NW Nye St.  
NW Pacific St.  
NW Spring St.  
NW Thompson St.

Streets are listed and mains are marked below in red. Flushing will take place between 8 am and 4 pm each day. For more information, call 541-574-0649.

Flushing will take place each day between 8 am and 4 pm.

Community members may experience water discoloration and decreased water pressure while the flushing is taking place in their area. Flushing a water main on a single street may take up to one hour. If your water appears dirty after the designated flushing period, it is recommended to take the following steps and precautions:

- Run a cold water tap for a few minutes up to 15 minutes or until the water runs clear.
- If you inadvertently drew discolored water into your home and the staining of clothes or fixtures does occur, rust removal products are available at most home products stores.
