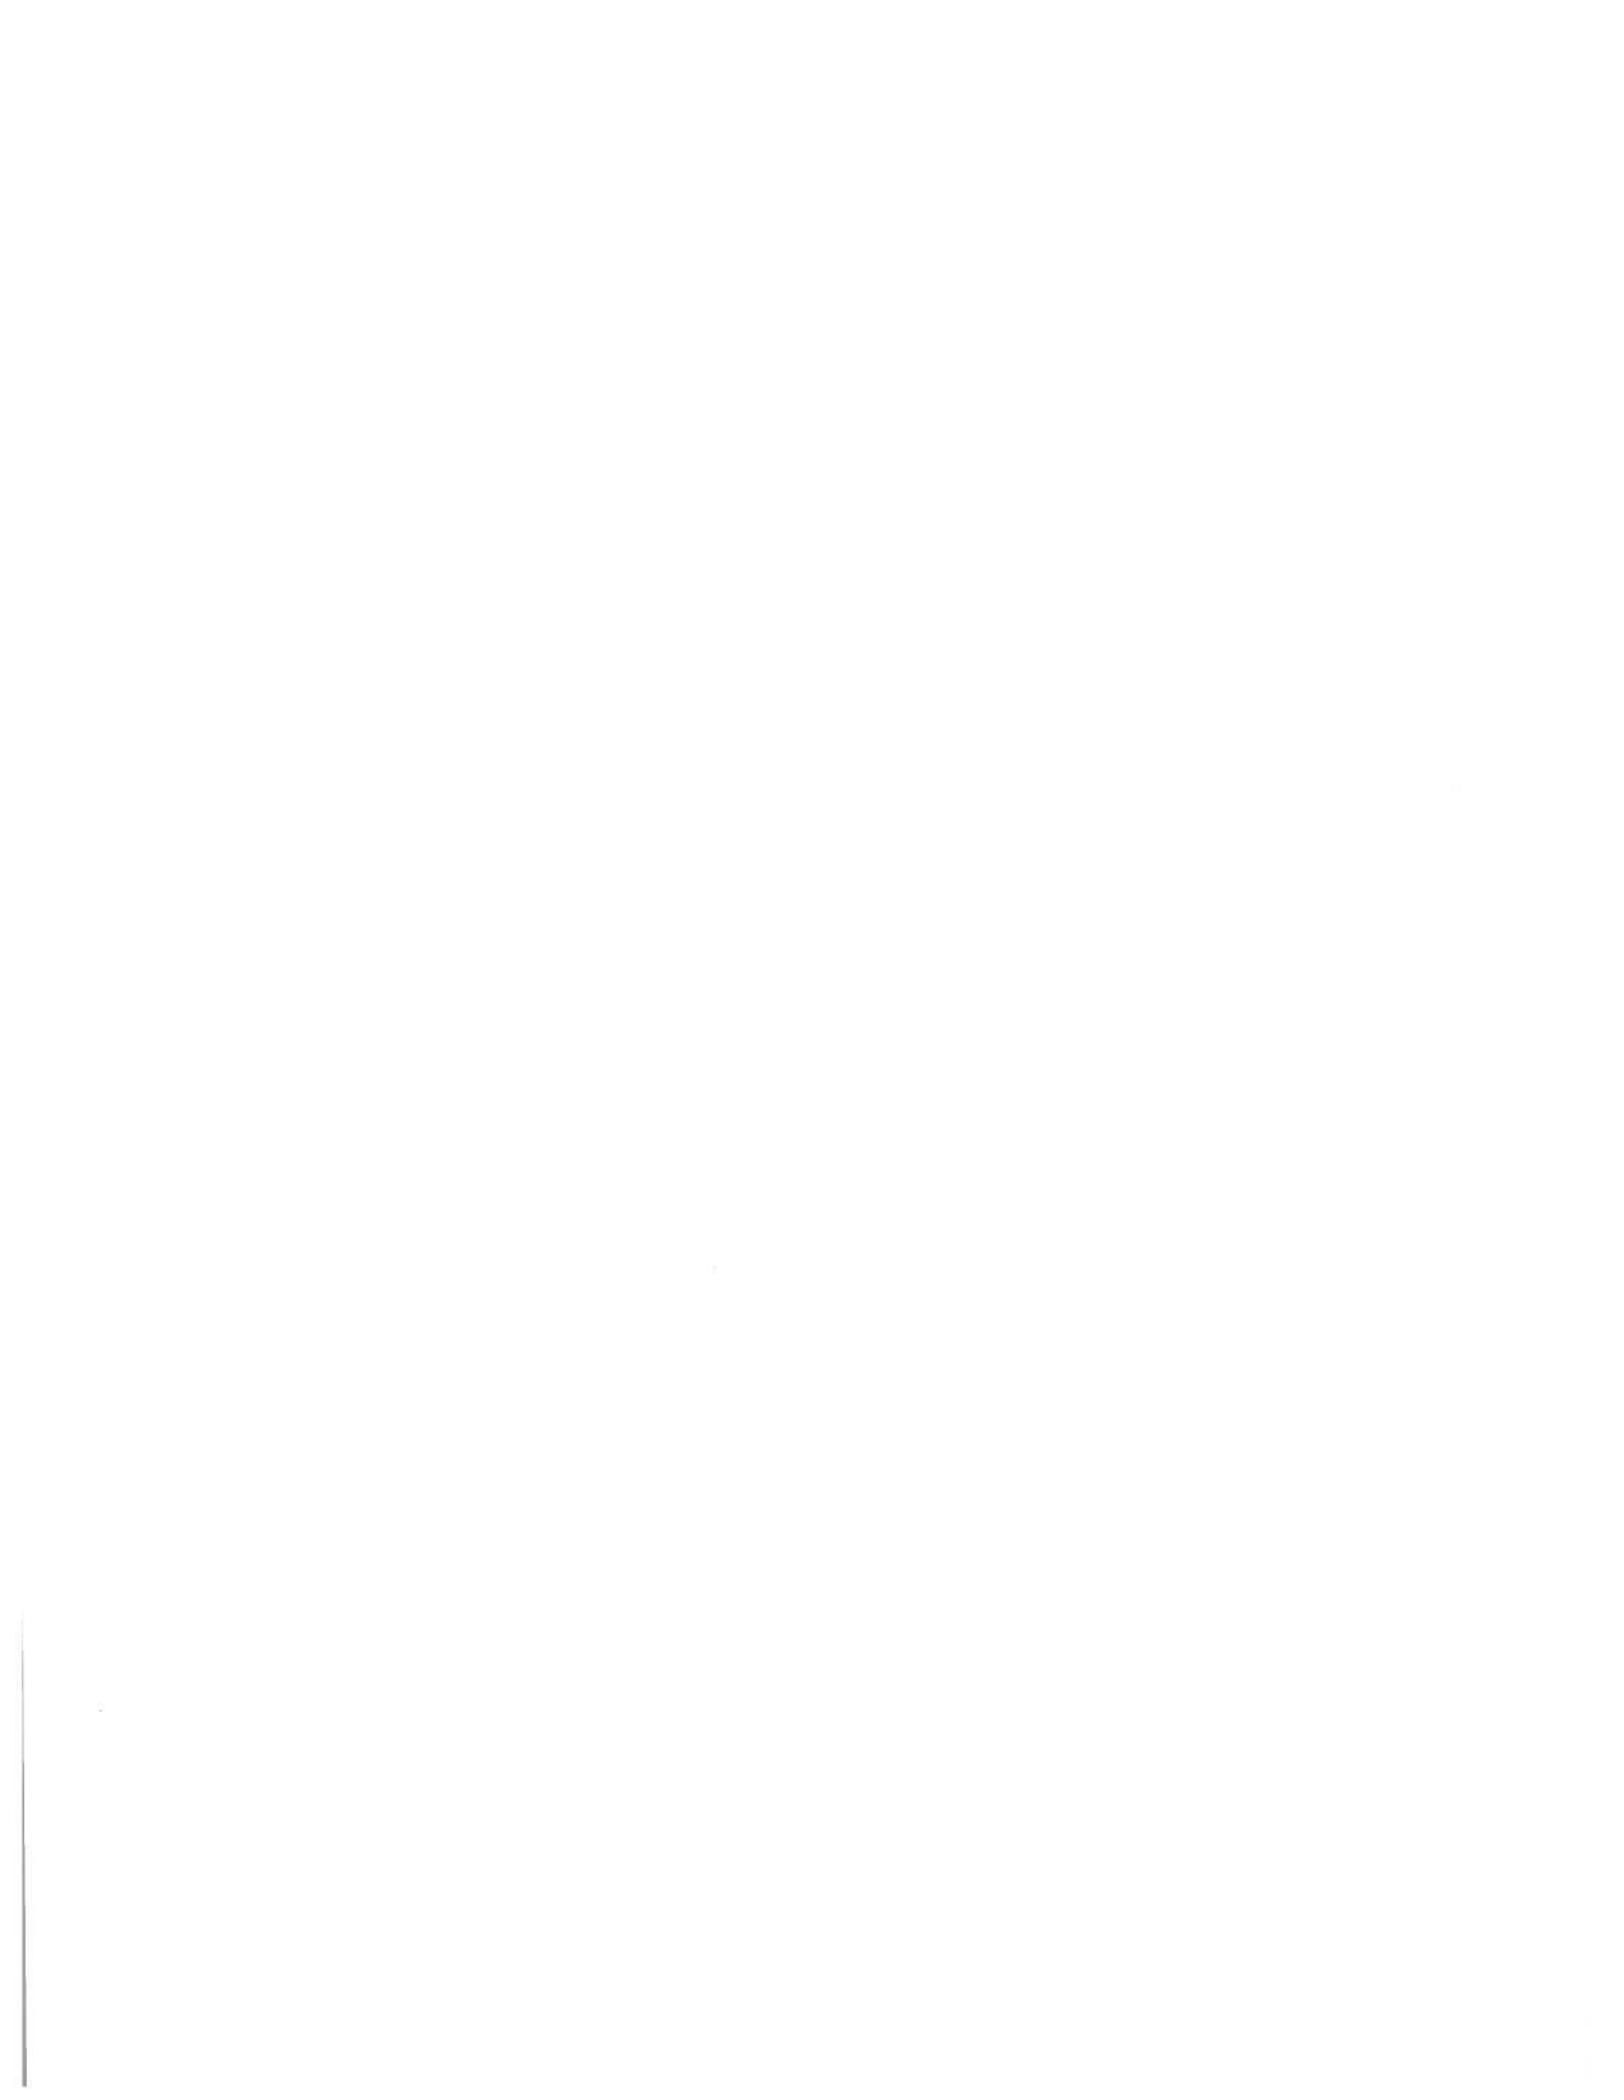

Action Items/First Steps	Proponent Member Contact/Lead	Timeline
<ul style="list-style-type: none"> • Pick five local businesses that cyclists would visit 	Bob Jones	Spring of 2017

Business Outreach and Services Goal: Influence local businesses to become more bike friendly by building awareness of the economic benefits of bicycle tourism

Action Items/First Steps	Proponent Member Contact/Lead	Timeline
Show local business owners bicycle tourism economic benefit surveys by meeting individually and at Chamber meetings	Bob Jones	Starting spring of 2017-ongoing

Marketing and Communications

The proponents will pursue the following activities to make bicyclists' experiences great by complementing the broad marketing and communications resources provided by Travel Oregon

and the Parks and Recreation Department, and to assist the local Destination Marketing Organization in marketing the Scenic Bikeway:

