FOR IMMEDIATE RELEASE

August 3, 2011

City of Newport 2010 Water Quality Report Released

The City of Newport has mailed out the 2010 Consumer Confidence Reports for city water quality with August water bills. Additional copies are available at City Hall, 169 SW Coast Hwy, Newport Public Library, and via our website:

www.newportoregon.gov/dept/pwk/waterquality.

We are proud that this year, as in years past, the City's tap water met all U.S. Environmental Protection Agency (EPA) and state drinking water health standards. The water quality report is designed to inform the public about the quality of water and the services the City delivers every day; our goal is to provide a safe and dependable supply of drinking water. The City makes every effort to continually improve the water treatment process and protect our water resources. The water quality report is a requirement of the 1996 Safe Drinking Water Act and is designed to increase public awareness of drinking water issues and to serve as a method for customers to make informed decisions regarding their drinking water.

If you have questions or would like more information, feel free to contact Steve Stewart, Plant Supervisor at the Water Treatment Plant at 541-265-7421, or Tim Gross, Interim Director of Public Works/City Engineer at the Public Works Office 541-574-3366.
