EXECUTIVE SUMMARY

The development of the budget for the fiscal year beginning July 1, 2014 and ending June 30, 2015, was initiated in January 2014. Since that time, the Interim Finance Director, department heads, Finance Department personnel, other staff, and the City Manager have been working on various aspects of the proposed budget for consideration by the Budget Committee. The City Council's first involvement with the budget process was through a goal setting session that was held on February 24, 2014. During this session, the City Council heard presentations from each of the department heads; reviewed various upcoming issues; and prioritized goals for the 2014/2015 fiscal year. These goals were adopted following review by the Budget Committee and a public hearing.

Revenues

The 2014/2015 budget continues to levy the tax rate of \$5.5938 per \$1,000 of assessed evaluation for city operational purposes. In addition, the budget levies an amount to cover the 2014/2015 General Obligation Debt requirements for the city of \$2,376,705 for the wastewater refunding issue, water treatment plant issue, and the swimming pool issue. The portion of the combined tax levy of \$2,376,705 attributable to the swimming pool issue is \$549,213; this being a new property tax levy beginning with fiscal year 2014/2015 pursuant to voter approval of the \$7,900,000 General Obligation Bond on November 5, 2013.

The City of Newport had previously adopted a schedule for various infrastructure rates that would have resulted in a 10% rate increase for water, a 15% rate increase for sewer, with 5% increases in storm water and infrastructure fees to fund major reconstruction of the city's utility systems. Based on Council action incorporated as part of the 2014/2015 goals for the City of Newport, the Council directed staff to develop a budget that would utilize revenue bonds instead of a "pay-as-you-go" method for financing infrastructure which allowed for a reduction in proposed rate increases.

In accordance with this plan, the proposed utility rate increase for the 2014/2015 fiscal year have been reduced to a 5% increase in water rates, 4% increase in wastewater rates, 5% increase in storm water rates, and a 5% increase in the infrastructure fee for the next fiscal year. This will generate funding to support bonding for water and sewer projects in future years in order to continue meeting the critical need to rebuild the city's infrastructure to serve the residents of Newport today and well into the future.

Expenditures

The budget provides a continuation of existing types of expenditures for the new fiscal year. Please note, however, that the city has been experiencing a structural budget deficit (meaning spending is exceeding available revenues on an ongoing basis). The structural deficit is not currently posing a financial emergency that the city needs to

address immediately, however not developing a strategic plan to address this issue, during this next year, for future fiscal years would be problematic. During this next fiscal year, the City Council, and staff will need to make important decisions as to how to eliminate this structural deficit including the review of current appropriation levels for various operations and securing sufficient resources for both operations and reinvestment in existing infrastructure throughout the city.

The budget continues providing for a substantial reinvestment in the city's water and sewer infrastructure during the course of the fiscal year. This will be funded in part through revenue bonds and State Revolving Fund financing with the future debt repayment coming from water and sewer rates. This budget represents an important continuation for focusing on rebuilding the City of Newport's aging infrastructure system.

Additionally, this budget provides for removing water and wastewater capital construction projects from the applicable operating funds to a Proprietary Capital Projects Fund. This fund has two cost activity centers (Water and Wastewater) to facilitate the individual tracking of resources and expenditures for water capital projects and wastewater capital projects.

The Newport Urban Renewal Agency budget proposes the borrowing of 5.4 million dollars during this next fiscal year in order to fund a number of major improvements in the South Beach area, particularly along the Highway 101 corridor, south of the Yaquina Bay Bridge.

Budget Committee Actions

The City of Newport/Newport Urban Renewal Agency Budget Committee met on April 30, 2014 to conduct page by page review of the budget. Budget Committee members were asked to identify issues where members had questions or concerns. These issues were not debated at that time, but were listed in a report from the city administration to the Budget Committee for review, at the May 7 meeting. On May 7, the Budget Committee reviewed this report which included 64 items that had been placed on the list for additional consideration. At this meeting, Budget Committee members could discuss and propose changes to be voted on by the Committee to develop the approved budget.

As a result, several changes were made to the proposed budget for the 2014/2015 fiscal year, including a deletion of \$5,000 from the City Council cost center for election services, a deletion of funding for conducting a Parks Master Plan update in 2014/2015 which impacted the General Fund, the SDC Fund, the Parks and Recreation Fund, and the Room Tax Fund. In addition, the Budget Committee made several corrections to the budget including the addition of parks revenue in the SDC account, adjusted the allocation of services provided by the General Fund to the three parking districts (Nye

Beach, City Center, and Bayfront), increased expenditures in the Water Fund for the purchase of replacement carbon filter materials for the water filtration plant, increased expenses to the Willamette Valley Communication Center for dispatching to reflect actual proposed charges for the next fiscal year, and corrected an error for parks and maintenance temporary employment services in the General Fund.

Furthermore, at the May 14 Budget Committee meeting, \$20,000 was restored to the Community Development Budget for professional services since the requested senior planner position was not filled as part of the proposed budget. In addition, the Budget Committee requested that the city administration review the unappropriated ending fund balance in the General Obligation Debt Bond Fund to determine whether the fund balance was exceeding the debt service requirements. It was determined that the unappropriated ending fund balance exceeded the debt service requirements. The Budget Committee opted to reduce the amount that will need to be covered by millages for these debts by an amount of \$205,664 from the original proposed budget resulting in a reduction of approximately \$.20 per thousand dollars of assessed valuation from the proposed budget. Please note that for the water and wastewater bond issues, the tax levy amount will be reduced through the life of these bonds by reallocating the surplus funds in the General Obligation Bond Debt Fund to cover a portion of the debt cost.

On May 14, the Budget Committee unanimously adopted budgets for the City of Newport and the Newport Urban Renewal Agency with the modifications outlined above. The Budget Committee unanimously approved the various tax rates for the city and the Urban Renewal Agency as outlined in this report. Please note that the Budget Committee motion to approve the total requirements of \$65,206,715 inadvertently did not reflect the reduced debt requirements as approved by the Committee. The debt millage was reduced by \$205,664 making the total requirements \$65,001,051. This correction can be made at the time the City Council adopts the budget.

June 16, 2014 Public Hearings and Budget Adoption

Public Hearings and adoption of the 2014/2015 annual budgets for the City of Newport and the Newport Urban Renewal Agency were held on Monday, June 16, 2014, as part of the City Council and Newport Urban Renewal Agency meetings.

Following a Public Hearing, the Newport Urban Renewal Agency approved a correction to the budget which was approved by the Budget Committee by shifting \$50,000 from Debt Service to Materials and Services to better reflect the expenses anticipated with the borrowing of \$5,400,000 for various capital outlay projects proposed for the South Beach Urban Renewal District. With this correction, the Agency unanimously adopted a budget for the fiscal year ending June 30, 2015 which included total appropriations of \$6,947,226, unappropriated fund reserves of \$2,907,218, equaling total requirements of \$9,854,444, and certified to the County Assessor that the maximum amount of revenue be raised by dividing the taxes pursuant to Section 1c, Article IX of

the Oregon Constitution, with no addition amount being raised by the imposition of a special levy.

Following the Newport Urban Renewal Agency meeting, the City Council held a Public Hearing on the City's budget. After the public hearing, the City Council approved a correction to the budget reflection a reduction \$205,664 in the total requirements and unexpended fund balance. This change was made by the Budget Committee, but not reflected in these two totals. The City Council unanimously adopted a budget for the fiscal year ending June 30, 2015 which includes total appropriation of \$60,229,245, unappropriated fund reserves of \$4,771,806, equaling total requirements of \$65,001,051. Furthermore the Council adopted a resolution establishing taxes for the fiscal year ending June 30, 2015 at a rate of \$5.5938 per thousand dollars of assessed valuation, plus an amount of \$2,376,705 for the Debt Fund in accordance with the following individual General Obligation Bonds: wastewater bonded debt payment of \$921,221, water treatment plant bonded debt payment of \$906,271 and swimming pool bonded debt payment of \$549,213.

Spencer R. Nebel
City Manager
CITY OF NEWPORT
169 S.W. Coast Hwy.
Newport, OR 97365

April 24, 2014

To: Members of the Budget Committee

Pursuant to the City Charter chapter VIII, section 34(d)(6,) it is the responsibility of the City Manager to prepare and administer the annual budget for the City of Newport and the Newport Urban Renewal Agency. Pursuant to Oregon law and the City Charter, it is my pleasure to present the proposed budgets for the City of Newport and the Newport Urban Renewal Agency for the fiscal year beginning July 1, 2014 and ending June 30, 2015.

BUDGET PROCESS

Budget Schedule

Work on the annual budget was initiated in January 2014. Since that time, the Interim Finance Director, department heads, finance department personnel, and I have been working on various aspects of the proposed budget for review by the Budget Committee. The City Council's first involvement with the budget process was through a goal setting session that was held on February 24, 2014. During this session, the City Council heard presentations from each of the department heads; reviewed various upcoming issues; and identified those items of importance to be considered at budget time. In addition to the departmental goals, the Council prioritized goals for the 2014/2015 fiscal year. The goals were presented to the public and to the Budget Committee at the March 12, 2014, preliminary Budget Committee meeting for further comment. Following a public hearing, the Council formally adopted goals for the 2014/2015 fiscal year at the March 17, 2014, City Council meeting. A report on the disposition of the goals is included in the budget message.

The complete schedule for the preparation and approval of the 2014/2015 fiscal year budget is as follows:

Budget Calendar for 2014/2015 Fiscal Year - Detailed

Preliminary Budget Worksheets (City and NURA) - Distributed to Department Heads - Friday, January 24, 2014

- *Preliminary Detail Worksheets - (Keep to develop budget)*
- *Personnel Forms - Return to Finance by February 7, 2014*
- *Capital Outlay
Equipment (\$1,000) and up) - Return to Finance by February 14, 2014
Projects - Return to Finance by February 21, 2014*

Goal Setting Meeting with City Council and Department Heads - February 24, 2014

Department Heads' Group Meeting on Capital Outlay (Projects & Equipment)
Review of Requests and Prioritizing Projects - February 26, 2014

Final Budget Worksheets for Proposed Budgets with Eight-Month Actuals through
February 2014 - March 3, 2014

Submit Department Proposed Budgets and Narratives to Finance - March 10, 2014

Preliminary Meeting of the Budget Committee - March 12, 2014

Finance Completes Department Budget Requests Process and Makes Final Requests
Available March 17 and/or March 18, 2014

Department Heads' Meetings with Budget Officer to Review, Revise and Balance
Budgets (City and NURA) - Wednesday, March 19 through March 21, 2014

Publish First Notice of Budget Committee Meetings (City and NURA) April 4, 2014

Budget Officer Completes Budget Message - April 11, 2014

Completed Proposed to Printer - April 14, 2014

Publish Second Notice of Budget Committee Meetings - (City & NURA) - April 16, 2014

Distribute Proposed Budgets to Budget Committee & Department Heads - April 25, 2014

First Budget Committee Meeting - April 30, 2014

- *Appoint/Elect Presiding Officer*
- *Receive City and NURA Budgets and Budget Message*
- *Public Hearing on Possible Uses of State Shared Revenues*
- *Review Budget Documents and Discuss Relevant changes*
- *Respond to Questions from the Budget Committee*
- *Provides for Members of the Public time for Input, Questions and Comments*
- *Present Report on Financial Policy of UEFBs and Contingencies*

Second Budget Committee Meeting - May 7, 2014

- *Budget Committee Deliberations*

- *Respond to Questions from First Meeting*

Third Budget Committee Meeting - May 14, 2014

- *Respond to Questions from Second Meeting*
- *Budget Committee approval of the Budget Documents (City and NURA)*
- *Approval of Ad Valorem Property Tax Amount or Rate for City General Fund and City Debt Service Funds and the NURA*

Department Revised Narratives Based on Budget Committee Deliberations to Budget Officer & Finance Director - May 20, 2014

Publish Notice of Budget Hearing (only once required) - June 6, 2014

- *Publish Financial Summaries (separate City and NURA)*

Budget Public Hearing - June 16, 2014

- *Public Hearing on Proposed Uses of State shared Revenues*
- *Separate Public Hearings on City Budget and NURA Budget Adopt Budgets and Make Appropriations (City and NURA)*
- *Impose and Categorize Taxes for City and NURA*

Transmit Tax Certification Documents - July 15, 2014

- *To County Assessor by July 15, 2014*
- *File Budget Document with County Recorder and Designated Agencies.*

The Budget Committee meetings will take place on Wednesday, April 30; Wednesday, May 7; and Wednesday May 14, starting at 6 P.M. in the City Council Chambers. As was discussed at the Preliminary meeting of the Budget Committee on March 12, the process for the budget review will include a complete overview of the budget at the April 30, 2014, meeting. At this time, any member may suggest specific changes to a proposed expenditure or revenue in the budget as the page-by-page budget review is being completed. The changes will not be debated or discussed by the Committee at the April 30, 2014, meeting. Any items identified for further consideration by individual members of the Budget Committee will be presented with staff comments for the Budget Committee's consideration at the May 7, 2014 meeting. At this meeting, the Committee will discuss the various possible modifications suggested by individual members of the Budget Committee, and determine, by a majority vote, which items shall be modified in the proposed budget. In addition, department heads will participate in the May 7, 2014, meeting to further explain any of the items that have been identified for possible modifications by individual members of the Budget Committee. At the third Budget Committee meeting scheduled for Wednesday, May 14, 2014, at 6:00 P.M., the Budget Committee will formally recommend approval of the budget to the City Council.

