Subject: Fisherman's Wharf Estates Subdivision

[WARNING] This message comes from an external organization. Be careful of embedded links.

Dear Mr. Tokos,

Upon research and consulting of counsel, I was unable to find good grounds to oppose the extension of the permit for the Fisherman's Wharf Subdivision plan. So I will withdraw my objection at this time.

On behalf of the Harbor Village Cooperative community, I would like it to be put into the record that we believe the subdivision could cause serious environmental harm to the waterways around our community. A number of our residents have expressed concerns about how this development may affect the geological stability of the hillside above our property in future. Is there a way we can be notified of the future progress of this development?

Thank you for your assistance in this matter.

--Nicole Loxley, Harbor Village Cooperative Board of Directors (Secretary)
