**CERTIFIED CHILD CAR SEAT TECHNICIANS
IN NEWPORT AND LINCOLN CITY**

Three Lincoln County public safety personnel have become certified child car seat technicians.

On September 29, Lincoln City Police Officer, Daniel Lancaster; Newport Police Officer, Brad Purdom; and Newport Firefighter Richard Giles, completed a 30-hour basic car seat installation technician training. This training was in-depth and covered all child-passenger restraint systems and options.

There will be free clinics scheduled throughout the year. For questions or free one-on-one appointments contact: Richard Giles at 541.961.3566; Brad Purdom at 541.265.4849. For the north half of Lincoln County, contact: Daniel Lancaster at 541.994.3636 or Brett Rudolph at 541.994.3636.

As a seasonal reminder, be sure to bundle up your young ones AFTER correct placement in the appropriate restraint. Extra clothing, such as thick coats under the straps of a car-seat, may lead to restraints not fitting correctly and resulting in an unsecured child during a traffic collision.