On June 16, 2014, the City Council will hold a public hearing on the proposed use of the state shared revenues and the city budget, and the Urban Renewal Agency will hold a

public hearing on the Urban Renewal Agency budget. Immediately following the public hearings, final adoptions of the budgets for the fiscal year starting July 1, 2014 and ending June 30, 2015 will occur.

Budget Documents

The budget documents for the 2014/2015 fiscal year will include a cover sheet for all operating funds showing a summary of revenues, expenditures, transfers, contingencies, and fund balance for that fund for fiscal years 2011/2012, 2012/2013, the original budget for fiscal year 2013/2014, and the amended budget for fiscal year 2013/2014. In addition, the summary sheet will show the eight month actuals and estimated for the current fiscal year along with the original request from the department and the amount proposed by the Budget Officer for the 2014/2015 fiscal year.

Following the summary sheet for each fund, the line item budget can be found showing detailed expenditures for each department or function.

A listing of equipment purchases and capital outlay projects proposed for fiscal year 2014/2015 follows the detailed budget sheets in the back of the budget book along with personnel and salary information for funded positions in the city.

Government Accounting

In order to understand the budget process, it is helpful to have some understanding of the requirements for local governments to utilize various types of funds for budgetary and accounting purposes. Many of the funds utilized by the City of Newport are required by the state. Other funds have been established to satisfy requirements of bond covenants or for financial management purposes. Finally, some funds are used for the convenience of the local government unit.

Government funds are used to account for various governmental services provided by the city that are supported by taxes and other general revenues for the city. Proprietary funds are used to account for operations that are financed and operated in a similar manner to private business enterprise. In these funds, fees charged are intended to support the overall business operation. These include the Water Fund (303) and Sewer Fund (304). In the audited financial report that is issued by the city's independent auditors each year, these proprietary funds are shown in separate schedules in business type activities. The balance of the funds are reflected on the balance sheets for governmental funds.

Furthermore the State of Oregon requires that governmental accounting divide its financial operations into several types of operating funds. The General Fund (101) is the general operating fund for the City of Newport. Most of the general city services are included within this fund such as General Government and Police and Fire. Special revenue funds are established to account for various revenues that are designated for a specific purpose. Examples of special revenue funds for the city would include the Street Fund, SDC Fund, Airport Fund, and Building Inspections Fund. These funds are

established since the city must ensure that funds collected for a specific purpose are spent on those purposes. The special revenue funds are generally indicated in the 300 to 400 range. The city has also established a Reserve Fund (501) with this fund being used to accumulate money for financing the cost of future property or equipment acquisitions. Finally, the city is utilizing a Capital Projects Fund (601) for government type activities and (602) for proprietary type capital projects activities.

Finally, the Urban Renewal Agency budget activities are shown in fund 901. The Urban Renewal Agency is a separate component for the city but for purposes of the budget process these expenditures are included in the joint City of Newport and Urban Renewal Agency budget documents.

ECONOMIC FORECAST AND IMPACT ON CITY FINANCES

Local governments across the nation have been significantly impacted by the historic recession that began in the fall of 2008 which has been mitigated by a slow recovery. This recession has resulted in a flattening of various revenue sources to fund governmental services at the state and local levels. On a national level, it was reported in April that the US economy has finally regained all of the private sector jobs lost during the great recession. The downside is that many of these jobs are at a lower wage and with the population growth over the past six years, the unemployment nationwide remains relatively high at 6.7%. Most economists expect job growth to pick up a bit during the balance of 2014.

On a statewide level, the Oregonian reported on March 29, 2014 that Oregon’s jobs base expanded 2.6% between February 2013 and February 2014 which placed Oregon in the top six states during this period of time. During the recession, Lincoln County’s unemployment rate has closely paralleled the state rate. Lincoln County’s unemployment rate for January 2014 was at 7.3% which is down from 8.7% a year ago. The Oregon Employment Department is projecting that the Benton, Lincoln, and Linn County region will see a combined growth of 11,770 jobs by 2022 with private fixed sector gains of 10,050 jobs and governmental jobs growing by 1,720 jobs during this period of time. This projected 12% growth rate will exceed the 1.4% rate seen over the past decade according to the Oregon Employment Department.

The City of Newport has seen continued positive growth and population based on information obtained from the US Census Bureau.

City of Newport Population Trends by the US Census Bureau	
Year	Population
1990	8,437
2000	9,532
2010	9,989
2012 (est.)	10,017

In reviewing the construction value of building permits issued by the building department, construction activity remains below historic levels and are as follows:

The City of Newport Construction Activity	
Fiscal Year	Construction Value
2009-10	\$10,240,000
2010-11	\$49,611,234
2011-12	\$17,983,719
2012-13	\$7,899,097
2013 - March 2014	\$5,538,450

It is anticipated that the 2014/2015 construction season will be picking up a bit over the last two fiscal years. Please note that major projects, in any given year, do significantly bump the building permit statistics in the year those building permits are obtained.

Another significant impact for the City of Newport is related to the tourism industry. There are a number of indicators that help track the activity. The Greater Newport Chamber of Commerce compiles a monthly occupancy report based on a survey of hotel properties that is conducted for large properties (15 rooms or more; and smaller properties are under 15 rooms). Occupancy has increased from the low point in 2009 by 6.5% for smaller properties and 4.7% for larger hotel properties. Occupancy rates remain below the peak rates of 2006 but have shown incremental yearly improvements since the low point of 2009.

Two statistics that the city collects locally that indicate tourism activity include the room tax and gas tax revenues. Ordinance No. 1984 authorizes the collection and use of a one cent per gallon motor vehicle fuel tax on motor vehicle fuel dealers that sell or distribute fuel in the city from November 1 through May 31 of each year. This tax increases to three cents per gallon from June 1 through October 31 annually. Since the gas tax is a fixed amount on gallons of gasoline sold in the city, this is a good indicator of tourism and economic trends in the community. Another important indicator of the tourism business is the collection of transient room taxes. The city collects a 9.5% tax on room rentals in the city. Please note that an increase in room taxes reflects several possible scenarios, including an increase in occupancy and in the prices of rooms. Both of these occurrences are indicators of economic growth. A recent history of the transient room tax and gas tax collections follows:

Tourism Indication Taxes		
Fiscal Year	Transient Room Tax	Newport Gas Tax
07-08	\$2,242,760	-
08-09	\$2,229,833	-
09-10	\$2,278,501	\$59,839
10-11	\$2,297,743	\$139,689
11-12	\$2,367,590	\$150,063
12-13	\$2,419,698	\$176,114
13-14 (est.)	\$2,435,000	\$180,000

Since implemented in the 2009/2010 fiscal year, the city gas tax revenue has seen steady growth which correlates with an increase in the sale of gasoline/diesel fuel within the city over the past three years. The 2009/2010 fiscal year number represents a partial year figure. The growth from the 2010/2011 through the last complete fiscal year 2012/2013 represents an annual growth of approximately 13% per year.

In reviewing the Transient Room Tax collections from 2007/2008 through 2010/2011, the collections were stagnant with virtually no growth. There has been an average growth, in this revenue, of about 2.5% per year in 2011/2012 and 2012/2013 for the city. Both of these indicators would seem to reflect an upward trend in tourism activity within the City of Newport.

BUDGETARY TRENDS

Historic revenues and expenses have been compiled as part of the evaluation of past trends. This information helps to project future revenues and expenses for the city. It would be my plan that for next year's budgeting, various revenues and operating expenses will be projected out for a number of year to determine the city's capacity to either expand or contract services and/or revenues over time. For the development for the budget for the fiscal year beginning in July 1, 2014, a general review has been done of historic revenues and expenditures incurred by the city in each fiscal year. In the future, this will serve as a basis for projecting longer term trending information that will be considered by the management team and the City Council in developing future budgets. Time did not allow for this level of analysis to be done in preparation of the proposed budget for the fiscal year beginning July 1, 2014.

Property Taxes

The city's single largest source of revenue for the operation of the General Fund comes from property taxes. The city has seen a steady growth in this revenue over the past seven years, which is used to fund the major operations of the city, including police, fire, and general government. The State of Oregon has passed a number of initiatives that impact the amount of property taxes paid to local governments, including Measure 5 passed in 1990, and Measure 50 passed 1996. Measure 5 imposes a limit of \$10 per \$1,000 of real market value for the overall payments of general government taxes. Please note that voter approved general obligation bonds are exempt from this

calculation. Measure 50 placed permanent rate limits on taxes in districts and changed the concept of assessed values as used in calculating the tax rate. The assessed evaluations of individual properties are limited to a three percent increase per year.

The City of Newport has not been significantly impacted by compression, which could result due to the rate limits enacted by Measure 50. Compression applies to the real market value of properties rather than the assessed valuation. If taxes being raised on an individual property exceed \$10 per \$1,000 for all general government uses, less general obligation debt, then the tax bill for that property is reduced or “compressed.” In understanding the future growth of property tax revenues, the impacts of Measure 5 and Measure 50 will need to be periodically examined. The history of the collection of current property taxes for the city is as follows:

Current Property Taxes		
Fiscal Year	Taxes Received	Percent Change
07-08	\$4,156,378	-
08-09	\$4,308,044	3.65%
09-10	\$4,410,253	2.37%
10-11	\$5,194,132	17.77%
11-12	\$5,489,776	5.69%
12-13	\$5,610,803	2.20%
13-14 (est.)	\$5,655,600	0.80%

Please note that in fiscal year 2010/2011, the city realized a 17.77% increase in its General Fund tax collections as a result of the closure of the Northside Urban Renewal District. Once this tax increment financing district was closed, all taxing units, including the City of Newport, began receiving the portions of the taxes that were diverted for various redevelopment projects within the Northside Urban Renewal District area. The city should continue seeing a modest growth in property tax revenues for the foreseeable future.

Other Major Revenues

Other significant sources of revenues for the City of Newport include the transient room tax and local gas tax, state shared revenues, state gas tax and franchise fees, and line undergrounding fees from various utilities utilizing the city’s right-of-way or being granted an exclusive franchise within the city. An historic review of revenues from three significant sources of funds follows:

Other Major Revenues			
Fiscal Year	State Gas Tax Fund 302	Franchise Fees Fund 101/305	State Revenue Share Fund 101
07-08	\$488,207	\$903,022	\$108,248
08-09	\$405,125	\$870,131	\$97,558
09-10	\$439,764	\$1,087,424	\$92,375
10-11	\$510,880	\$917,554	\$80,119
11-12	\$547,261	\$1,067,719	\$130,131
12-13	\$538,094	\$993,622	\$110,800
13-14 (est.)	\$531,965	\$1,015,000	\$112,000

Overall, the city has seen some variation in each of these revenues which have been caused by the impacts of the Great Recession with a gradual recovery occurring more recently.

A portion of the state gas tax, collected by the state, is returned to local units of government for maintenance of local streets. The franchise fees consist of the fees that are collected from various users of the city’s right-of-way, or from companies that are provided an exclusive franchise in order to serve Newport’s citizens. In addition, the franchise fee revenues include line undergrounding fees that are paid by the electrical company, and are designated in a separate Line Undergrounding Fund (305). While these funds have varied over the years, the stronger economy is generally providing more revenues to the city to fund various government operations.

