

Greater Newport Vision 2040 Project

VISION FOCUS AREAS & SAMPLE SUBTOPICS

DRAFT

Focus areas are the central themes around which a community's vision and action plan are organized. Every vision goal, strategy or action should fall within one of these areas. The draft focus areas listed below are proposed for the Newport visioning project. The subtopics are samples of the kinds of topics that may be discussed within an area. Typically, some ideas developed in a visioning process will fall into more than one focus area, but ultimately specific goals, strategies or actions will only appear in one place in the resulting vision or plan.

ENHANCING A LIVABLE REGION

- Affordable Housing
(Workforce, Rental, Single-Family)
- Neighborhoods, Districts & Downtown
- Land Supply & New Development
- Transportation
(Traffic, Transit, Bike/Ped, Parking)
