ISSUE #3

## Project Status Nov. 23, 2015

by Tim Gross, Director of Public Works/City Engineer

Beginning on Tuesday, November 24<sup>th</sup>, 2015 the driveway between the Recreation Center and the 60+ Center (Avery Street) will be closed until the beginning of February. Pedestrian access will be maintained from the parking lot on the south side of the municipal campus to all facilities. Directional signage will be provided to help pedestrians find their way. The attached drawing shows the areas of the municipal campus that will be restricted by fencing.

On Tuesday the Contractor will be beginning pipe work starting at SE 10<sup>th</sup> Street and working their way through the parking lot to SE 2nd Street. There will be times when SE 10th and Avery Street will be closed simultaneously. This will likely only be a couple of days but please consider taking alternative routes during those days.

If you have any questions or concerns, please contact the City of Newport Public Works at 541-574-3366. Thank you.

### Parking Lot Entrance Closure

Starting Tuesday, Nov. 24<sup>th</sup>, the entrance to the City Hall/Rec Center parking lot will be closed until February.

### SE 10<sup>th</sup> Street Closure to Through Traffic

Please think about alternative routes when in the area!