Water, Sewer, and Infrastructure Fees

The City of Newport provides for the storage of raw water, the filtration of this water source into safe drinking water, and then distributes this filtered water throughout the city for the customer use in their homes or businesses. The city also runs a completely separate system that collects wastewater from various homes and businesses and transports that wastewater through a series of lift stations to the wastewater treatment plant where the wastewater is cleaned and then discharged into the Pacific Ocean, and biodegradable sludge is deposited on land from the wastewater operation. With Newport’s rugged terrain, the city has a significant number of lift stations to force sewage uphill into gravity systems that ultimately lead to the wastewater treatment plant. Each of these lift stations requires a significant amount of maintenance and many of the lift stations have to be replaced in order to avoid failures which cause untreated sewage to be discharged in area waters at various locations in the city. Maintaining safe drinking water at every home and business, and collecting the sewage that results from various homes and businesses, is a very complex and expensive operation, and assures that the drinking water is safe and that the wastewater discharged into coastal waters is clean so as not to negatively impact the environment. Finally, the city maintains a system of ditches and storm sewers to collect rain water and transport it to appropriate outfalls which adds a third separate function under many of the city streets.

The systems of water mains, sewer lines, and storm sewers in many areas of the city are reaching the end of their useful life. While the city’s historical rate structure was adequate for maintaining this infrastructure, the city has not been collecting funds for future replacement of major components of the system. The city has undertaken a major evaluation of its infrastructure, and has prioritized various projects that need to be done in order to begin the process of rebuilding these utility systems. The City Council previously adopted a capital improvements surcharge to help facilitate various infrastructure replacements in the city. This surcharge is collected on the water bills. Furthermore, the city has increased water and sewer rates in order to generate sufficient funding for the safe operation of the water and sewer systems, as well as for capital needs to replace lift stations, water mains, booster stations, water tanks, and other parts of the infrastructure system, necessary to provide for a sound and safe system to continue serving the city into the future. The water and sewer charges collected by the city over the past seven years follows:

Water, Sewer, and Infrastructure Revenue			
Fiscal Year	Water User Charges Fund 303	Sewer User Charges Fund 304	Capital Improvement Surcharge Fund 601
07-08	\$1,717,891	\$2,227,673	-
08-09	\$1,888,891	\$2,394,222	-
09-10	\$1,816,018	\$2,414,461	\$410,172
10-11	\$1,969,600	\$2,485,945	\$424,871
11-12	\$2,220,881	\$2,642,935	\$458,286
12-13	\$2,745,603	\$3,208,295	\$513,425
13-14 (est.)	\$3,300,000	\$3,540,000	\$495,000

There has been a significant increase in revenue in order to be able to fund infrastructure improvements into the future for the city. The City Council established an Infrastructure Task Force to evaluate this strategy with a report being provided to the City Council on January 6, 2014. The report suggested that the City Council redirect this effort from utilizing a “pay as you go” approach which relies on utility rate increases to pay for immediate capital project needs to a process in which major segments of the work would be bonded and paid back over time. The impact of the alternative approach is for overall lower future utility rate increases for residents in exchange for allocating these costs over a 20-year period when the bonds would be paid back through utility rates. There is merit in considering this type of plan since the users of the water and sewer utility system over the next 20 years will be paying for improvements that they are enjoying during this time. Furthermore, with the typical life of underground utility systems, the rate payers will, at some point in the distant future, enjoy a period of lower rates and/or will establish replacement reserves once these debts are satisfied.

Expenditure Trends

Listed below are various expenditure trends within the city's General Fund including personal services, materials and services, and transfers to other funds. These are the most significant categories of expenditures from the General Fund. I have included the original budgeted amount, as well as an estimate of the year-to-date expenditures. Please note that the budget numbers are significantly higher than what we estimate will be expended this year. This is in part due to a number of vacancies that were budgeted but not filled in the fiscal year. Materials and services have shown a significant growth over the past three years as well. Finally, the General Fund supports other funds such as the Airport Fund, the Recreation Fund, and Street Fund which are reflected as fund transfers in order to provide operating and capital outlay dollars for these operations. Listed below is financial information for the past three years broken down by these three categories:

General Fund				
	11-12	12-13	Original Budget 13-14	Estimated Budget 13-14
Personal Services	\$5,686,017	\$5,838,843	\$6,460,785	\$5,891,794
Materials & Services	\$2,400,925	\$2,794,323	\$3,420,109	\$3,239,536
Transfer to Other Funds	\$1,091,777	\$859,912	\$1,931,613	\$1,945,241

In any local government budgeting process, it is important to ensure that the revenues being collected are sufficient to generally cover the expenditures being incurred. As part of this analysis, I will be working with the city staff and the City Council, during the first half of the fiscal year, to develop some meaningful long-term projections to ensure the financial sustainability of the various services and operations being provided by the city. During my short tenure with the city, I believe that the 2014/2015 fiscal year proposed budgets are reasonable based on the financial data and facts that are currently available. In future fiscal years, I strongly recommend that the staff and City Council clearly understand the long-term financial impacts of the expansion of any existing services and the maintenance of services, and evaluate alternative methods for the delivery of services to the residents.

REVIEW OF FINANCIAL ACTIVITY FOR THE 2013/2014 FISCAL YEAR

As part of the budget preparation process, department heads were requested to estimate expenditures for various line items in the current fiscal year budget based on the first eight months of actual data (through February of 2013). In addition, the Interim Finance Director completed projections of the various revenues that fund city services for the current fiscal year. Please note that the 2013/2014 estimated column for the various departments assumes that capital outlay items will be expended prior to the end of the fiscal year. Likewise grant revenues or transfers of funds have been reflected in these funds to cover those expenditures. This creates a clean point of beginning for

understanding what the ending fund balance would be if all funded capital outlay projects were completed in the current fiscal year. This helps avoid the potential of inadvertently utilizing a portion of the fund balance for other activities when indeed the fund balance is artificially inflated since some projects did not get completed during this time period. Following the close of the fiscal year on June 30, 2014, the Council will be asked, in the 2014/2015 fiscal year, to amend the budget by recognizing those portions of projects that will be carried over into the next fiscal year. As you will see going forward, we are recommending that the funding for projects be appropriated into capital outlay funds separate from the water and sewer funds. This will avoid the comingling of project funds with operational funds in most of the city's funds. This should facilitate the tracking of projects and their impact on operating funds.

The financial evaluation of the current year has taken a significantly greater amount of time than anticipated due in part to the changeover of City Manager and Finance Director, and due to the tracking and accounting of major capital outlay projects. Interim Finance Director Bob Gazewood, has done an excellent job in sorting through various issues in order to address a number of budgetary matters throughout the course of this fiscal year.

General Fund

The ending fund balance on June 30, 2013, was anticipated to be \$2,120, 000. The actual unappropriated fund balance was \$2,202,657 as of July 1, 2013. The 2013/2014 fiscal year budget proposed spending that fund balance down to \$1,135,973 and allowed for a contingency, in addition to the fund balance, of \$74,443. Based on the estimates developed by the department heads for expenditures in the current fiscal year, the estimated ending fund balance is \$2,237,369 for a spend down of the fund balance of \$235,898 during the fiscal year. Please note, however, that \$270,610 of this amount resulted from the one-time transfer of residual funding from the former Northside Urban Renewal District during the current fiscal year. The net changes place the city in a stronger position than projected at budget time. From a revenue standpoint, the property taxes are running approximately \$125,000 less than what was projected in the current budget with various fees estimated around \$68,000 ahead of projected. Also, miscellaneous fees are approximately \$300,000 higher than what was originally projected with the majority of that being reimbursement for the fiber optic conduit Indefeasible Right of Use (IRU). Please note that the funds from the Northside Urban Renewal District are to be used for specific expenditures. Finally, the transfer from the Room Tax Fund exceeded estimates by approximately \$23,000.

In the General Fund, a number of cost centers were significantly under the appropriated amount during the current fiscal year due to staffing vacancies including the City Manager's cost center, Finance, Human Resources, Police, Library, and Community Development. The only two cost centers that are operating above the original budgeted levels are the non-departmental cost center due to higher than anticipated liability insurance expenses, street lighting expenses, and the City Council cost center due in part to legal expenses and recruitment costs for the new City Manager. Otherwise, the expenditures are running within the appropriated amounts, and in many cases below the

appropriated amounts for many of the operations funded by the General Fund. Also, please note that unexpended capital outlay projects in police, fire, and library were directed into a reserve fund for future capital outlay or purchases. Establishing reserve funds is an important tool for replacing major equipment such as fire equipment to level out the funding requirements over a period of time.

Various Debt Service funds (funds 201, 202, and 203) are generally operating within the parameters established as part of the current operating budget.

In the Public Works Fund (301), the Public Works administrative cost center is running close to appropriated amounts. The engineering cost center will finish the year under the current year amended budget due to not filling a position in that department. Likewise, the street maintenance cost center is finishing well under budget due to a vacancy in that division.

The Street Fund (302) is running at budgeted levels for anticipated revenues, while the expenditures appear to be running about \$135,000 below the appropriated amounts in the current budget.

In the Water Fund (303), revenues appear to be running approximately \$300,000 above the budgeted amount for the current fiscal year with expenses running approximately \$350,000 under appropriation levels. Please note that the fund balance in the Water Fund was projected to be \$50,000 at the end of the year. This is not a sufficient fund balance for this type of fund. The fund balance is anticipated to finish much stronger than what was anticipated at budget time.

In the Wastewater Fund (304), revenues are running near projected amounts for the current fiscal year with the expenditures running about \$520,000 less than what was appropriated. Again, this fund had been appropriated with an ending fund balance of \$50,000 for this year.

This will establish a more reasonable fund balance with the additional funding being available for various capital projects in the next fiscal year. The Line Undergrounding Fund (350) is running in accordance with the budget.

In the SDC Fund (306), transfers for capital projects and contingency amounts that were appropriated are not anticipated to be needed in this next fiscal year. This funding will be available for projects in future years that meet these requirements.

The Parks and Recreation Fund (401) is another fund that was budgeted for a major draw down of fund balance in the current fiscal year with budgeted expenditures exceeding budgeted revenues by \$160,801. Based on the overall estimate, the Parks and Recreation Fund is anticipated to finish slightly stronger than what was anticipated in the current year budget, however the total expenses are anticipated to exceed revenues in that fund by \$139,771. This is an issue that will need to be addressed in the 2014/2015 fiscal year. Overall, revenues are anticipated to come in near the amount

appropriated in the current fiscal year with expenditures running approximately \$37,000 under what was appropriated.

The budget for the Airport Fund (402) was complicated by a major reconstruction project which was folded into the operating fund for the airport. The project is for main runway reconstruction and other associated work and is being funded largely by the FAA and a ConnectOregon Grant. For budgetary purposes, we are assuming that all of the grant funds and expenditures will be incurred prior to June 30. In reality, this project will be completed during the first part of the next fiscal year. By including all the revenues and expenditures during the current fiscal year, it will create a cleaner perspective on the overall financial impact of this project on the fund as a basis for determining funding levels for the airport in the next fiscal year. As will be the case with other capital outlay projects, it is our intent to present to the City Council, after the fiscal year closes, a budget amendment in the 2014/2015 fiscal year that will adjust any carryover revenues and expenditures for work completed on this project after July 1, 2014. Based on this analysis, the overall revenues for the Airport Fund are anticipated to run approximately \$308,000 below the amount appropriated at budget time. This is primarily due to project funding timing. A \$120,000 increase in revenues is attributable to increased jet fuel sales, primarily associated with the US Coast Guard using the airport fueling system while their fueling system was being repaired. It is anticipated that the Coast Guard fueling system will be up and running by the end of the current fiscal year. This will impact jet fuel revenues and expenses for the next fiscal year. Fuel costs will also be affected by airport construction with the closure of the main runway for most of the summer season. In the expenditure line item, it appears that the airport will run above the appropriated amounts again, primarily because of the purchase of more jet fuel in order to meet the additional sales amount. At this point, it's projected that expenditures in the Airport Fund will exceed the appropriated amounts by approximately \$40,000. A budget amendment will be forwarded to Council to address the additional revenues and expenses related to fuel sales prior to the close of the current fiscal year.

In the Room Tax Fund (403), transient room tax revenues are anticipated to run about \$281,000 more than originally projected with expenditures anticipated at \$102,050 under the appropriated amounts. The revenues include \$150,000 in matching funds for projects funded from this source while the expenses appear to be lower than anticipated, as well as capital expenses falling below the budgeted amount for this current fiscal year. Part of this is also the reservation of \$100,000 for future tourism facilities grants that are anticipated to be issued by the city in 2014/2015 fiscal year.

In the Building Inspection Fund (404), revenues are running near budgeted projections with expenditures expected to run approximately \$75,000 under the appropriated amounts.