Marketing and Communications Goal: Coordinate with Travel Parkway County to gain media awareness and coverage of the Bikeway.		
Action Items/First Steps	Proponent Member Contact/Lead	Timeline
Supply DMOs, RMOs and the Bicycle Coordinator with high quality photos for use in promotional material.	Sam Wrench	July 2105 and each summer after
Provide DMOs ideas for seasonal and timely stories of interest to cyclists.	Bob Jones	Fall 2015
Have regular meetings/calls with DMO to find out what they need to promote the bikeway.	Bob Jones	Annually beginning fall 2015

Marketing and Communications Goal: Promote the Bikeway to bicycle clubs and other cycling organizations.		
Action Items/First Steps	Proponent Member Contact/Lead	Timeline
Plan a kickoff event the first year of the Bikeway or at the beginning of the riding season.	Joe Cyclist	Start planning fall 2016 for 2017 event

Record of Community Outreach & Public Meetings

During development of the Bikeway Plan, the proponents provided the following opportunities for members of the community to learn about and provide input into plans for the proposed Scenic Bikeway:

Description of Outreach or Opportunity for Public Input	Date
Calendar event listing from local paper	02/02/14
Article on Proposed Bikeway from webpage of local paper	03/12/16
Editorial supporting Bikeway	04/22/16

Check when copies of news articles, calendar events, minutes from meetings, sign in sheets and other announcements are attached or sent in a separate file.

Route Evaluation Form Scenic Bikeway Criteria

Route Characteristics				
Best: 5 Points	4 points	Moderate: 3 Points	2 Points	Minimal: 1 Point
Natural Qualities				
The route offers multiple opportunities for viewing natural qualities with a high degree of variation, strong contrast, unique shapes, dramatic settings and unusual combinations of interesting landforms, color, vegetation, wildlife, bodies of water, etc.		The route offers moderate opportunities for viewing natural qualities with some degree of variation, strong contrast, unique shapes, dramatic settings and unusual combinations of interesting landforms, color, vegetation, wildlife, bodies of water, etc.		The route offers minimal opportunities for viewing natural qualities with little degree of variation, strong contrast, unique shapes, dramatic settings and unusual combinations of interesting landforms, color, vegetation, wildlife, bodies of water, etc.
Human-made Qualities				
The route offers multiple opportunities to view, visit and/or experience a variety of points of interest such as buildings, structures, objects, sites, heritage sites, whole districts or expansive agricultural landscapes.		The route offers moderate opportunities to view, visit and/or experience human-made qualities of interest. The route may intersect sub-divisions or other forms of block and strip development for distances of less than 2 miles.		The route offers minimal opportunities to view, visit and/or experience human-made qualities of interest. The route travels through subdivisions or other forms of block and strip development for distances of 2 miles or greater.
Sensory Qualities				
Most of the route offers an engaging variety of sensory experiences including a mix of pleasant sounds, odors and tactile opportunities.		Some of the route offers a moderate variety of sensory experiences. Some portions of the route may travel through areas that are drab, noisy and smelly.		Large portions of the route travel through areas that are drab, noisy and smelly.
Route Conditions				
Best: 5 Points	4 points	Moderate: 3 Points	2 Points	Minimal: 1 Point
Route Surface				
Smooth surface. Surface regularly maintained clear of debris.		Smooth surface, with some cracking. Surface generally clear of debris.		Rough surface or surface in need of serious repair. Debris frequently encountered.
Traffic Volume				
(Include subjective rating and actual traffic counts where available.) Motor vehicle traffic volume is low with few or no large trucks.		Motor vehicle traffic volume is moderate with some large trucks.		Motor vehicle traffic volume is high consisting of large trucks and cars.
Traffic Speeds (posted & actual)				
The posted and actual speed limit are low; less than 30 mph.		The posted and actual speed limit are moderate; 40- 45 mph		The posted and actual speed limit are above 55- 65 mph.
Route Separation				
Bicycle traffic is separated from vehicle traffic by a separate path, bike lane, or wide shoulder.		Bicycle traffic is separated from vehicle traffic by a moderate shoulder.		There is little separation between bicycle and vehicle traffic.
