**CITY OF NEWPORT
NAMED OUTSTANDING PERFORMER
BY THE OREGON HEALTH AUTHORITY
DRINKING WATER PROGRAM**

The Oregon Health Authority Drinking Water Program has named the City of Newport as an “Outstanding Performer” based on the latest Water System Survey conducted on September 9, 2013. This certification was achieved as a result of outstanding management and operation of the city’s water treatment and distribution system by attaining all water quality goals for five years and for receiving perfect marks on a recent facilities inspection.

The designation as an “Outstanding Performer” is due to the hard work and dedication of the water treatment and distribution supervisors, operators, and utility workers who strive to provide high quality water to the residents, business, and visitors to the city.