In the Public Parking Fund (405), revenues are running slightly ahead of the budgeted revenue with expenses running within the appropriated amount. Likewise, the same is true for the Agate Beach Closure Fund (406). The Housing Fund (407) is running on target for revenues. However, the amount appropriated for revolving loan services is not

anticipated to be used in this fiscal year, leaving these funds available for the next fiscal year.

The Reserve Fund (501) was established by the City Council earlier this year to house future reserves for various capital outlay projects for police, fire, and library. These funds were not established at the time the budget was approved last year.

GOALS FOR THE 2014/2015 FISCAL YEAR

As part of the budget preparation process, the City Council met in a work session on February 24, 2014, beginning at 9:00 A.M. and concluding at 3:15 P.M. During this time, the Council heard various reports from departments on their goals for the coming year, and developed Council goals for consideration during the 2014/2015 fiscal year. The draft goals were presented to the Budget Committee, and were scheduled for a public hearing before the City Council on March 17, 2014. Following the public hearing, the City Council unanimously adopted the goals. Some of the goals that were adopted will have a budgetary impact on the upcoming budget while others will affect staff time and priorities during the course of the next year. The complete 2014/2015 Goals for the City of Newport can be found on the city's website at www.newportoregon.gov.

Community Development

1.1 Initiate an update to the City's Parks Systems Master Plan.

A recreation grant has been applied for with the local match being appropriated in various places in the proposed fiscal year budget. If funded by the grant source, with the local funds being appropriated by the City Council, this project could be initiated during this upcoming fiscal year. If the grant is not funded, a decision would need to be made in order to determine whether we would scale back the master plan or initiate at the next fiscal year and completed the following fiscal year.

1.2 Pursue steps to create a Northside Urban Renewal District.

Funding has been appropriated in the Community Development professional services line item to initiate the process for creating a Northside Urban Renewal District.

Infrastructure

2.1 Proceed with the development of a Storm Water Master Plan for the City of Newport.

Funds are being utilized from the current fiscal year to complete the Storm Water Master Plan with this report being completed in the near future. This plan will help guide future needs and development of the city's storm water system. This will provide guidance as to the priorities and capacity issues necessary for possible storm water replacement as other infrastructure work goes forward.

2.3 Explore opportunities for utilizing local improvement districts to help address the effort to reconstruct infrastructure throughout the City of Newport.

The city has not been utilizing local improvement districts (LID) in recent years to help fund infrastructure projects throughout the city. There has been some discussion about this mechanism related to work that is occurring in South Beach. It is our intent to explore the steps that would be necessary to utilize local improvement districts and bring a report back to the City Council during the first half of the fiscal year. There are sufficient funds appropriated, including grant funds, to assist staff in evaluating how these districts could be implemented in the city.

Water and Sewer Improvements

3.1 Pursue efforts to retrofit the city's water tanks to sustain future seismic activities.

The City of Newport has a number of vulnerabilities in regard to its water system in the event of an earthquake. There are a number of efforts that are underway to address this goal. During this next fiscal year, the city has been funded to continue with seismic studies for the water reservoir dams. These have been listed by the State of Oregon as vulnerable to even moderate seismic activity. Furthermore, the budget includes replacement of the vulnerable 71st Street water tank through the issuance of a water revenue bond. We will initiate steps to identify other vulnerabilities with the water storage tanks for additional funding in future year's budgets.

3.2 Explore the extension of the water distribution system to serve properties in and around the airport to allow for the expansion of commercial activities.

As you are aware, there has been discussion between the City of Newport and Seal Rock Water District to evaluate services areas in and around the airport. The City Council authorized execution of an agreement that will help facilitate this issue with the water district. Service to the airport will also be facilitated by the takeover, by the city, of a section of water main to 73rd Street in South Beach with the construction of a new water booster station by the Seal Rock Water District near this location. Finally, the Federal Aviation Administration will be doing an airport master plan which will be a good opportunity to include utility issues as part of that overall effort.

3.3 Pursue a study for water, sewer, and storm water rates for the City of Newport.

We have not made any provisions for this study as part of the proposed 2014/2015 fiscal year budget. This may be something that would best be pursued after this next fiscal year, and once we have sorted out the various infrastructure and bonding issues. As city staff has reviewed the existing budget and developed the information for the proposed budget, it has become clear that prior to pursuing a study, there are a number of other items that need to be more clearly addressed in order to provide appropriate information for a good end result for the rate study. Furthermore, it will be important to have a new

Finance Director in place and understanding the existing financial structure for the City of Newport. Therefore, it is my recommendation that the study not occur until the 2015/2016 fiscal year.

3.4 Pursue the utilization of a radio read water meter system to reduce operational costs and provide immediate detection of leaks and other water problems.

The water division has been evaluating this type of system. Funding has been included in the budget to consider the implementation of this type of system utilizing proceeds from revenue bonds for this update.

Operations

4.1 Hire a permanent Finance Director.

This is a critical issue that we hope is resolved by the start of the fiscal year. A second round of interviews was held and a candidate is currently being evaluated for suitability filling this position.

4.2 Consider combining two part-time positions to create a full-time position in the Finance Department.

This is included in the proposed budget for the 2014/2015 fiscal year.

4.3 Consolidate the collection of bills through the Finance Department.

There are a number of operational issues that are being reviewed by Interim Finance Director Bob Gazewood, finance staff, and myself that would impact the Finance Department. It would be my intention to focus on operational issues in the Finance Department upon conclusion of the budget review session in preparation for a new Finance Director for the department. I believe the staff of the Finance Department is capable, but the workload distribution is not done in a way that allows for work to be completed on a timely basis. The staffing recommendation outlined in 4.2 will provide assistance to this process. Also having a new full-time Finance Director will facilitate the efficient operations of the Finance Department.

4.4 Create reserve funds for the purchases of major rolling stock equipment for the City of Newport.

In this budget year, due to fiscal constraints, there will be limited activity in funding reserves for major rolling stock equipment. Additional reserve funding is recommended for the Fire Department and Police Department in the proposed budget. This is an issue I feel is appropriate to consider as we evaluate the financial needs and resources for the city on a longer term plan.

4.5 Facilitate organization of duties within the Finance Department to ensure timely financial reports and a timely annual audit.

See item 4.3 for discussion.

4.6 Pursue training opportunities on the city's financial software (Caselle) for departmental employees.

Since this goal was adopted, Caselle has provided additional training on software components. Caselle also offers online training which will be utilized once a new Finance Director is in place and as we explore organizational options for the Finance Department.

Public Safety

5.1 Pursue the development of storage areas for emergency supplies at various locations within the City of Newport in the event of a major disaster.

During this past year, the city has established an internal Emergency Management Committee to work on various aspects of the city's response to an emergency situation. Recently, this has included coordination with the school district regarding various supplies that are being stored within the schools in the event of emergency. We will continue to evaluate opportunities, throughout the next fiscal year, to provide for critical supplies at various locations within the community in the event of a major disaster.

5.2 Pursue accreditation for the city's Fire Department.

Accreditation for the Fire Department will be a multi-year task. This would likely include staffing and training modifications that are not provided for in the proposed budget. Fire Chief Phil Paige has done a very good job in bringing the overall quality of the fire service closer to the point where accreditation could be considered. As you are aware, with Chief Paige's retirement coming at the end of this fiscal year, and a new Chief being hired during the 2014/2015 fiscal year, I am not recommending the city take any specific steps towards accreditation at this time. This will be something that would be appropriate to discuss with the new chief and determine a plan that could be presented to the City Council later in the 2014/2015 fiscal year.

Recommendations for Implementing the Findings of the Infrastructure Task Force

Infrastructure Task Force Report

As a part of developing goals for the next fiscal year, the City Council also incorporated various actions relating to the Infrastructure Task Force report that was shared with the City Council at the January 6, 2014 joint meeting between the City Council and the Infrastructure Task Force.

The report assumed an annual investment in water and wastewater of \$1.5 million per year in each of these utilities. Furthermore, costs relating to storm water, streets, and city facilities were not available at the time the report was given to the City Council. Since that time, staff has developed a preliminary cost for building upkeep utilizing the current insured value of city facilities. Based on our insurance evaluations the General Fund is currently responsible for facilities with a replacement value of nearly \$35 million. Utilizing industry standards for reinvestment in facilities of two percent of the value of the facilities annually, the city would need to invest of \$696,000 annually for buildings and facilities that are supported by the General Fund.

Within the Sewer Fund, the various buildings and equipment have an evaluation of more than \$47 million. Utilizing the same industrial standard of reinvesting two percent for annual support for maintenance and replacements in these buildings, the annual reinvestment requirements would be \$942,210. In the Water Fund, the city has facilities in the amount of \$11.5 million requiring an annual investment in maintaining these facilities of \$231,141 per year based on a two percent annual investment in this infrastructure. Please note that the annual investment of two percent of the value of the facilities in water and sewer likely understates the reinvestment required due to the wear and tear that occurs in these facilities. Finally for the airport, buildings and equipment have a value of \$3.5 million with an annual investment of \$70,850 to maintain these structures.

For street resurfacing and improvements, a preliminary annual cost for completing surface maintenance projects is \$275,000. This is the amount of funding that Public Works Director, Tim Gross, has been allocating for these improvements at this time. While this likely understates the financial needs for the roads, this is the best number that has been developed until the city completes a pavement management strategy identifying the quality, rates of deterioration of roads, and a more detailed replacement schedule. The city is also fortunate to obtain, from time-to-time, additional funding from outside sources for the major commercial streets serving the citizens of Newport.

The City of Newport is also developing a master plan for the storm sewer system. This is the area that we have the least amount of information on. A more extensive analysis will need to be done to develop an annual cost that will realistically reflect the annual capital needs to rebuild the city storm sewer system to address obsolescence and capacity issues. There are significant needs in this area.

The Infrastructure Task Force report identified potential near term (one to five year recommendations) as well as potential longer term or ongoing recommendations to the City Council. In reviewing the potential near term (one to five year recommendations) we have broken those recommendations down into items that will be addressed as part of the development of the proposed 2014/2015 budget; items that will need to be address during the 2014/2015 fiscal year; and subsequent fiscal years. We have broken down these tasks in order to make sure that the expectations of the City Council are met with this report.

Items that are addressed in the proposed budget are as follows:

1. The rate plan that the City Council previously endorsed to pay for water infrastructure improvements was as follows: 10% in fiscal years 2014/2015 and 2015/2016; 8% in fiscal year 2016/2017; and 5% increases each year thereafter. For sewer rate increases of 15% in fiscal year 2014/2015; 10% in fiscal year 2015/2016; and 10% in fiscal year 2016/2017 with 5% increases in 2017/2018 and thereafter. Storm water would increase by 5% each year and infrastructure would increase by 5% each year.
2. This structure was based on a “pay-as-you-go” basis. Interim Finance Director, Bob Gazewood had prepared detailed summaries for the impact of borrowing \$4.5 million from the DEQ two times, three years apart, for a total of \$9 million followed by an additional \$4.5 million in revenue bonds every three years over two spending periods. This demonstrates that in the Wastewater Fund, \$18 million worth of work could be accomplished over the next six years with an annual rate increase of 4% through fiscal year 2018/2019. Three percent per year beginning in 2019/2020, and 1.5% in 2028/2029, and 0.0% beyond, if revenue bonds are utilized and based on assumptions in the report. If a pay-as-you-go program were instituted, and \$1.5 million per year in capital outlay funds were provided, then rates would need to be increased from \$32.67 to \$47.74 per month to cover that expense. Bonding would instead require an increase in 2014/2015 to \$34.30 to provide the source amount of capital funding. A similar increase can be noted in the Wastewater Fund. Based on these facts, the city will opt for bonding these improvements instead of pay-as-you-go.
3. The report discusses the use of general obligation bonds or revenue bonds to finance infrastructure improvements. It would be appropriate to utilize revenue bonds for the financing of the utility improvements since those are substantially supported by utility rates. General obligation bonds would potentially be more appropriate for streets, facilities, and storm water which have less opportunity for generating revenues to offset the payments. The 2014/2015 fiscal year budget is proposing projects that would be funded by a water revenue bond and CWSRF funding in accordance with this plan.
4. The city is working on a number of sources of outside funding for some of the major infrastructure projects that will be coming down the road, which could either reduce the city’s obligation on certain projects if successfully funded, or allow the city to utilize its local funding on additional infrastructure work to continue the process of renovating the city’s various infrastructure systems. The grants are often available for major street projects. However as we have experienced, it is important to understand the financial ramifications of accepting a grant particularly if federal funds are involved. Outside financial assistance is essential to rebuild infrastructure to meet the long term needs of the city in addition to funding raised through rates or other sources.
5. The impact of removing the payment in lieu of taxes from the Water and Sewer Funds to the General Fund was a future item to be discussed at budget time. Support from the Water and Sewer Funds comes to the General Fund in two methods. The first method is related to the general services provided by the General Fund. This can be found in 303-3390-6701 in the Water Fund, and in

304-3490-6701 in the Wastewater Fund. These are for the various services provided by the General Fund for water and sewer including supervision, water and sewer billing, collection of revenues, general accounting, information technology, and management oversight of the general government that are not charged directly for the operation of the Water and Sewer Funds. In addition, it is customary for enterprise-type funds to provide a payment in lieu of infrastructure fees to the General Fund as if the operation were a taxable entity. This amount is calculated based on five percent of the operational revenues which becomes a revenue to the General Fund (see account number 101-1900-4104) from the Water and Wastewater Funds. If the Budget Committee chose not to fund the payment in lieu of taxes, the General Fund revenues would be reduced by the amount of \$383,250 which is included in line item 101-1900-4104 Fees in Lieu of Franchise. It is customary for city utilities to pay some form of payment in lieu of taxes or franchise fees to the General Fund to offset indirect costs related to the operations of those facilities such as Police, Fire, and other indirect services that are indirectly impacted by the operations by other city services of these facilities. It is also my opinion that the General Fund could not absorb the loss without specific reductions to other cost centers in the General Fund in the 2014/2015 fiscal year.

