**CITY OF NEWPORT  
WATER MAIN BREAK**

The City of Newport has experienced a water main break near SW Second Street. The break has caused water in some areas to be brownish and contain some sediment. The city advises that the water IS safe to drink.

Public Works Department staff are working to repair the break, although there is not an estimated time of repair at this point. An update to this message will be issued when city staff knows how long it will take to repair the break.

Questions may be directed to Tim Gross, Public Works Director, at 541.574.3369.
