Addendum to Right of Entry and License Agreement Between City of Newport and Newport Trail Stewards

THIS ADDENDUM is to the Right of Entry and License Agreement between the City of Newport, Oregon (City) and Newport Trail Stewards (Licensee).

Recitals:

- 1. City and Licensee entered into a right of entry and license agreement dated February 25, 2020 (Agreement) to permit Licensee to enter the property described in Exhibit A to the Agreement to develop, construct, preserve, and maintain recreational trails for purposes of bicycling and other non-motorized uses on the property.
- 2. City and Licensee desire to incorporate the following terms as part of the Agreement, effective on the date of the last signature below.

Terms of Addendum:

City and Licensee agree to amend the Agreement as follows:

- A. Licensee will obtain and maintain in force at all times during the term of the Agreement a policy or policies of commercial general liability insurance with liability limits of at least \$1,000,000 per occurrence and \$2,000,000 in the annual aggregate, naming the City and its officers, board members, employees, and agents as additional insureds.
- B. The Work activities to be performed by Licensee, as set forth in Section 1 of the Agreement in accordance with National Park Service and International Mountain Bicycling Association (IMBA) trail design standards as approved by City, are subject to the inspection standards in attached Exhibit 1. Inspection schedules will be developed by City and Licensee through a memorandum of understanding (MOU) or other form of agreement as between them.
- C. In Section 5.1 of the Agreement, the word "circumference" is replaced with "diameter" so the first sentence of Section 5.1 provides, "City requires that, wherever reasonably possible, live trees with a diameter of greater than 4 inches be left undisturbed, unless authorized by City."

Except as expressly set forth herein, all provisions of the Agreement shall continue and remain in full force and effect.

Big Creek Multi-use & Bike Trail Inspection Standards

Purpose

All trails that will come under these Trail Inspection Standards must be inventoried, have scheduled inspections, and scheduled servicing when maintenance is needed. Inspectors will file reports and maintain records on all inspection and servicing requirements for each section of trail. Inspection schedules will be developed by the City of Newport and the NEWTS in a corresponding document.

Priorities

Effective risk management requires that safety, security, and critical signage issues take precedence over other issues such as vegetation clearing, surfacing servicing, branch removal, and remedial work. In some cases, environmental issues may require immediate response.

Trail Development Standards

All work activities related to Big Creek Reservoir Trails shall be performed in accordance with National Park Service and International Mountain Bicycling Association (IMBA) trail design standards, and are defined in the attached charts.

It must be emphasized that water erosion will be the largest detrimental force for trails in the Big Creek Reservoir area. Trails located on steep slopes could be especially prone to turning into drainages when not properly constructed. Care must be taken, especially on steeper trails, to provide for proper water management.

Trail Kiosks and Signage

Kiosks and signs are a critical part of trail management. They provide vital information to trail users to enable them to make informed choices about trail use by identifying trail difficulty rating, risks, length, and primary use.

Design and size must be approved by City of Newport for all signage and kiosks used at trailheads, trail connections/links, and trail directional signage. Design and color schemes should be consistent with kiosks and signs.

The following information should be considered when designing kiosks and signage:

- 1. Trail name(s).
- 2. Trail distance/directional information and any special features, degree of difficulty symbols, etc.
- User and restriction symbols including "No motorized vehicles" symbol.
- 4. "Use at your own Risk" and "Please Keep Clean" and other appropriate risk management requirements, such as uneven terrain, blind corners, etc.
- 5. Separate or add-on signage includes but is not limited to trail map, special safety considerations, trail etiquette info, "No Motorized Vehicles" signage.