6. Rates for the 2014/2015 fiscal year would be increased by 5% in water and 4% in wastewater instead of the current plan of 10% for water and 15% for wastewater based on these current estimates and utilizing bonding for infrastructure replacement over the next 12 years.

Other Fiscal Year 2014/2015 Activities:

1. Finalize Wastewater System Master Plan. The master plan document should consider potential rate structures and SDC revisions to accomplish master plan recommendations.
2. Finalize Storm Water Master Plan. The master plan document should consider potential rate structures and SDC revisions to accomplish master plan recommendations.
3. Begin pavement management strategy planning.
4. Review the Infrastructure Task Force recommendations for additional action items as part of the 2015/2016 goal-setting efforts.

The city is continuing to seriously underfund reinvestment into facilities and parks as part of the proposed budget for the fiscal year 2014/2015. Developing sufficient resources to maintain these infrastructures is critical as part of longer term financial planning needs.

PROPOSED BUDGET FOR THE 2014/2015 FISCAL YEAR

The development of the proposed budget for the 2014/2015 fiscal year has been a challenging task for a number of reasons. First of all, as a new City Manager there is a significant learning curve to understand the financial structure and budgeting practices of a new organization. This effort has taken more time than what I had anticipated. In

addition, the city has been going through a transition in the position of Finance Director. This position is critical in the development of the proposed budget. Fortunately, Interim Finance Director Bob Gazewood has extensive experience not only with municipal budgeting, but specifically with the City of Newport's finances having served as Interim Finance Director seven years ago. He has done an excellent job in working through these issues. Likewise, Assistant Finance Director, Linda Brown, Finance Department staff, and department heads have all been very cooperative in the development of this proposed budget.

Another challenge has been that the budget for fiscal year 2013/2014 was adopted with expenditures exceeding budgetary resources and contingency by \$909,584 in the General Fund; \$549,749 in the Water Fund; \$365,140 in in the Wastewater Fund; \$160,800 in the Parks and Recreation Fund; and \$280,388 in the Airport Fund. Please note that in the Water Fund, Wastewater Fund, and the Airport Fund, the budget was considering major capital construction that sometimes skews the operating funds since projects that are budgeted, but not completed in that fiscal year, may appear to create a larger fund balance than actually exists. Fortunately, funds are performing better than what was budgeted, but are still expending more money than the revenues coming into those funds. This is not a long-term sustainable practice.

Another challenge in reviewing the budgeted amounts relates to how individual departments budget their funds. There are a number of operating funds that create contingencies in various line item accounts in the event that an unanticipated expense occurs during the course of the fiscal year. This is particularly true with the Public Works Department and Facilities budgets with the departments attempting to assure that there are sufficient revenues in the event of major equipment or water/sewer line failure occurs. This tends to get doubled up with the contingency amounts that are also appropriated in a contingency line item within these funds. Over the years, there have been a number of changes in how various costs are appropriated in the city's financial system. This also has a tendency to complicate comparisons from previous years.

In working with the departments, I encouraged them to consider various needs in preparing a recommended budget for consideration for the 2014/2015 fiscal year. As you will see in reviewing the budget, there were a number of requests for additional positions, as well as various capital outlay and equipment needs, from the departments. I indicated that in the development of a proposed budget, I would review their needs for consideration in the development of a proposed budget for the fiscal year. Unfortunately, because of the concerns of a structural deficit that appear to exist within a number of this city's operating fund, I am generally not recommending any new positions that were not budgeted in the previous year be added to this year's budget.

Furthermore, there are many capital needs for buildings, parks, and other facilities in the city. The proposed budget is very limited as to which of those projects will be recommended for funding in 2014/2015.

I do believe that at the end of June 30, 2015, many of our expenditures will fall below the appropriated levels as was the case this year. However, I also will be putting into place

a review of operations to determine how to best address the longer term structural deficit that could threaten the city's financial stability if a plan is not developed for future years. I am concerned about the level that expenses are projected to exceed revenues in the proposed 2014/2015 fiscal year, I also do not want to react on a knee-jerk basis until I am fully aware of the operations of the City of Newport. At the end of the budget message, I do share some observations about how we go forward in developing a longer term financially sustainable plan for the city.

The 2014/2015 proposed budget should be considered a working document. I will continue to review various expenditures and revenues throughout the budgeting process. Any suggested modifications to this budget will be discussed with the Budget Committee for concurrence.

Recommended Revenues

Interim Finance Director Bob Gazewood has prepared an estimate of General Fund property taxes for the 2014/2015 fiscal year. As you are aware, the City of Newport permanent tax rate is 0.0055938 which is multiplied against the assessed valuation for the city. Interim Finance Director Bob Gazewood has estimated the assessed valuation for the 2014/2015 fiscal year as follows:

Assessed Value			
Fiscal Year	Assessed Value	Increased Over Prior Year	Percent Increased
14-15 (est.)	\$1,220,187,239	\$12,439,799	1.03%
13-14	\$1,207,747,440	\$12,280,130	1.03%
12-13	\$1,195,467,310	\$16,043,774	1.36%
11-12	\$1,179,423,536	\$13,291,232	1.14%

Utilizing the estimated assessed valuation, the revenue received by the city during the first year of collections of property tax is estimated at \$5,719,800 assuming a collection rate of 93%. This calculation is as follows:

Property Tax Revenue	
Assessed Value (est.)	\$1,220,187,239
Deducted Urban Renewal (est.)	(\$120,700,000)
Net Value for Tax Computation	\$1,099,487,239
City of Newport Permanent Tax Rate	0.0055938
Estimated Tax Calculated	\$6,150,323
Deducted Uncollectible in First Year	\$430,523
Estimated Taxes Received by the City	\$5,719,800
Assumed Tax Collection Rate	93%

Furthermore, the city levies an amount of taxes to cover general obligation debt. The amount of debt that will be paid for by the debt fund will include: wastewater bonded debt; water treatment plant bonded debt; and the aquatic center bonded debt.

Finally, the Budget Committee, acting on behalf of the Urban Renewal Agency, will be required to approve a motion requesting the maximum amount of revenues that will be generated from the tax increment for the South Beach Urban Renewal District to cover proposed appropriations from the District for the coming year.

The proposed budget recognizes revenue from the transient room tax in a different fashion than previous years. The City of Newport allocates 46% of this tax to tourism activities, while 54% of this tax is utilized for general government operations. Previously, this tax was collected entirely in the Transient Room Tax Fund (403) then transferred from the Transient Room Tax Fund (403) to the General Fund (101). Since the schedule was being done by budgeted amounts, the actual percentage being transferred to the General Fund would vary somewhat in the 54% that is required. In order to avoid this problem, the transient room tax will be split 54%/46% and allocated directly to either the General Fund or to the Room Tax Fund to assure compliance with this allocation. Please note the elimination of the transfer from the Transient Room Tax Fund for the 2014/2015 fiscal year since the General Fund is receiving its share directly as it's received.

Please note that in the General Fund (101), the fees in lieu of franchise are proposed for the next fiscal year the amount of \$383,250 as paid by the Water (303) and Sewer (304) Funds to the General Fund. This is paid as a franchise fee directly to the city as has been the practice over in the past. This franchise fee is calculated based on 5% of operating revenues.

Water, Sewer, and Infrastructure Rates

The City of Newport had previously adopted a schedule for various infrastructure rates that would have resulted in a 10% rate increase for water, a 15% rate increase for sewer, with 5% increases in storm water and infrastructure fees. Based on Council action, incorporated as part of the 2014/2015 goals for the City of Newport, the Council directed staff to develop a budget that would utilize revenue bonds instead of a "pay-as-you-go" method for financing infrastructure. Based on preliminary numbers that were developed by the Public Works and Finance Departments, and reviewed by the Infrastructure Task Force, it was determined that the Council could consider a rate structure with an annual increase of 4% for wastewater instead of the 15% that would be required for the "pay-as-you-go" basis, and 5% for water instead of the 10% that would be required for the "pay-as-you-go" basis to reduce the overall impact on the ratepayers for these systems. In accordance with this plan, the proposed utility rates for the 2014/2015 fiscal year call for a 5% increase in water rates, 4% increase in wastewater, 5% increase in storm water rates, and a 5% increase in the infrastructure fee for the next fiscal year. This will generate funds that will be necessary to support bonding for \$4.5 million in both water and sewer projects over the next three years in order to

continue meeting the critical need to rebuild the city’s infrastructure to serve the residents of Newport today and well into the future. The proposed rates would be as follows:

Utility Rates (3/4" Residential Meter)			
	Current 13-14	Originally Proposed 14-15	Proposed 14-15
Water-Monthly Base Rate (includes first 1000 gallons of water)	\$18.90	\$20.80	\$19.85
Water-Additional Usage/1000 gallons	\$3.45	\$3.80	\$3.60
Sewer-Monthly Base Rate	\$21.20	\$24.40	\$20.05
Sewer-Usage/1000 gallons	\$6.10	\$7.00	\$6.35
Infrastructure-Monthly Rate	\$6.25	\$6.55	\$6.55
Storm Drain-Monthly Rate	\$7.15	\$7.50	\$7.50

In reviewing the impact on the average utility customer, a family utilizing 7,000 gallons of water and sewer services will see the following changes in their utility bills. The impact of the “pay-as-you-go” is also illustrated to understand how this would impact utility bills in the city.

Utility Rates (3/4" residential meters for 7,000 gallons/month)			
	Current 13-14	Originally Proposed 14-15	Proposed 14-15
Water	\$39.60	\$43.60	\$41.45
Sewer	\$63.90	\$73.40	\$66.50
Total Water & Sewer	\$103.50	\$117.00	\$107.95
Infrastructure	\$6.25	\$6.25	\$6.25
Strom Drain	\$7.15	\$7.15	\$7.15
Total Utility Bill	\$116.90	\$130.40	\$121.35

As you can see, a residential water and sewer user utilizing 7,000 gallons of water per month is currently paying \$103.50. In the proposed budget, the amount that water customer would pay for water and sewer service would be \$107.95. If the City Council had maintained the originally proposed (pay-as-you-go) rates, the increase for the

2014/2015 fiscal year would be \$117.00 per month for water and sewer service. Please note the total utility bill with the infrastructure fee and storm drain fee are proposed to go from \$116.90 per month to \$120.35 per month for residential customers using 7,000 gallons of water per month. The increase in fees from water and sewer customers is essential in order to meet the demands that exist for the replacement of critical infrastructure to continue providing safe drinking water and to minimize discharges of untreated sewage in the creeks, bay, and coastal waters surrounding the city.

Proposed Expenditures

The proposed budget provides a continuation of existing types of expenditures for the fiscal year beginning July 1, 2014 and ending June 30, 2015. While the city is dealing with a structural budget deficit (meaning spending is exceeding available revenues on an ongoing basis). It is my belief as City Manager that continuation of this structural deficit for the next fiscal year is a reasonable alternative to pursue in the development of my first proposed budget for the Budget Committee's consideration. While I do not believe that the structural deficit is posing any financial emergency that the city needs to face immediately; not developing a strategic plan to address this issue during the next year would be problematic for the city. This next fiscal year, the Budget Committee, City Council, and staff will need to make important decisions as to how to eliminate this structural deficit and how to secure sufficient resources for operations and reinvestment in existing infrastructure throughout the city. These discussions will need to be initially held at a staff level to provide appropriate input to City Council as to what types of steps can be taken to adequately address any existing structural deficit between revenues to fund services and the expenses of those services, along with reinvesting in existing buildings and infrastructure for the city in addition to the water and sewer system.

Furthermore, I believe that in looking back at previous budgets, the requested appropriations to cover various expenditures are likely overstating the need to some degree. This is a good conservative way to budget. It is important for me as a new City Manager for the City of Newport not to over-react until I have sufficient knowledge and experience to provide appropriate recommendations on how to address any long-term structural financial issues in an appropriate way for both the community and the organization. In other words, it is important for the city to proceed with the knowledge that we do not have an endless checkbook to fund every request that comes along to the city. The proposed budget has been developed within the spirit.

As departments developed their budgets, I requested that they indicate what desirable staffing levels would be appropriate for the coming year. A listing for these various needs and how they are handled in the proposed budget is provided as follows:

Departmental Staffing Requests		
	Requested New Positions	Proposed
Information Technology	1 Part-time GPS Tech	No
Finance Department	Combine 2 Part-time Positions	Yes
Police	2 Full-time Officers	No
	1 Part-time Web Specialist	No
Fire	2 Fire Fighters	No
Parks Maintenance	Reorganize Part-time Positions	Yes
Custodial	Fill Vacant Full-time Position Shift Part-time Position Reduce Contracted Custodial Service	Yes
Community Development	1 Senior Planning Position Eliminate ½ time Vacant Engineer Position	No
Public Works Engineering	Eliminate ½ time Vacant Engineer Position Fill with Vacant Engineer Position with Engineer Tech	Yes
Street Department	1 Storm Drain Maintenance Position	No
Parks	1 Part-time Administrative Asst. 1 Lead Life Guard 1 Program Coordinator	No No No
Building Inspection	1 Full-time Building Official Retire Part-time and Share Contract Inspector	Yes

Please note that throughout the course of this fiscal year, the city has had a number of vacancies that have been open for an extended periods of time. These positions have remained open due to the difficulty in filling the position, timing on filling the position, or a conscious decision not to fill the position at this particular time. The departmental requests for new positions (not previously budgeted) generally have not been recommended in the proposed budget. Where there has been a reorganization or a combination of positions, I have recommended that we go forward with those requests such as in the Finance Department where two part-time positions are being combined into one full-time position. Likewise, in the Building Inspection Department the budget provides for one full-time position to replace our current part-time building official, should that building official retire. It would also be the intent to reduce the contractual services we currently utilize for mechanical, plumbing, and other inspection services depending on our ability to hire a full-time qualified building inspectors to do that work. While the

service delivery needs can be well justified in each of these requests, the city is not in a position to permanently expand its workforce at this time, in my opinion.

Also in reviewing the budget you may note a number of shifts of existing employees from one cost center to another. This includes shifting 50% of the City Manager's Executive Assistant to the Municipal Court since this position is now supporting both the court and the manager's office. Other personnel shifts include a half-time person from Human Resources to the Safety Committee, shifting a the other half of the Safety Committee position to the Public Works Engineering, shifting a portion of the Junior Systems Administration from IT to Public Works Administration, and shifting a portion of time from Community Development to the administration of the Urban Renewal Agency. Other modifications to the budget, include dispatching costs in the Police and Fire line items for the services provided by the City of Salem, Oregon for the City of Newport, Lincoln County, and other local jurisdictions. A fee to Lincoln County to support the new radio system that is in the process of being installed to serve various law enforcement agencies in the county. Funds are proposed to establish reserves for fire equipment and certain police purchases including the K9 Replacement Fund.

Funding has been included in the airport operational budget for major roofing, siding, mold remediation, and other activities related to the fixed base operations building. Furthermore, we have combined the fixed base operations cost center with the operations cost center in the airport operation line items into one set of revenues and expenditures for the overall operation of the airport in order to simplify analysis of this operation. You will also note in the Room Tax Fund there is no longer a transfer to the General Fund since those revenues are being allocated directly to the Room Tax Fund and the General Fund based on the 54%/46% split for those two purposes. Funding has been appropriated to allow the city to participate in the Lincoln County Workforce Housing effort should the City Council desire to proceed in that direction. Funding has also been allocated in several accounts sufficient to conduct a Parks Master Plan update provided the city is successful with its grant application to offset a portion of those costs. Likewise, the city has included a grant appropriation, as well as a local match, to proceed with an update of the city code on the Local Improvement District (LID) language, which could be a significant source of revenue for local improvement projects within the city should Council choose to pursue the utilization of this financial tool in the future.

Finally, the collective bargaining agreements generally provide for a two percent wage increase on July 1, 2014. A two percent increase has been included for non-represented personnel as well.

These are highlights of changes in the operating expenditures that that were included in the proposed budget for the Budget Committee's review.

Proposed Equipment Purchases

Departments made a number of requests relating to the purchase of equipment for the 2014/2015 fiscal year. The proposed budget has limited purchases to a number of

acquisitions for the 2014/2015 fiscal year. The largest purchase would be a new fire engine and tools and equipment for the new fire engine in the amount of \$425,000 which would be funded from the Fire Reserve Fund. In addition, the budget proposes the purchase of three replacement vehicles for the Police Department, as well as replacement of the records management system and ICOP server in the Police Department. Funds have been appropriated for Library upgrades that will be matched with other private dollars. A complete listing of requested equipment and proposed equipment is included in the back of the budget.

Proposed Capital Outlay

The process for appropriating funds for capital outlay projects is being changed significantly within the proposed budget for 2014/2015 fiscal year. In previous years, the capital outlay spending for major public works projects have occurred within operating funds unless the projects were financed through bonds. This practice has created a major task between the Finance Department, the Engineering Division, and the City Manager's office to have a clear understanding of the operational costs for the Water and Sewer Funds and how major capital projects can cloud funding levels. Beginning on July 1, 2014, the proposed budget calls for funds to be transferred out of the operational funds, such as the Water Fund (303) and the Wastewater Fund (304) to create two funds that will house the capital projects and keep project funds separated from operating funds. Capital Projects Fund (601) is for projects that are being supported by funds other than water and sewer revenues, such as the local gas tax, transportation grants, the capital improvement surcharge, building, and other similar project funds. The aquatics center facility that has been bonded by the city will be housed in this fund. The second fund for capital projects (602) will handle revenues coming from the Water or Sewer Funds for water and sewer infrastructure projects. The segregation of the two capital outlay funds will assure that when a project is completed and there are unutilized funds that they were referred back to the water and sewer operational fund cost center.

Furthermore, another significant change to the process is that the budget proposes to appropriate funds for each major project that is proposed for the next fiscal year. A complete listing of those projects can be found in the back of the budget documents for the coming year. These projects will be approved by the Budget Committee and adopted by the City Council for each specific project. This will enable the Engineering Division, Finance Department, the City Manager's office, and City Council to track each of these projects as they are constructed. When additional funds are necessary for a project, the Council will be involved in appropriating those additional funds to complete a project. Also, when a project is completed, any remaining funding will be appropriated back to the original source of the funds. While this creates some additional activity in the development of the budget and throughout the fiscal year when monitoring these projects, it will greatly increase the transparency of the use of utility rate payer and taxpayer dollars to accomplish the significant tasks that are before the Engineering Division in order to continue the job of rebuilding major components of city infrastructure during future years. There is a significant list of items that will be support by the CWSRF loan proceeds, a proposed water revenue bond, and a second possible CWSRF project that would include storm water work in the future.

Unfortunately, the capital outlay projects proposed for the funding of non-water and sewer utility issues are limited due to the city's level of expenditures versus revenues proposed in the next fiscal year. This is problematic and any long-term solutions to address the current needs for reinvestment in parks, facilities, and other capital needs will have to be addressed in a sustainable way.

Please note that with the transition to appropriating funding for projects versus general capital outlay line items in the operating funds required certain assumptions to be made regarding the current projects that are underway. In order to determine the beginning fund balances, the proposed budget has been built assuming that all the current projects that are underway with funds in the 2013/2014 fiscal year will be fully expended by June 30, 2014. The beginning fund balances for the Water and Sewer Funds have been calculated based on this assumption. In reality, a number of these projects will continue into the 2014/2015 fiscal year. At some point following the close of the current fiscal year, the City Council will be asked to make an amendment to carryover funds not expended by June 30, 2014, into the new fiscal year in order to continue those projects utilizing the fund balance which will be with higher than anticipated to fund the balance for the water and sewer operating funds. This transition has been a difficult task, but I truly believe that it will serve the city well by budgeting on an individual project basis going forward. I appreciate the time and effort put into this transition by Public Works Director Tim Gross, Interim Finance Director Bob Gazewood, and Assistant Finance Director Linda Brown through many spirited and convoluted discussions, to perhaps get to a point of better clarity by all parties.

The complete listing of all capital improvements projects is included in the back of the proposed budget.

COMMUNICATIONS

Attached to the budget message are a number of communications that have been received regarding requests for appropriations from the City of Newport for your review.

URBAN RENEWAL AGENCY

The City Council acts as the Urban Renewal Agency for the City of Newport for all matters of business. As part of the budget process, the Budget Committee will also review the Urban Renewal budget for the fiscal year beginning July 1, 2014, and ending June 30, 2015. While the Northside Urban Renewal District was closed several years ago and has not been receiving new tax revenues, the residual funds have remained within the cost center for the Northside Urban Renewal District through this past fiscal year. The City Council has appropriated those remaining funds to the General Fund for the specific purposes allowed in the original plan. It is the intent of the city to utilize these funds to replace the HVAC system for City Hall. These funds are showing up as a restricted fund in the General Fund balance with this activity center now being closed.

The second activity center within the Urban Renewal Agency Fund (901) is the South Beach Urban Renewal District. This District is actively capturing taxes for various improvements through tax increment financing. Under tax increment financing, any operating taxes levied within the district continue going to each of the taxing entities for the original base value when that district was originally established. Any taxes generated from within the established district from growth in assessed valuation through appreciation or new investment becomes the increment that can be utilized to fund various improvements within the district. These improvements are part of the plan that has been previously adopted for completion of various projects within a fixed time period. The South Beach District is gearing up for significant projects which will occur in the next fiscal year and beyond. These projects will be bonded utilizing tax increment financing from the District to repay these bonds. The proposed budget contemplates the borrowing of \$5.4 million in this next fiscal year in order to fund a number of these major improvements that will be initiated during the upcoming fiscal year. These projects will significantly redevelop the corridor near the Yaquina Bay Bridge in the vicinity of Highway 101 in the South Beach area.

FUTURE BUDGETARY AND FINANCIAL ISSUES

As I indicated earlier, this has been a difficult budget to prepare since the city is dealing with the structural deficit, meaning the city has been spending more operational funding than what current revenues will support in the General Fund and other funds supported by the General Fund. While the city is in reasonably good financial shape, the continuation of this pattern is obviously not sustainable. This proposed budget tries to keep programs funded at current operational levels which does not provide much capital for replacement and repair of buildings and parks, and other longer-term city needs that would typically be funded out of the city's General Fund. During the course of the next fiscal year, I will be directing all departments to review various options to reduce expenses; review potential new revenue sources; and develop a financial plan to address the balance between revenues and expenditures that has been occurring in recent years within the city. I will also be reviewing any positions that open up in order to evaluate the need to fill that position prior to advertising those positions.

This will be an important endeavor for me as a new City Manager for the City of Newport and for a new Finance Director coming aboard. As we approach the end of the calendar year, I would anticipate having a detailed report for the Council to begin evaluating well in advance of next year's goal setting session. I also believe there will be a need, around the first of the year to engage the community in these types of discussions. I would like to discuss these longer-term issues with the Budget Committee and City Council to develop ways of proceeding with this important effort.

It is also my intent to develop a comprehensive fee schedule for the City of Newport. Annual review of all fees for services charged by the city is something that the departments, Budget Committee, and City Council should be evaluating each year. Often times, fees remain the same for years even when expenses have increased for

providing those services supported by various fees. By having a comprehensive fee schedule as part of future budgetary processes, it will assure that these fees are reviewed on an annual basis and adjusted as the Council sees fit.

From a structural standpoint, the city has, in my opinion, an overly-complicated and detailed set of individual line items in each of the departmental expense areas. It is my belief that this artificially increases the appropriation requests since there is a tendency to increase a small line item by a round number, which can substantially increase a request necessary to support a department. Furthermore, in discussing this issue with department heads and Finance Department staff, there is little additional value in having 50 individual line items for each department's expense reporting. This substantially increases the length of time for reviewing the budget and I believe clouds the actual understanding, from a more holistic standpoint of what the financial needs are to support these operations in the course of the fiscal year. With the concurrence of the Budget Committee and City Council, it would be my intent to work with the finance staff and other city departments to substantially reduce the number of line items we utilize for showing individual expense lines within each department. Prior to making any changes, I would be bringing a report back to the City Council illustrating how we plan to consolidate these individual line items.

On the flipside, with the exception of the Parks and Recreation Fund, we have very few individual line items for revenue accounts, particularly in the General Fund. As part of the development of a fee schedule, I would anticipate expanding the number of line items in the General Fund so that we can isolate revenue generated by certain activities within the city. Currently, these revenues are all together, making it impossible to track specific revenues by looking at our financial statements. I do believe we need to be spending more time on reviewing the revenue side of the equation. By having individual revenue line items, we will be able to better monitor this part of city finances going forward.

Finally, there were a number of issues that came before Council through the course of this past year relating to tracking various expenses for facilities such as the Visual Arts Center and the Performing Arts Center and other facilities within the city. Furthermore, we allocate things out like electricity, natural gas, and other facility costs by each individual department. In discussing this with Interim Finance Director Bob Gazewood, I would like to look at the development of two internal service funds that could help simplify our internal accounting and would include a Facilities Internal Service Fund and an Information Technology Internal Service Fund. These two operations exist solely to serve the various departments of the city. The funds that are now spread out over a series of departments could be reflected much more simply by showing a "building rental" being paid by the departments such as the Police Department and City Manager to a facilities fund. All the expenses for the individual city facilities would be maintained in that internal service fund. The same would be true with IT. If this is the direction the City Council is interested in moving toward, this will be something we will be pursuing during the next fiscal year.

While I would prefer not to recommend a proposed budget to the Budget Committee that contains a structural budget deficit. I believe that the projections are significantly conservative and that the actual differences between expenditures and revenues will be less than stated. Furthermore, as I am much more familiar with the financial system for the City of Newport after completing this task, I will be looking for opportunities to preserve fund balances throughout the course of the fiscal year.

BUDGET SUBMISSION

Pursuant to the City Charter, chapter VIII, section 34(d)(6), I have prepared and hereby submit to the members of the Budget Committee, for the City of Newport, the proposed budget for the fiscal year beginning on July 1, 2014 and ending on June 30, 2015 for your review, modification, and approval.

Respectfully submitted,

Spencer R. Nebel
City Manager

FORM LB-1

NOTICE OF BUDGET HEARING

A public meeting of the City of Newport will be held on June 16, 2014 at 6:00 pm at Council Chambers, 169 SW Coast Highway, Newport, Oregon. The purpose of this meeting is to discuss the budget for the fiscal year beginning July 1, 2014 as approved by the City of Newport Budget Committee. A summary of the budget is presented below. A copy of the budget may be inspected or obtained at City of Newport Finance Department, between the hours of 9:00 a.m. and 5:00 p.m. or online at www.NewportOregon.gov. This budget is for an annual budget period. This budget was prepared on a basis of accounting that is the same as the preceding year. If different, the major changes and their effect on the budget are:

CITY OF NEWPORT
RESOLUTION NO. 3683

A RESOLUTION IMPOSING AND CATEGORIZING AD VALOREMI TAXES FOR THE
CITY OF NEWPORT, FISCAL YEAR 2014-2015

THE CITY OF NEWPORT RESOLVES that the City Council for the City of Newport hereby imposes the taxes provided for the City's adopted budget for Fiscal Year 2014-2015 at the rate of \$5.5938 per \$1,000 of assessed value, plus an amount of \$2,376,705 for the debt fund and that these taxes are hereby imposed and categorized up the assessed value of all taxable property within the City for the tax year 2014-2015. The following allocations constitute and above aggregate levy.

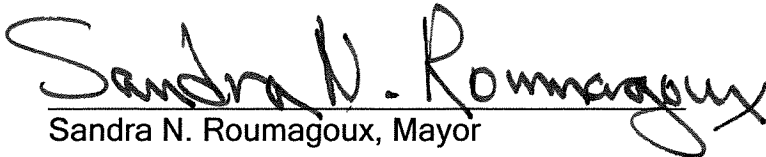

General Fund	\$5.5938 / \$1,000
Wastewater Bonded Debt	\$921,221
Water Treatment Plant Bonded Debt	\$906,271
Swimming Pool Bonded Debt	\$549,213

THE CITY OF NEWPORT FURTHER RESOLVES that the City Council of the City of Newport hereby categorized the imposed taxes for the Fiscal Year 2014-2015 follows:

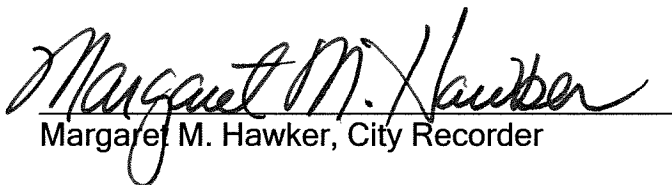

Subject to the General Government Limitation: General Fund \$5.5938 / \$1,000

Excluded from the General Government Limitation: Debt Fund \$2,376,705

Adopted by the Newport City Council on June 16, 2014.

Description	Subject to General Government Limitation	Excluded from Measure 5 Limitation
1		
2		

If fees, charges, or assessments will be imposed on specific property within your district, you must attach a complete listing of properties, by assessor's account number, to which fees, charges, or assessments will be imposed. Show the fees, charges, or assessments uniformly imposed on the properties. If these amounts are not uniform, show the amount imposed on each property.

The authority for putting these assessments on the roll is ORS _____ (Must be completed if you have an entry in Part IV)

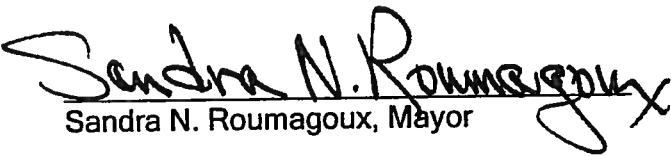

CITY OF NEWPORT
RESOLUTION NO. 3667

A RESOLUTION DECLARING THE CITY'S ELECTION
TO RECEIVE STATE SHARED REVENUES

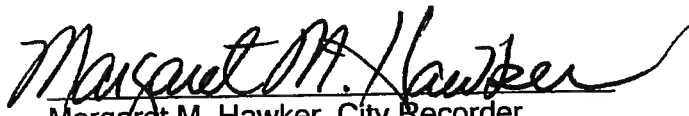

THE CITY OF NEWPORT resolves that, pursuant to ORS 221.770, the city hereby elects to receive State Shared Revenues for the Fiscal Year 2014-2015.

This resolution will become effective immediately upon adoption.

Adopted by the Newport City Council on June 16, 2014.

Sandra N. Roumagoux, Mayor

Attest:

Margaret M. Hawker, City Recorder

I certify that a public hearing before the Budget Committee was held on April 30, 2014 and a public hearing before the City Council was held on June 16, 2014, giving citizens an opportunity to comment on use of State Revenue Sharing.

Margaret M. Hawker, City Recorder

CITY OF NEWPORT
RESOLUTION NO. 3679

A Resolution Setting Rates for
Water Utility Charges, Fees, Deposits, and Penalties,
And Repealing Resolution No. 3628

Findings

- A. The City of Newport operates a water utility that diverts, stores, treats, and delivers water to customers within the City and to its customers outside the City.
- B. The Newport Municipal Code Chapter 5.10 governs the operation and use of the City's water utility. NMC Section 5.10.200 specifically authorizes the City Council to set charges, fees, deposits, and penalties for water utility users.
- C. The rates established by this resolution are calculated to cover the costs of water service, including amounts to pay for the operation, maintenance, repair, necessary replacement, and improvement, but do not generate revenue above what is needed for sound operation and management of the water system.

Based on these findings, the City of Newport resolves as follows:

Section 1. Connection Fee and Street Opening Fee

- A. The fee for a new connection to the water system is based on the size of service. The fees for new connections are:

Service Size	Connection Fee
5/8" x 3/4"	\$1,685.00
1 inch	\$1,960.00
Larger than 1 inch	Actual cost plus 10%

- B. An additional fee of \$1,800.00 will be added to the above costs if cutting and restoration of asphalt streets is necessary.

Section 2. Deposit

The amount of deposit required under NMC 5.10.020 is based upon meter size and is generally equal to two months of average usage. Deposits will not be refunded prior to discontinuation of service except in extenuating circumstances and then only by authorization by the city Finance Director. Deposits for new utility accounts are:

Service Size	Deposit
5/8" x 3/4"	\$230.00
1 inch	\$280.00
1 1/4" x 1 1/2"	\$1,090.00
2 inch	\$1,430.00
3 inch and larger	\$2,110.00

Section 3. Miscellaneous Charges

- A. The charge for a normal reconnection or additional connection is \$19.00, in addition to any connection fee established under Section 1.
- B. The reconnection fee following a for-cause (delinquent payment or other cause) disconnect is \$42.00.
- C. The charge for opening a connection in violation of NMC Chapter 5.10 is \$95.00.
- D. The fee for late payment is \$19.00.
- E. The fee for a non-payment notice is \$19.00.

Section 4. Rates for Water Service within the City Service Area

The rates in this Section 4 apply to all service areas.

The minimum monthly charge shall be based on the size of each meter except as otherwise defined within this section.

The minimum charge for unmetered fire suppression systems shall be based upon the size of the service line entering the property.

- A. The charges in this Section 4.A apply within the City of Newport.

Meter Size	Usage included with minimum charge	Minimum Charge	Cost per 1,000 Gallons in excess of included amount
5/8" x 3/4"	1,000 gallons	\$ 19.85	\$3.65
1 inch	1,000 gallons	\$ 27.30	
1 1/4" x 1 1/2"	1,000 gallons	\$ 40.15	
2 inch	1,000 gallons	\$ 68.80	
3 inch	1,000 gallons	\$ 102.70	
4 inch and over	1,000 gallons	\$ 170.70	

B. The charges in this Section 4.B apply outside the City of Newport.

Meter Size	Usage included with minimum charge	Minimum Charge	Cost per 1,000 Gallons in excess of included amount
5/8" x 3/4"	1,000 gallons	\$ 37.90	\$6.00
1 inch	1,000 gallons	\$ 51.60	
1 1/4" x 1 1/2"	1,000 gallons	\$ 71.75	
2 inch	1,000 gallons	\$ 126.50	
3 inch	1,000 gallons	\$188.25	
4 inch and over	1,000 gallons	\$ 309.30	

Section 6. Temporary Service through Fire Hydrant

Fire Hydrant Installation	\$250.00
Monthly charge (no usage included)	\$188.25
Usage per 1,000 gallons	\$ 6.00

Section 7. Water Purchased and Privately Transported

The amount charged for water purchased and transported by the purchaser directly from any authorized city facility is \$6.00 per 1,000 gallons.

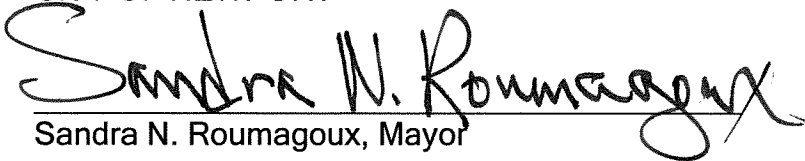

Section 8. This Resolution repeals Resolution No. 3628 in its entirety.

Section 9. Effective Date of Rates, Fees, Charges, and Penalties

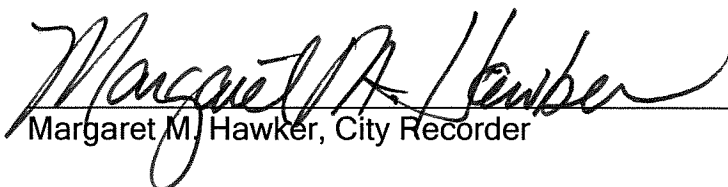

The effective date of this resolution is July 1, 2014. As applied to monthly bills, the change shall be based on the date of billing, not the date of service.

Adopted by the Newport City Council on June 16, 2014.

CITY OF NEWPORT

RESOLUTION NO. 3680

A Resolution Setting Wastewater Utility Rates
And Repealing Resolution No. 3627

Findings

- A. The City of Newport operates a wastewater utility that collects and treats wastewater from properties within the city and to some properties outside of the city limits but within the city's urban growth area.
- B. Newport Municipal Code Chapter 5.15 governs the operation and use of the wastewater utility. NMC Section 5.15.070 authorizes the City Council to set rates for wastewater service by resolution.
- C. The rates established by this resolution are calculated to cover the costs of sewer service, including amounts to pay for the operation, maintenance, repair, necessary replacement, and improvement of the system, but do not generate revenue above what is needed for sound operation and management of the sewer system.

Based on these findings, the City of Newport resolves as follows:

Section 1. Metered Rates

The charges imposed in this Section 1 apply to properties that have sanitary sewer service.

A. Single-Family Residences and Duplexes within City Limits

The charge for sewer service for single-family dwellings and duplexes within city limits shall be \$22.00 per month, plus \$6.35 per 1,000 gallons of water usage. Sewer user charges for the months of June, July, August, and September shall not exceed the highest monthly sewer user charge for the first four months of the calendar year.

B. Multi-Family Residences, Commercial Properties, and Single-Family Residences and Duplexes outside of city Limits

The basic charge for service for residential properties with three or more dwelling units, for all commercial properties, and for single-family residences and duplexes outside of City limits shall be \$22.00 per month plus \$7.25 per 1,000 gallons of water usage.

An "Extra Strength Charge" of \$0.25 per pound of biochemical oxygen demand applies to commercial properties users when the biochemical oxygen demand exceeds 300 parts per million.

The charges for monitoring sewage discharge shall be \$15.15 per combined sample and \$7.90 per test.

Section 2. Individually Determined Rate

Commercial customers that are legally disposing of all or part of their processing wastewater to an acceptable waterway in conformance with applicable federal, state, and city laws, regulations and permits shall have a sewer user charge established by the City Manager based on an individual determination of the impact of the property on the sewer system. The City Manager shall take into account, when establishing the sewer rate, the estimated quantity in gallons, as well as, any adverse treatment or maintenance costs that may be incurred by the city handling extra strength wastewater that is being returned to the city sanitary sewers.

Section 3. Septage

The rate for disposal of septage at the city's wastewater treatment plant shall be \$0.17 per gallon.

Section 4. Class A Sludge Sales

There is no charge for Class A sludge manufactured at the city's wastewater treatment plant. The transportation of the sludge is the responsibility of the customer.

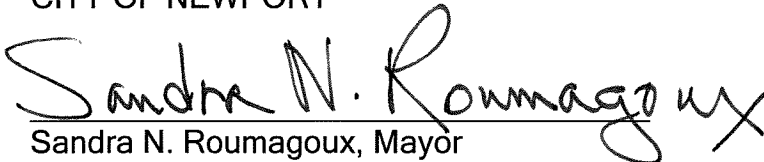

Section 5. This Resolution repeals Resolution No. 3627 in its entirety.

Section 6. Effective Date

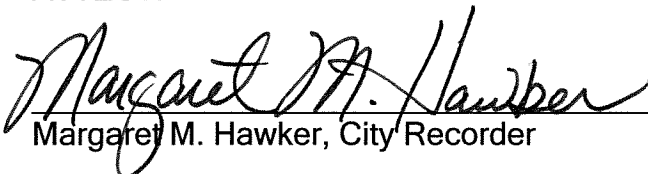

The effective date of this resolution is July 1, 2014. As applied to monthly bills, the change shall be based on the date of billing, not the date of service.

Adopted by the Newport City Council on June 16, 2014.

ATTEST:

Margaret M. Hawker, City Recorder

CITY OF NEWPORT

RESOLUTION NO. 3681

A Resolution Setting Utility Infrastructure Improvement Fees
And Repealing Resolution No. 3630

Findings

- A. The City of Newport operates water, wastewater, and stormwater utilities that provide services to properties within the city and to some properties within the city's urban growth boundary.
- B. Newport Municipal Code Chapter 5.10 governs the operation and use of the water utility. NMC Section 5.10.200 authorizes the City Council to set charges for water service by resolution.
- C. Newport Municipal Code Chapter 5.15 governs the operation and use of the wastewater utility. NMC Section 5.15.070 authorizes the City Council to set charges for wastewater service by resolution.
- D. Newport Municipal Code Chapter 5.20 governs the operation and use of the stormwater utility. NMC Section 5.20.040 authorizes the City Council to set charges for stormwater service by resolution.
- E. The rates established by this resolution are calculated to cover the costs of water, wastewater, and stormwater maintenance, repair, necessary replacement, and improvement of the system, but do not generate revenue above what is needed for these improvements.

Based on these findings, the City of Newport resolves as follows:

Section 1. Utility Infrastructure Improvement Fee

- A. The charges imposed in this Section 1 apply to properties that have metered city water service.

Each customer shall pay a monthly infrastructure improvement fee. The fees are set as follows:

Water Meter Size	Monthly Infrastructure Improvement Fee
¾"	\$ 6.60
1"	\$ 13.15
1 ½"	\$ 26.40
2"	\$ 46.05
3"	\$118.30
4"	\$184.00
5" and larger	\$420.65

Irrigation-only meters will be exempt from the Monthly Infrastructure Improvement Fee.

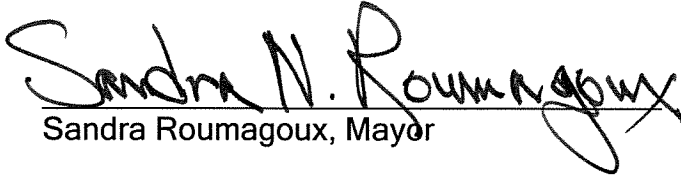

Section 2. This Resolution repeals Resolution No. 3630 in its entirety.

Section 3. Effective Date

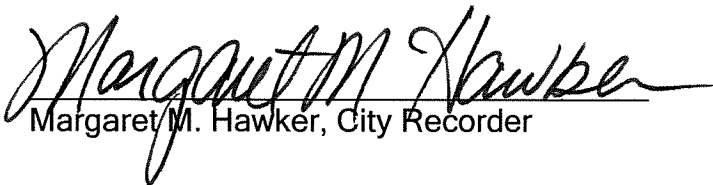

The effective date of this resolution is July 1, 2014. As applied to monthly bills, the change shall be based on the date of billing, not the date of service.

Adopted by the Newport City Council on June 16, 2014.

CITY OF NEWPORT

RESOLUTION NO. 3682

A Resolution Setting Stormwater Utility Fees
And Repealing Resolution No. 3629

Findings

- A. The City of Newport operates stormwater utilities that provide services to right-of-ways and properties within the city and to some right-of-ways and properties within the city's urban growth boundary.
- B. Newport Municipal Code Chapter 5.20 governs the operation and use of the stormwater utility. NMC Section 5.20.040 authorizes the City Council to set charges for stormwater service by resolution.
- C. The rates established by this resolution are calculated to cover the costs of stormwater service, including amounts to pay for the operation, maintenance, repair, necessary replacement, and improvement of the system, but do not generate revenue above what is needed for sound operation and management of the stormwater system.

Based on these findings, the City of Newport resolves as follows:

Section 1. Stormwater Utility Fee

- A. The charges imposed in this Section 1 apply to properties that have metered city water service.

Each customer shall pay a stormwater utility fee. The fees are set as follows:

<u>Water Meter Size</u>	<u>Monthly Stormwater Utility Fee</u>
All meter sizes	\$7.50

Irrigation-only meters will be exempt from the stormwater utility fee.

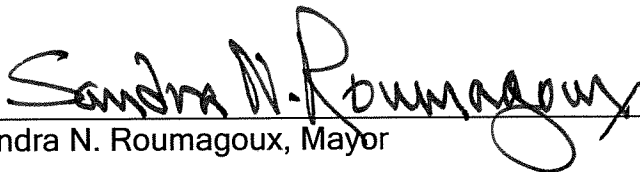

Section 2. This Resolution repeals Resolution No. 3629 in its entirety.

Section 3. Effective Date

The effective date of this resolution is July 1, 2014. As applied to monthly bills, the change shall be based on the date of billing, not the date of service.

Adopted by the Newport City Council on June 16, 2014.

NOTICE OF BUDGET HEARING

A public meeting of the Newport Urban Renewal Agency will be held on June 16, 2014 at 6:00 pm at Council Chambers, 169 SW Coast Highway, Newport, Oregon. The purpose of this meeting is to discuss the budget for the fiscal year beginning July 1, 2014 as approved by the Newport Urban Renewal Agency Budget Committee. A summary of the budget is presented below. A copy of the budget may be inspected or obtained at City of Newport, Finance Department, between the hours of 8:00 a. m. and 5:00 p. m. or online at www.NewportOregon.gov. This budget is for an annual. This budget was prepared on a basis of accounting that is the same as used the preceding year. If different, the major changes and their effect on the budget are:

Total Requirements	3,642,474	4,482,991	9,854,444
Total FTE	0	0	0

STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING *
 The Agency contemplates borrowing \$5,400,000 in Fiscal Year 2014-15 in order to fund a number of major improvement projects. The borrowing will be bonded utilizing tax increment financing for the South Beach Urban Renewal District to repay these bonds. Personal services costs, including 0.25 FTEs, are being charged to the South Beach Urban Renewal District to offset the direct services provided by the Planning Department for various urban renewal initiatives.

STATEMENT OF INDEBTEDNESS		
LONG TERM DEBT	Estimated Debt Outstanding July 1	Estimated Debt Authorized, But Not Incurred on July 1
Other Bonds	\$7,306,000	\$5,400,000
Total	\$7,306,000	\$5,400,000

NEWPORT URBAN RENEWAL AGENCY
RESOLUTION NO. 3676

A RESOLUTION ADOPTING THE 2014-2015 BUDGET,
MAKING APPROPRIATIONS AND DECLARING A TAX INCREMENT

THE NEWPORT URBAN RENEWAL AGENCY RESOLVES that the Newport Urban Renewal hereby adopts the budget for the Fiscal Year 2014-2015 in the sum of \$9,854,444, now on file at City Hall.

THE NEWPORT URBAN RENEWAL AGENCY FURTHER RESOLVES that the amounts for the fiscal year beginning July 1, 2014, and for the purposes shown below are hereby appropriated as follows:

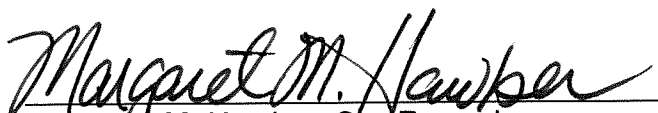

South Beach Urban Renewal	
Personal Services	62,028
Material & Services	111,717
Capital Outlay	1,525,000
Debt Service	1,215,079
Transfer to Capital Projects	3,193,106
Contingency	840,296
Total Appropriations	<u>\$6,947,226</u>
UEFB	2,121,755
Loan Reserve	785,463
Total Non-appropriated	<u>\$2,907,218</u>
Total Requirements:	<u>\$9,854,444</u>

THE NEWPORT URBAN RENEWAL AGENCY FURTHER RESOLVES that the Agency will certify to the County Assessor for the South Beach Urban Renewal District a request for the maximum amount of revenue that may be raised by dividing the taxes under Section 1c, Article IX of the Oregon Constitution, and no amount to be raised by the imposition of a special levy.

Adopted by the Newport Urban Renewal Agency on June 16, 2014.

Richard Beemer, Chairman

Attest:

Margaret M. Hawker, City Recorder

• Submit two (2) copies to county assessor by July 15.

Check here if this is an amended form.

Notification

Notice to Assessor of Permanent Increase in Frozen Value. Effective 2013-2014, permanently increase frozen value to:

Plan Area Name	New frozen value \$ _____
Plan Area Name	New frozen value \$ _____

* **All Plans except Option Three:** Enter amount of Increment Value to Use that is less than 100% Or check "Yes" to receive 100% of division of tax. Do NOT enter an amount of Increment Value to Use AND check "Yes".

** If an **Option One plan** enters a Special Levy Amount, you **MUST** check "Yes" and **NOT** enter an amount of Increment to Use.

*** **Option Three plans** enter EITHER an amount of Increment Value to Use to raise less than the amount of division of tax stated in the 1998 ordinance under ORS 457.435(2)(c) OR the Amount from Division of Tax stated in the ordinance, **NOT** both.

**** If an **Option Three plan** requests both an amount of Increment Value to Use that will raise less than the amount of division of tax stated in the 1998 ordinance and a Special Levy Amount, the Special Levy Amount cannot exceed the amount available when the amount from division of tax stated in the ordinance is subtracted from the plan's Maximum Authority.
